(7) A statement of the manufacturer's customary discounts, allowances and other price differentials to different classes of purchasers in effect for sales of metal upholstery springs, constructions and accessories during March 1942, or if the manufacturer was not making and selling metal upholstery springs, constructions and accessories during March 1942, the same information for the first period after March 1942 during which the manufacturer was engaged in this business.

(8) Requested maximum price of the article to be priced to each class of purchaser you intend to sell.

SEC. 12. *Terms of sale and zone differentials*—(a) *Packing charges.* The ceiling prices established by sections 4 to 11 of this regulation include customary packing (whether in the form of crates, cartons or wire tied bundles) for freight shipment or local delivery whichever is applicable. No charge for special packing may be made in addition to the ceiling prices established by this regulation.

(b) *Freight allowances.* The ceiling prices established by sections 4 to 11 of this regulation are f. o. b. the manufacturer's point of shipment except that manufacturers who made deliveries within their local metropolitan area, not to exceed a radius of 30 miles from their plant, may not add a delivery charge. If, however, the manufacurer delivers outside his local metropolitan area, in his own conveyance, he may make in addition to the ceiling prices specified in this regulation, a delivery charge not to exceed the rates charged by the least expensive available method of transportation by a common carrier. No delivery charge may be made unless a separate statement of the delivery charge appears on all invoices, sales slips or other evidences of sale.

(c) *Discounts.* The prices established by sections 4 to 11 of this regulation are subject to a 2% discount for payment within ten days net thirty days. On purchases for single shipment of a carload or more of the products covered by this regulation (except purchases by automotive or aviation users) the manufacturer must allow a discount of 3% off the prices established in this regulation in addition to all other discounts, extras and allowances provided in this regulation.

(d) *Zone differentials.* The ceiling prices established by this regulation are for sales by manufacturers and jobbers whose point of shipment is in the Eastern Zone. On sales of the articles covered by this regulation by manufacturers and jobbers whose point of shipment is in the Western Zone, the seller may add ½¢ per lb. gross shipping weight to the ceiling prices established by this regulation. For the purposes of this regulation the Western Zone includes the states of California, Oregon, Washington, Nevada, Idaho, Utah, Arizona, Wyoming, Montana, Colorado, New Mexico, and the following counties in Texas: El Paso, Hudspeth, Culberson, Jeff Davis, Presidio, Brewster, Terrell, Pecos, Harris, and Reeves. The rest of the country is in the Eastern Zone. No zone differential charge may be made unless a separate statement of that charge appears on all invoices, sales slips or other evidence of sale.

SEC. 13. *Maximum prices for sales by jobbers to any person.* Ceiling prices for sales by any person of any articles covered by this regulation which are purchased for resale and not for fabrication shall be determined by this section. Paragraph (a) establishes ceiling prices for sales by persons who purchased the articles directly from the manufacturers and who were engaged in the business of buying and selling the articles covered by this regulation during March 1942. Paragraph (e) establishes ceiling prices for sales by all other persons.

(a) *Ceiling prices for sales by persons who purchased the articles covered by this regulation directly from the manufacturer and who were engaged in the business of buying and selling the articles covered by this regulation during March 1942.* If you were a jobber of the articles covered by this regulation during March 1942 and if you purchased the articles covered by this regulation directly from the manufacturer for the purpose of resale, you establish your ceiling prices for sales to any person as follows:

(1) The manufacturer is required to notify you of the base ceiling price established by this regulation for sales to the furniture trade. You ascertain his base ceiling price from that notice.

(2) You add to the base ceiling price ascertained in (1) above an allowance for incoming freight from your current leading supplier of the item. The resulting figure is your average delivered cost.

(3) You multiply the average delivered cost by 135%. The resulting figure is your maximum price for sales of the article to any person in the smallest quantities sold by you during March 1942. To that price you must apply all the differentials, discounts, trade allowances and terms and conditions of sale allowed by you during March 1942 on sales of the same types of articles.

(b) *Reports to be filed.* If you are a person establishing your ceiling prices pursuant to paragraph (a) of this section, before you sell, offer to sell or deliver any article covered by this regulation, you must file with the Office of Price Administration, Washington, D. C., a report containing the following information:

(1) Your name and address of your place of business.

(2) The name of the leading suppliers from whom you purchased and a brief description of the class of trade to whom you sold the articles covered by this regulation during March 1942.

(3) A schedule of your discounts, differentials and terms of sale granted by you during March 1942.

(4) A copy of your price list covering articles priced under this section.

In the absence of a contrary direction from the Office of Price Administration, within 15 days after filing his report, the jobber may offer for sale at the price reported. If the report, as filed is correct, the price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration where it appears that the price so established is out of line with the general level of prices established by this regulation.

(c) *Maximum prices for sales by jobbers who cannot establish ceiling prices pursuant to paragraph (a).* The ceiling prices for sales or deliveries by a jobber of any article covered by this regulation which cannot be determined under paragraph (a) above shall be a price fixed by order of the Price Administrator in line with the level of prices established by this regulation. No person may sell, offer to sell or deliver an article for which a price must be established under this paragraph, until a price has been specifically authorized by order of the Office of Price Administration. If in violation of this provision a sale, offer to sell or delivery of an article is made before the issuance of an order by the Price Administrator specifically authorizing a maximum price for the article, the maximum price applicable to the sale, offer to sell or delivery, shall be such ceiling price as the Price Administrator establishes for the article by subsequent order. An application for a ceiling price under this paragraph shall be made to the Office of Price Administration, Washington, D. C., and contain the following information:

(1) Reasons why the article cannot be priced under paragraph (a) above.

(2) Identification of the article.

(3) Your manufacturer's name and address and his f. o. b. ceiling price as established by this regulation.

(4) A brief description of the general business in which the applicant is engaged; the class of trade to whom articles priced in this regulation will be sold; and the terms and conditions of sale.

(5) Name of nearest competitive jobber or sales agent who operates a similar line of business selling to the same class of customer.

(6) Proposed ceiling prices.

SEC. 14. *Invoices and receipts.* After the effective date of this regulation every seller of any article covered by this regulation must furnish the purchaser with an invoice or other similar written evidence of purchase showing the:

(a) Date of sale
(b) The name and address of the buyer
(c) Terms of sale
(d) Quantities of each item
(e) The identification (including weight class of fabric) of each item
(f) The price for each item
(g) Designation "used" for any item containing used materials
(h) Separate statement of any additional charges for freight and zone differentials.

A copy of such invoice shall be kept by every seller for inspection by the Office of Price Administration and the original shall be retained by the purchaser.

SEC. 15. *Records to be kept by jobbers.* Each jobber selling any article covered by this regulation shall keep records showing all computations which he used to establish his ceiling prices pursuant to section 13 of this regulation as well as those records on the basis of which he made his computations. These records must be kept available for inspection by the Office of Price Administration.

SEC. 16. *Relationship between this regulation and other regulations.* The provisions of this regulation supersede the provisions of the General Maximum Price Regulation and Maximum Price Regulation No. 188 with respect to sales and deliveries for which ceiling prices are established by this regulation except that the record keeping provisions §§ 1499.11 and 1499.12 of the General Maximum Price Regulation are incorporated herein by reference.

SEC. 17. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 18. *Exports.* The ceiling prices at which a person may export any article covered by this regulation shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.

SEC. 19. *Petitions for amendment.* Any person seeking a modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

SEC. 20. *Enforcement and evasion*—(a) *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) *Evasion.* You must not evade any of the provisions of this regulation by any scheme or device, or by any practice which has the effect of charging a higher-than-ceiling price.

SEC. 21. *Geographical applicability.* The provisions of this regulation shall be applicable to the forty-eight states and the District of Columbia.

NOTE: The record-keeping and reporting provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This regulation shall become effective on the 20th day of July 1944.

Issued this 15th day of July 1944.

JAMES G. ROGERS, JR.,
Acting Administrator.

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Miami,[1] Amdt. 7]

MIAMI AREA

Rent Regulation for Housing in the Miami Defense-Rental Area is amended in the following respects:

1. The second unnumbered paragraph of section 5 is amended to read as follows:

In cases under paragraphs (a) (2), (a) (4), (a) (5), (a) (7), (a) (8), (a) (9), (a) (11), (c) (1), (c) (3), and (c) (5), the adjustment of the maximum rent shall be on the basis of the maximum rent which the Administrator finds is generally prevailing in the defense-rental area for comparable housing accommodations.

2. Section 5 (a) (11) is added to read as follows:

(11) *Peculiar circumstances.* The rent during some portion of the year ending on August 31, 1943, or on the date subsequent thereto determining the maximum rent, was materially affected by peculiar circumstances and as a result the maximum rent for the housing accommodations is substantially lower than the maximum rent generally prevailing in the defense-rental area for comparable housing accommodations.

3. Section 5 (c) (5) is amended to read as follows:

(5) *Special relationship between landlord and tenant or peculiar circumstances.* The rent during some portion of the year ending on August 31, 1943, or on the date subsequent thereto determining the maximum rent, was materially affected by the blood, personal, or

Section 3.13 is amended in the following respects:

1. The headnote is amended to read as follows: "SEC. 3.13. *Specified butchers' frocks.*"

2. Paragraph (a) is amended to read as follows:

(a) Sales by Defense Supplies Corporation.

(1) To the American Meat Institute, Chicago, Illinois: $2.56 net per garment, f. o. b. warehouse.

(2) To the Independent Meat Packers Association, Washington, D. C.: $2.57 net per garment, f. o. b. warehouse.

(3) To linen supply companies: $2.57 net per garment, f. o. b. warehouse.

3. Paragraph (b) is amended to read as follows:

(b) Sales by the American Meat Institute, Chicago, Illinois, and the Independent Meat Packers Association, Washington, D. C.: $2.57 net per garment, f. o. b. warehouse.

4. Paragraph (d) is amended to read as follows:

(d) Prior to or at the time of shipment, the American Meat Institute and the Independent Meat Packers Association shall furnish to persons purchasing these garments from them, the following notice:

We are sending this notice to you pursuant to requirement of the OPA. This notice advises you as to your ceiling price for the butchers' frocks which we are delivering to you. These frocks were made for the United States Army. Because of the urgent need for butchers' frocks by the packing industry, arrangements have been made for the release by the Army of these frocks for ultimate sale or distribution to employees at meat packing houses.

The ceiling price for the [insert name of association], as fixed by the OPA, is $2.57 net per garment, f. o. b. warehouse.

If you are a packer, and you sell these frocks to your employees, your ceiling price as fixed by the OPA must not exceed the amount which you paid to the [insert name of association] plus the incoming transportation cost, per garment, which you paid. Meat packers who have arrangements with employees for the distribution of protective clothing below acquisition cost, or without any charge, may, of course, continue these practices with respect to these frocks.

This amendment shall become effective July 20, 1944.

Issued this 15th day of July 1944.

[1] "No. 1 mixed paper" consists of wastepaper which does not have the uniform or distinctive qualities required for classification as any other grade.

[2] "No. 1 news" consists of waste newspapers.

[3] "Overissue news" consists of unused over-run newspapers from a newspaper office. Dealers' returns constitute a lower quality of this grade. Optional method of packing—securely tied bundles.

[4] "Old corrugated containers" consist of used corrugated or solid fibre containers, including any combination or mixture of "jute", double lined Kraft, and 100% Kraft.

[5] "New corrugated cuttings" consist of new corrugated or solid fibre container board cuttings.

[6] "Boxboard cuttings" consist of new cuttings of paperboard which is used in the manufacture of folding paper cartons, set-up boxes and similar boxboard products.

[7] "White blank news" consists of unprinted cuttings or sheets of white newsprint paper.

[8] "Extra manilas" of the highest quality consist of unprinted manila paper. Lower qualities may contain printing.

[9] "New manila envelope cuttings" consist of new cuttings or sheets of unprinted manila paper of the quality used in the manufacture of manila envelopes. Optional method of packing—securely tied packages.

[10] "One cut new manila envelope cuttings" consist of new one cut cuttings or sheets of unprinted manila paper of the quality used in the manufacture of manila envelopes. Optional method of packing—securely tied packages.

[11] "Manila tabulating cards, free from groundwood" consist of new or used printed manila cards which have been manufactured for use in automatic tabulating machines. Must be free from groundwood except to the extent that groundwood is used in the furnish of manila cards which were free from groundwood prior to the present war. Lower qualities of this grade may include tabulating cards of similar stock having colors other than manila. Optional method of packing—bags or boxes.

[12] "Manila tabulating cards, groundwood" consist of new or used printed manila cards, containing groundwood, which have been manufactured for use in automatic tabulating machines. Lower qualities of this grade may include tabulating cards of similar stock having colors other than manila. Optional method of packing—bags or boxes.

[13] "No. 1 hard white shavings" consist of new bond or writing paper shavings of sulphite or rag fiber content, free from groundwood except to the extent that groundwood is used in the furnish of bond or writing papers of sulphite or rag fiber content which were free from groundwood prior to the present war. The highest quality of this grade consists of all white shavings. Lower qualities may contain rulings or light colored stock.

[14] "Hard white envelope cuttings" consist of new cuttings from bond or writing papers of the quality used in the manufacture of envelopes. The fiber content of the stock shall be sulphite, rag, or bleached sulphate, free from printed matter and free from groundwood except to the extent that groundwood is used in the furnish of bond or writing papers of the quality used in the manufacture of envelopes which were free from groundwood prior to the present war. Optional method of packing—securely tied packages.

[15] "One cut hard white envelope cuttings" consist of new one cut cuttings from bond or writing papers of the quality used in the manufacture of envelopes. The fiber content of the stock shall be sulphite, rag, or bleached sulphate, free from printed matter and free from groundwood except to the extent that groundwood is used in the furnish of bond or writing papers of the quality used in the manufacture of envelopes which were free from groundwood prior to the present war. Optional method of packing—securely tied packages.

[16] "No. 1 soft white shavings" consist of unprinted, all white shavings from book and similar printing papers, free from printed matter and containing not in excess of 10% of coated paper stock or heavily filled papers. Must be free from groundwood except to the extent that groundwood is used in the furnish of book and similar printing papers which were free from groundwood prior to the present war.

[17] "One cut soft white shavings" consist of unprinted, all white, one cut shavings from book and similar printing papers, free from printed matter and containing not in excess of 10% of coated paper stock or heavily filled papers. Must be free from groundwood except to the extent that groundwood is used in the furnish of book and similar printing papers which were free from groundwood prior to the present war.

[18] "Miscellaneous soft white shavings" consist of unprinted all white shavings from book and similar printing papers, free from printed matter but not limited with respect to coated or filled paper stock. Must be free from groundwood except to the extent that groundwood is used in the furnish of book and similar printing papers which were free from groundwood prior to the present war.

[19] "No. 1 fly leaf shavings" consist of the trim of magazines, catalogs, and similar printed matter. It may contain the bleed of cover and insert stock but must be free of groundwood except to the extent that groundwood is used in the furnish of magazines, catalogs, and similar printed matter which were free from groundwood prior to the present war. Solid color and beater-dyed papers constitute a lower quality of this grade. Shavings of novel news or newsprint grades may not be included in the packing.

[20] "No. 1 groundwood fly leaf shavings" consist of the trim of magazines, catalogs and similar printed matter, not limited with respect to groundwood, and may contain the bleed of cover and insert stock, but shall be free from beater-dyed papers, solid or other color printing, and coated stock.

[21] "No. 2 mixed colored groundwood shavings" consist of the trim of magazines, catalogs and similar printed matter, not limited with respect to groundwood or coated stock, and may contain the bleed of cover and insert stock as well as beater-dyed papers and solid and other color printing.

[22] "Mixed books" consist of books or magazines, including outthrow, which may in no event exceed 20% of the total weight of the packing. Packings which contain in excess of 20% outthrow may not be sold at a price in excess of the maximum price for "No. 1 Mixed Paper." Packings of this grade which are sold for use in the manufacture of paperboard, regardless of outthrow percentage, must not be sold at a price in excess of the maximum price of "No. 1 Mixed Paper."

[23] "No. 1 heavy books and magazines" consist of used and overissue books and magazines, stitchless stock, quire waste and similar printed matter. The packing may contain up to 5% outthrow. A shipment containing more than 5% outthrow but not more than 10% outthrow must be rejected or paid for only after adjustment to eliminate any payment for outthrow in excess of 5%; in such shipment the excess of outthrow becomes the property of the purchaser. A shipment containing outthrow of more than 10% must be rejected as No. 1 heavy books and magazines and may be accepted only as "No. 1 Mixed Paper." A deduction of at least $5.00 per ton from the maximum price must be made if the material is not packed in machine compressed bales weighing not less than 500 lbs., in air compressed bales or on skids.

[24] "No. 1 mixed ledger (colored ledger)" consists of ledger sheets, bond, and writing papers, white and colored. It must contain no more than 2% out-throw, and must be free from groundwood except to the extent that groundwood is used in the furnish of ledger sheets, bond and writing papers which were free from groundwood prior to the present war. Deliveries which fail to meet the requirement as to out-throw must be rejected or paid for only after adjustment to eliminate any payment for the excessive out-throw.

[25] "No. 1 white ledger" consists of ledger sheets, bond and writing papers, all white. It must contain no more than 2% out-throw, and must be free from groundwood except to the extent that ground wood is used in the furnish of ledger sheets, bond and writing papers which were free from groundwood prior to the present war. Deliveries which fail to meet the requirements as to out-throw must be rejected or paid for only after adjustment to eliminate any payment for the excessive out-throw.

[26] "No. 1 assorted kraft (old kraft)" consists of kraft paper waste, free from corrugated waste of any kind.

[27] "Triple sorted No. 1 brown soft Kraft" consists of old, soft, natural color kraft papers completely free from papers other than those containing 100% sulphate fiber.

[28] "Mixed Kraft envelope and/or bag cuttings" consist of new cuttings from sulphate envelope or bag stock, free from groundwood and other non-sulphate fiber except to the extent that groundwood or other non-sulphate fiber is used in the furnish of sulphate envelope or bag-stock which was free from groundwood and other non-sulphate fiber prior to the present war.

[29] "Kraft envelope cuttings" consist of new cuttings from kraft envelope stock, free from other fiber except to the extent that such other fiber is used in the furnish of kraft envelope stock which was free from such other fiber prior to the present war. Optional method of packing—securely tied packages.

[30] "New 100% kraft corrugated cuttings" consist of cuttings from new corrugated or solid fiber container stock of 100% sulphate fiber content. A lower quality of this grade consists of cuttings from new corrugated stock composed of two liners which are 100% sulphate fiber with a corrugated filler of other fiber. Unless both of the liners are of 100% sulphate fiber, the material must not be sold at a price in excess of the maximum price of "New corrugated cuttings".

[31] "Mill wrappers" consist of paper used as outside wrappers for rolls or bundles of finished paper stock and may contain sulphite or kraft screenings, groundwood fiber or chemical woodpulp fiber.

7. Maximum prices for sales by wagon wholesalers.
8. Provisions of Article II of Food Products Regulation No. 1 applicable to this supplement.

ARTICLE III—MISCELLANEOUS PROVISIONS

9. Invoices.
10. Reports which sellers must file.
11. Individual adjustment of maximum prices.
12. Provisions of Article III of Food Products Regulation No. 1 applicable to this supplement.

AUTHORITY: Secs. 1 to 12, inclusive (§ 1351.501) issued under 56 Stat. 23, 765; 57 Stat. 556; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

ARTICLE I—EXPLANATION OF THE SUPPLEMENT

SECTION 1. *Explanation of the supplement.* (a) This supplement establishes maximum prices for the 1944 and later packs of the frozen fruits, berries and vegetables listed below:

[1] 9 F.R. 6711.

Cherries, red sour pitted

(b) This supplement applies to sales by all persons except wholesalers and retailers (wagon wholesalers, however, are included).

(c) This supplement applies in the 48 states of the United States and the District of Columbia.

(d) This supplement supersedes the provisions of all other maximum price regulations and orders only as to the products listed and sellers covered.

(e) This supplement becomes effective July 17, 1944.

The "effective date" of this supplement as to any product covered by it shall be the date when the pricing provisions of the supplement first become applicable to it.

SEC. 2. *Applicability of Food Products Regulation No. 1.* Important: Not all of the provisions affecting the maximum prices of the listed frozen products are stated in this supplement. Those which are not specifically set forth here are stated in Food Products Regulation No. 1, and they are just as much a part of this supplement as if they were printed here. The "explanation of the regulation" is also a part of this supplement.

The particular sections of Food Products Regulation No. 1 which are applicable to this supplement are listed at appropriate places in the following provisions (in each case, the section number set forth in parentheses is the appropriate section number of Food Products Regulation No. 1). When any applicable section of the regulation is amended, the amendment also is applicable to this supplement.

SEC. 3. *Definitions.* (a) When used in this supplement, the term:

"No-storage basis" means that prior to the transfer of ownership the goods have been stored by the seller for a period no longer than 30 days after the goods were put in cold storage.

"Storage basis" means that prior to the transfer of ownership the goods have been stored by the seller for a period longer than 30 days after the goods were put in cold storage.

"Style of pack" means the form and sugar basis of the pack.

Examples: Frozen sliced strawberries are a different style of pack from frozen whole strawberries. Frozen whole strawberries on a sugar basis of 3 plus 1 are likewise a different style of pack from frozen whole strawberries on a sugar basis of 4 plus 1.

"Frozen fruits", "frozen berries" and "frozen vegetables" include the purees of these products and mixtures of different fruits, different berries and different vegetables, respectively, when frozen and enclosed in containers, whether or not hermetically sealed.

(b) The definitions of the following terms, set forth in the designated sections of Food Products Regulation No. 1, are applicable to this supplement:

"Person" (sec. 1.1 of FPR 1).
"Processor" (sec. 1.2 of FPR 1).
"Distributor" (sec. 1.3 of FPR 1).
"Primary distributor" (sec. 1.5 of FPR 1).
"Wholesaler" and "retailer" (sec. 1.6 of FPR 1).
"Ultimate consumer" (sec. 1.7 of FPR 1).
"Item" (sec. 1.8 of FPR 1).
"Container type" (sec. 1.9 of FPR 1).
"Sale" (sec. 1.10 of FPR 1).
"Price" (sec. 1.11 of FPR 1).
"Net delivered cost" (sec. 1.12 of FPR 1).
"Delivered to the customary receiving point" (sec. 1.13 of FPR 1).
"Records" (sec. 1.14 of FPR 1).

ARTICLE II—PRICING PROVISIONS

SEC. 4. *Maximum prices for sales by processors of frozen red sour pitted cherries to purchasers other than government procurement agencies*—(a) *Frozen red sour pitted cherries, in barrels, and in tin containers having a capacity of 30 pounds or more.* For sales to purchasers other than government procurement agencies, the maximum prices per pound, f. o. b. factory, on a no-storage basis, which a processor may charge for frozen red sour pitted cherries of the 1944 and later packs, in barrels, and in tin containers having a capacity of 30 pounds or more, shall be as follows:

Style of pack	Maximum price per pound			
	In barrels		In tin containers having a capacity of 30 pounds or more	
	Area 1	Area 2	Area 1	Area 2
3+1	$0.1250	$0.1225	$0.1275	$0.1250
4+1	.1275	.1250	.1300	.1275
5+1	.1300	.1275	.1325	.1300
6+1	.1300	.1275	.1325	.1300
7+1	.1300	.1275	.1325	.1300
8+1	.1300	.1275	.1325	.1300
9+1	.1325	.1300	.1350	.1325
10+1	.1325	.1300	.1350	.1325
11+1	.1325	.1300	.1350	.1325
12+1	.1325	.1300	.1350	.1325
13+1	.1350	.1325	.1375	.1350
14+1	.1350	.1325	.1375	.1350
15+1	.1350	.1325	.1375	.1350
All others	.1375	.1350	.1400	.1375

States included in areas:
Area 1: Washington, Oregon, Montana, Utah, Idaho and Colorado.
Area 2: All states other than Washington, Oregon, Montana, Utah, Idaho and Colorado.

NOTE: The area named refers, in each case, to the area in which the processor's factory is located. The area in which the fruit was grown is not controlling.

For goods sold on a storage basis, the maximum price named above is increased ⅛ cent per pound per month after the first 30 days in which the item is in cold storage. Any period of less than 15 days shall not be considered one month.

(b) *Frozen red sour pitted cherries in containers having a capacity of 30 pounds or more, other than barrels and tin containers.* For sales to purchasers other than government procurement agencies, the processor shall figure his maximum price per pound, f. o. b. factory, on a no-storage basis, under section 8 (b), below, for each item of frozen red sour pitted cherries of the 1944 and later packs, in containers having a capacity of 30 pounds or more, other than barrels and tin containers. For this purpose, however, the "base container" used shall be a tin container having a capacity of 30 pounds or more.

For goods sold on a storage basis, the maximum price figured above is increased ⅛ cent per pound per month after the first 30 days in which the item is in cold storage. Any period of less than 15 days shall not be considered one month.

(c) *Frozen red sour pitted cherries in containers (other than barrels) having a capacity of less than 30 pounds.* For sales to purchasers other than government procurement agencies, the processor shall figure his maximum price per dozen or other unit, f. o. b. shipping point, on a no-storage basis for each item of frozen red sour pitted cherries of the 1944 and later packs, in any containers (other than barrels) having a capacity of less than 30 pounds, by subtracting ¾ cent per pound from his maximum price for the item, f. o. b. shipping point, on a no-storage basis under Maximum Price Regulation No. 489.[2]

For goods sold on a storage basis, the maximum price figured above is increased ⅛ cent per pound per month after the first 30 days in which the item is in cold storage. Any period of less than 15 days shall not be considered one month.

SEC. 5. *Maximum prices for sales by processors of frozen products covered by this supplement, except frozen red sour pitted cherries, to purchasers other than government procurement agencies.* The pricing method of this section and the frozen products covered by it will be announced later.

SEC. 6. *Maximum prices for custom packing in certain cases.* This section applies only to custom packing resulting in an item of frozen fruits or berries where the particular fresh fruits or berries packed were subject to maximum prices, under Maximum Price Regulation 425,[3] or covered by announced prices recommended by the Department of Agriculture for payment to growers, applying to the purchase by which they were acquired by the person for whom the custom packing is done.

(a) *Maximum prices.* The custom packer's maximum price for the services of custom packing an item of fruits or berries (including the furnishing of any packaging materials and additional ingredients) shall be the amount by which his maximum price for sales of the item on a no-storage basis exceeds the price paid for the particular fresh fruits or berries by the person for whom the custom packing is done, after conversion to cents per unit of the finished product. However, the custom packer's maximum price for his services shall not exceed the difference between his maximum price for the frozen product and the maximum price for the particular fruit or berry as established in Maximum Price Regulation 425, or if there is no such maximum price established by that regulation, the custom packer's maximum price for his services shall not exceed the difference between his maximum price for the frozen product and the price recommended by the Department of Agriculture for payment to growers for the particular fruit or berry.

(b) *Information required to be furnished and kept.* The person for whom the custom packing is done shall furnish the custom packer with a signed statement in writing, naming the amount paid for the fresh fruits or berries custom packed, the date on which and the name of the seller from whom they were purchased. This statement shall be furnished before the custom packing is begun, and the custom packer shall preserve the statement, for examination by the Office of Price Administration or its authorized representatives at any reasonable time. However, if the fresh fruits or berries are acquired through the custom packer as agent of the purchaser, no statement is required, but the custom packer shall instead make and preserve a record of the same information for like examination.

(c) *Meaning of "custom packing."* In this regulation "custom packing" means any processing operation performed on fruits or berries owned by another, on a toll or contract basis (whether or not any packaging materials or additional ingredients are furnished), resulting in an item of frozen fruits or berries. "Custom packer" and "custom packed" shall be construed accordingly.

SEC. 7. *Maximum prices for sales by wagon wholesalers.* The maximum price per dozen or other unit which a wagon wholesaler may charge for an item of frozen fruits, berries or vegetables covered by this supplement shall be his net delivered cost plus a markup of 29 per cent. He shall figure his maximum price on the basis of the most recent purchase of that item, and shall refigure it after each new purchase. The maximum price so figured is the wagon wholesaler's maximum price for his entire inventory of that item, and it is effective until his first sale after he receives the next lot.

A "wagon wholesaler" is one who purchases the item being priced and distributes it to retailers or to commercial, industrial or institutional users from an inventory stocked in trucks or other conveyances which are under the supervision of driver salesmen who make delivery at the time and place of sale. Such a wholesaler is a wagon wholesaler only for sales made in this manner.

In this section, "net delivered cost" means the amount the wagon wholesaler pays for the item delivered to his customary receiving point (but not in excess of the processor's maximum price for it, f. o. b. shipping point, plus actual charges for the transportation to the wagon wholesaler's customary receiving point), less all discounts allowed him except the discount for prompt payment. No expense of local trucking or unloading shall be included.

SEC. 8. *Provisions of Article II of Food Products Regulation No. 1 applicable to this supplement.* The following provisions of Food Products Regulation No. 1 are applicable to this supplement:

(a) Processors who have two seasonal packs (sec 2.1 of FPR 1).
(b) Maximum prices for products in new container types and sizes (sec. 2.2 of FPR 1).
(c) Adjustment of dollars-and-cents maximum prices for processors who perform the wholesale or retail function (sec. 2.3 of FPR 1).
(d) Elective pricing method for processors (sec. 2.4 of FPR 1). The maximum "markup percentage" figure is 175%.
(e) Individual authorization of maximum prices (sec. 2.5 of FPR 1).
(f) When the seller must figure a delivered price (sec. 2.6 of FPR 1). The "base period" is (to be announced).
(g) Uniform prices where the processor or repacker has more than one factory (sec. 2.7 of FPR 1).
(h) Uniform delivered prices where the seller has customarily been selling on an f. o. b. shipping point basis (sec. 2.8 of FPR 1). The "base period" is (to be announced).
(i) Maximum prices for sales by primary distributors (sec. 2.9 of FPR 1).

ARTICLE III—MISCELLANEOUS PROVISIONS

SEC. 9. *Invoices.* The seller shall furnish the buyer with an invoice showing for each item sold (a) his actual selling price, and (b) his selling price figured on a no-storage basis.

Item (b) shall be figured by multiplying by ⅛ cent the number of months (if any) which the seller actually stored the goods beyond the first 30 days in which the goods were in cold storage and prior to the transfer of ownership, and subtracting the resulting figure from item (a). Any period of less than 15 days shall not be considered one month.

SEC. 10. *Reports which sellers must file.* (To be announced).

SEC. 11. *Individual adjustment of maximum prices.* (To be announced).

SEC. 12. *Provisions of Article III of Food Products Regulation No. 1 applicable to this supplement.* The following provisions of Food Products Regulation No. 1 are applicable to this supplement:

(a) Restrictions on sales to primary distributors (sec. 3.1 of FPR 1).
(b) Weights (sec. 3.2 of FPR 1).
(c) Storage (sec. 3.3 of FPR 1).
(d) Export sales (sec. 3.4 of FPR 1).
(e) Notification of new maximum price (sec. 3.5 of FPR 1).
(f) Records which must be kept (sec. 3.6 of FPR 1).
(g) Sales slips and receipts (sec. 3.8 of FPR 1).
(h) Transfers of business or stock in trade (sec. 3.9 of FPR 1).
(i) How a figured maximum price is established and how an established maximum price may be changed (sec. 3.10 of FPR 1).
(j) Adjustable pricing (sec. 3.11 of FPR 1).
(k) Compliance with the applicable supplement (sec. 3.12 of FPR 1).
(l) Adjustment of maximum prices of food products under "Government contracts" or subcontracts (sec. 3.13 of FPR 1).
(m) Applications for adjustment by sellers who have been found to have violated the Robinson-Patman Act (sec. 3.14 of FPR 1).
(n) Applications for adjustment and petitions for amendment based on wage or salary increases requiring approval of the National War Labor Board (sec. 3.15 of FPR 1).
(o) Petitions for amendment (sec. 3.16 of FPR 1).

This supplement shall become effective July 17, 1944.

NOTE: All record-keeping and reporting requirements of this supplement have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 15th day of July 1944.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RO 1A,[1] Amdt. 79]

TIRES, TUBES, RECAPPING AND CAMELBACK

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.[*]

Ration Order No. 1A is amended in the following respects:

1. Section 1315.201 (a) (46) is revoked.

2. Section 1315.201 (a) (47) is amended to read as follows:

(47) "Tire inspector" means the operator of premises at which persons may obtain the inspection of tires required by this order. It also includes any person employed by the operator and designated by him to make these inspections. The term "inspector" shall be deemed to refer to a tire inspector.

3. Section 1315.307 is amended to read as follows:

§ 1315.307 *Inspection stations* — (a) *Designation by District Director.* A District Director shall designate as an Official Truck and Passenger Tire Inspection Station or as an Official Passenger Tire Inspection Station any premises where he is satisfied that the operator has complied or will comply with all instructions relating to the proper inspection of tires issued by the Office of Price Administration from time to time. In addition, the following standards must be met:

(1) *Official Truck and Passenger Tire Inspection Stations.* To be designated as an Official Truck and Passenger Tire Inspection Station, there must be a person employed at the premises who is experienced in the servicing of truck tires; there must be adequate space to store, for a thirty-day period, all inspected tires which must be held at the station; and there must be adequate facilities, equipment and tools available at the premises for demounting, replacing and inspecting truck tires.

(2) *Official Passenger Tire Inspection Stations.* To be designated as an Official Passenger Tire Inspection Station, there must be a person employed at the prem-

ises who is experienced in the servicing of passenger tires; and there must be adequate facilities, equipment and tools available at the premises for demounting, replacing and inspecting passenger tires.

(b) *Scope of tire inspector's authority.* (1) A tire inspector at an Official Truck and Passenger Tire Inspection Station is authorized to inspect all types of tires.

(2) A tire inspector at an Official Passenger Tire Inspection Station is authorized to inspect tires for passenger automobiles, farm tractors, implements, and wagons and passenger-type tires for equipment.

(c) *Operation of stations.* The operator of an inspection station shall pay the total cost of operations, including expenditures for equipment, rent and salaries of any tire inspectors.

The station and the tire inspectors in the performance of their duties as inspectors shall be subject to the supervision of the OPA Tire Examiners assigned for such purpose. The operator of a station shall be responsible for all inspections made by persons in his employ.

The authority conferred on operators to establish and maintain an inspection station may be withdrawn for cause at any time by the District Director.

4. Section 1315.308 is amended to read as follows:

§ 1315.308 *Central Truck Tire Inspection Station*—(a) *Designation by District Director.* A District Director shall authorize the establishment of Central Truck Tire Inspection Stations to serve areas designated by the Office of Price Administration, Washington, D. C., and may authorize in his discretion the establishment of additional Central Truck Tire Inspection Stations to serve other areas. Neither the operator of a Central Truck Tire Inspection Station nor his employees shall engage in the business of manufacturing, selling, recapping, or repairing tires or tubes. The authorization to a person operating a Central Truck Tire Inspection Station may be withdrawn at any time for cause by the District Director for the area in which the station is located.

(b) *Scope of authority.* A tire inspector at a Central Truck Tire Inspection Station is authorized to re-inspect in his area all tires to be replaced for commercial motor vehicles and all truck-type tires having a cross-section size of 12.00 or smaller to be replaced for equipment. The re-inspection shall be made at the Central Truck Tire Inspection Station or at other premises designated for that purpose by the District Director.

(c) *Operation of station.* The operator of a Central Truck Tire Inspection Station is to pay the total cost of operations including any expenditure for equipment, rent and salaries of one or more tire inspectors and any other employees necessary to the effective operation of the station. The station and the tire inspection work performed by the operator and his employees shall be subject to the supervision of the OPA Tire Examiner assigned for such purpose.

5. Section 1315.603 is revoked.

6. Section 1315.610 (b) (2) is amended to read as follows:

(2) A tire which is being held at a Central Truck Tire Inspection Station or at an Official Truck and Passenger Tire Inspection Station shall be turned in by transferring its legal title to the dealer or manufacturer to whom the certificate was surrendered.

7. The third sentence of § 1315.611 (a) is amended to read as follows:

The dealer or manufacturer upon presenting Part A of the certificate under which he acquired a tire which is being held pursuant to § 1315.704 may obtain possession of the tire after it has been held the required length of time.

8. Following § 1315.657 an undesignated headnote "Inspection procedures" is added.

9. Section 1315.701 is added to read as follows:

§ 1315.701 *Inspection of tires for replacement*—(a) *Inspection by certifying inspector.* No consumer or automobile dealer may file an application for a certificate, and no such application shall be considered by a Board until an inspector has inspected the tire to be replaced and has made the inspector's report required by OPA Form R–1 or, in the case of applications to replenish an emergency reserve, by OPA Form R–21 (in duplicate): *Provided, however,* That if an application is made for a tire for a passenger automobile other than a passenger automobile operated on a non-highway ration, all the tires mounted on the automobile shall be inspected and a report of their condition made by an inspector.

(b) *Certification by inspector.* An inspector shall not certify his report concerning the condition of tires until he has made an adequate inspection of the tires. A Board may require an additional inspection and certification by an inspector whom it names if it has reason to believe that the first inspection was made improperly.

(c) *No compensation for certification.* No applicant may pay any compensation for the certification or the inspection required by this section. However, sums not in excess of those set forth in the following schedule may be paid the inspector, or any other person, for removing and replacing a tire when it is necessary for inspection purposes.

SCHEDULE OF FEES FOR REMOVING AND REPLACING TIRES

Type of tire:	Fee
(1) Passenger car tires, each	$0.50
(2) Small truck tires (7.50–20 or smaller), each	.75
(3) Large truck tires (larger than 7.50–20), each	1.00
(4) Additional charge for removing inside dual truck tires (larger than 7.50–20	.50

10. Section 1315.702 is added to read as follows:

§ 1315.702 *Further examination at Central Truck Tire Inspection Station of tires to be replaced*—(a) *Inspection at Central Truck Tire Inspection Station.* An applicant who is applying to a Board in an area served by a Central Truck Tire Inspection Station shall present for re-examination to a Central Truck Tire Inspection Station all tires to be replaced for a commercial motor vehicle and all truck tires having a cross-section size of 12.00 or smaller to be replaced on equipment. The Board may not act upon an application to replace such tires until an inspector attached to a Central Truck Tire Inspection Station has certified to their condition. A state, local or foreign government or the Federal Government or any department or agency of any such government shall be exempted from this paragraph if it is prohibited by law from paying the inspection fees which may be charged by a Central Truck Tire Inspection Station as provided in paragraph (b).

The inspector shall approve or disapprove the first inspection on OPA Form R–1 or on OPA Form R–21 (in the case of emergency reserve applicants). He shall forward all applications on OPA Form R–1 which he has reviewed to the proper Board.

The inspector shall, on OPA Form R–21, authorize emergency reserve applicants to transfer to a dealer or manufacturer the tires he has found to be unrepairable or unrecappable after he has notched the truck-type tires as required by § 1315.704 (a) (1). An emergency reserve applicant shall file with his Board his application on OPA Form R–19 and the certification of an inspector on OPA Form R–21 with proof made thereon of the transfer of the unrepairable or unrecappable tires to a dealer or manufacturer. The dealer or manufacturer to whom the tires are transferred shall retain a copy of OPA Form R–21 as a record.

(b) *Fees that may be charged by Central Truck Tire Inspection Stations.* An operator of a Central Truck Tire Inspection Station may charge the applicant, for the inspection services performed under this section, an amount not in excess of twenty-five (25) cents for the inspection of each tire 7.50–20 or smaller and fifty (50) cents for each tire larger than 7.50–20. The station operator may, in addition to these inspection fees, charge the applicant for removing and replacing tires the sums provided in § 1315.701 (c).

(c) *Inspection by OPA Tire Examiner.* An OPA Tire Examiner may perform the functions of an inspector attached to a Central Truck Tire Inspection Station, with respect to tires of an emergency reserve applicant which are located in an area not served by a Central Truck Tire Inspection Station.

11. Section 1315.703 is added to read as follows:

§ 1315.703 *Further examination by an OPA Tire Examiner of tires to be replaced.* When an application by an emergency reserve operator is filed with a truck tire board located outside of an area served by a Central Truck Tire Inspection Station, an OPA Tire Examiner shall examine the tires to be replaced. The Tire Examiner shall, on OPA Form R–21, approve or disapprove the first inspection and shall authorize the transfer of the tires he finds to be unrepairable or unrecappable, to a dealer or manufacturer. He shall notch the truck tires he finds to be unrepairable or unrecappable at the heel of the bead directly under the serial number when he authorizes their transfer.

Prior to the issuance of a certificate, the applicant shall transfer to a dealer or manufacturer the tires which the Tire Examiner authorized to be transferred and shall file proof of their disposition on OPA Form R–21 with the Board. A state government which is prohibited by law from disposing of tires, shall not be required to transfer them or file proof of their disposition.

The dealer or manufacturer to whom the tires are transferred shall retain a copy of OPA Form R–21 as a record.

12. Section 1315.704 is added to read as follows:

§ 1315.704 *Notching and holding of tires*—(a) *By Central Truck Tire Inspection Station*—(1) *Notching of truck tires.* An inspector attached to a Central Truck Tire Inspection Station shall notch the truck-type tires which he finds to be unrepairable or unrecappable, at the heel of the bead directly under the serial number.

(2) *Holding of tires.* The tires listed on OPA Form R–1 which an inspector attached to a Central Truck Tire Inspection Station is required to re-inspect and which he has found to be unrepairable or unrecappable shall be retained at the premises at which they were inspected. A tag shall be attached to each tire showing its serial number, the date of the inspection, and the names and addresses of the applicant and the inspector who made the preliminary inspection. The tires shall be held at the premises for at least thirty days after being examined unless the operator of the premises has been instructed to hold them for a longer or shorter period by a representative of the Office of Price Administration authorized to give such instructions. A tire which has been held for the required period of time under this subparagraph shall be surrendered:

(i) To any state, local or foreign government or the Federal Government or any department or agency of any such government which is prohibited by law from disposing of the replaced tire as required by § 1315.610 (b); or

(ii) To a dealer or manufacturer who presents Part A of the certificate under which he acquired the tire pursuant to § 1315.611 (a).

The provisions of this paragraph relating to the holding of tires shall not apply to tires leased under a mileage contract, but instead they shall be turned in as required by § 1315.610 (b).

(b) *By Official Truck and Passenger Tire Inspection Station*—(1) *Notching of truck tires.* An inspector at an Official Truck and Passenger Tire Inspection Station shall notch all truck-type tires which he finds to be unrepairable or unrecappable, at the heel of the bead directly under the serial number, except those tires which are required to be re-examined before a certificate may be issued to replace them, either at a Central Truck Tire Inspection Station or by an OPA Tire Examiner.

(2) *Holding tires.* Any tire to be replaced on a commercial motor vehicle any any truck-type tire having a cross-section size of 12.00 or smaller, to be replaced on equipment, which is found to be unrepairable or unrecappable by an inspector at an Official Truck and Passenger Tire Inspection Station shall be retained at the station. A tag shall be attached to it showing its serial number, the date of the inspection, and the name and address of the applicant. The tire shall be held at the station for at least thirty days after the date of inspection unless the operator of the station has been instructed to hold it for a longer or shorter period by a representative of the Office of Price Administration authorized to give such instructions. The provisions of this subparagraph (2) shall not apply:

(i) To tires which are required to be re-examined before a certificate may be issued to replace them, either at a Central Truck Tire Inspection Station or by an OPA Tire Examiner; or

(ii) To tires of an emergency reserve applicant; or

(iii) To tires leased under a mileage contract.

(3) *Release of tires held.* Tires which have been held for the required period of time under this paragraph shall be surrendered to:

(i) Any state, local or foreign government or the Federal Government, or any department or agency of any such government, which is prohibited by law from disposing of the replaced tire as required by § 1315.610 (b).

(ii) A dealer or manufacturer who presents Part A of the certificate under which he acquired the tire pursuant to § 1315.611 (a).

(c) *Transfer of defective tires for adjustment.* A defective tire held under this section may, at any time, be transferred without certificate to a dealer or a manufacturer for purposes of adjustment, provided the operator of the inspection station keeps a record showing the serial number, size and type of the tire, the name and address of the applicant and the supplier to whom the tire was transferred, the date of its transfer and a description of the defective condition. A dealer may in turn transfer it without certificate to his supplier provided he keeps similar records.

(d) *Surrender of tires when application is denied.* Whenever an application for a tire to replace a tire that is being held at a Central Truck Tire Inspection Station or an Official Truck and Passenger Tire Inspection Station is denied by a board, the tire may be surrendered to the applicant upon presentation of the notice of the board's decision.

13. The second paragraph of § 1315.806 (g) (2) is amended to read as follows:

The provisions of this subparagraph shall not apply:

(i) To tires leased under a mileage contract; or

(ii) To tires which have been held pursuant to §§ 1315.704 (a) (2) or (b) (2).

This amendment shall become effective July 25, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[RMPR 113,[1] Amdt. 1]

IRON ORE PRODUCED IN MINNESOTA, WISCONSIN, OR MICHIGAN

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 7 (b) (4) is amended to read as follows:

(4) *Other special ores.* Such ores include off-grade and premium ores not specifically named in this paragraph (b). The maximum prices for each such ore shall be:

(i) The sum of (*a*) the seller's 1941 weighted average spot price for the ore or the price which was approved by the Office of Price Administration before the issuance of this regulation, plus (*b*) the difference between the seller's 1941 weighted average spot price for standard ore and the maximum price established by this regulation for such standard ore; or

(ii) If a maximum price cannot be determined under (i), the price established by the Office of Price Administration upon application by the seller. Such application may be made by letter addressed to the Iron and Steel Branch, Office of Price Administration, Washington, D. C., and shall contain a full description and analysis of the ore for which a maximum price is requested. The maximum price established by the Office of Price Administration pursuant to such application shall be in line with the maximum prices established by this Regulation for other ores. Such action may be taken by letter.

This amendment shall become effective July 22, 1944.

Issued this 17th day of July 1944.

PART 1381—SOFTWOOD LUMBER

[3d Rev. MPR 219]

NORTHEASTERN SOFTWOOD LUMBER

Second Revised Maximum Price Regulation No. 219 is redesignated Third Revised Maximum Price Regulation 219 and is revised and amended to read as follows:

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328. A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the industry affected, or have previously been promulgated and their use lawfully required by other government agencies.

ARTICLE I—SCOPE OF THE REGULATION

SECTION 1. *Prices higher than ceiling prohibited.* (a) On and after July 17, 1944, regardless of any contract or other obligation, no person shall sell or buy for direct-mill shipment, or deliver or receive on direct-mill shipment, any Northeastern softwood lumber at prices higher than the ceiling prices fixed by this regulation; and no person shall agree, offer or attempt to do any of these things.

(b) Prices lower than the ceiling prices may, of course, be charged and paid.

SEC. 2. *To what products and transactions this regulation applies*—(a) *Products covered.* This regulation covers, under the name of "Northeastern softwood lumber" all items of lumber of the following softwood species produced in the States of Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, New York, Pennsylvania, Maryland, West Virginia, Kentucky, Virginia, Tennessee, North Carolina, South Carolina and Georgia, and in the part of the Dominion of Canada located east of the 85th meridian; or imported from the Union of Soviet Socialist Republics: Northeastern white pine (Pinus strobus), Norway pine (Pinus resinosa), Eastern hemlock (Tsuga canadensis), Eastern spruce (Picea rubra, Picea Mariana, and Picea glauca), Eastern white cedar (Thuja occidentalis), and Jack pine (Pinus banksiana), and of all other softwood species except Southern pine (covered by 2d Rev. MPR 19), Cypress (covered by MPR 412 and MPR 513) and Cedar (covered by MPR 454), whether the item or species is specifically named in the price tables or not.

(b) *Transactions covered.* This regulation covers, under the term "sales for direct-mill shipment", all sales of Northeastern softwood lumber, no matter who the seller is, and regardless of the quantity involved, except sales of Northeastern softwood lumber which was part of the regular stock of a distribution yard at the time the sale was made.

(1) *How to tell a mill from a distribution yard.* The term "mill", as used here, covers what are known in the trade as sawmills, planing mills and concentration yards. Three types of establishment are described below: the first (1), a typical sawmill or planing mill; the second (2), a typical concentration yard; and the third (3), a typical distribution yard. An establishment which resembles (1) or (2) more than it does (3) is considered a mill; and one which resembles (3) more than it does (1) and (2) is considered a distribution yard.

(i) "A typical sawmill or planing mill" is an establishment which is chiefly engaged in manufacturing lumber from logs or rough lumber by sawing or planing; which is located in or near a lumber producing area; which makes and sells chiefly Northeastern softwood lumber;

(ii) "A typical concentration yard" is an establishment which concentrates and prepares lumber for commercial shipment, which keeps in stock mostly Northeastern softwood lumber, which has its lumber brought in chiefly in rough green form by truck from small local sawmills and sells chiefly for rail or full truckload shipment, and which has been located at its particular site to be near the lumber producing area;

(iii) "A typical distribution yard" is a wholesale or retail lumber yard which gets lumber from mills or other yards; unloads, sorts, and resells or redistributes it; which regularly maintains a varied stock of lumber from different regions; which gets its lumber, except for local species, mostly by rail and sells mostly for truck shipment; which is equipped to make quick deliveries of many different items of lumber; and which has been located at its particular site in order to be near a lumber consuming area.

(2) *New yards or changed status.* In order to prevent violation of this regulation by unnecessary routing through yards, the Office of Price Administration will not recognize distribution yards, either new or resulting from a change in operations, set up after May 24, 1943, unless the yard writes to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., and proves that it satisfies the requirements of the definition and that the purpose is not to get around this regulation by means of unnecessary yard business. Until approval is received, the new yard cannot consider itself a distribution yard for the purpose of this regulation.

(3) *"CPA contract yards."* "CPA yards" as defined in Second Revised Maximum Price Regulation 215[1] are considered distribution yards, regardless of the above requirements.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 3. *Basic prices and cash discount*—(a) *Basic prices.* The maximum prices for domestic Northeastern softwood lumber are set forth in Appendices A, B, C, D, and E. The maximum base prices for imported Northeastern softwood lumber are set forth in Appendices A, C, D, and F, and the transportation charges provided in these Appendices shall be added to arrive at the maximum delivered prices to points within the United States.

(b) *Cash discount.* If cash is paid the maximum price must be reduced by the seller's August 1941 cash discount. When a seller was not in business in August 1941, 2% cash discount for payment in 10 days shall be allowed. On specific written allocations issued by the Office of the Chief of Engineers, War Department, the terms 30 days net may be used by the seller regardless of his established practice.

SEC. 4. *Addition for "direct mill retail sales."* In the case of sales of less than 2,500 feet to any buyer except mills or distribution yards, a handling charge of $5.00 per M'BM may be added to the loaded on cars price, together with a percentage mark-up of 10% of the total so obtained, provided the seller expressly agrees:

(a) To see that the lumber is delivered to the job site or buyer's plant at such time and in such quantities as the buyer specifies;

(b) To give the buyer the privilege of exchanging the lumber and returning unused material;

(c) To make good any shortage from stocks kept on hand for this purpose. The size of the sale is determined by the over-all amount involved in the transaction. Thus, if the buyer and seller know that a particular shipment will run to 10 M'BM, the addition may not be made even if the order is broken into five orders of 2 M'BM and delivered on five different days in loads of 2 M'BM.

SEC. 5. *Transportation charges*—(a) *Domestic lumber*—(1) *Private truck.* When shipment is by truck owned or controlled by the seller, the following amounts may be added for transportation: For distances up to and including 10 miles, $1.50 per M'BM; over 10 and up to and including 20 miles, $2.00 per M'BM; and over 20 and up to and including 30 miles, $2.50 per M'BM. Where the distance is greater than 30 miles, the seller may charge the amount of the railroad charge at the carload rate for the most similar haul or $3.00 per M'BM, whichever is greater. Distance, as used in this paragraph, means the distance from the mill to the point of destination as measured by the speedometer. No addition may be made for the return trip.

(2) *Common or contract carrier.* For common or contract carrier shipments, the maximum transportation addition shall be either the rate times the estimated weights in the Appendices, or the actual amount paid to the carrier.

(3) *Truck delivery after rail haul.* Where the shipment is by rail followed by truck delivery, the amount added for transportation may include, in addition to the amount added for rail transportation, the actual cost of the truck delivery.

(4) *Trucking to rails.* Where a truck haul precedes the rail haul, as where a mill located away from a railhead hauls lumber by truck to the railhead, no addition may be made for the truck haul.

(5) *Transportation to planing mill.* Where the lumber is shipped by rail from a mill having milling-in-transit arrangements with a carrier to a planing mill, owned by the same person, for further processing before delivery to the purchaser, that person may apply for permission to figure transportation charges on the basis of the through rail freight rate from the first mill to final destination in the following case:

(i) Where the hurricane of September, 1938, damaged and destroyed a substantial portion of the timber near which the planing mill had been located so that the mill has been compelled to rely primarily on more distant sources of timber; and

(ii) Where it has not been practicable to move the planing mill near other sources of timber because of excessive moving costs, shortages of mill labor and insufficient standing timber in any single location to warrant moving the mill.

The application should be made by letter to the Lumber Branch, of the Office of Price Administration, Washington, 25, D. C., and may be acted upon by letter. The addition may not be made on quotations or sales until permission has been received.

(b) *Imported lumber.* In the case of sales of imported lumber the transportation charges that may be added to the maximum basic prices are specifically set forth in the various appendices dealing with imported Northeastern softwood lumber.

(c) *"Evening-out".* When estimated weights are used, delivered prices shall be evened out to the nearest quarter of a dollar per M'BM, or nearest 5 cents per 1,000 pieces of lath or square of shingles.

SEC. 6. *Species, grades, items, services and extras not listed.* (a) If a seller wishes to sell a species, grade or item of Northeastern softwood lumber which is not specifically priced in the price tables, or wishes to make an addition for special workings, specifications, services, or extras for which additions are not specifically permitted, he must apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C. for a maximum price. He must submit the following information:

(1) The requested price; (2) a complete description of the material to be priced; and (3) the price differential

[1] 8 F.R. 14145; 9 F.R. 221, 2553, 2948, 4227, 5314, 6457.

between it and the most comparable item priced in the price tables between January 1 and August 1, 1941, from the seller's own records, or if that is impossible, from the experience of the trade. If no established price differential existed, detailed analysis of comparable value should be furnished.

Applications under this section will be considered only when accompanied by a true copy of an order or of a customer's inquiry which forms the basis of the application, and a written statement by the purchaser showing that none of the items specifically priced in the regulation will serve the purpose for which the stock is to be used, and that it has been his custom to purchase lumber on these special specifications.

(b) As soon as the request has been filed, quotations and deliveries may be made at the requested price, but final payment may not be made until the price has been approved. Action on the request may be by letter or telegram. If the Office of Price Administration has not acted within 30 days of the receipt of the request, the requested price is approved.

SEC. 7. *Invoicing and tally card requirements*—(a) *Invoices.* An invoice must be rendered in all sales as follows:

(1) *Basic price.* All invoices must contain a complete description of the lumber to show whether the price is proper or not. Any working, specification, or extra which affects the maximum price must be mentioned in the description. The amount added for these does not have to be separately shown.

(2) *Transportation charges.* In delivered sales, the invoice must contain the:

(i) Point of origin of shipment; (ii) Destination; (iii) Rail rate (if estimated weights are used; otherwise the actual amount added for transportation); and in the case of the sales of imported lumber, the method of calculation of the freight addition; (iv) The words "direct-mill shipment."

(3) *Delivery and related charges.* Any separate charge which the seller is permitted to make for truck delivery after rail haul must be separately shown on the invoice.

(4) *Direct-mill retail sales.* If the price exceeds the basic mill price because of the "direct-mill retail sale" mark-up authorized in section 10, the invoice should show the amount of the mark-up separately labeled "direct-mill retail sale."

(5) *Different freight rates.* When a single order, for which a single flat delivered price was quoted and accepted is shipped from two or more mills to a single destination on varying freight rates, the seller may average-out the transportation charges. For example, if a wholesaler bids $33.00 per M'BM on a single order of a hundred thousand feet of lumber, the ceiling price being $30.00 per M'BM and the estimated freight $3.00, he can ship half of it on a rate resulting in a $2.00 freight charge and half on a rate resulting in a $4.00 freight charge. Where this practice is adopted, the seller must observe all of the following conditions:

(i) Each invoice must state that the particular shipment is part of a larger order and identify the order. It must also show the individual rates for each shipment or delivery.

(ii) The transportation charges which may be made and collected for each shipment or delivery, on account, must not exceed the average transportation charge figured on the entire order or the actual transportation charge for the particular shipment based upon the permitted estimated weights, whichever is the lower.

(iii) Upon completion of the order the seller must render a final invoice showing the individual f. o. b. mill prices separately, the amount shipped from each mill, the freight charge for each shipment, and a reconciliation of the total amount so computed with the agreed delivered selling prices and also with the maximum prices permitted by this regulation. Final payment and all necessary adjustments between buyer and seller are to be made upon the final reconciliation.

(b) *Tally cards.* Every person selling any Northeastern Softwoods lumber for direct-mill shipment shall post within the freight car, truck, or other means of transport, a tally card showing the point of origin of the shipment and a complete description of the lumber contained in the shipment including the species, condition, working and the number of pieces of each grade, size and length. Any working, specification or extra which affects the maximum f. o. b. mill prices must be mentioned in the description.

SEC. 8. *Sales for export.* The maximum price at which any person may export Northeastern softwood lumber shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation[3] issued by the Office of Price Administration.

SEC. 9. *Prohibited practices.* (a) *General.* Any practice which is a device to get the effect of a higher than ceiling price without actually raising the dollars-and-cents price is as much a violation of this Regulation as an outright over-ceiling price.

(b) *Specific practices.* The following are some of the specific practices prohibited.

(1) Getting the effect of a higher price by changing credit practices from what they were in August 1941. This includes decreasing credit periods or making greater charges for extension of credit. In any case, on sales made through the Office of the Chief of Engineers, War Department, terms of 30 days net may be used.

(2) Refusing (without good reason) to ship except in specified or restricted random lengths, or under other circumstances which bring the seller an extra return.

(3) Selling as specified lengths or widths a shipment of lumber which is substantially equivalent to standard or random lengths or widths; or reselling as specified lengths or widths a shipment bought by the seller as standard or random lengths or widths.

(4) Grading as a special grade lumber which can be graded as a standard grade; wrongly or falsely grading or invoicing lumber in any way.

(5) Making additions for special specifications, services, or other extras which are not specifically permitted.

(6) Refusing to sell on an f. o. b. mill basis, and insisting on selling on a delivered basis, except in the case of sales of imported Northeastern softwood lumber.

(7) Unnecessarily routing lumber through a distribution yard.

(8) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(9) Making the buyer take something he does not want in order to get what he does want.

(10) Getting a higher price by charging the buyer for ripping or resawing, or charging on the basis of an original size larger than the item actually delivered (for example, charging the price of 4 x 4 ripped to 2 x 4 on a sale and delivery of 2 x 4's) except where the items ordered and delivered are non-standard sizes not specifically priced in the tables. This prohibition has no application where the item resulting from remanufacture is priced higher in the tables than the original larger size.

(11) Making any of the additions contained in the footnotes to the tables in Articles V to X inclusive, to the prices of the various items set forth in the tables unless the purchaser's order expressly requires the working, grade, condition, size, or length for which the additions are permitted.

(12) Making an addition for double end trimming when standard lengths are ordered and shipped.

(c) *Adding commission to ceiling prohibited.* It is unlawful for any person to charge, receive, or pay a commission for the service of procuring (including buying, selling or locating lumber, or for any related service such as "expediting") which does not involve actual physical handling of lumber, if the commission plus the purchase price results in a total payment by the buyer which is higher than the maximum price of the lumber. For purposes of this regulation, a commission is any compensation, however designated, which is paid for the procurement of lumber. This prohibition has no application to the case of a bona fide employer-employee relationship where the employee serves only one employer, insofar as lumber procurement is concerned, and where the compensation paid by the employer is a fixed salary and is not based directly or indirectly on the quantity, price or value of the lumber in connection with which the service is rendered.

(d) *Combination grades.* Lumber sold in a combination of grades for which no price is established in the regulation may not be sold above the maximum price for the lowest priced grade actually named in the combination. For example, the maximum price for lumber sold as merchantable and selected merchantable is the maximum price fixed for merchantable lumber. But it is permissible to sell a combination of grades where the exact quantity of each grade shipped is separately shown on the invoice and segregated in the car by strips (except timbers) or otherwise easily made identifiable to the purchaser and separately tallied (tally card to be included in car), in which case the appropriate ceiling price for the quantity of each grade shipped may be charged.

SEC. 10. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment.

ARTICLE III—MISCELLANEOUS

SEC. 11. *Applications for adjustment and petitions for amendment*—(a) *Government contracts.* (See Procedural Regulation No. 6.[4])

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[4] issued by the Office of Price Administration.

SEC. 12. *Records.* All sellers of Northeastern softwood lumber must keep, for two years, records which show a complete description of the items of lumber sold, the name and address of the buyer, the date of the sale and the price. Buyers must keep similar records, including the name and address of the seller. These records must be kept for any month in which the seller or buyer sold or bought 5,000 feet board measure or more of Northeastern softwood lumber.

SEC. 13. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 14. *Licensing.* The provisions of Licensing Order No. 1,[5] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

ARTICLE IV—APPENDIX A: SQUARE-EDGE WHITE PINE

SEC. 15. *Application of Appendix A.* This appendix applies to domestic Northeastern white pine lumber processed square edge (i. e., sawn or processed square on four sides), and to imported Northeastern white pine lumber processed square edge shipped from mills located in that part of the Dominion of Canada east of the Province of Ontario, when sold on the specifications and on the grades designated below. (Maximum prices for Northeastern white pine lumber shipped from mills located in that part of the Province of Ontario lying east of the 85th Meridian, known as Ottawa Valley White Pine, are set forth separately in Appendix F.)

SEC. 16. *Grading rules.* Grade terms in this appendix have the meaning set forth in "Standard Grading Rules for Northern White Pine and Norway Pine" (Northeastern type) published by the Northeastern Lumber Manufacturers Association, Inc., effective January 1, 1937.

SEC. 18. *Transportation addition on imported lumber.* (For domestic transportation addition, see section 5). In the case of sales of imported Northeastern white pine lumber, the amount that may be added to the maximum base price for transportation is the railroad freight from Campbellton, New Brunswick, to the point of delivery in the United States, computed on the lowest through rate. This rule applies regardless of the point of origin, and whether the lumber is shipped by rail or truck. The freight shall be computed on the basis of the estimated average weights set forth in Table No. 3 above, and the final amount shall be evened out to the nearest quarter of a dollar per M'BM. No addition may be made to the maximum base price for duty or for any charges or fees incurred in importation.

ARTICLE V—APPENDIX B: ROUND-EDGE WHITE PINE: PRICE TABLES

SEC. 19. *Application of Appendix B.* This appendix applies to domestic Northeastern white pine lumber processed round edge (i. e., sawn or processed by sawing two sides without sawing or otherwise processing edges), sold on the specifications and on the grades designated below.

SEC. 20. *Grading rules.* Grade terms used herein have the meaning set forth in "Standard Grading Rules for Northern White Pine and Norway Pine" (Northeastern type), published by the Northeastern Lumber Manufacturers Association, Inc., effective January 1, 1937.

SEC. 21. *Maximum prices.* The maximum prices for 1,000 feet board measure of Northeastern white pine lumber processed round edge, in a rough air-dried condition, shall be as set forth below.

Round edge white pine lumber may be invoiced at the dry price if it has been on sticks at least 30 days and is shipped on or before August 17, 1944, or has been on sticks at least 60 days and is shipped between August 17, 1944 and September 17, 1944 or has been on sticks at least 90 days and is shipped after September 17, 1944.

In all cases where the dry price is used the seller must certify on the invoice the date the lumber was placed on sticks.

The term "on sticks" means placed in a suitable drying field and so piled that an air space of approximately 1" is provided between each 2 consecutive horizontal courses of the pile.

NOTE: The use of estimated weight of 3,250 lbs. per thousand feet for freight charges for dry lumber is permissible.

ARTICLE VI—APPENDIX C: EASTERN SPRUCE, NORWAY PINE AND JACK PINE PRICE TABLES

SEC. 22. *Application of Appendix C.* This appendix applies to domestic and imported Eastern spruce, Jack pine and Norway pine lumber (except Norway pine produced in Ontario and farther west), sold on the specifications and on the grades designated below. (Maximum prices for Norway pine shipped from mills located in that part of the Province of Ontario lying east of the 85th meridian, known as Ottawa Valley Norway pine, are set forth separately in Appendix F.)

SEC. 23. *Grading rules.* Grade terms used herein have the meaning set forth in "Standard Grading Rules for Eastern Spruce and Balsam Fir," published by the Northeastern Lumber Manufacturers Association, Inc., effective April 1, 1938, as applied to Eastern spruce and Jack pine lumber, and in "Standard Grading Rules for Northern White Pine" (Northeastern type) published by the Northeastern Lumber Manufacturers Association, Inc., effective January 1, 1937, as applied to Norway pine lumber.

SEC. 24. *Maximum prices.* The maximum f. o. b. cars price for domestic Eastern spruce, Norway pine and Jack pine lumber and white cedar shingles, and the maximum base price for imported Eastern spruce, Norway pine (other than Ottawa Valley Norway pine), and Jack pine lumber shall be as set forth below. These prices are for 1,000 feet board measure (or for 1,000 pieces, or for a square, where so designated) of lumber in a rough air-dried condition.

ADDITIONS AND DEDUCTIONS PER M'BM TO THE ABOVE PRICES

	5,000 feet BM or over	1,000 to 4,999 feet BM
For working:		
1. Crosscutting for one cut, add	$1.00	$1.25
Each additional cut, add	1.00	1.25
2. Crosscutting square, to exact non-standard length, add	3.00	3.25
3. Ripping, straight, for one cut, add	2.75	3.00
Each additional cut, add	2.75	3.00
4. Saw sizing to exact width, add	2.75	3.00
5. Resawing, 4" and narrower, for one cut, add	4.00	4.25
6. Resawing, wider than 4", for one cut, add	3.00	3.25
7. Resawing, each additional cut, add	2.25	2.50
8. Dressing S1S, S2S, S1E, S2E, add	4.00	4.25
9. Dressing, S2S1E, S4S, S1S+M, S2S+M, S2S+SL, S2E1S, add	5.00	5.25
10. Any standard dressing and beading one side, add	6.00	6.25
11. Any standard dressing and beading two sides, add	6.50	6.75
12. Working to other standard patterns, add	7.00	7.25
13. Any standard dressing and resawing, add	6.50	6.75
14. Resawing 1 cut and dressing each piece, add	7.50	7.75
15. Resawing 1 cut in center and bevel resawing each piece and bundling, add	7.00	7.25
16. Bundling, add	1.50	1.75
17. Bundling, exact specified lengths shorter than 8', add	2.00	2.25
For widths:		

18. For widths wider than listed: For each inch or fraction thereof over 12"; to the 12" price add $1.00.
19. For specified fractional widths: Price as next wider standard width for which a price is provided and add the ripping charge.
20. For lengths longer than listed: For each 2 ft. or fraction thereof over 20 ft; to the 20 ft. price add $1.00.
21. Specified fractional lengths longer than 10 ft.: Price and compute footage as next longer standard length, add the crosscutting charge.
22. Specified length shorter than 10 ft.: Price as shortest multiple for which a price is provided and add the crosscutting charge.

For thickness:
23. For 1¼" rough: Compute footage as 1⅛" and price as 4/4.
24. For 4/4 thickness: To the price of the same width and length add $2.00.
25. For 1¾" rough: Compute footage as 1⅝" and price as 5/4.
26. For 5/4" thickness: To the price of the same width and length add $2.00.
27. For 1⅝" rough: Compute footage as 1⅜" and price as 6/4".
28. For scant thickness: (⅞" rough, 2 3/32" S1S, ¾" S2S) from the price of full sawn boards of the same width, length and working, deduct $2.00.
29. Thin boards: Boards thinner than ¾" may be priced on a surface measure basis; but the maximum price per 1000 feet surface measure for any size may not be more than would be the total cost to the purchaser of the necessary board foot quantity of the appropriate thicker size reworked to produce 1000 feet surface measure of the thinner size. For example: 1000 feet surface measure of 1/4/4 x 6 S1S will be produced from 813 feet board measure of 1⅛ x 6 S2S and resawn; therefore the price of 1000 feet surface measure of 1/4/4 x 6 S1S may not be more than the price of 813 feet board measure of 1⅛ x 6 S2S and resawn and the estimated shipping weight per 1000 feet surface measure for 1/4/4 x 6 S1S may not be more than the permissible estimated dressed weight of 813 feet board measure of 1⅛ x 6.

For condition:
30. Loaded on trucks from sticks or planing mill, deduct $1.00.
31. On sticks, deduct $2.00.
32. Loaded on trucks from pit, deduct $2.00.

For grade:
33. Selected merchantable: Add $5.00 to No. 1 prices.
34. No. 2: Deduct $4.00 from No. 1 prices.
35. No. 3: Deduct $9.00 from No. 1 prices.

Notes:
36. Ontario Jack Pine: Price as spruce.
37. Norway Pine: From spruce prices deduct $2.00.
38. Items specifically priced in table No. 8 may not be priced on this table.

ADDITIONS AND DEDUCTIONS PER M'BM TO THE ABOVE PRICES

For width:
1. Specified fractional widths: Price as next wider standard width for which a price is provided and add the ripping charge.

For length:
2. Specified fractional lengths shorter than 10 ft.: Price as shortest multiple for which a price is provided and add the crosscutting charge.
3. Specified fractional lengths over 10 ft.: Price and compute footage as next longer standard length and add the crosscutting charge.

For thickness:
4. 1¼" thick add $5.00 to price of 4/4.
5. 1½" thick add $5.00 to price of 4/4.
6. 2" thick add $10.00 to price of 4/4.
7. 3" thick add $20.00 to price of 4/4.

For grade:
8. B and better: Add to prices of C. Select $20.00.

SEC. 25. *Transportation addition on imported lumber.* (For domestic transportation addition, see section 5). In the case of sales of Eastern spruce, Norway pine (other than Ottawa Valley Norway pine) and Jack pine lumber, the amount that may be added to the maximum base price for transportation is the railroad freight from Campbellton, New Brunswick, to the point of delivery in the United States computed on the lowest through rate. This rule applies regardless of the point of origin and whether the lumber is shipped by rail or truck. The freight shall be computed on the basis of the estimated average weights set forth in Table No. 14 above, and the final amount shall be evened out to the nearest quarter of a dollar per M'BM. No additions may be made to the maximum base price for duty or for any charge or fees incurred in importation.

ARTICLE VII—APPENDIX D: NEW ENGLAND AND IMPORTED EASTERN HEMLOCK LUMBER: PRICE TABLES

SEC. 26. *Application of Appendix D.* This appendix applies to Eastern hemlock lumber which is shipped to the purchaser from mills located in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut, and that part of the Dominion of Canada located east of the 85th meridian, and which is sold on the specifications and on the grades designated in this section.

SEC. 27. *Grading rules.* Grade terms used herein have the meaning set forth in the "Official Grading Rules for Hemlock and Tamarack Lumber, and White Cedar Shingles" published by the Northern Hemlock and Hardwood Manufacturers' Association, effective June 27, 1941.

SEC. 28. *Maximum prices.* The maximum f. o. b. cars price for New England Eastern Hemlock lumber, and the maximum base price for imported Eastern hemlock lumber shall be as set forth below. These prices are for 1,000 feet board measure of lumber in a rough air dried condition.

SEC. 29. *Transportation addition on imported lumber (For domestic transportation addition, see section 5)—(a) General.* In the case of sales of imported Eastern hemlock lumber, the amount that may be added to the maximum base price for transportation is the railroad freight computed on the lowest through rate from the applicable basing point as prescribed below to the point of delivery in the United States.

(b) *Basing points.* Regardless of point of origin of shipments, the following basing points shall apply:

(1) For imported Eastern hemlock lumber delivered in the six New England States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island, the basing point shall be Campbellton, New Brunswick.

(2) For imported Eastern hemlock lumber delivered in that part of the State of New York east of and including the Counties of St. Lawrence, Jefferson, Oswego, Onondaga, Cortland, and Broome, the basing point shall be Mont Laurier, Quebec.

(3) For imported hemlock lumber delivered in that part of the State of New York west of the Counties of Oswego, Onondaga, Cortland, and Broome, and in all other parts of the United States not covered above, the basing point shall be North Bay, Ontario.

(c) *Estimated weights.* The freight addition shall be computed on the basis of the estimated average weights set forth in Table 18 above, evened out to the nearest quarter of a dollar per M'BM.

(d) *Duty and import expenses.* No additions may be made to the maximum base price for duty or for any charges or fees incurred in importation.

ARTICLE VIII—APPENDIX E: NEW YORK, PENNSYLVANIA AND "APPALACHIAN" PRICE TABLES

SEC. 30. *Application of Appendix E.* This appendix applies to Eastern hemlock lumber which is shipped to the purchaser from mills located in the States of New York, Pennsylvania, Maryland, West Virginia, Kentucky, Virginia, Tennessee, North Carolina, South Carolina, and Georgia and sold on the specifications and on the grades designated in this section.

SEC. 31. *Grading rules.* Grade terms used herein have the meaning set forth in the "Official Grading Rules for Hemlock and Tamarack Lumber, and White Cedar Shingles" published by the Northern Hemlock and Hardwood Manufacturers' Association, effective June 27, 1941.

SEC. 32. *Maximum prices.* The maximum f. o. b. cars price per M'BM of Eastern Hemlock lumber in a rough air-dried condition produced in the States of New York, Pennsylvania, Maryland, West Virginia, Kentucky, Virginia, Tennessee, North Carolina, South Carolina and Georgia shall be as set forth below:

TABLE 25—ESTIMATED AVERAGE WEIGHTS FOR OTTAAW VALLEY WHITE AND NORWAY PINE LUMBER

	Rough, pounds per M'BM	Dressed, pounds per M'BM
White pine	2,500	2,000
Norway	3,000	2,500

SEC. 36. *Transportation adjustment.* In the case of shipments of Ottawa Valley white or Norway pine to destinations in the United States other than Niagara Falls, N. Y., the maximum delivered price shall be computed as follows: From the maximum price, f. o. b. Niagara Falls, N. Y., deduct railroad freight from the point of shipment to Niagara Falls, N. Y., and add freight from point of shipment to destination. Freight shall be calculated on the lowest through rate and on the applicable estimated average weights set forth in Table 25 above. The final amount shall be evened out to the nearest quarter of a dollar per M'BM. No additions may be made in the maximum prices for the duty or for any charge or fees incurred in importation.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Effective date. This regulation shall become effective July 17, 1944, except that:

(a) If lumber has been received before July 17, 1944, by a carrier other than one owned or controlled by the seller, for shipment to a buyer, that shipment is not subject to this revised regulation. It remains subject to the terms of the earlier regulation, Second Revised Maximum Price Regulation 219.

(b) If this regulation lowers any maximum price below that fixed in the earlier regulation, contracts that were in existence before the date of issuance of this revised regulation at lawful prices may be completed according to their terms, if delivery is made on or before August 17, 1944.

NOTE: The mere fact that this revised regulation increases some maximum prices does not of itself allow any seller to apply the higher prices to existing uncompleted contracts without the consent of the buyer. The regulation permits the making of certain adjustable pricing agreements to cover such situations. Apart from that, increasing prices in existing uncompleted contracts to the level of increased maximum prices in the regulation is purely a matter of agreement between buyer and seller.

Issued this 17th day of July 1944.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 14A,[1] Amdt. 2]

FIREWOOD AND COAL IN THE PACIFIC NORTHWEST

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 14A is amended in the following respects:

1. Section 7 (a) is amended to read as follows:

(a) No dealer may deliver firewood or coal to a consumer and no consumer may receive such delivery, unless at or before the time of delivery the consumer has placed an order with the dealer for the fuel and furnished him with a signed statement bearing the date it is furnished and giving the following information:

(1) The kinds of fuel the consumer uses (such as firewood, coal, gas, electricity, fuel oil, etc.), the purposes for which they are used, and the address of the premises where they are to be used.

(2) The amount of each kind of fuel (except fuel oil, gas or electricity) the consumer has on hand and his estimated annual fuel needs for each kind of fuel (except fuel oil, gas or electricity) for each purpose for which he uses such fuel.

(3) That the consumer has no other order outstanding with another dealer for a delivery of firewood or coal to be used for heat, domestic hot water, or domestic cooking, except as permitted by this order or an appropriate Regional Administrative Exception Order.

2. Section 7 (b) is amended to read as follows:

(b) A consumer may, at the election of the dealer, comply with the following requirements instead of furnishing him, at or before each delivery, with the statement required by paragraph (a).

(1) Before the first delivery is made or received the consumer shall furnish the dealer with a signed master statement bearing the date it is furnished and giving all the information required by paragraph (a).

(2) Thereafter, further deliveries may be made by the dealer and received by the consumer if the consumer, at or before the time of delivery, furnishes the dealer with the information required by paragraph (a), either orally or in writing. If the notice is given orally, the dealer shall make a record of the information thus received. However, if the information given in the master statement is no longer current with respect to the purposes for which the fuels are used, the address of the premises where they are to be used, or the consumer's estimated annual fuel needs for any kind of fuel (except fuel oil, gas or electricity), no further deliveries may be made or received until the consumer has furnished the dealer with a new signed master statement bearing the date it is furnished and giving all the information required by paragraph (a).

If a dealer permits one consumer to comply with the requirements of this paragraph (b) instead of furnishing, at or before each delivery, the statement required by paragraph (a), he shall permit all consumers to do so.

3. Paragraphs (c), (d), (e), and (f) of section 7 are redesignated (d), (e), (f), and (g), respectively.

4. Section 7 (c) is added to read as follows:

(c) The dealer shall keep a record showing for each consumer, the date of each order, the priority given to it under section 8, and the amount and date of each delivery. No dealer may deliver firewood or coal to a consumer if he knows or has reason to believe that the information furnished him by the consumer under this section is not correct.

5. Section 7 (f) is amended to read as follows:

(f) Each dealer shall retain at his place of business each statement or notice he receives from a consumer, and all records required to be kept, under this section, for at least one year and must keep them available for inspection by authorized representatives or agents of the Office of Price Administration.

This amendment shall become effective July 20, 1944.

MILEAGE RATIONING; GASOLINE REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 5C is amended in the following respects:

Section 1394.8102 (h) (2) is amended by adding to the present text the following sentences:

No transferee who acquires a motor vehicle for the purpose of resale may act as agent of the transferor in surrendering a ration to obtain a receipt on Form OPA R–569, and no receipt shall be issued to such transferee unless he obtains from the transferor at the time such vehicle is acquired a certification executed in accordance with the provisions of this subparagraph and surrenders it to the Board with the ration. Such certification shall be dated as of the date of its execution and shall be signed by the transferor and transferee. In such certification the transferor shall state the number and type of coupons and the gallonage value of any ration check or other ration evidence surrendered to the transferee and the transferee shall acknowledge receipt of such ration evidences and shall state that he undertakes to deliver them to the appropriate Board. The following form or like form will be sufficient as such certification:

This is to certify that I, _____ (transferor) _____, have this the _____ (address) day of _____, 19___, transferred to _____ (transferee) _____ (address) one motor vehicle described as follows:

Make _____
Body style _____
Motor number _____
Registration number _____
State _____

and that I have surrendered to the transferee the following gasoline rations issued for use with such vehicle:

Number and type of coupons _____
Total gallonage value:

PART 1408—GLASS AND GLASS CONTAINERS

[MPR 175,[1] Amdt. 2]

ROUGH ROLLED, FIGURED, WIRE AND HEAT ABSORBING ROLLED GLASS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 175 is amended in the following respects:

1. Section 1408.9 is amended to read as follows:

§ 1408.9 *General Maximum Price Regulation superseded.* The provisions of this Maximum Price Regulation No. 175 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries by manufacturers for which maximum prices are established by this regulation. In any case wherein it is found necessary to adjust maximum prices for jobbers or dealers by reason of an adjustment in the maximum prices of manufacturers under this regulation, such adjustment may be made under this regulation. To that extent, this regulation shall also supersede the General Maximum Price Regulation.

2. Paragraph (e) of § 1408.12 is amended to read:

(e) *Discounts.* On all of the prices and charges set forth under paragraphs (c) and (d) of this Appendix A, a discount of 6 percent shall be given by the manufacturer to all purchasers, and such discount shall be prominently set forth on any and all price lists issued by the manufacturer as an integral part thereof.

3. Paragraph (f) of § 1408.12 is amended to read:

(f) *Maximum prices for all rolled and wire glass not expressly listed in Tables 1–5 of this Appendix A.* The maximum price for rolled and wire glass not expressly listed above in Tables 1 to 5 of paragraph (c) of this Appendix A shall be such that the cost to the purchaser from the manufacturer shall not exceed by more than 4.4 percent what it was or would have been to such purchaser on October 1, 1941 (upon the basis of the prices, trade, quantity, and cash discounts, charges, deposits and allowances whether published or unpublished then listed or quoted by the manufacturer) for the quantities, thicknesses, patterns, grades, qualities, classes, types, kinds, shapes or sizes (bracket, cut, etc.) of such rolled and wire glass exclusive of any premium or charges or any other inducement that may then have been offered by the purchaser or demanded by the manufacturer to negotiate the sale.

4. Paragraph (h) of § 1408.12 is deleted and a new paragraph is substituted in its place to read as follows:

(h) *Additional charges allowed.* No additional charges other than those listed herein shall be allowed.

1. Paper packing: (Other than corrugated or indented) ½ cent per square foot additional.

2. Boxing.

Standard cases	Glass measurement: Up to and including 60 united inches	Glass measurement: Over 60 united inches
Rough rolled, figured, and wire glass less than ⅜" thick	$3.25	$4.30
Heat absorbing glass	3.25	4.30
Polished figured and polished wire	4.30	5.40

	⅜" thick	7/16" to ⅝" thick	¾" to 7/8"
Heavy figured and wire glass (not polished):			
Up to and including 100 square feet	$2.70	$3.25	$3.80
101 to and including 275 square feet	4.30		

Minimum cases:

Up to and including 40 united inches (glass measurement)	$0.55
41 to and including 60 united inches (glass measurement)	.80
61 to and including 100 united inches (glass measurement)	1.35
Over 100 united inches (glass measurement)	3.25

SPECIAL BOXING ON ORDERS LESS THAN STANDARD BUT OVER MINIMUM CASE[1]

	Boxing charge per sq. ft. of glass packed
Rough rolled, figured, wire and heat absorbing rolled glass:	
Up to and including ¼" thickness	$0.02
⅜" thickness	.02½
7/16", ½", and ⅝" thickness	.03
¾" and ⅞" thickness	.04
Polished figured and polished wire glass:	
7/32", ¼", and ⅜" thickness	.02½
7/16", ½", and ⅝" thickness	.03
¾" thickness	.04

[1] 8 percent may be added to the per square foot charges listed above.

3. Grinding, cutting and sandblasting.

	Up to and including ½" thickness	⅝" to ¾" inclusive
Rounding corners—per lineal inch	$0.00½	$0.00¾
Grinding edges—per lineal inch	.00½	.00¾
Cutting circles—per inch of diameter	.01¼	.01¾
	Up to 2,000 sq. ft.	2,000 sq. ft. and over
Sandblasting:		
Full face only—per sq. ft.	$0.05	$0.04
Both sides—per sq. ft.	.10	.08

Where the charge for grinding, cutting or sandblasting does not equal as much as ten cents per light, a charge of ten cents per light may be made for each operation.

For cutting to pattern the manufacturer may make the same charges which he would have made on October 1, 1941.

4. *Miscellaneous packaging.* Stock sheets (except polished wire) of more than one pattern, 1 cent per square foot over stock sheet price.

Stock sheets (except polished wire) or more than one width, 1 cent per square foot over stock sheet prices.

Stock sheets (except polished wire) of limited lengths, 1 cent per square foot over stock sheet prices.

Stock sheets (except polished wire) of less than 300 square feet, 1 cent per square foot over stock sheet prices.

5. LCL and LTL stock cases may be charged at 2 cents per square foot additional where shipment is to other than a jobber's own warehouse.

5. Paragraph (c) of § 1408.13 is amended so that that portion of the paragraph immediately preceding Tables 1 to 5 shall read:

(c) *Maximum prices for certain standard items of rolled and wire glass.* Manufacturers may add to the prices listed in the following tables not more than 4.4 percent.

6. Paragraph (d) of § 1408.13 is amended to read:

(d) *Maximum prices for rolled and wire glass not expressly listed above in Tables 1–5 of this Appendix B.* The maximum prices for rolled and wire glass not expressly listed above in Tables 1 to 5 of paragraph (c) of this Appendix B shall be such that the cost to the purchaser from a manufacturer shall not exceed by more than 4.4 percent what it was or would have been to such purchaser on October 1, 1941, (upon the basis of the prices, trade, quantity, and cash discounts, charges, deposits and allowances whether published or unpublished then listed or quoted by the manufacturer and upon the basis of the freight and delivery practices recognized by the manufacturer on October 1, 1941) for like quantities, thicknesses, patterns, grades, qualities, classes, types, kinds, shapes or sizes (bracket, cut, etc.) of such rolled and wire glass exclusive of any premium or charges or any other inducement that may then have been offered by the purchaser or demanded by the manufacturer to negotiate the sale.

7. A new § 1408.14 is added to read:

§ 1408.14 *Appendix C: Maximum prices for sales and deliveries of rolled and wire glass by jobbers and dealers.* The maximum prices for sales and deliveries of rolled and wire glass by jobbers and dealers shall be established in accordance with the provisions of §§ 1499.2, 1499.3, and 1499.18 of the General Maximum Price Regulation, except that any person purchasing rolled and wire glass for resale in the same form may add to his maximum price established on or prior to July 22, 1944, an amount not exceeding the actual dollars-and-cents increased cost incurred by him by reason of the increase in maximum prices permitted manufacturers by paragraphs (e), (f), and (h) of § 1408.12 and paragraphs (c) and (d) of § 1408.13 of this regulation, as amended.

This Amendment No. 2 shall become effective July 22, 1944.

PART 1499—COMMODITIES AND SERVICES

[Rev. SR 14 to GMPR, Amdt. 152]

POTASSIUM CHLORATE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 4.11 is amended to read as follows:

SEC. 4.11 *Potassium chlorate*—(a) *Applicability.* This section applies to sales and deliveries by new manufacturers thereof of potassium chlorate other than potassium chlorate meeting United States Army Specification No. 50-11-11B and Navy Specification O. S. No. 831.

(i) Contract sales, per 100 lbs., containers included, f. o. b. manufacturer's shipping point:

	International Minerals and Chemical Corporation	All other new manufacturers
20 tons or more	$15.75	$10.75
10 to, but not including, 20 tons	15.90	10.90
1 to, but not including, 10 tons	16.50	11.50
Less than 1 ton	17.00	12.00

(ii) *Spot sales.* For spot sales $1.00 per hundred pounds may be added to the maximum prices for contract sales established in subdivision (i) above.

(2) The maximum prices for potassium chlorate containing less than 99.5 per cent $KClO_3$ by weight shall be the prices computed by multiplying the maximum prices established in subparagraph (1) above for potassium chlorate containing at least 99.5 per cent $KClO_3$ by weight by the figure obtained by dividing by 99.5 the percentage by weight of $KClO_3$ in the potassium chlorate being priced. If the percentage by weight is less than 99.5 percent, the seller shall furnish the buyer with an invoice showing the percentage by weight of $KClO_3$ in the potassium chlorate delivered.

(c) *Definitions.* As used in this section, the term:

(1) "New manufacturer" means a manufacturer of commercial grade potassium chlorate who did not manufacture this commodity for sale prior to January 1, 1941.

(2) "Contract sale" means a sale to a single agency of the United States under a contract to purchase at least fifty tons of potassium chlorate or a sale to any other person under a contract to purchase at least fifty tons of potassium chlorate in approximately equal monthly installments over a period of one year from the date of such contract.

(3) "Spot sale" means a sale other than a contract sale.

(d) *Report.* Each new manufacturer of potassium chlorate shall file with the Office of Price Administration in Washington, D. C., on or before December 31, 1944 a report with respect to production and sales of potassium chlorate other than potassium chlorate meeting United States Army Specification No. 50-11-11B and Navy Specification O. S. No. 831 which shall include the following.

(1) Production of potassium chlorate in pounds, by months, during the six month period ending November 30, 1944.

(2) A statement of the cost of manufacturing potassium chlorate, by months, for the same period, showing material, labor, power, and factory overhead, in the detail, and broken down in the manner in which such statements are customarily prepared for management purposes by the company. In the event that allocations of packaging, outbound transportation, and general administrative and selling expense are made to the product, show the amount, and explain the method employed in making such allocation. If the cost figures submitted include amounts arising from the amortization of plant facilities at emergency rates, the amount of such emergency amortization shall be shown separately.

(3) Total number of pounds of potassium chlorate sold and total net dollar sales less all discounts paid and all transportation costs incurred by the seller, by months for the same period.

This amendment shall become effective July 22, 1944.

NOTE: The reporting requirement of this amendment has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 17th day of July 1944.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1499—COMMODITIES AND SERVICES

[MPR 188, Amdt. 7 to Order 1052]

HOUSEHOLD FURNITURE

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Order Nos. 9250 and 9328, Order No. 1052 under Maximum Price Regulation No. 188 is amended in the following respect:

1. Paragraph (b) is amended to read as follows:

(b) *What this order covers.* This order covers sales of articles of movable wood household furniture, including upholstered furniture, with the exception of certain articles mentioned in paragraph (c). As used in this order, household furniture means furniture which is primarily designed for and generally used in homes, such as living room, dining room, bedroom (including wood and fabric folding cots and cedar chests), kitchen, porch, outdoor and juvenile furniture (including cribs, high chairs and wooden bassinettes, bathinettes, play pens, porch and stair gates and infants' toilet seats). Articles of this type are covered by the order even though they are sold for use in places other than households, such as hotels, clubs, institutions and ships. This order also covers dining room, dinette, breakfast room, kitchen and bedroom chair frames, bedroom bench frames, and frames for upholstered furniture. Furniture known in the trade as unpainted furniture, which is ultimately sold to the consumer in that form is also covered.

2. Paragraph (c) (9) is deleted.

This amendment shall become effective July 18, 1944.

Issued this 17th day of July 1944.

JAMES G. ROGERS, Jr.,
Acting Administrator.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, War Department

PART 204—DANGER ZONE REGULATIONS

ST. JOSEPH PENINSULA, FLA., AREA

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), the following regulations are hereby prescribed to govern the use and navigation of waters of the Gulf of Mexico and St. Joseph Bay, in the vicinity of St. Joseph Peninsula, Florida, comprising an air to ground target range of the Army Air Forces Flexible Gunnery School, Tyndall Field, Panama City, Florida:

§ 204.89c *Waters of Gulf of Mexico and St. Joseph Bay, in vicinity of St. Joseph Peninsula, Fla.: Air to Ground Target Range, Army Air Forces Flexible Gunnery School, Tyndall Field, Panama City, Fla*—(a) *The danger zone.* An area in the Gulf of Mexico west of St. Joseph Peninsula and in St. Joseph Bay east of St. Joseph Peninsula, Florida, bounded as follows: Beginning at St. Joseph Point, Lat. 29°52'24", Long. 85°23'24"; thence southeasterly approximately 12 nautical miles to Cape San Blas, Lat. 29°40'00", Long. 85°21'36"; thence southwesterly approximately 8 nautical miles to Lat. 29°38'54", Long. 85°30'42"; thence northwesterly approximately 10 nautical miles to Lat. 29°48'36", Long. 85°32'12"; thence northeasterly approximately 8 nautical miles to the point of beginning. Firing will be in a southwesterly direction from St. Joseph Bay toward the Gulf of Mexico and across St. Joseph Peninsula.

(b) *The regulations.* (1) Firing will be conducted daily from 7:00 a. m. to 11:00 a. m. and 1:00 p. m. to 5:00 p. m., weather permitting, and no vessel or other craft shall enter or remain within the area during those hours.

(2) The fact that aerial target practice is to take place over the designated area will be advertised to the public through the usual media for the dissemination of information. Inasmuch as such practice is to be conducted throughout the year, without regard to season, such advertising will be repeated at frequent intervals not exceeding three months, and at more frequent intervals when, in the opinion of the Commanding Officer responsible for the use of the area, such frequent reptition is advisable in the interests of public safety.

(3) Prior to the conducting of each target practice the area will be patrolled by Army aircraft to insure that no watercraft are within the area, and any watercraft in the area will be warned by means of signals that target practice is about to take place. The patrol aircraft will employ the method of warning known as "buzzing" which consists of low flight by the airplane and repeated opening and closing of the throttle.

(4) Any such watercraft shall, upon being so warned, immediately leave the area and shall remain outside the area until the conclusion of the practice.

*Copies may be obtained from the Office of Price Administration.

(5) No marking of the area is proposed, and all aircraft and watercraft shall be presumed to know their location by distance and direction from land marks or other topographical features along the shore.

(6) These regulations shall be enforced by the Commanding Officer, Army Air Forces Flexible Gunnery School, Tyndall Field, Panama City, Florida, and such agencies as he may designate. (Sec. 7, River and Harbor Act Aug 8, 1917; 40 Stat. 266; 33 U.S.C. 1) [Regs. 6 July 1944 (CE 800.2121 (Mexico, Gulf of)–SPEWR)]

Chapter III—War Shipping Administration

PART 302—CONTRACTS WITH VESSEL OWNERS AND RATES OF COMPENSATION RELATING THERETO

[G. O. 37, Supp. 3]

VALUES AND RATES OF CHARTER HIRE

Section 302.107 *Values and rates* is amended as follows:

The introductory paragraph is amended to read:

§ 302.107 *Values and rates.* With respect to a collier built during the period 1914–1928 (both inclusive) the values shall be determined in accordance with the provisions of paragraph (a) of this section, and the rates of hire shall be determined in accordance with the provisions of paragraph (b) or (c) of this section, subject to the adjustments provided in § 302.108 of this order. The rates of time charter hire provided in paragraph (c) of this section shall apply only while the vessel is operated in the coal trade; for the period, if any, during which the vessel is operated in a service other than the coal trade, the rate of time charter hire shall be as specially determined by the Administrator. With respect to a collier built after 1928, the value and rate of hire shall be determined specially by the Administrator. Paragraph (b) is amended to read:

(b) *Rate of bareboat charter hire.* The basic rate of bareboat charter hire shall be $1.15 per deadweight ton per month. In cases where a vessel is, or was, delivered in a "where is, as is" condition the basic rate of bareboat charter hire shall not exceed $1.00 per deadweight ton per month, unless otherwise specifically agreed.

The table appearing in paragraph (c) (2) is amended to read:

Tonnage	Rate per deadweight ton per month	But the aggregate monthly service rate shall not exceed
14,500–14,999	$1.275	$18,785
14,000–14,499	1.30	18,485
9,000–9,999	1.85	16,800
8,500–8,999	1.95	16,950
8,000–8,499	2.05	16,575
7,500–7,999	2.15	16,400
7,000–7,499	2.25	16,125
6,500–6,999	2.35	15,750
6,000–6,499	2.50	15,275
5,500–5,999	2.70	15,000
5,000–5,499	2.90	14,850
4,500–4,999	3.10	14,500
4,000–4,499	3.30	13,950

Paragraph (a) of § 302.108 *Adjustments for speed, equipment, upkeep, and other considerations* is amended to read:

(a) *Speed.* With respect to vessels built during the period 1914–1934 (both inclusive), the values and the rates of bareboat and time charter hire shall be subject to the adjustments provided in subparagraphs (1) or (2) of this paragraph.

(1) *Allowances for speeds of 11 knots or over.* With respect to vessels having a speed of 11 knots or over there shall be added to the basic values provided in §§ 302.104 (a), 302.106 (a), and 302.107 (a), and to the rates of hire provided in §§ 302.104 (b), 302.106 (b), and 302.107 (b), the following amounts: (Since the bareboat rate is a component part of the time charter rate, the allowance will be reflected in the time charter rate.)

Speed		Additional value per deadweight ton	Additional hire per deadweight ton per month
Equal to or in excess of	But under		
11 knots	12 knots	$2.25	$0.03
12 knots	13 knots	5.00	.06
13 knots	14 knots	8.25	.10
14 knots	15 knots	12.00	.15
15 knots	16 knots	16.50	.20

(2) *Deductions for speeds of less than 9 knots.* With respect to a vessel having a speed equal to or in excess of 8 knots but under 9 knots, $5.00 per deadweight ton shall be deducted from the basic values provided in §§ 302.104 (a), 302.106 (a), and 302.107 (a), and $0.06 per deadweight ton per month shall be deducted from the rates of bareboat charter hire provided in §§ 302.104 (b), 302.106 (b), and 302.107 (b). (Since the bareboat rate is a component part of the time charter rate, the deductions will be reflected in the time charter rate.)

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the act are issued under section 14 thereof and § 522.5 (b) of the regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective as of the date specified in each listed item below.

The employment of learners under these certificates is limited to the terms and conditions as designated opposite the employer's name. These certificates are issued upon the employers' representations that experienced workers for the learner occupation are not available for employment and that they are actually in need of learners at subminium rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided for in the regulations and as indicated on the certificate. Any person aggrieved by the issuance of the certificates may seek a review or reconsideration thereof.

FEDERAL POWER COMMISSION.

[Docket No. G-556]

UNITED GAS PIPE LINE COMPANY

NOTICE OF APPLICATION

JULY 14, 1944.

Notice is hereby given that on July 5, 1944, an application was filed with the Federal Power Commission by United Gas Pipe Line Company ("Applicant"), a Delaware corporation doing business in the States of Alabama, Florida, Louisiana, Mississippi and Texas, with its principal business office at Shreveport, Louisiana, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to operate certain facilities owned by Interstate Natural Gas Company, Inc., for the transportation and sale for resale of natural gas, insofar as the same are subject to the jurisdiction of the Commission. The facilities which Applicant seeks authorization to operate include natural-gas pipe lines (referred to in the application as "field lines" and "tap lines") and appurtenant facilities in the State of Louisiana extending between Applicant's Scotland (Baton Rouge)-New Orleans main transmission pipe line and various gas wells and fields and customers' lines and premises adjacent to said main transmission line, which said pipe lines and appurtenant facilities are more particularly designated as follows:

(1) Natural-gas pipe lines extending to Applicant's said main transmission line respectively from the University Field, the LaPice Gas Field, the St. James Gas Field, the LaPlace Gas Field, the Prairieville Gas Field and the Hester Gas Field;

(2) Natural-gas pipe lines extending from Applicant's said main transmission line, and meter settings, by which natural gas is transported and sold (a) to Norco Gas & Fuel Company, Inc., for resale and delivery to consumers in the communities of Norco, Goodhope, Destrehan, New Sarpy, Lutcher, Paulina and Gramercy, Louisiana; (b) to The LaPlace Gas & Fuel Company, Inc., for resale and delivery to consumers in LaPlace, Louisiana; (c) to Village of Gonzales, Louisiana, for resale and delivery to consumers in said village; (d) to Reserve Public Utilities Corporation, for resale and delivery to consumers in Reserve, Louisiana; and (e) to Suburban Utilities, Inc., for resale and delivery to consumers in a portion of East Baton Rouge Parish, Louisiana;

(3) Natural-gas pipe lines extending from Applicant's said main transmission line to the following industrial customers: Colonial Sugars Company, Gramercy, Louisiana; Godchaux Sugars, Inc., Reserve, Louisiana; Mexican Petroleum Corporation, Destrehan, Louisiana; De-Haas-Eby Lumber Company, Inc., Sorrento, Louisiana; General American Transportation Company, Goodhope, Louisiana; Grass Products Company, Inc., Kleinpeter, Louisiana.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 31st day of July, 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's rules of practice and regulations under the Natural Gas Act.

LEON M. FUQUAY,
Secretary.

[Docket No. G-103]

UNITED GAS CORPORATION

NOTICE OF APPLICATION

JULY 15, 1944.

Notice is hereby given that on June 28, 1944, an application was filed with the Federal Power Commission by United Gas Corporation ("Applicant"), a Delaware corporation authorized to do business in the State of Texas, and having its operating division office at Houston, Texas, seeking an order granting a renewal of authorization, pursuant to section 3 of the Natural Gas Act, for the exportation of natural gas from Laredo, Texas, to the Republic of Mexico, for distribution in the City of Nuevo Laredo, State of Tamaulipas, and adjoining environs.

Applicant has heretofore been operating and maintaining facilities for the exportation of natural gas, and has been exporting natural gas, to the Republic of Mexico at Laredo, Texas, for distribution in said City of Nuevo Laredo and environs pursuant to a Presidential Permit issued on September 5, 1940, to United Gas Corporation, under Executive Order No. 8202, for the operation, maintenance and connection at the border of the United States of facilities for the exportation of natural gas to the Republic of Mexico, and an order of the Commission dated September 10, 1940, authorizing the exportation of natural gas from the United States to a foreign country. Said Presidential Permit authorized United Gas Corporation to operate and maintain two four-inch natural gas pipe lines, one extending from a point on the American shore in the City of Laredo, Texas, and thence on and along The Texas Mexican Railway Company's railroad bridge across the Rio Grande River to the International Boundary Line of the United States and the Republic of Mexico, and the other extending from Applicant's distribution system in the City of Laredo, Texas, and thence along Salinas and Water Streets in said city to a point on the north bank of the Rio Grande, and authorized a physical connection at the border of the United States and Mexico with pipe lines of the Compania de Gas de Nuevo Laredo, S. A., a Mexican corporation domiciled in the City of Nuevo Laredo, Mexico. Said Presidential Permit and order of the Commission respectively authorized the operation, maintenance and connection of facilities for the exportation of natural gas, and the exportation of natural gas, in accordance with the terms of an original contract for the purchase and sale of natural gas dated September 30, 1931, between Texas Border Gas Company (predecessor of Applicant) as seller and Compania de Gas de Nuevo Laredo, S. A., as buyer, as amended by letter dated October 10, 1934, to Compania de Gas de Nuevo Laredo, S. A., from United Gas Public Service Company (predecessor of Applicant).

The application recites that Applicant has negotiated and executed with Compania de Gas de Nuevo Laredo, S. A., a new contract which is to replace and supersede its previous contract; that the present facilities are inadequate to supply the present and the increased loads expected to be added by the Compania de Gas de Nuevo Laredo, S. A.; and that Applicant desires to replace that portion of the four-inch line extending from a point at Lincoln and Vidaurri Streets in the City of Laredo with a six-inch line extending from the same point to The Texas Mexican Railway Company's railroad bridge and thence paralleling the present four-inch line on and along the bridge to the International Boundary.

Applicant further requests that if, in the opinion of the Commission, the Presidential Permit will not cover the proposed six-inch line, such revisions in the Presidential Permit be made as may be required in the light of the contemplated construction.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 1st day of August, 1944, file with the Federal Power Commission a petition or protest in accordance with the provisional rules of practice and regulations under the Natural Gas Act.

Secretary.

KANSAS-NEBRASKA NATURAL GAS CO., INC.

NOTICE OF APPLICATION

JULY 17, 1944.

Notice is hereby given that on July 3, 1944, an application was filed with the Federal Power Commission by Kansas-Nebraska Natural Gas Company, Inc. ("Applicant"), a Kansas corporation having its principal business office at Phillipsburg, Kansas, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate a natural-gas pipe line of 12¾-inch outside diameter, approximately 16 miles in length, to extend from Applicant's compressor station west of Stockton, in Rooks County, Kansas, northwardly along or adjoining the route of Applicant's existing 6⅝-inch O. D. line extending northwardly from said compressor station to replace approximately 16 miles of said 6⅝-inch pipe line, which is to be removed.

The application recites that one of the primary purposes of the proposed construction is to assure the maintenance of efficient natural gas service for war, defense and essential civilian requirements in the areas in the States of Kansas and Nebraska served by Applicant.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 1st day of August, 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

OFFICE OF ALIEN PROPERTY CUSTODIAN.

[Vesting Order 14, Supp. Order 1]

SPUR DISTRIBUTING CO., INC.

Under the authority of the Trading with the Enemy Act, as amended, and the authority vested by the President in the Alien Property Custodian, and pursuant to law, the Alien Property Custodian:

First. (a) On June 4, 1942, issued Vesting Order Number 14 (7 F.R. 4399) finding that 73,039 shares of the common stock of Spur Distributing Co., Inc., (a Delaware corporation) registered in the name of Houvis & Co., and deposited with American National Bank, Nashville, Tennessee, as collateral for a loan made to Fritz von Opel, was the property of Nationals of a Foreign Country, as defined in Executive Order No. 8389, as amended, and declaring that such property including any and all interest therein was vested in the Alien Property Custodian;

(b) Hereby amends Vesting Order Number 14 as follows and not otherwise by finding and determining that the "Nationals of a Foreign Country" therein mentioned were at the time of the vesting and now are Wilhelm von Opel, Marta von Opel, Uebersee Finanz-Korporation, Aktien Gesellschaft, Fritz von Opel, Elinor von Opel Sachs and the issue of Elinor von Opel Sachs, and that they were and are nationals of a foreign country, namely Germany.

Second. (a) To the extent, if any, that any of the property listed in section First hereof, and full, complete and unqualified legal and equitable title, therein and thereto, was not vested in the Alien Property Custodian on June 4, 1942, by Vesting Order Number 14, the undersigned under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, and after investigation, finding:

1. That in accordance with an agreement dated October 5, 1931, signed by Wilhelm von Opel, Marta von Open and Fritz von Opel, a usufrucht estate was created for Wilhelm and Marta von Opel with contingent interests in Fritz von Open and Elinor von Opel Sachs, including their issue, with a further interest in Fritz von Opel of twenty percent of the dividends and interest of the usufrucht estate;

2. That in accordance with the aforesaid agreement, dated October 5, 1931, all of the capital stock of Uebersee Finanz-Korpora-

tion, Aktien Gesellschaft, a corporation organized under the laws of Switzerland, is a part of said usufrucht estate and is therefore beneficially owned by Wilhelm and Marta von Opel, with contingent interests in Fritz von Opel, Elinor von Opel Sachs and their issue;

3. That of the total outstanding capital stock of Spur Distributing Co., Inc., a corporation organized under the laws of the State of Delaware and a business enterprise within the United States, consisting of 139,000 shares of no par value common stock, 73,039 shares (52%) registered in the name of Houvis & Co., are also a part of said usufrucht estate and are held by Uebersee Finanz-Korporation, Aktien Gesellschaft, for the benefit of said Wilhelm and Marta von Opel, Fritz von Opel, Elinor von Opel Sachs and their issue, and are evidence of control of said business enterprise;

4. That Uebersee Finanz-Korporation, Aktien Gesellschaft, is acting for or on behalf of and is controlled by Wilhelm and Marta von Opel;

5. That Wilhelm von Opel and Marta von Opel, whose last known addresses are Ruesselsheim, Germany, are nationals of a designated enemy country (Germany);

6. That Fritz von Opel, a subject of Germany and a citizen of Liechtenstein, has been interned by order of the Attorney-General of the United States and is acting directly or indirectly for the benefit or on behalf of a designated enemy country (Germany) or persons within such country, and that said Fritz von Opel has no issue;

7. That Elinor von Opel Sachs, whose last known address was Germany, is a national of a designated enemy country (Germany);

8. That the issue of Elinor von Opel Sachs, whose last known addresses are Schweinfurt, Germany, are nationals of a designated enemy country (Germany);

and determining:

9. That Uberesee Finanz - Korporation, Aktien Gesellschaft is controlled by or acting for on on behalf of Wilhelm von Opel and Marta von Opel and is a national of a designated enemy country (Germany);

10. That Fritz von Opel is acting for or on behalf of a designated enemy country (Germany) or persons within such country and is a national of a designated enemy country (Germany);

11. That Spur Distributing Co., Inc., is controlled by or acting for or on behalf of Wilhelm von Opel and Marta von Opel and is a national of a designated enemy country (Germany);

12. That to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

and having made all determinations and taken all action, after appropriate consultation and certification required by law, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the 73,039 shares of no par value common stock of Spur Distributing Co., Inc., registered in the name of Houvis & Co., including any and all interest therein, together with any declared and unpaid dividends thereon, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

(b) Such property so vested by paragraph (a) of this section Second and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

(c) Any person except a national of a designated enemy country, asserting any claim arising as a result of this amendatory and supplemental order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

(d) The terms "national", "designated enemy country" and "business enterprise within the United States", as used herein, shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Third. This amendatory and supplemental order is corrective of and supplemental to, and in no way diminishes, restricts or limits the force and effect of, said Vesting Order Number 14, (7 F.R. 4399) and nothing herein contained shall diminish, restrict or limit any rights, titles or interests vested in the undersigned, as Alien Property Custodian, pursuant to said Vesting Order Number 14.

Executed at Washington, D. C., on July 11, 1944.

[Divesting Order 94]

MAURICE STERN

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

1. Having, on September 19, 1942, by Vesting Order No. 155 (7 F. R. 7764) vested certain securities listed and particularly described in Exhibit A attached hereto and made a part hereof, herein sometimes termed "the said property";

2. Having vested the said property, then the subject of litigation in the New York Courts, as property payable or deliverable to, or claimed by A. J. Stern & Cie, en liquidation, described in said order as a French corporation, which was determined in said order to be a national of a designated enemy country (Germany);

3. Having received thereafter a notice of claim (No. 367) pursuant to General Order No. 4 (7 F. R. 5539) which claim asserted that the claimant, Maurice Stern, had a right to the ownership and possession of the property described in Exhibit A attached hereto;

4. Having received no other claim or notice of claim on Form APC–1 or otherwise to the said property or to any interest therein, or arising as a result of said vesting order, and having no knowledge of any other intereet in such property of any national of any foreign country;

5. Having transmitted the said claim (No. 367) to the Vested Property Claims Committee and a hearing on the claim having been held pursuant to notice (8 F. R. 13690) and opportunity to be heard having been afforded to any person desiring to be heard; and having received and examined the record of said hearing;

6. Finding on the basis of said record that:

(a) The said property vested by Vesting Order No. 155 was owned at the date of vesting by Maurice Stern;

(b) Maurice Stern was at the date of vesting a citizen and national of France and was at that date and is now a resident of the United States;

(c) Maurice Stern was not at the date of vesting and is not now and has not been at any intervening time acting for or on behalf of an enemy country (including a designated enemy country within the purview of Executive Order No. 9095, as amended) or a person within any such country, and that the national interest of the United States does not require that he be treated as a national of a designated enemy country, and

(d) The aforesaid vesting resulted from mistakes of fact.

7. Having neither assigned, transferred, or conveyed to any one the said property or any part thereof or any interest therein, nor in any manner created any right or interest therein in any person whomsoever; and

8. Determining that the error committed in vesting the said property should be corrected by assigning and conveying the said property to said claimant;

Having made all determinations and taken all action required by law; and determining that under the aforesaid circumstances the disposition hereinafter effected is in the interest of and for the benefit of the United States and necessary and appropriate in the national interest.

Now, therefore, the Alien Property Custodian assigns, transfers, and conveys to the claimant, Maurice Stern, all the right, title, and interest of the Alien Property Custodian in and to the property described in Exhibit A attached hereto.

This Divesting Order shall not bar any person from the prosecution of any suit at law or in equity against the said claimant to establish any right, title, or interest which such person may have in said property. Nor shall the vesting and divesting by the Custodian be construed to diminish the interest which such person may have had, or to enlarge the interest which the claimant may have had, in said property at the time of vesting.

Executed at Washington, D. C., on July 11, 1944.

GERHARD ABRAMS

In re: Real property, an insurance policy, and a bank account owned by Gerhard Abrams.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That the last known address of Gerhard Abrams is Kieler and Market Streets, Wilhelmshaven, Germany, and that he is a resident of Germany and a national of a designated enemy country (Germany);

2. That Gerhard Abrams is the owner of the property described in subparagraph 3 hereof;

3. That the property described as follows:

a. Real property situated in Charleston, South Carolina, particularly described in Exhibit A, attached hereto and by reference made a part hereof, and identified as that property conveyed by Wm. McG. Morrison to Clarence B. Schachte by a certain deed recorded in the Register Mesne Conveyance Office of Charleston County State of South Carolina, in Book Y–36 at Page 389, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the beneficial interest in and the ownership of such property.

b. All right, title, interest and estate of Gerhard Abrams in and to the Fire and Windstorm Insurance Policy No. 14675 issued by the Insurance Company of the State of Pennsylvania, insuring the premises described in Exhibit A, attached hereto and by reference made a part hereof, and

c. The sum of $500, constituting a portion of a certain bank account in the Citizens and Southern National Bank of South Carolina, Charleston, South Carolina, which is due and owing to and held for Gerhard Abrams in the name of "Clarence B. Schachte for the account of Gerhard Abrams, a national of Germany," including but not limited to all security rights in and to any and all collateral for any or all of such account or portion thereof, and the right to enforce and collect the same.

is property within the United States owned or controlled by a national of a designated enemy country (Germany);

And determining that the property described in subparagraphs 3–b and 3–c hereof is necessary for the maintenance or safeguarding of other property (namely, that property described in subparagraph 3–a hereof) belonging to the same national of the same designated enemy country and subject to vesting (and in fact vested by this order) pursuant to section 2 of said Executive order;

And further determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action, after appropriate consultation and certification required by law, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 3–a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and hereby vests in the Alien Property Custodian the property described in subparagraphs 3–b and 3–c hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest, and for the benefit, of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account, or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on June 19, 1944.

JACOBS MFG. CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 151 under Maximum Price Regulation No. 64. Domestic cooking and heating stoves. Approval of maximum prices for sales of a new model magazine feed coal heater manufactured by Jacobs Manufacturing Company.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended and Executive Orders Nos. 9250 and 9328, and in accordance with sections 7 and 11 of Maximum Price Regulation No. 64, *It is ordered:*

(a) Jacobs Manufacturing Company, Bridgeport, Alabama, may sell and deliver the new model No. 44–20W magazine feed coal circulating heater which it manufactures at prices no higher than the following:

	Each
To wholesale distributors	$43.87
To "large dealers"	43.87
To "small dealers"	49.36

These prices are f. o. b. Bridgeport, Alabama, and are subject to terms, discounts, and allowances no less favorable than those in effect with respect to the comparable model No. 38–24W coal circulating heater.

(b) Any wholesale distributor may sell and deliver to retailers the model No. 44–20W magazine feed coal circulating heater manufactured by Jacobs Manufacturing Company, at a price no higher than $56.25 each, f. o. b. distributor's city.

(c) Any person may sell and deliver at retail the model No. 44–20W magazine feed coal circulating heater manufactured by Jacobs Manufacturing Company, at a price no higher than $89.95 each.

(d) At the time of or prior to the first invoice, after the effective date of this order for the sale of the model No. 44–20W coal heater described above to each purchaser for resale, Jacobs Manufacturing Company and every wholesale distributor shall notify the purchaser of the maximum prices and conditions set by this order for resales by the purchaser. This notice may be given in any convenient form. In addition, Jacobs Manufacturing Company shall, before delivering the model No. 44–20W coal heater, attach securely to each heater a tag or label which plainly states the retail ceiling price established by this order. This tag or label shall be attached to the front of the heater.

(e) The maximum prices established by this order are for sales and deliveries in the 48 states and the District of Columbia.

(f) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on July 15, 1944.

VISCHER PRODUCTS CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 1873 under § 1499.158 of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Approval of maximum prices for sales of a new pressure canner manufactured by the Vischer Products Company.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Price Administrator by the Emergeny Price Control Act of 1942, as amended, the Stablization Act of 1942, as amended and Executive Orders Nos. 9250 and 9328, *It is ordered:*

(a) This order establishes maximum prices for sales of a new pressure canner manufactured by the Vischer Products Company, 412 Orleans Street, Chicago, Illinois, and described in its application as Model No. 7.

(1) For sales and deliveries by the manufacturer on and after June 22, 1944, the maximum prices are those set forth below:

	Model No. 7 pressure canner with rack, jar lifter, and cook book.
To jobbers	$7.95
To retailers:	
In quantities of 2,000 or more	8.75
In quantities of 100 to 1,999	9.54
In quantities of less than 100	10.60

These prices are f. o. b. Chicago, Illinois, and are subject to a cash discount of 2% for payment within ten days, net thirty days.

(2) For sales and deliveries by jobbers to all purchasers for resale, on and after the effective date of this order, the maximum prices are those set forth below:

	Model No. 7 pressure canner with rack, jar lifter, and cook book
In Eastern Zone	$10.00
In Western Zone	11.00

These prices are f. o. b. seller's city, and are subject to terms, discounts, and allowances no less favorable than those customarily granted by the seller.

(3) For sales and deliveries at retail by any person on and after the effective date of this order, the maximum prices are those set forth below:

	Model No. 7 pressure canner with rack, jar lifter, and cook book
In Eastern Zone	$15.90
In Western Zone	16.50

(b) The manufacturer shall attach a tag or label to every pressure canner for which a maximum price is established by this order, which is shipped to a purchaser for resale on and after the effective date of this order. That tag or label must contain the following statement:

Eastern Zone O. P. A. retail ceiling price	$15.90
Western Zone O. P. A. retail ceiling price	16.50

This tag may not be removed until after delivery to the consumer.

(c) At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, the manufacturer and every jobber shall notify the purchaser in writing of the maximum prices and conditions established by this order for resales by the purchaser. This notice may be given in any convenient form.

(d) For purposes of this order the Western Zone includes the states of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming, and the following counties in Texas: El Paso, Hudspeth, Culberson, Jeff Davis, Presidio, Brewster, Terrell, Pecos and Reeves. The rest of the United States and the District of Columbia are in the Eastern Zone.

(e) Unless the context otherwise requires, the definitions set forth in § 1499.-20 of the General Maximum Price Regulation shall apply to the terms used herein.

(f) This order may be revoked or amended by the Price Administrator at any time.

This Order No. 1873 shall become effective on the 17th day of July 1944.

Issued this 15th day of July 1944.

DAY BROTHERS MFG. CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 1874, under § 1499.158 of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Approval of maximum prices for sales of a wooden step stool manufactured by Day Brothers Manufacturing Company.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries, of a wooden step stool manufactured by Day Bros. Mfg. Co., East Academy Street, Canisteo, New York.

(1) (i) For all sales and deliveries since the effective date of Maximum Price Regulation No. 188, by the manufacturer to retailers, and by the manufacturer to persons, other than retailers, who resell the article from the manufacturer's stock, the maximum prices are those set forth below:

Article	Model no.	Maximum price to persons, other than retailers, who resell from manufacturer's stock	Maximum price to retailers
Step stool	#4A	$1.87 each	$2.20 each.

These prices are f. o. b. factory and are subject to a cash discount of two percent for payment within ten days, net 30 days.

(ii) For all sales and deliveries by the manufacturer to any other class of purchaser or on other terms and conditions of sale, the maximum prices shall be those determined by applying to the prices specified in subparagraph (1) (i) of this paragraph (a), the discounts, allowances, and other price differentials made by the manufacturer, during March 1942, on sales of the same type of article to the same class of purchaser and on the same terms and conditions. If the manufacturer did not make such sales during March 1942 he must apply to the Office of Price Administration, Washington, D. C., under the fourth pricing method, § 1499.158, of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until authorized by the Office of Price Administration.

(2) (i) For all sales and deliveries on and after the effective date of this order to retailers by persons, other than the manufacturer, who sell from the manufacturer's stock, the maximum price is that set forth below, f. o. b. factory:

Article	Model No.	Maximum price to retailers
Step stool	#4A	$2.20 each.

This price is subject to a cash discount of two percent for payment within ten days, net 30 days.

(ii) For all sales and deliveries by persons who sell from the manufacturer's stock, to any other class of purchaser or on other terms and conditions of sale, the maximum prices shall be those determined under the applicable provisions of the General Maximum Price Regulation.

(b) At the time of or prior to the first invoice to each purchaser, other than a retailer, who resells from the manufacturer's stock, the manufacturer shall notify the purchaser for resale of the maximum prices and conditions established by paragraph (a) (2) of this order for such resales. This notice may be given in any convenient form.

(c) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 17th day of July 1944.

Issued this 15th day of July 1944.

[MPR 188, Order 1849]

UPHOLSTERED DUAL PURPOSE SLEEPING EQUIPMENT

APPROVAL OF MAXIMUM PRICES

Order No. 1849 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Maximum prices for sales of inner-constructions for sofa beds, studio couches, and other upholstered dual purpose sleeping equipment.

For the reasons set forth in the opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Order No. 9250 and 9328 it is ordered:

(a) *Purpose of this order.* The purpose of this order is to establish maximum prices for the sale of inner-constructions for sofa beds, studio couches, and other upholstered dual purpose sleeping equipment.

(b) *What this order covers.* This order covers all sales of inner-constructions for sofa beds, studio couches, and other upholstered dual purpose sleeping equipment.

Definitions of inner-constructions covered by this order. An inner-construction covered by this order is any combination of steel angles, flats, spring coils, wire, helicals, clips and other hardware which serves as the sleeping and sitting foundations for upholstered dual-purpose sleeping equipment. This order does not cover hinges or wood parts unless they are an integral part of the inner-construction.

(c) *Relationship of this order to other maximum price regulations.* This order replaces the pricing provisions (§§ 1499.153, 1499.154, 1499.155, 1499.156, 1499.157, 1499.158 and 1499.159) of Maximum Price Regulation No. 188 as to manufacturers and the pricing provisions (§§ 1499.2 and 1499.3) of the General Maximum Price Regulation for all sales and deliveries of articles covered by this order after the effective date of this order.

(d) *Maximum prices for basic models of inner-constructions for sofa beds, studio couches and other upholstered dual purpose sleeping equipment.* The table below lists the specifications and the manufacturer's f. o. b. factory l. c. l. maximum prices for certain basic models of inner-constructions for sofa beds and studio couches. These prices shall be subject to the discounts, allowances and other price differentials and the terms of sale which the manufacturer made from his regularly quoted f. o. b. factory l. c. l. prices to his customers on sales of the most comparable inner-construction or innerspring unit during March 1942. The term "most comparable"

means that inner-construction or unit for which the manufacturer's regularly quoted f. o. b. factory l. c. l. price to his customers in March 1942 is nearest in amount to the manufacturer's f. o. b. factory l. c. l. maximum price established under this order for the inner-construction being priced. "Regularly quoted f. o. b. factory l. c. l. price" is the highest price at which a manufacturer made a substantial number of sales or deliveries during March 1942.

(1) *Sofa bed construction, innerspring type.*

Hinged or 2 piece type ---------- 2.65 each

Coils—Seat—90 double cone #13 ga. high carbon wire 5" or higher min. wt. 7 lb.
Back—72 double cone #13 ga. high carbon wire 5" or higher min. wt. 6 lb.
Top ties—Screw coils #18 ga. high carbon wire or equivalent
Top border wire—#7 ga. low carbon wire or #9 ga. high carbon wire, or 12 ga. high carbon wire inserted in a screw coil
Minimum steel weight 18 lb.

(2) *Sofa bed construction, single cone wire bottom type.*

Hinged or 2 piece type ---------- 2.95 each

Coils—Seat section 40 single cone, #11 high carbon wire 5" or higher min. wt. 7 lb.
Back section 30 single cone, #11 high carbon wire 5" or higher min. wt. 6 lb.
Top ties—Crimp—15 ga. low carbon wire or Helical—#17 ga. high carbon wire
Border wire—Crimp top—#9 low carbon wire. Helical top—#7 high carbon wire
Cross braces—Helical top only—4 #11 ga. high carbon wire or equiv.
Bottom crimps—#10 ga. high carbon wire 1 way. #9 ga. low carbon wire 1 way
Minimum total steel weight 22 lbs.
Minor changes may be made in wire gauge, number and gauge of coils, and other construction details which will not:
1. Reduce the cost more than 3%
2. Lower the minimum steel weights
3. Impair the serviceability of the unit provided that within 30 days of first shipment of such item a detailed report of such changes be filed with the Office of Price Administration, Washington, D. C.

(3) *Studio couch construction, coil base and flat spring under-section or drop back,* $4.85 ea.

Seat section:
Rear rail—1¼" x 1¼" x ⅛" rail angle or equivalent
Rear legs—1¼" x 1¼" x ⅛" rail angle or equivalent
Corner braces—⅞" x 12 ga. band
Cross slats—⅞" x 12 ga. band stock under each row of coils or 3—¾" x ¾" x ⅛" rail angle all others #9 Bessemer wire or 3—1" x ⅛" bands, all others #9 Bessemer wire
Front legs—1⅜" x 1⅛" x ⅛" rail angle
Front corner brackets—⅛" x 3" band steel
Casters
Coils—40 #11½ ga. high carbon spring wire min. wt. 5½ lb.
Top crimps—#14 ga. low carbon steel wire

Border crimps—#14 ga.
Long bottom crimps—#11 ga. low carbon wire
Back section or under-section:
Rim—1¼" x 1¼" x ⅛" rail angle
Back rail—1¼" x 1¼" x ⅛" rail angle
Legs—¾" x ¾" x ⅛"
Fabric—Standard 2" x 4" link attached by helicals or equivalent or band and helical—bands ⅝" x .020" (Min. 6 long bands, 4 cross bands)
Back section or under-section—Continued.
Finish—oil base paint
Minimum total steel weight 42 lb.
Minor changes may be made in wire gauge, number and gauge of coils, and other construction details which will not:
1. Reduce the cost more than 5%
2. Lower the minimum steel weights
3. Impair the serviceability provided that within 30 days of first shipment a detailed report of such changes be filed with the Office of Price Administration, Washington, D. C.

(e) *Maximum prices which cannot be established under paragraph (d).* The maximum price for any or delivery of an inner-construction which cannot be determined under paragraph (d) of this order (for example, for a different model or a new class of purchaser) shall be a price fixed by order of the Price Administrator, in line with the level of maximum prices established by this order. No person may sell, offer to sell or deliver an article for which a maximum price must be established under this paragraph until a price has been specifically authorized by order of the Office of Price Administration. If in violation of this provision, a sale, offer to sell, or delivery of an article is made before the issuance of an order by the Price Administrator specifically authorizing a maximum price for the article, the maximum price applicable to the sale, offer to sell or delivery shall be such maximum price as the Price Administrator may establish for the article by subsequent order. An application by a manufacturer for the establishment of a maximum price under this paragraph shall be made to the Office of Price Administration, Washington, D. C., and shall contain the following information:

(1) Identifying number or trade name of article to be priced.

(2) The reasons why the article cannot be priced under paragraph (d) of this order.

(3) Detailed specifications and illustration of the article to be priced.

(4) An itemized breakdown of the manufacturer's current unit direct cost of the article to be priced, showing separately according to his own system of accounts or regularly prepared operating statements all major component unit direct cost factors. For the purpose of this order, unit direct costs include direct labor and direct material costs but do not include factory burden (sometimes called factory overhead or indirect manufacturing expenses), packaging and crating costs, royalties and patterns, tool and die cost and items of administrative, general and selling expenses. Also, state the number of units of production upon which the unit direct costs were based.

(5) An itemized breakdown of the manufacturer's current unit direct cost (as described in (4) above) of the basic model in paragraph (d) of this order which is most nearly comparable to the article being priced.

(6) Price lists in effect during March 1942 showing: The article most nearly comparable to the article being priced, with illustrations; the article most nearly comparable to the basic model mentioned in (4) with illustrations; all price differentials covering variations in these constructions. If the manufacturer was not making and selling inner-constructions in March 1942, send the first price list which was in effect after March 1942, together with illustrations.

(7) A statement of the manufacturer's customary discounts, allowances, price differentials and terms of sale to different classes of purchasers in effect for sales of inner-constructions during March 1942; or if the manufacturer was not making and selling inner-constructions during March 1942, the same information for the first period after March 1942 during which the manufacturer was engaged in this business.

(8) Requested maximum price of the article to be priced.

(f) *Sales slips, receipts, and invoices.* After the effective date of this order, every seller making a sale of an article covered by this order shall furnish the purchaser with a sales slip, receipt, invoice or other similar written evidence of purchase showing:

(1) Date of sale
(2) Name and address of buyer
(3) Terms of sale
(4) Quantities sold of each item
(5) Identification of each item
(6) Price for each item
(7) Nature and amount of any additional charges

This sales slip, receipt or invoice or other written evidence of purchase shall be kept by the purchaser and a copy of it kept by the seller for inspection by the Office of Price Administration.

This order shall become effective on the 20th day of July 1944.

NOTE: The record-keeping and reporting provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 15th day of July 1944.

[Portland Order G-5 Under 18 (c)]

FIREWOOD IN DESIGNATED COUNTIES IN OREGON

Order No. G-5 under § 1499.18 (c), as amended, of the General Maximum Price Regulation. Adjusted maximum prices for firewood in certain areas in Lincoln, Yamhill, and Marion Counties in the State of Oregon.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Office of Price Administration by § 1499.18 (c), as amended, of the General Maximum Price Regulation: *It is hereby ordered:*

(a) The maximum prices as established by section 2 and 3 of the General Maximum Price Regulation or by any order issued pursuant to such regulation, or by any supplementary regulation thereto, for the sale and delivery of the types of firewood specified below, are hereby adjusted so that the maximum prices therefor shall be:

Area	Type of firewood	Maximum price per cord delivered to premises of buyer
That portion of Lincoln County in the State of Oregon included in the election precincts of Ocean Lake, Devils Lake, Taft, and that part of Kern north of a line running due east from the coast through a point three miles south of the City of Depoe Bay. This area includes such cities as: Otis, Neotsu, Oceanlake, DeLake, Nelscott Beach, Taft, Cutler City, Kernville, Gleneden Beach, Lincoln Beach and Depoe Bay.	12" and 16" old growth fir	11.00
That portion of Yamhill County in the State of Oregon bounded by a line three miles west of and running parallel to U. S. Highway No. 99W, the south bounds of Yamhill County, the Willamette River and State Highway No. 219 and that portion of Marion County in the State of Oregon bounded by the Willamette River, State Highway No. 219 and a road running due east from Fairfield to State Highway No. 219 excluding the City of Newberg, but including the cities of Amity, Whiteson, McMinnville, Lafayette, Dundee, Dayton, and St. Paul.	4' #1 old growth fir cordwood	8.75
	12"-16" #1 old growth fir cordwood.	10.00
	4' #2 old growth and 2d growth cordwood.	8.25
	12"-16" #2 old growth and 2d growth cordwood.	9.50
	4' oak cordwood	10.00
	12"-16" oak cordwood	11.75

(b) No seller shall evade any of the provisions of this Order No. G-5 by changing the customary allowances, discounts, or other price differentials unless such change results in a lower price.

(c) *Invoices and records.* Every person making a sale of firewood for which a maximum price is set by this order shall give the purchaser or his agent at the time of the sale an invoice or other memorandum of sale, which shall show:

(1) The date of sale.
(2) The name and address of the buyer and seller.
(3) The quantity of firewood sold.
(4) Description of firewood sold, in the same manner as it is described in this order. (This shall include the kind of wood, i. e., hard, soft, or mixed, and length of pieces of wood.)
(5) Place of sale. (If the price is dependent on place of delivery, then the place of delivery shall be stated.)
(6) The total price of the wood. On the invoice or memorandum, a separate statement shall be made of any discounts and of each service rendered such as delivery, carrying, and stacking, and the charge made for each such service.

The seller shall keep an exact copy of such invoice or memorandum for a period of two years and such copy shall be available for inspection by the Office of Price Administration.

(d) This order may be revoked, amended, or corrected at any time.

This district Order G-5, which supersedes regional Order G-38, shall become effective July 6, 1944.

NOTE: The record keeping provision of this order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

3617—2317	35.00
424—1608	21.00
426—1764	25.00
429—2000	28.00
4213—2313	35.00
4217—2627	38.00
4220—2862	40.00

2. The maximum prices determined above for sizes 3012 to 4220 inclusive are based on the use of 200 test paper. Where any size 3012 to 4220 inclusive is sold in non-test construction, the prices set forth above shall be discounted by 10 percent.

3. The area listed for each size number is the minimum area. Each jobber shall continue to sell each size number in the area and inside dimensions in which he sold it in March 1942, but not containing less than the minimum area above set forth. In the event that he reduces the inside dimensions, then the price established above shall be reduced in proportion to the extent of the reduction in cost.

4. The prices listed are subject to the discounts or terms customarily extended by each jobber. No jobber shall change his customary discounts or terms unless such change will result in prices lower than the prices authorized in paragraph (1) of this order.

5. No charge shall be made for delivery to any point within the Borough of Manhattan, City of New York. For deliveries outside of Manhattan, no purchaser shall be required to pay and no purchaser may pay a greater share of the cost of delivery than was charged by the seller during March 1942 to a purchase of the same class.

6. The term "jobber" as used herein shall mean a person who purchases one-piece corrugated garment boxes for the purpose of resale in substantially the same form. It shall not include any distributor subject to Maximum Price Regulation 349; nor any jobber not established in business in the County of New York as of the effective date of this order.

7. The term "200 test paper" as used herein shall mean paper which when submitted to a bursting test has proved a tensile strength of not less than 200 pounds per square inch.

8. Any person affected by this order may file a protest in the manner provided in Article V of Revised Procedural Regulation #1.

9. This order may be revoked, amended or corrected by the Regional Administrator or the Price Administrator through the issuance at any time hereafter of any order or Price Regulation or amendment or supplement thereto.

10. A copy of this order has been filed today with this Office where it is available for inspection by the public.

11. This order shall become effective immediately.

[Region II 2d Rev. Order G-26 Under RMPR 122]

SOLID FUELS IN NEW YORK REGION

Second Revised Order No. G-26 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Permitted increases in maxi-

mum prices for "Silver Brook", "Salem Hill", and other specified anthracite sold subject to designated area dollars-and-cents orders.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, *It is ordered:*

(a) Dealers making sales of the anthracite specified in subparagraph (1) hereunder, in communities subject to the area dollars-and-cents orders listed in paragraph (c) of this order, may redetermine the maximum price for sales of such anthracite in accordance with the following provisions:

(1) There may be added to the maximum per net ton prices for designated sizes of anthracite established in those orders, for sales and deliveries within the territorial limits of those orders, an amount not to exceed the following:

FOR SALES OF "SILVER BROOK" ANTHRACITE

Permitted per net town increase above applicable area ceiling price for anthracite

Size:	
Broken, egg, stove, nut, pea and Buckwheat	$0.45
Rice	.35

FOR SALES OF COAL MARKETED AS "THE ONLY GENUINE FRANKLIN COAL OF LYKENS VALLEY"

Size:	
Broken	$0.75
Egg	1.00
Stove	1.25
Nut	.30
Rice	.10

FOR SALES OF "SALEM HILL" ANTHRACITE

Size:	
Egg and stove	$0.85
Nut	.45
Pea	.40
Rice	.20

FOR SALES OF ANTHRACITE PRODUCED AND PREPARED BY PENN COLLIERIES COMPANY

Size:	
Broken, egg, stove, nut and pea	$0.35
Buckwheat	.20
Rice	.10

FOR SALES OF ANTHRACITE PREPARED BY DRAGONDALE COAL CORPORATION AT ITS DRAGONDALE BREAKER (FOR TRUCK SHIPMENTS ONLY)

Size:	
Broken, egg, stove, nut, pea and buckwheat	$0.50
Rice	.40
Barley	.05
Buckwheat #4	.10

(2) For sales of fractions of a net ton, but not less than ¼ ton, dealers may take a proportionate increase based upon the per net ton increase in the preceding subparagraph.

(3) *Conditions and limitations; commingling.* To be eligible for the increases authorized by paragraph (a) of this order, the dealer must keep each kind of anthracite specified herein separate, in storage and delivery, from any other kind of solid fuel, and sell and invoice it under the name herein designated, except that a dealer, if he satisfies the following conditions, may commingle different kinds of fuel including those herein specified, and price as indicated.

Where a purchaser expressly requests that any kind or size of anthracite specified herein be commingled in one delivery with another kind or size of anthracite specified herein, or with any other kind or size of solid fuel, then, and in that event, if those kinds and sizes are separately weighed at the point of loading, the dealer may commingle those kinds and sizes in the truck or other vehicle in which the delivery is made. The maximum price for solid fuels so commingled shall be the weighted average of the maximum prices for each element in the combination. The invoice shall separately state the maximum price for the quantity of each kind and size in the combination.

Where anthracite specified herein is commingled under conditions other than above defined, the maximum price for the combination shall be the maximum price established by regulation or order for the least expensive kind or size of fuel in the combination.

(b) *Alternative pricing provision; application for a price.* Dealers making sales of the anthracite specified in paragraph (a) (1), in communities subject to the area dollars-and-cents orders listed in paragraph (d), who prefer to commingle such anthracite with other anthracite and not to keep it separate in storage and delivery, and who would thereby not be eligible to take the automatic increases permitted under paragraph (a) hereof, may apply to the New York Regional Office of the Office of Price Administration for adjustment of their maximum prices for all anthracite sales to compensate for the increased cost of such specified anthracite.

An application may be filed between the first and tenth day of each month based upon the proportions of anthracite having different mine costs received during the previous calendar month and should request an adjusted price for a one-month period. Such application shall be in writing and set forth the following:

(i) Total tonnage of all anthracite received by the dealer during the previous calendar month.

(ii) Tonnage of anthracite specified in paragraph (a) (1) received during the previous calendar month.

(iii) State separately the tonnage of any higher cost anthracite received during the previous calendar month and subject to Regional Order No. G–34 (or any revisions thereof) under Revised Maximum Price Regulation No. 122, identifying such in the manner described therein.

(iv) Proposed increase above area ceiling price.

(v) Any other pertinent information the Regional Administrator may request.

The Regional Administrator will either grant or deny the application, in whole or in part, in the light of the estimated average increase in supplier's maximum prices for anthracite, based on dealer's total anthracite receipts during the previous calendar month, as compared with supplier's maximum prices established by § 1340.200 (a) (1) of Maximum Price Regulation No. 112. The order may incorporate appropriate provisions for recalculation of the permitted increase based upon changing mine costs.

(c) *Records.* Every dealer making sales of solid fuels subject to this order shall preserve, keep, and make available for examination by the Office of Price Administration complete and accurate records of the quantities of the specified anthracite purchased and sold hereunder, and a record of every sale of such fuel, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in this order. Where such fuel is sold in combination with solid fuels not subject to this order, the latter shall be identified in the manner described in the regulation or order governing their sale by dealers. The record shall also state separately each service rendered and the charge made for it.

(d) *Area dollars-and-cents orders subject to increases set out in paragraph (a) herein:*

Order No. 50 under Revised Maximum Price Regulation No. 122. (Issued by the National Office.)

(e) *Definitions and explanations.* When used in this Second Revised Order No. G–26, the term:

(1) "Silver Brook" anthracite means anthracite produced by the Haddock Mining Company of Wilkes-Barre, Pennsylvania, at the Deringer Colliery, Fern Glen, Luzerne County, Pennsylvania, and the Tomhicken Colliery, Sugar Loaf Township, Luzerne County, Pennsylvania, which is shipped to the Beaver Meadow Breaker, Beaver Meadows, Carbon County, Pennsylvania, for preparation, and which is marketed under the trade name "Silver Brook".

(2) "Salem Hill" anthracite means anthracite produced by the Haddock Mining Company at the Salem Hill Colliery, Schuylkill County, near Pottsville, Pennsylvania, and marketed under the trade name "Salem Hill."

(3) "The Only Genuine Franklin Coal of Lykens Valley" means anthracite prepared at the Williamstown Breaker of the Franklin-Lykens Coal Company, Ashland, Pennsylvania, and marketed under the trade name "The Only Genuine Franklin Coal of Lykens Valley."

(4) "Anthracite produced and prepared by Penn Collieries Company" refers to anthracite taken from mines now operated by said company in Lackawanna County, Pennsylvania, and prepared by it at the Von Storch Colliery. "Penn Collieries Company" refers to the company by that name whose principal office is in Scranton, Pennsylvania.

(5) "Anthracite prepared by Dragondale Coal Corporation, etc." refers to anthracite prepared by that corporation at its Dragondale Breaker, Mount Carmel, Pennsylvania, for truck shipments only.

(6) The sizes of anthracite described herein as broken, egg, stove, nut, pea, buckwheat, rice, barley, and buckwheat #4 shall refer to the same sizes of the same fuel as were sold and delivered with such designation during December 1941.

(7) Except as otherwise provided herein, or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to terms used herein.

(f) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke, or rescind this Second Revised Order, or any provision hereof, at any time.

(g) Revised Order No. G–26 under Revised Maximum Price Regulation No. 122, as issued on March 11, 1944, and as thereafter amended, is hereby revoked in full as of the effective date of this order.

This Second Revised Order No. G–26 shall become effective July 5, 1944.

NOTE: The record-keeping and reporting requirements of the order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Region II Rev. Order G–34 Under RMPR 122]

SOLID FUELS IN NEW YORK REGION

Revised Order No. G–34 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Permitted increases in maximum price for Pennsylvania anthracite sold subject to area dollars-and-cents orders, based on higher mine costs for specified anthracite.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administrattion by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is ordered:

(a) *Who may take the increase provided by this order.* Any dealer subject to the area dollars-and-cents orders enumerated in paragraph (d) who, during the previous calendar month, received higher priced anthracite specified below, may increase his maximum prices for sales of anthracite as provided in paragraph (b) hereof. There shall be a monthly recalculation to determine whether an increase is permissible in any given month based on anthracite received during the previous calendar month. The following specified anthracite establishes the basis for an increase under this order:

GROUP I

Anthracite produced and prepared by Delano Anthracite Collieries Co., Ashland, Pa.

Anthracite produced and prepared by the Payne Coal Company, Wilkes Barre, Pennsylvania, at its Exeter Colliery, and marketed under the trade name "Orange Disc Anthracite."

Anthracite produced and prepared by the Dial Rock Coal Company, Scranton, Pennsylvania, for truck shipments only, and marketed under the trade name "Dial Rock Coal."

Anthracite produced by the Hazel Brook Coal Company from its Continental Mines and the property of Raven Run Coal Company, prepared at its Midvalley Breaker, and marketed under the trade name "Raven Run Coal".

GROUP II

Anthracite produced and prepared by the East Bear Ridge Colliery Company, Scranton, Pennsylvania.

Anthracite prepared at Jeddo #7 and Highland #5 breakers of the Jeddo Highland Coal Company, Jeddo, Pennsylvania, and marketed under the trade name "Jeddo Coal", "Highland Coal", or "Hazel Brook Coal".

Anthracite produced and prepared by the Dial Rock Coal Company, Scranton, Pennsylvania, for rail shipments only, and marketed under the trade name "Dial Rock Coal".

(b) *Automatic increases permitted by this order.*

(1) Any dealer whose receipts of Group I anthracite, specified in paragraph (a) hereof, during the previous calendar month equalled or exceeded 35% of all anthracite received by him during that month, may add 5¢ per net ton to the maximum prices established by the area order governing his sales of anthracite, for all sizes except screenings.

(2) Any dealer whose receipts of Group II anthracite, specified in paragraph (a) hereof, during the previous calendar month equalled or exceeded 15% of all anthracite received by him during that month, may add 5¢ per net ton to the maximum prices established by the area order governing his sales of anthracite, for all sizes except screenings.

(c) *Application for additional price increase.* Any dealer whose receipts of Group I anthracite during the previous calendar month exceeded 75%, or whose receipts of Group II anthracite during the previous calendar month exceeded 30%, of all anthracite received by him during that month, may apply to the New York Regional Office of the Office of Price Administration for an additional increase. An application may also be filed where the dealer feels that the combined percentage of Group I and Group II anthracite received during the previous calendar month warrants an adjustment in maximum price beyond that authorized by the automatic increase provisions of paragraph (b).

Applications may be filed under this paragraph (c) between the first and tenth day of each month, based upon the proportions of anthracite having different mine costs received during the previous calendar month, and should request an adjustment for a one-month period. Such application shall be in writing and set forth the following:

(i) Total tonnage of anthracite received by the dealer during the previous calendar month.

(ii) Tonnage of Group I and Group II anthracite specified in paragraph (a) received during the previous calendar month, identified as described therein.

(iii) Proposed increases on anthracite sales above area ceiling prices.

(iv) Any other pertinent information the Regional Administrator may request.

The Regional Administrator will either grant or deny the application, in whole or in part, in the light of the estimated average increase in supplier's maximum

prices for anthracite, based on dealer's total anthracite receipts during the previous calendar month, as compared with supplier's maximum prices established by § 1340.200 (a) (1) of Maximum Price Regulation No. 112. The order may incorporate appropriate provisions for recalculation of the permitted increase based upon changing mine costs.

(d) *Area dollars-and-cents orders subject to increases provided herein:*

ILLINOIS POWER COMPANY

ORDER CONCERNING PAYMENT OF FEES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of July 1944.

The Commission having issued a memorandum opinion and supplemental order in the above-styled and numbered proceedings on March 14, 1944, in which jurisdiction was reserved with respect to the payment of all legal fees and expenses and the fees of The First Boston Corporation incurred in connection with the refunding by Illinois Power Company of its Series A, 6% First and Refunding Mortgage Bonds, due April 1, 1953, in the principal amount of $30,681,500 and its Series C, 5% bonds of the same designation due December 1, 1956, in the principal amount of $39,175,100; and further hearings having been held, after appropriate notice to all interested persons, with respect to such fees and expenses on June 29, 1944; and

The Commission finding that the following legal fees are not unreasonable for the services rendered in connection with said refunding; Pam, Hurd and Reichman, as attorneys for Illinois Power Company, in the amount of $40,000; Bell, Boyd and Marshall, as attorneys for the trustee under the indenture relating to the 30-year 5½% Sinking Fund Debentures of Illinois Power Company in the amount of $2,500; and Anderson, Gilbert, Wilfort, Allen and Bierman, as attorneys for Illinois Terminal Railroad Company and Central Terminal Company, subsidiaries of Illinois Power Company, in the amount of $5,500; and

The Commission further finding that a fee in the amount of $27,500 to The First Boston Corporation for its services as financial adviser to Illinois Power Company in connection with said refunding, and a further fee in the amount of $75,000 to said corporation for its services with respect to the sale of the new First Mortgage and Collateral Trust Bonds, 4% Series due November 1, 1973, in the principal amount of $63,000,000 are not unreasonable;

It is ordered, That jurisdiction be and the same is hereby released with respect to payment of the aforesaid fees in the amounts designated.

It is further ordered, That jurisdiction be and the same is hereby reserved with respect to the payment of the fees of Donovan, Leisure, Newton and Lumbard, attorneys for the purchasers of the new bonds.

By the Commission.

BIRMINGHAM GAS COMPANY

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of July, A. D. 1944.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Birmingham Gas Company, a gas utility company and a subsidiary company of American Gas and Power Company and Community Gas and Power Company, registered holding companies.

All interested persons are referred to said declaration or application, which is on file in the office of the Commission, for a statement of the transactions therein proposed, which are summarized below:

By order dated March 13, 1941 (File No. 70-249), this Commission granted an amended application of Birmingham Gas Company and permitted its amended declaration to become effective, regarding the issuance and sale on April 1, 1941, of $5,850,000 principal amount of its first mortgage bonds, 3⅞% Series due 1971. Said amended application and declaration contained a restriction and condition providing, in part, that from the date of issuance of said bonds, Birmingham Gas Company would not, so long as the ratio of its outstanding funded debt to the amount of its net property should exceed 50%, declare or pay any dividend on its common stock (other than dividends payable solely in shares of such stock) without first obtaining consent of this Commission to such dividend declaration and payment. The bonds were issued and sold, and $5,780,000 principal amount thereof is now outstanding.

The company desires that this restriction shall be amended and modified to read and provide in part substantially as follows:

So long as the ratio of applicant's outstanding funded debt to the amount of its net property shall exceed 50%, applicant will not (i) declare or pay any dividends on its common stock in excess of 50% of its net earnings available for dividends on common stock to be computed from January 1, 1944, up to the end of the calendar month immediately preceding that in which it is then proposed to declare such dividend, nor (ii) declare or pay any dividends on its common stock in excess of 60¢ per share in any twelve-month period commencing January 1, 1944, nor (iii) make any payment or distribution on such common stock (by purchase or otherwise, in money or other property other than as permitted by (i) and (ii) above—in each case pending the further order or orders of the Commission. • • •

As a part of the transaction, applicant proposes to redeem $150,000 principal amount of its First Mortgage Bonds, 3⅞% series Due 1971, on or before September 1, 1944, at 109.28% of their principal amount, plus accrued interest, as permitted by the Indenture of Mortgage (section 9, Article Two). Said bonds shall be in addition to the bonds required by Article Eleven of said indenture to be retired by sinking fund and shall not be usable for any purpose nor to meet any requirement of the indenture.

The ratio of Birmingham Gas Company's outstanding bonds to its net property, per books, after giving effect to the proposed redemption of bonds, is less than 60%. Birmingham Gas Company states that the proposed modification of the common stock dividend restriction will permit the company to place its common stock on a regular dividend basis, thereby facilitating compliance by American Gas and Power Company with the Commission's Order of July 2, 1943 (File No. 59-55) directing disposition of the common stock of Birmingham Gas Company (62.82% of total outstanding) held by American Gas and Power Company and permitting Birmingham Gas Company to meet its future capital requirements by issuance and sale of additional common stock.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said matters, and that said declaration and application shall not be permitted to become effective or granted except pursuant to further order of the Commission;

It is ordered, That a hearing on said matters under the applicable provisions of said act and the rules of this Commission thereunder be held on July 27, 1944, at 2:00 p. m., e. w. t., at the offices of this Commission, 18th and Locust Streets, Philadelphia, Pa. On such date the hearing room clerk in Room 318 will advise as to the room in which said hearing will be held. At such hearing, cause shall be shown why such declarations shall be permitted to become effective and such applications granted.

It is further ordered, That Robert P. Reeder or any other officer or officers of this Commission designated by it for that purpose shall preside at the hearings on such matters. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues otherwise to be considered in the consolidated proceedings, particular attention will be directed at the hearings to the following matters and questions:

1. Whether the proposed transactions are in the public interest or in the interest of investors and consumers and whether in all respects the proposed transactions comply with all the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules, regulations and orders promulgated thereunder.

2. Whether and to what extent it is necessary or appropriate in the public interest to impose terms or conditions in regard to the accounts of Birmingham Gas Company, or otherwise in connection with the proposed transactions.

It is further ordered, That notice of said hearing is hereby given to Birmingham Gas Company, to American Gas and Power Company, to their security holders, and to all interested persons; said notice to be given to Birmingham Gas Company and American Gas and Power Company by registered mail, and to all other persons by publication of this notice and order in the FEDERAL REGISTER and by a general release of this Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

It is requested that any person desiring to be heard in these proceedings shall file with the Secretary of this Commission on or before July 24, 1944, an appropriate request or application to be heard, as provided by Rule XVII of the Commission's rules of practice.

By the Commission.

POTOMAC ELECTRIC POWER COMPANY

ORDER CONCERNING NOTIFICATION BEFORE DECLARING CASH DIVIDEND

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of July, 1944.

The Commission having issued an order in the above-styled and numbered proceedings on August 26, 1942 granting the application, as amended, of Potomac Electric Power Company, a subsidiary of Washington Railway and Electric Company, a registered holding company, filed in said proceedings, subject to the condition, among others, that said applicant notify this Commission thirty days before it declares any cash dividend on its common stock; and

It now appearing to the Commission that the continuance of the aforesaid condition is no longer appropriate in the public interest or for the protection of investors or consumers;

It is hereby ordered, That the condition contained in said order to the effect that Potomac Electric Power Company notify this Commission thirty days before it declares any cash dividend on its common stock cease to be operative from the date hereof.

WAR FOOD ADMINISTRATION.

[Docket No. AO 71-A 9]

HANDLING OF MILK IN NEW YORK METROPOLITAN AREA

NOTICE OF HEARING

Proposed amendments to tentatively approved marketing agreement, as amended, and order, as amended, regulating the handling of milk in the New York Metropolitan milk marketing area.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 *et seq.*), and in accordance with the applicable rules of practice and procedure (7 CFR, Cum. Supp., 900.1 *et seq.*) notice is hereby given of a hearing to be held at the Commodore Hotel, New York City, beginning at 10 a. m., e. w. t., August 15, 1944, for the purpose of receiving evidence with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and order (No. 27), as amended, regulating the handling of milk in the New York metropolitan milk marketing area, and with respect to proposed rules and regulations for accounting for and classifying butterfat and skim milk, the provisions of each of which are hereinafter set forth. The proposed amendments to the tentatively approved marketing agreement, as amended, and order, as amended, and proposed rules and regulations have not received the approval of the War Food Administrator.

The proposed amendments, together with the proposed rules and regulations, as hereinafter set forth, have been prepared by the Dairy and Poultry Branch, Office of Distribution, after due consideration of, and largely on the basis of, amendments recently proposed by handlers and producers or their representatives. Included also are proposed revisions considered by the Dairy and Poultry Branch to be administratively desirable.

However, in view of the relatively large number and varying character of the amendments as proposed by handlers and producers, and in order to incorporate proposals of the Dairy and Poultry Branch, the proposed amendments, as hereinafter set forth, are in the form in which they would appear in an amended marketing agreement and order.

Included for purposes of facilitating consideration of the proposed amendments are certain specific provisions, in essentially the same form as they now appear in the present order, with respect to which evidence will not be received at this hearing. Such provisions include the definition of the marketing area, the provision on cooperative payments, and the provision on location differentials. In addition there are certain proposals which have been submitted for amendment of the order as now in effect but which are specifically not included in the proposed amendments as hereinafter set forth and with respect to which evidence will not be received at this hearing. Included in this category are proposals for a pool adjustment on special milk, for relocating differentials or diversion payments, and for changing the basic level of prices for fluid milk and fluid cream deemed to be sold in the marketing area.

Preceding the proposed amendments as hereinafter set forth is a statement of purpose and methods which is included merely for the purpose of assisting interested parties in their consideration and analysis of the proposed amendments.

The proposed amendments in the form described herein, the statement of purpose and methods, and the proposed rules and regulations for accounting for butterfat and skim milk are as follows:

Statement of Purpose and Methods

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed., 601 *et seq.*), and following public hearings called to receive evidence on the matter, a marketing order or agreement regulating the marketing of milk in the New York metropolitan area will be issued, administered, and enforced in order to effectuate the purposes of such act.

This order or agreement, as proposed, would be administered by a market administrator selected and appointed for that purpose who would assemble such staff, would make such rules and regulations, and would carry on such activities as are necessary and appropriate in order to administer and enforce successfully and lawfully the provisions of the order or agreement.

The order or agreement would outline the area in which the marketing of milk is to be regulated and would provide a method for determining specifically that milk and those handlers or plant operators subject to the regulation.

The order or agreement would provide for classifying milk in accordance with the form in which or the purpose for which it is used. Together with the rules and regulations concerning the technical aspects of accounting for and classifying milk, it would provide specifically the manner in which the milk received by each handler subject to the order or agreement would be classified. The detailed plan of classification would provide a separate class for the butterfat and the skim milk in all products deemed to contain both butterfat and milk solids not fat so as to facilitate the separate pricing of these two components of whole milk received from farmers and so as to insure uniform minimum prices to all handlers. Provision would be made for five general classification groups, the first four specifically covering butterfat in various forms or uses, and the fifth covering skim milk in all its forms and uses.

Class I (butterfat) would cover the milk and cream deemed to be used for fluid milk or milk beverage purposes, with separate subclasses for that deemed to be sold (a) in the marketing area, (b) in other areas under Federal order or agreement, and (c) in other areas.

Class II (butterfat) would cover the milk and cream deemed to be used for fluid cream, with separate subclasses for that deemed to be sold as fluid cream in the marketing area, frozen or storage cream, fluid cream in the special cream area, fluid cream in the New England area, and fluid cream in other areas.

Class III (butterfat) would cover the milk and cream deemed to be used for manufacturing products usually made from whole milk, with separate subclasses for that deemed to be used for plain condensed milk, evaporated milk, sweetened condensed milk, milk chocolate or candy products, whole milk powder, Cheddar cheese, and other cheese except cream cheese.

Class IV (butterfat) would cover the milk or cream deemed to be used for manufacturing products usually made from cream rather than whole milk with separate subclasses for that deemed to be used for frozen desserts or mixes in specially designated areas, for cream cheese, and for butter.

Class V would cover all skim milk for all purposes, whether in milk, cream, or skim milk; with separate subclasses for that deemed to be used for (a) fluid milk, fluid cream, fluid skim milk, or milk beverages in the marketing area, (b) fluid milk, fluid skim milk, or milk beverages in other areas under Federal order or agreement, (c) fluid milk, fluid skim milk, or milk beverages in other areas, and (d) all other uses, forms, or products.

The order or agreement would provide a method for establishing for each subclass each month a minimum price for which handlers would be held accountable. Each such minimum price would be computed and announced by the market administrator each month and would be designed to reflect the approximate competitive supply value of milk, cream, butterfat, and skim milk suitable for use in the various dairy products covered by the classification plan. All minimum prices would be expressed as minimum prices per pounds of butterfat or per hundredweight of skim milk. Thus, the total accountable price for any milk or cream would be the combined values of (1) the butterfat in the milk or cream and (2) the skim milk in the milk or cream.

The basic price for whole milk deemed to be used for fluid purposes in the marketing area would be related to, but substantially above, the calculated basic values for creamery butter and nonfat dry milk solids (the same as in the present order). Such price would be 25 cents higher in the months of July through March than in the other months.

The price for the butterfat in milk, milk beverages, and cream deemed to be used for fluid purposes in the marketing area as fluid cream would be related to creamery butter prices on a bracketed basis and would be lower in April, May, and June than in the other months.

The price for skim milk deemed to be used for fluid purposes in the marketing area would be the difference between the indicated price for whole milk for fluid purposes and the value of butterfat in fluid products at the indicated price for such butterfat.

The manufacturing skim price would be calculated each month on the basis of market values of nonfat dry milk solids.

Prices for the butterfat and skim milk deemed to be sold as fluid milk, fluid skim milk, or milk beverages in other Federal areas and in other non-Federal areas would be the same as the marketing area prices except that in the months of March through July the price for such skim milk in outside non-Federal areas would be lower by half the difference between the fluid skim price and the manufacturing skim price.

The price for cream deemed to be sold as cream in the New England area would be calculated each month on the basis of the market price of cream in Boston, and would consist of the value of the skim milk in the cream at the manufactured skim milk price and the value of the butterfat in the cream at a butterfat price based on the residual value.

The price for cream deemed to be sold as cream outside the marketing area, outside the special cream area, and outside the New England area, would be calculated each month on the basis of the market price of cream in Philadelphia, and would consist of the value of the skim milk in the cream at the manufactured skim milk price and the value of the butterfat in the cream at a butterfat price based on the residual value.

The prices for all of the other subclasses covering cream deemed to be used for fluid or manufacturing purposes, including cream in the special cream area, frozen cream, frozen desserts and mixes, cream cheese, and butter, would be calculated separately each month and would consist of the value of the skim milk in the cream at the manufactured skim milk price and the value of the butterfat in the cream at a price calculated in relation to the butterfat price determined for Boston cream, Philadelphia cream, or creamery butter.

The price for milk deemed to be used for plain condensed milk would be calculated each month as the value of the skim milk at the manufacturing skim milk price and the value of the butterfat at the same price as for butterfat in the subclass covering frozen desserts or mixes deemed to be sold in New York City.

The price for milk deemed to be used in evaporated would be calculated each month in relation to prices paid by specified manufacturing milk plants in the Middle West purchasing milk from farmers, and would consist of the value of the skim milk in the milk at the manufacturing skim milk price and the value of the butterfat at a price based on the residual value.

The price for milk deemed to be used in Cheddar cheese would be calculated each month in relation to cheese price quotations in Wisconsin, and would consist of the value of the skim milk in the milk at the manufacturing skim milk price and the value of the butterfat at a price based on the residual value.

The prices for the other subclasses covering milk deemed to be used for manufacturing purposes would be calculated separately each month and would consist of the value of the skim milk in the milk at the manufacturing skim milk price and the value of the butterfat at a price related to the butterfat price for the subclasses covering evaporated milk or butter.

Butterfat differentials per point for each subclass would be calculated each month as one-tenth of the calculated butterfat price per pound for the subclass. Transportation differentials would also be specified for the separate subclasses.

The total amount of milk received and its value at specified class prices for which each handler is accountable would be reported and summarized each month and combined into a total for all handlers, for the purpose of calculating a uniform or marketwide pool price to producers for the milk delivered by them to handlers. Each handler would be required to account for the payment of this uniform price to the producers from whom milk was received, and to account to the pool or the producer-settlement fund for any difference between payments to producers on the one hand and the total classification value of the milk on the other. Prices to producers would likewise be subject to specified location differentials and to a butterfat differential per point calculated as one-tenth of the weighted average price per pound of butterfat in all classes.

The market administrator would operate the pool or producer-settlement fund and pay out of it not only the payments due handlers in order to balance their producer-settlement fund accounts, but also the payments to qualified cooperatives, payments on storage cream, payments to correct errors, and other payments authorized in the order or agreement.

The order or agreement would make special provisions authorizing the expeditious handling of specific types of emergency problems which have been arising in the New York area in recent years, including the handling of subsidy monies, the development and operation of plans to market unusually heavy supplies of milk, and the development and operation of plans to meet unusual shortages.

The order or agreement would specify a maximum rate of assessment against handlers to defray the costs of administering the order or agreement. It would specify an additional charge against handlers on past-due accounts, and would specify time limits within which handlers' accounts may be audited or reaudited and within which handlers may seek formal administrative review of administrative actions.

Proposed Amendments

§ 927.1 *Definitions.* The following terms shall have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "War Food Administrator" means the War Food Administrator of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereinafter be, authorized to exercise the powers and to perform the duties of the War Food Administrator hereunder.

(c) Note: Same as § 927.1 (c) of the present order).

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

(e) "Dairy farmer" means any person who produces milk.

(f) "Producer" means any dairy farmer whose milk is delivered direct from farm to a pool plant.

(g) "Handler" means (1) any person who engages in the handling of milk or products therefrom which milk was received at a pool plant or at a plant approved by any health authority for the receiving of milk to be sold in the marketing area, (2) any person who engages in the handling of milk or cream, which milk or cream is shipped to or received in the marketing area, or (3) any cooperative association of producers with respect to any milk which it causes to be delivered from producers to any other handler for the account of such association.

(h) "Plant" means the buildings, facilities, and land which are determined by the market administrator to constitute a plant.

(j) "Pool plant" means any plant determined by the market administrator to be a pool plant pursuant to § 927.3.

(k) "Market administrator" means the agency, which is described in § 927.2, for the administration of this order.

(l) "Special cream area" means the territory within the State of New York outside the marketing area and Fisher's Island, and the territories within the following counties of New Jersey:

Bergen.	Morris.
Essex.	Passaic.
Hudson.	Somerset.
Hunterdon.	Sussex.
Middlesex.	Union.
Monmouth.	Warren.

(m) "New England cream area" means the territory within the States of Connecticut, Maine, New Hampshire, Rhode Island, Vermont, the Commonwealth of Massachusetts, and Fisher's Island in Suffolk County, New York.

(n) "Milk" means the product delivered to a plant by dairy farmers as cow's milk.

(o) "Skim milk" means all parts of milk except butterfat.

(p) Other terms shall be defined by the market administrator in regulations issued pursuant to § 927.4 (b).

§ 927.2 *Market administrator*—(a) *Selection, removal, and bond.* The agency for the administration of this order shall be a market administrator who shall be a person selected and subject to removal by the War Food Administrator. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the War Food Administrator a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the War Food Administrator.

(b) *Compensation.* The market administrator shall be entitled to such reasonable compensation as shall be determined by the War Food Administrator.

(c) *Powers.* The market administrator shall have power to administer and to make rules and regulations to effectuate the terms and provisions hereof, to receive, investigate, and report to the War Food Administrator complaints of violations of this order, and to recommend to the War Food Administrator amendments to this order.

(d) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Keep such books and records as will clearly reflect the transactions provided for herein;

(2) Submit his books and records to examination by the War Food Administrator at any and all times;

(3) Furnish such information and such verified reports as the War Food Administrator may request;

(4) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(5) Publicly disclose, after reasonable notice, the name of any person who has not made reports pursuant to § 927.6, or made payments pursuant to § 927.8, § 927.9, or § 927.11;

(6) Prepare and disseminate for the benefit of producers, consumers, and handlers, such statistics and information concerning the operation of this order, as do not reveal confidential information;

(7) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(8) Pay out of the funds received pursuant to § 927.11 the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties:

(9) Maintain a main office and such branch offices as may be necessary;

(10) Investigate, at the request of the War Food Administrator, milk marketing problems affecting the marketing of producers' milk, and recommend changes or amendments to this order;

(11) Make rules and regulations to classify milk and carry out the terms and provisions of the order pursuant to § 927.4 (b).

§ 927.3 *Determination of pool plants.* A pool plant is any plant which meets the requirements of (a) of this section or is determined to be a pool plant by the market administrator pursuant to (b) or (c) of this section; *Provided,* That any plant which meets all the requirements necessary to be regulated by another order issued pursuant to the Act shall not be a pool plant during any month in which there is sold in, distributed in or shipped to the marketing area as fluid milk from such plant a quantity equal to less than 50 percent of the milk received at such plant directly from dairy farmers.

(a) *Plants shipping fluid milk to the marketing area.* For any month a plant from which during such month fluid milk is sold or distributed in or shipped to, either directly or through other plants, the marketing area, which quantity of fluid milk is equal to more than 25 percent of the milk received directly from dairy farmers, shall be a pool plant.

(b) *Reserve plants.* (1) A plant determined by the market administrator to be a plant receiving milk which constitutes a reserve supply of fluid milk for the marketing area may be designated by him to be a pool plant provided:

(i) Application to have the plant so designated is filed with the market administrator by the plant operator.

(ii) The plant is located in the States of New York, Vermont, Connecticut, or New Jersey, or in the Commonwealths of Massachusetts or Pennsylvania.

(iii) The milk received at the plant is available for shipment as fluid milk to the marketing area. In determining the availability of the milk, the market administrator shall take into consideration the history of operations at the plant, the requirements of public health authorities, and the contractual obligations for the milk of the operator of the plant.

Before making such a designation, the market administrator may consult a committee representing producers, which is appointed by the War Food Administrator, and of which the market administrator is chairman.

(2) Any plant designated as a pool plant pursuant to (1) of this paragraph shall remain a pool plant until such designation is cancelled by the market administrator. The market administrator is authorized but is not required to cancel the designation of any plant as a pool plant upon application of the handler operating the plant or upon a finding that conditions which justified the designation no longer exist. The market administrator may also cancel such designation if the operator of such plant refuses to cooperate in an allocation program established pursuant to § 927.10 (c) (2).

(3) Any person operating a plant may, not later than 30 days after notice by registered mail of action by the market administrator, appeal to the War Food Administrator for an administrative review of the market administrator's action (i) in refusing to grant a designation as a pool plant, (ii) in refusing to grant a cancellation of such designation, or (iii) in cancelling such designation. Such administrative review shall not constitute a proceeding pursuant to subsection 15 (a) of section 8c of the Act nor be considered as restricting the right of any person to petition for such proceeding.

(c) During the first twelve months after the effective date of this order, any plant which is located in the States of New York, Vermont, Connecticut, or New Jersey or in the Commonwealths of Massachusetts or Pennsylvania, and which on July 1, 1944 was approved for the receiving of milk to be distributed for consumption as fluid milk in the city of New York, the county of Westchester in the State of New York, shall be automatically designated as a pool plant unless such designation is specifically revoked by the market administrator.

§ 927.4 *Classification.* For purposes of classification, milk shall be considered as consisting of its component parts of butterfat and skim milk.

(a) *Basis of classification.* All butterfat and skim milk, the classification of which is necessary to classify the butterfat and skim milk in producers' milk, shall be classified not later than the end of the month following the month during which the milk was received from dairy farmers in accordance with the form in which the butterfat or skim milk is held at or moved from the plant at which classification is determined. Classification of butterfat and skim milk shall be determined at the plant where received from dairy farmers except as otherwise provided in rules and regulations issued pursuant to (b) of this section. In establishing the classification of any butterfat or skim milk received from dairy farmers, the burden rests upon the handler who received such milk from producers to show that the butterfat should not be classified as Class I–A, and that the skim milk should not be classified as Class V–A.

(b) *Rules and regulations.* (1) The plant at which classification shall be determined, the method of accounting for butterfat and skim milk, the method for accounting for and classifying loss not to exceed 5 percent of the butterfat in products resulting from any operation, conversion factors to be used in the absence of specific weights and tests of milk and milk products, and definitions of products shall be in accordance with rules and regulations [1] issued on the basis of the evidence presented at a hearing called by the War Food Administrator for such purpose, such rules and regulations to become effective at the same time as the amendment to the order giving the market administrator the power and duty to make rules and regulations: *Provided*, That such rules and regulations may be supplemented or amended by the market administrator pursuant to the following procedure:

(i) A meeting shall be called by the market administrator at which the proposed amendments to the rules and regulations shall be discussed.

(ii) All handlers operating pool plants shall receive notice of such meeting and such notice shall set forth the topics to be discussed.

(iii) Interested persons shall be given opportunity to make statements concerning proposed amendments.

(iv) A stenographic record of all statements shall be made and shall be public information available to interested persons at the office of the market administrator.

(v) After such meeting, the market administrator shall issue amendments or a determination that no amendments are necessary. Before issuing any amendment or determination, the market administrator may issue a tentative amendment or determination and may permit interested persons to file exceptions to such amendment or determination. Such exceptions shall become a public record available to interested persons at the office of the market administrator.

(2) Any handler operating a pool plant may, within 30 days after action pursuant to this paragraph by the market administrator, appeal to the War Food Administrator for an administrative review of such action. Such administrative review shall not constitute a proceeding pursuant to subsection 15 (a) of section 8c of the act, nor be considered as restricting the right of any person to petition for such proceeding.

(c) *Classes of utilization.* Subject to all of the conditions set forth in (a) and (b) of this section, the classes of butterfat and skim milk shall be as follows:

(1) Class I–A shall be all the butterfat, except as set forth in (2) and (3) of this paragraph, which leaves a plant in the form of fluid milk or milk beverage, and all butterfat the classification of which is not established in some other class named in this paragraph.

(2) Class I–B shall be all the butterfat which leaves a plant in the form of fluid milk or milk beverage and which is received at a plant in or distributed in another marketing area regulated by an order issued pursuant to the act.

(3) Class I–C shall be all the butterfat which leaves a plant in the form of fluid milk or milk beverage and which is delivered to a plant or a purchaser outside an area regulated by an order issued pursuant to the act: *Provided*, That such fluid milk or milk beverage is not moved to a plant located in nor delivered to a purchaser in an area regulated by an order issued pursuant to the act. This definition includes butterfat in fluid milk delivered to a bakery, soup factory, or other establishment outside of an area regulated by an order issued pursuant to the act, which milk is there utilized in some product other than those specified in this paragraph.

(4) Class II–A shall be all the butterfat which leaves or is on hand at a plant in the form of cream, sweet or sour, unless such cream is established to have been subsequently so handled or marketed as to classify such butterfat in some other class.

(5) Class II–B shall be all the butterfat which leaves or is on hand at a plant in the form of frozen cream. Any handler whose report claimed the original classification of butterfat in this class shall be liable under the provisions of § 927.9 (e) for the difference between the Class II–B and Class II–A prices for the butterfat in such cream and the difference between the Class V–D and Class V–A prices for the skim milk in such cream, for the month in which the II–B classification was claimed on any such butterfat, if the storage of the cream does not comply with all the requirements of the definition of frozen cream promulgated by the market administrator under the terms set forth in (b) of this section.

(6) Class II–C shall be all the butterfat which leaves or is on hand at a plant in the form of cream which is delivered to a plant or a purchaser in the special cream area: *Provided*, That the cream is not moved to a plant in nor delivered to a purchaser in the marketing area, and that the classification of the cream is not established in some other class. This definition includes butterfat in cream delivered to a bakery, soup factory, or other establishment in the special cream area, which cream is there utilized in some product other than those specified in this paragraph.

(7) Class II–D shall be all the butterfat which leaves or is on hand at a plant in the form of cream, which is delivered to a plant or purchaser outside of the marketing area, and outside the special cream area, and outside the New England cream area: *Provided*, That the cream is not moved to a plant in nor delivered to a purchaser in the marketing area, in the special cream area, or in the New England cream area. This definition includes butterfat in cream delivered to a bakery, soup factory, or other establishment outside the marketing area, outside the special cream area, and outside the New England cream area, which cream is there utilized in some product other than those specified in this paragraph.

(8) Class II–E shall be all the butterfat which leaves or is on hand at a plant in the form of cream, which is delivered to a plant or purchaser in the New England cream area: *Provided*, That the cream is not moved to a plant outside nor delivered to a purchaser outside the New England cream area. This definition includes butterfat in cream delivered to a bakery, soup factory, or other establishment in the New England cream area, which cream is there utilized in some product other than those specified in this paragraph.

(9) Class III–A shall be all the butterfat which leaves or is on hand at a plant in the form of plain condensed milk.

(10) Class III–B shall be all the butterfat which leaves or is on hand at a plant in the form of evaporated milk.

(11) Class III–C shall be all the butterfat which leaves or is on hand at a plant in the form of sweetened condensed milk.

(12) Class III–D shall be all the butterfat which leaves or is on hand at a plant in the form of milk chocolate or other candy products.

(13) Class III–E shall be all the butterfat which leaves or is on hand at a plant in the form of milk powder, except non-fat dry milk solids.

(14) Class III–F shall be all the butterfat which leaves or is on hand at a plant in the form of cheese, other than cheddar cheese and cream cheese.

(15) Class III–G shall be all the butterfat which leaves or is on hand at a plant in the form of cheddar cheese.

(16) Class IV–A shall be all the butterfat which leaves or is on hand at a plant in the form of frozen desserts, or mix except as set forth in (17), (18), and (19) of this paragraph.

(17) Class IV–B shall be all the butterfat which leaves or is on hand at a plant in the form of frozen desserts, or mix, which, except as set forth in (18) and (19) of this paragraph, is delivered to a plant outside or a purchaser outside New York City and remains outside New York City.

(18) Class IV–C shall be all the butterfat which leaves or is on hand at a plant outside the marketing area, outside the special cream area, and outside the New England cream area in the form of frozen desserts or mix which is delivered to a plant outside or a purchaser outside New York City and remains outside New York City.

(19) Class IV–D shall be all the butterfat which leaves or is on hand at a plant in the New England cream area in the form of frozen desserts or mix which is delivered to a plant outside or a purchaser outside New York City and remains outside New York City.

(20) Class IV–E shall be all the butterfat which leaves or is on hand at a plant in the form of cream cheese.

(21) Class IV–F shall be all the butterfat which leaves or is on hand at a plant in the form of butter.

(22) Class V–A shall be all the skim milk (i) in products containing butterfat which is classified pursuant to (1) or (4) of this paragraph, (ii) shipped to a plant or a purchaser in the marketing area as fluid skim milk, or as milk beverages, or (iii) not specifically accounted for.

(23) Class V–B shall be all the skim milk in products containing butterfat which is classified pursuant to (2) of this paragraph, and all skim milk in fluid skim milk or milk beverage which is delivered to a plant or a purchaser in another area regulated by an order issued pursuant to the Act, and remains outside the marketing area.

(24) Class V–C shall be all the skim milk in products containing butterfat which is classified pursuant to (3) of this paragraph, and all the skim milk in fluid skim milk or milk beverage which is delivered and remains outside of any area regulated by an order issued pursuant to the Act.

(25) Class V–D shall be all the skim milk not classified pursuant to (22), (23), or (24) of this paragraph.

§ 927.5 *Minimum prices.* For butterfat and skim milk in milk received during each month from producers or cooperative associations of producers, each handler shall pay not less than the prices set forth in paragraphs (c) and (d) of this section. Any handler who purchases or receives, during any month, milk from a cooperative association of producers which is also a handler shall, on or before the 15th day of the following month, pay such cooperative association in full for such milk at not less than the minimum class prices applicable pursuant to paragraphs (c) and (d) of this section plus the rate of assessment determined in accordance with § 927.11. Prices set forth for butterfat are per pound of butterfat. Prices set forth for skim milk are per hundredweight of skim milk.

Whenever the provisions of this section require the market administrator to use a specific price for milk or any milk product the market administrator shall add to the specified price the amount of any subsidy, or other similar payment, being made by any Federal agency in connection with the milk, or products, associated with the price specified: *Provided*, That, if for any reason, the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further*, That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the War Food Administrator determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the War Food Administrator to be equivalent to or comparable with the price specified.

(a) *Price quotations.* Subject to the foregoing provision of this section the market administrator shall compute the following average quotations:

(1) The highest price reported daily by the United States Department of Agriculture for 92-score butter at wholesale in the New York market for the period from the 25th of each month through the 24th of the following month.

(2) The prices reported daily in the "Producers' Price Current" for all the hot-roller process dried skim milk or non-fat dry milk solids quotations for "other brands, human consumption, carlots, bags or barrels" (using the mid-point of any range as one quotation) for the period from the 25th of each month through the 24th of the following month.

(3) The prices reported daily in the "Producers' Price Current" for all the hot-roller process dried skim milk or non-fat milk solids quotations for "other brands, animal feed, carlots, bags or barrels" (using the mid-point of any range as one quotation) for the period from the 25th of each month through the 24th of the following month.

(4) The simple average of the averages computed in (2) and (3) of this paragraph.

(5) The highest price reported daily by the United States Department of Agriculture for 92-score butter at wholesale in the New York market during each month.

(6) The prices reported daily in the "Producers' Price Current" for all the hot-roller process dried skim milk or non-fat dry milk solids quotations for "other brands, human consumption, carlots, bags or barrels" (using the mid-point of any range as one quotation) during each month.

(7) The prices reported daily in the "Producers' Price Current" for all the hot-roller process dried skim milk or non-fat dry milk solids quotations for "other brands, animal feed, carlots, bags or barrels" (using the mid-point of any range as one quotation) during each month.

(8) The simple average of the averages computed in (6) and (7) of this paragraph.

(9) The weekly market quotations (using the mid-point of any weekly range as one quotation) of prices reported during each month by the United States Department of Agriculture for a 40-quart can of 40 percent sweet cream approved for Pennsylvania only.

(10) The weekly market quotations (using the mid-point of any weekly range as one quotation) of prices reported during each month by the United States Department of Agriculture for a 40-quart can of 40 percent sweet cream

[1] A copy of the proposed rules and regulations is attached hereto as Exhibit A.

approved for Pennsylvania, Newark, and Lower Merion Townships.

(11) The simple average of the averages computed in (9) and (10) of this paragraph.

(12) The weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market as reported by the United States Department of Agriculture for each month.

(13) The average of price as reported to the United States Department of Agriculture paid each month to dairy farmers for 3.5 percent milk at the evaporated milk plants at the following locations:

Mt. Pleasant, Mich.; Sparta, Mich.; Hudson, Mich.; Wayland, Mich.; Coopersville, Mich.; New Glarus, Wis.; Belleville, Wis.; Greenville, Wis.; Manitowoc, Wis.; Black Creek, Wis.; Orfordville, Wis.; Chilton, Wis.; New London, Wis.; Coldwater, Ohio; Berlin, Wis.; Richland Center, Wis.; Oconomowoc, Wis.; Jefferson, Wis.; Delta, Ohio; West Bend, Wis.

(14) The average of weekly quotations of prices for Cheddars in each month at the Wisconsin Cheese Exchange, Plymouth, Wisconsin, or, in the absence of quotations for Cheddars, the weekly quotations of prices for Twins in each month at the Wisconsin Cheese Exchange.

(b) *Basic prices for milk, butterfat, and skim milk.* Basic prices, for each month shall be computed as follows:

(1) *Whole milk.* (i) The basic prices for fluid milk for the months of July through March shall be as set forth in the table below. The basic price for fluid milk for April, May, and June shall be 25 cents per hundredweight less than the prices set forth in the table below:

Should the butter price be 60¢ or more or the non-fat dry milk solids price exceed 15.7¢, the table will be extended further at the same rate by the market administrator to cover such increased butter or non-fat dry milk solids price. Likewise, should the butter price fall below 22.5¢ the table will be extended downward at the same rate by the market administrator but in no case shall the price pursuant to this table be less than $2.10.

(ii) The basic price for milk used in evaporated milk shall be a price computed by the market administrator as follows: add 10 cents to the average price computed for such month pursuant to (a) (13) of this section: *Provided*, That in no event shall the price be less than a price computed by the market administrator as follows: to the average price of 92-score butter at wholesale in the Chicago market for such month, as reported by the United States Department of Agriculture, add 30 percent, multiply by 3.5, and add 7 cents.

(iii) The basic price for milk used in Cheddar cheese shall be a price computed by the market administrator as follows: from the average of weekly cheese quotations for such month computed pursuant to (a) (14) of this section, subtract 1.5 cents (net figure representing making allowance in excess of whey fat, whey, transportation, and paraffin allowance) and multiply by 9.

(2) *Butterfat.* (i) The basic price for butterfat in fluid products shall be in accordance with the following table:

Butter average computed pursuant to (a) (1) of this section for the period ending on the 24th of the preceding month (cents per pound)	Basic butterfat price	
	April through June	July through March
	Cents per pound	*Cents per pound*

40 or over, but under 45	63.5	67.8
45 or over, but under 50	69.6	73.9

The prices shall further increase 6.1 cents for each additional 5-cent range increase in the 92-score butter average.

(ii) The basic price for butterfat in Philadelphia cream shall be computed as follows: from the average cream quotation for such month computed pursuant to (a) (11) of this paragraph, subtract $2.34, subtract 50.22 percent of the basic manufactured skim milk price, and divide by 33.48: *Provided*, That in no event shall the basic price for butterfat in Philadelphia cream be lower than the basic price for butterfat in butter plus 3 cents.

(iii) The basic price for butterfat in Boston cream shall be computed as follows: from the weighted average Boston cream quotations for such month computed pursuant to (a) (12) of this section, subtract $2.06, subtract 50.22 percent of the basic manufactured skim milk price, and divide by 33.48: *Provided*, That in no event shall the basic butterfat price for Boston cream be lower than the basic price for butterfat in butter plus 3 cents.

(iv) The basic price for butterfat in evaporated milk shall be computed as follows: from the basic price for milk used for the manufacture of evaporated milk computed pursuant to (1) (ii) of this paragraph, subtract 96.5 percent of the basic manufactured skim milk price, and divide by 3.5.

(v) The basic price for butterfat in Cheddar cheese shall be computed as follows: from the basic price for milk for Cheddar cheese computed pursuant to (1) (iii) of this paragraph, subtract 96.5 percent of the basic manufactured skim milk price and divide by 3.5.

(vi) The basic price for butterfat in butter shall be computed as follows: from the average price for butter for such month computed pursuant to (a) (5) of this section, subtract 4 cents and add 20 percent.

(3) *Skim milk.* (i) The basic fluid skim milk price shall be computed as follows: from the basic fluid milk price computed pursuant to (1) (i) of this paragraph, subtract the basic price computed pursuant to (2) (i) of this paragraph for 3½ pounds of butterfat in fluid products and divide by .965.

(ii) The basic manufactured skim milk price shall be computed as follows: from the average of dried skim milk quotations for such month computed pursuant to (a) (8) of this section, subtract 4 cents and multiply by 8.3.

(c) *Class prices.* The class prices each month shall be as follows:

(1) For Class I–A butterfat—the basic price for butterfat in fluid products. (See (b) (2) (i) of this section.)

(2) For Class I–B butterfat—the basic price for butterfat in fluid products. (See (b) (2) (i) of this section.)

(3) For Class I–C butterfat—the basic price for butterfat in fluid products. (See (b) (2) (i) of this section.)

(4) For Class II–A butterfat—the basic price for butterfat in fluid products. (See (b) (2) (i) of this section.)

(5) For Class II–B butterfat—[____ cents lower than the basic price for butterfat in fluid products. (See (b) (2) (i) of this section.)] or [basic price for butterfat in Philadelphia cream. (See (b) (2) (ii) of this section.)] or [the basic price for butterfat in Philadelphia cream but no less than 3 cents more than the basic price for butterfat in Boston cream. (See (b) (2) (ii) and (b) (2) (iii) of this section.)]

(6) For Class II–C butterfat—[3 cents higher than the basic price for butterfat in Boston cream. (See (b) (2) (iii) of this section.)] or [the basic price for butterfat in Philadelphia cream but no less than 3 cents more than the basic price for butterfat in Boston cream. (See (b) (2) (iii) of this section.)]

(7) For Class II–D butterfat—the basic price for butterfat in Philadelphia cream. (See (b) (2) (ii) of this section.)

(8) For Class II–E butterfat—the basic price for butterfat in Boston cream. (See (b) (2) (iii) of this section.)

(9) For Class III–A butterfat—same as for New York City frozen desserts or mix as shown in (16) below.

(10) For Class III–B butterfat—the basic price for butterfat in evaporated milk. (See (b) (2) (iv) of this section.)

(11) For Class III–C butterfat—the basic price for butterfat in evaporated milk. (See (b) (2) (iv) of this section.)

(12) For Class III–D butterfat—the basic price for butterfat in evaporated milk. (See (b) (2) (iv) of this section.)

(13) For Class III–E butterfat—

(14) For Class III–F butterfat—

(15) For Class III–G butterfat—the basic price for butterfat in Cheddar cheese. (See (b) (2) (v) of this section.)

(16) For Class V–A butterfat—[the basic price for butterfat in Philadelphia cream but no less than the basic price for butterfat in Boston cream plus 3 cents. (See (b) (2) (ii) and (b) (2) (iii) of this section.)] or [the basic price for butterfat in fluid products minus _____ cents. (See (b) (2) (i) of this section.)] or [the basic price for butterfat in Boston cream. (See (b) (2) (iii) of this section.)]

(17) For Class IV–B butterfat—[the basic price for butterfat in Boston cream. (See (b) (2) (iii) of this section.)] or [the basic price for butterfat in Philadelphia cream but no less than the basic price for butterfat in Boston cream plus 3 cents. (See (b) (2) (ii) and (b) (2) (iii) of this section).]

(18) For Class IV–C butterfat—the basic price for butterfat in Philadelphia cream. (See (b) (2) (ii) of this section.)

(19) For Class IV–D butterfat—the basic price for butterfat in Boston cream. (See (b) (2) (iii) of this section.)

(20) For Class IV–E butterfat—the basic price for butterfat in Boston cream. (See (b) (2) (iii) of this section.)

(21) For Class IV–F butterfat—the basic price for butterfat in butter. (See (b) (2) (vi) of this section.)

(22) For Class V–A skim milk—the basic price for fluid skim milk. (See (b) (3) (i) of this section.)

(23) For Class V–B skim milk—the basic price for fluid skim milk. (See (b) (3) (i) of this section.)

(24) For Class V–C skim milk—for August through February, the basic price for fluid skim milk, and for March through July, the simple average of the basic prices for fluid skim milk and manufactured skim milk. (See (b) (3) (i) and (b) (3) (ii) of this section.)

(25) For Class V–D skim milk—the basic price for manufactured skim milk (See (b) (3) (ii).)

(d) *Transportation differentials.* (1) The market administrator shall, from time to time, determine and publicly announce for each pool plant the freight zone set forth in the following schedule. The freight zone for plants located in the marketing area shall be the 1–10 mile zone. The freight zones for plants outside the marketing area shall be based on the railroad mileage distance from the plant to New York City terminals of the nearest railway shipping point, or the shortest highway mileage distance from the plant to Columbus Circle, New York City, as computed from the latest mileage guide issued by the Household Goods Carriers' Bureau, Agent, Washington, D. C., whichever is shorter. The minimum prices set forth in (c) of this section shall be plus or minus the amounts set forth in the following schedule:

(2) The market administrator shall, from time to time, determine and publicly announce for each pool plant a zone based on its shortest highway mileage distance from the City Hall in Philadelphia, Pennsylvania, as computed from the latest mileage guide issued by the Household Goods Carriers' Bureau, Agent, Washington, D. C. The minimum price for Class II–D and Class IV–C butterfat shall be subject to the minus differentials set forth in the following table applicable to the location of the plant at which the butterfat was received from producers:

Miles:	*Cents*
0–30	0
31–70	−1.0
71–150	−1.3
151–230	−1.6
231–310	−1.9
311–390	−2.1
391–470	−2.4

Provided, That in no case shall the amount subtracted reduce the class price at any plant below the basic price for butterfat in butter plus 3 cents.

(3) The market administrator shall, from time to time, determine and publicly announce for each pool plant a zone based on its shortest highway mileage distance from the State House in Boston, Massachusetts, as computed from the latest mileage guide issued by the Household Goods Carriers' Bureau, Agent, Washington, D. C. The minimum price for Class II–E, (Class IV–B) Class IV–D and Class IV–E butterfat shall be subject to the minus differentials set forth in the following table applicable to the location of the plant at which the butterfat was received from producers:

Miles:	*Cents*
0–100	0
101–150	−0.9
151–200	−1.2

251–300	−1.5
301–350	−1.8
351–400	−2.1
401–450	−2.3

Provided, That in no case shall the amount subtracted reduce the class price at any plant below the basic price for butterfat in butter plus 3 cents.

(e) *Announcement of prices.* The market administrator shall publicly announce prices and quotations as follows:

(1) Not later than the 25th day of each month, the market administrator shall announce (i) the butter and dried skim milk or non-fat dry milk solids averages computed pursuant to (a) (1), (a) (2), (a) (3), and (a) (4) of this section for the period ending the 24th day of such month; (ii) the preliminary basic fluid milk price, the preliminary basic price for butterfat in fluid products for the marketing area, and the preliminary basic fluid skim milk price for the following month.

(2) Not later than the 5th day of each month, (i) the monthly average quotations for the previous month computed pursuant to (a) of this section; (ii) the basic prices for the previous month computed pursuant to (b) of this section; and (iii) the class prices in effect for the previous month.

§ 927.6 *Reports of handlers*—(a) *Monthly reports.* On or before the 10th day of each month, each handler shall report to the market administrator for the preceding month, in the manner and on forms prescribed by the market administrator, with respect to milk, butterfat, skim milk or milk products handled at each pool plant, and at each plant where butter fat or skim milk subject to payments under § 927.9 (h) was handled, the following:

(1) The total quantity of milk, butterfat, skim milk and milk products, with the average butterfat content thereof, received from dairy farmers, from other plants, from such handler's own farm, from other handlers, and from other persons;

(2) The total quantity of milk, butterfat, skim milk and of each milk product moved out of, or on hand at, such plant, the butterfat content of each product, and the destination of any milk, butterfat, skim milk or milk product which was moved out of such plant; and the classification or anticipated classification of any butterfat or skim milk on hand at the plant at the end of the month;

(3) The disposition of milk, butterfat, and skim milk at each other plant in which the disposition of any milk, butterfat or skim milk is claimed as the basis of classification, such disposition to be covered by a signed statement of the plant operator if such other plant is not a pool plant;

(4) The computation, pursuant to § 927.7 (a) of such handler's preliminary net pool obligation, and the total value of butterfat received from producers; and

(5) The computation of any payments pursuant to § 927.9 (h).

(b) *Producer pay roll reports.* Each handler shall report to the market administrator as follows:

(1) On or before the 10th day after the end of each month, the information for the preceding month required by the market administrator with respect to producer additions, producer withdrawals, and changes in names of farm operators; and

(2) On or before the last day of each month, such handler's producer pay roll for the preceding month, which shall show for each producer:

(i) The total delivery of milk with the average butterfat test thereof,

(ii) The amount of payment due such producer,

(iii) The nature and amount of any deductions and charges made by the handler,

(iv) The net amount of payment to such producer made pursuant to § 927.8, and

(v) Such other information with respect thereto as the market administrator may require.

(c) *Other reports.* At such times as the market administrator may request, each handler shall report to the market administrator in the manner and on forms prescribed by the market administrator:

(1) The total quantity of milk, butterfat, skim milk or milk products received at non-pool plants, with the average butterfat content thereof, from dairy farmers, from other plants, from such handler's own farm, and from other persons.

(2) The total quantity of milk, butterfat, skim milk, and each milk product moved out of, or on hand at, non-pool plants, the butterfat content of each product, and the destination of any milk, butterfat, skim milk, or milk product which is moved out of such plant.

(3) Information concerning buildings, facilities, and land at any plant,

(4) The current receipts and utilization of milk in each plant.

(5) Purchases of cream received showing the quantity and source of each purchase and the cost thereof.

(6) Such other information as may be neessary for the administration of this order.

(d) *Verification of reports and payments.* The market administrator shall promptly verify all reports and payments of each handler by inspection, by weighing, sampling, and testing, or by audit of such handler's records and of the records of any other handler or person upon whose disposition of milk such handler claims classification, and each such handler shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities, of his own or of other persons, as will enable the market administrator to:

(1) Verify the receipts and disposition of all milk, butterfat, skim milk, and milk products required to be reported pursuant to this section, and, in any case of errors or omissions, ascertain the correct figures;

(2) Weigh, sample, and test for butterfat content the milk received from producers and any product of milk upon which classifications depends;

(3) Verify the payments to producers prescribed in § 927.8;

(4) Verify all claims for payments pursuant to § 927.9;

(5) Make inspections of land, buildings, and equipment at each plant; and

(6) Verify on behalf of any Federal agency the basis for payments collected by the market administrator under § 927.9 (1).

§ 927.7 *Determination of uniform price and the weighted average butterfat differential.* The uniform price and weighted average butterfat differential shall be computed as set forth in this section. Milk received from farms in Nassau and Suffolk Counties, New York, which farms are not approved for sale of milk in New York City, and received from handler's own farm shall not be included in this computation. The term "milk received from producers" in this section and in § 927.8, § 927.9, and § 927.11 shall mean milk received from producers except from producers in Nassau or Suffolk Counties or own farm production which is eliminated from the computations in this section.

(a) *Preliminary net pool obligation of handlers.* (1) Determine the total quantity of butterfat and skim milk in each class in milk received directly from producers at each pool plant in accordance with the rules and regulations issued pursuant to § 927.4 (b).

(2) Multiply the quantity of butterfat or skim milk in each class in milk received from producers by the class price pursuant to § 927.5 (c) adjusted by the appropriate transportation differential, if any, pursuant to § 927.5 (d).

(3) Add together the pounds of butterfat in all classes, and add together the values of butterfat in all classes.

(4) Add together the total pounds of butterfat and skim milk in all classes, and add together the values of all classes.

(5) From the total value obtained in (4), deduct, in the case of each plant in a zone less than the 201–210 mile zone and add, in the case of each plant in a zone greater than the 201–210 mile zone, the amount obtained by multiplying the quantity of milk received from producers by the zone differential set forth in column D of the schedule in § 927.5 (d) (1) applicable to the plant. This adjustment is for the purpose of adjusting the uniform price to producers in accordance with § 927.8 (b) (1).

(6) *Location differentials.* With respect to milk received from producers, deduct the amounts set forth in (i) and (ii) of this subparagraph from the value after adjustments in (5). This adjustment is for the purpose of adjusting the uniform price to producers in accordance with § 927.8 (b) (2). After making such deduction, the result shall be known as the handler's preliminary net pool obligation for such plant.

(i) 30 cents per hundredweight for plants located in the marketing area.

(ii) 20 cents per hundredweight for plants located in the following areas: Columbia, Dutchess, Orange, Putnam, and Rockland Counties in New York; Sussex, Warren, Hunterdon, Essex, Morris, Passaic, Somerset, Union, and Burlington Counties in New Jersey; Litchfield County in Connecticut; Berkshire County in Massachusetts; and for plants located in Accord, Ellenville, Gardiner, Kyserike, New Paltz, Phinney's Crossing, Wallkill, and West Coxsackie, New York.

(7) Add together the handler's preliminary net pool obligations for all pool plants, and add together the pounds of milk received from producers at all pool plants; add together the pounds of butterfat in milk received from producers at all pool plants and add together the value of butterfat in milk received from producers at all pool plants; and compute the average butterfat test of all milk received from producers at all pool plants.

(b) *Computation of the weighted average butterfat differential.* The market administrator shall compute a weighted average butterfat differential as follows:

(1) Add together the total pounds of butterfat received from producers by all handlers except for those whose reports are not to be included in the computation of the uniform price under (c) of this section.

(2) Add together the value of the butterfat classes for all handlers except those whose reports are not to be included in the computation of the uniform price under (c) of this section.

(3) Divide the total obtained in (2) of this paragraph by the total obtained in (1) of this paragraph. Divide the result by 10. This result rounded to the nearest one-tenth of one cent shall be the weighted average butterfat differential.

(c) *Computation of the uniform price.* The market administrator shall audit for mathematical correctness and obvious errors the report submitted for the preceding month by each handler. If the unreserved cash balance in the producer-settlement fund to be included in the computation is less than 2 cents per hundredweight of milk received from producers on all reports, the report of any handler who has not made full payment to the producer-settlement fund, pursuant to § 927.9 (b) shall not be included in the computation of the uniform price. The report of such handler shall not be included in the computation for succeeding months until he has made all payments due to the producer-settlement fund. Subject to the aforementioned conditions the market administrator shall compute the uniform price in the following manner:

(1) From each handler's preliminary net pool obligation for all plants deduct, in the case where the average butterfat content of all milk received from producers by such handler is in excess of 3.5 percent, and to each handler's preliminary net pool obligation for all plants add, in the case where the butterfat content of all milk received from producers by such handler is less than 3.5 percent, the total value of the butterfat differential applicable pursuant to § 927.8 (c). The result shall be known as the handler's adjusted net pool obligation;

(2) Combine into one total the adjusted net pool obligation of all handlers;

(3) Subtract the total payments required to be made for such month, pursuant to § 927.9 (f), and transfer to be made pursuant to § 927.9 (k);

(4) Add the amount of unreserved cash in the producer-settlement fund;

(5) Subtract an amount equal to not less than 4 cents nor more than 5 cents per hundredweight of milk received from producers to provide against the contingency of errors in reports and payments or of delinquencies in payments by handlers;

(6) Divide the result by the total hundredweight of milk received from producers. The result shall be known as the uniform price per hundredweight for milk containing 3.5 percent butterfat received from producers at plants in the 201–210 mile zone.

(d) *Announcement of the uniform price.* Not later than the 14th day of each month, the market administrator shall announce the uniform price computed pursuant to (c) of this section and the butterfat differential computed pursuant to (b) of this section to be in effect for the previous month: *Provided,* That such announcement may be made not later than the 15th day of any month containing a Sunday or a holiday between the 10th and the 14th days, inclusive.

§ 927.8 *Payment by handlers directly to producers*—(a) *Time and rate of payment.* On or before the 25th day of each month each handler shall make payment to each producer for all milk delivered by such producer during the preceding month at not less than the uniform price subject to differentials set forth in (b) and (c) of this section plus any payment provided for in accordance with (d) of this section: *Provided,* That each handler which is also a cooperative marketing association determined by the War Food Administrator to be qualified under the Capper-Volstead Act, may, with respect to its producers, make distribution, in accordance with the contract between the association and such producers, of the net proceeds of all its sales in all markets in all use classifications. Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payment next following such disclosure.

(b) *Transportation and location differentials.* The uniform price at any plant shall be:

(1) Plus or minus the differential shown in column D of the schedule contained in § 927.5 (1) for the zone of the plant in effect pursuant to § 927.5 (d) (1); and

(2) If any location differentials are applicable pursuant to § 927.7 (a) (6) plus such differentials plus 5 cents.

(c) *Butterfat differential.* The uniform price shall be plus or minus, as the case may be, the weighted average butterfat differential computed pursuant to § 927.7 (b) for each one-tenth of 1 percent above or below 3.5 percent of average butterfat content of milk delivered by any producer .

(d) *Federal payments to producers.* If the market administrator collects monies in accordance with § 927.9 (1) from any governmental agency on behalf of producers, and credits such monies to the account in the producer-settlement fund of the handler accounting to the market administrator for such producers, such handler shall pay such money to producers in addition to other payments required by this order at the rate at which such monies are credited.

§ 927.9 *Producer - settlement fund and its operation.* The market administrator shall establish and maintain a separate fund known as "the producer-settlement fund" into which he shall deposit all payments and out of which he shall make all payments pursuant to this section.

(a) *Handlers' accounts.* The market administrator shall set up an account for each handler who is required to make payments to the producer-settlement fund or who receives payment from the producer-settlement fund. After computing the uniform price and each handler's pool debit or credit, the market administrator shall render each handler a statement of his account showing the debit or credit balance, together with all debits or credits entered on such handler's account since the previous statement was rendered.

(b) *Payments to the producer-settlement fund.* On or before the 18th day of each month each handler shall make full payment of the debit balance, if any, of such handler shown on the statement of account rendered pursuant to (a) of this section.

(c) *Payments out of producer-settlement fund.* On or before the 20th day of each month the market administrator shall make payment to each handler of the credit balance, if any, of such handler shown on the statement of account rendered pursuant to (a) of this section. If, at any such time, the balance in the producer-settlement fund is insufficient to make full payment due to each handler, the market administrator shall reduce uniformly the payments made to each handler and shall complete such payments as soon as the necessary funds are available. No handler who, on the 25th day of the month, has not received such payments in full from the market administrator shall be deemed to be in violation of § 927.8 if he reduces his total payments to producers for milk delivered by such producers during the preceding month by not more than the amount of the reduction in payment from the producer-settlement fund.

(d) *Handlers' pool debit or credit.* After computing the uniform price for each month, the market administrator shall compute each handler's pool debit or pool credit as follows:

(1) Multiply the milk received by each handler from producers by the uniform price.

(2) If the result obtained in (1) of this paragraph is less than the handler's adjusted net pool obligation, the difference shall be entered on the handler's producer-settlement fund account as such handler's pool debit.

(3) If the result obtained in (1) of this paragraph is greater than the handler's adjusted net pool obligation, the difference shall be entered on the handler's producer-settlement fund account as such handler's pool credit.

(e) *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to or from the producer-settlement fund, the market administrator shall debit the handler's producer-settlement fund account for any unpaid amount. Whenever verification or other action, including administrative review or litigation, discloses that payment is due from the market administrator to any handler, the market administrator shall credit the handler's producer-settlement fund account for any such amount.

(f) *Cooperative payments.* (Note: Same as § 927.7 (d) of present order except for necessary changes in cross-references.)

(g) *Storage cream payments.* With respect to butterfat in frozen cream, the handler whose net pool obligations included such butterfat as Class II–B milk, may make claim, on forms supplied by the market administrator, for payments out of the producer-settlement fund, if such butterfat was stored during the months of April to September, inclusive, and was used in Classes II–D, II–E, IV–B, IV–C, IV–D, or IV–E during the months of July to March, inclusive, or in Class IV–F during the months of January to March, inclusive. The market administrator shall, after investigation, audit and verification of such claim, credit such handler's producer-settlement fund account in an amount equal to the difference between the Class II–B price and the class price for such utilization in effect

for the month during which the butterfat was received from producers.

(h) *Payments to producers for butterfat and skim milk received from other than producer sources.* (1) Handlers who handle Class I–A butterfat, Class II–A butterfat, or Class V–A skim milk which was received at some plant from a dairy farmer not a producer shall pay to producers through the producer-settlement fund for such butterfat and skim milk as follows:

(i) If such butterfat and skim milk is classified and paid for under another order issued pursuant to the Act, the amount paid to producers through the producer-settlement fund shall be any plus amount obtained by subtracting the value at the class price or prices under such other order for such butterfat and skim milk from the value of such butterfat and skim milk at the Class I–A and Class V–A prices at a pool plant similarly located with respect to New York as the plant under such other order.

(ii) If such butterfat and skim milk is obtained from a source not regulated by another order issued pursuant to the Act, the payment shall be the difference between the value at the Class IV–F and Class V–D prices and the value at the Class I–A and V–A prices in the 201–210 mile zone.

(iii) In the event that the source of such milk is not revealed, the payment shall be the value at the Class I–A and Class V–A prices.

(2) Payment shall be made only once for any butterfat or skim milk subject to payments pursuant to (1) of this paragraph, and shall be made in accordance with (i), (ii), or (iii) of this subparagraph.

(i) Payment shall be made by the handler first receiving the butterfat or skim milk at a pool plant outside the marketing area.

(ii) If the butterfat or skim milk is not received at a pool plant outside the marketing area, payment shall be made by the handler operating the plant where such butterfat or skim milk is received in the marketing area.

(iii) If the butterfat or skim milk is not received at either a pool plant outside the marketing area or a plant in the marketing area, payment shall be made by the handler distributing the butterfat or skim milk in the marketing area.

(3) After receiving reports of butterfat or skim milk subject to the payments set forth in this paragraph, the market administrator shall compute the amount of such payments and enter it on the handler's producer-settlement fund account as a debit.

(j) *Adjustment of past due accounts.* Any debit balance payable on the 18th day of any month as shown on the account rendered to any handler pursuant to (a) of this section, payment of which has not been received by the market administrator on the last day of such month, shall be increased by one half of one percent.

(k) *Emergency fund.* The market administrator may transfer from the producer-settlement fund to an emergency fund set up pursuant to § 927.10 (d) a sum not to exceed $125,000 per month until a fund of $500,000 has been established, and thereafter a sum that will maintain such fund at $500,000. He may also pay into the producer-settlement fund any interest derived from the emergency fund.

(l) *Federal payments.* (1) The market administrator may collect on behalf of any producer any payment to be made by any federal agency to such producer. Any monies so collected shall be credited to the account in the producer-settlement fund of the handler who accounted to the market administrator for such producer's milk. Such handler shall in turn pay such monies to such producer in accordance with § 927.8 (d). Such collections may be made on behalf of producers whose milk is exempt from the computation of the uniform price in accordance with § 927.7.

(2) The market administrator may collect on behalf of a handler any payment to be made by any federal agency to such handler based on the classification of such handler's butterfat and skim milk under this order. Any monies so collected shall be credited to such handler's account in the producer-settlement fund.

(3) Whenever verification reveals that excessive payments, pursuant to (1) and (2) of this paragraph, have been made to a handler, the market administrator may debit such handler's account in the producer-settlement fund for such excessive payment and pay such amount out of the producer-settlement fund to the federal agency making the payment. Likewise, whenever verification reveals that an underpayment was made by the federal agency, the market administrator may collect such underpayment from the federal agency and credit such payment to the handler's account in the producer-settlement fund.

§ 927.10 *Emergency in the marketing of producers' milk*—(a) *Investigation.* The market administrator may investigate problems affecting the marketing of milk received from producers for the marketing area, report the results of his investigation to the War Food Administrator, and recommend action by the War Food Administrator.

(b) *Declaration by War Food Administrator.* On the basis of findings of fact, the War Food Administrator may declare an emergency in the marketing of milk from producers either (1) in supplying fluid milk in the marketing area, or (2) in the utilization of milk received from producers.

(c) *Shortage of fluid milk for the marketing area.* In the event that the War Food Administrator declares an emergency in supplying fluid milk in the marketing area, the market administrator is authorized to take any or all of the steps outlined in (1), (2), and (3) of this paragraph:

(1) Suspend Class III–G and Class IV–F, and price butterfat used in butter and cheddar cheese at the Class I–A price, and price the skim milk in the milk equivalent of the butterfat used in such products at the Class V–A price. He may also, if necessary, suspend other class prices upon approval by the War Food Administrator.

(2) Develop and recommend to the War Food Administrator an allocation program, and, subject to the approval of the War Food Administrator, take such actions as are necessary or appropriate to administer such an allocation program. In developing or administering any such program, the market administrator may consult with an advisory committee of which he acts as chairman, which consists of representatives of fluid milk distributors in the marketing area and handlers operating pool plants, such committee to be appointed by the War Food Administrator. Such an allocation program may contain terms and conditions for the sale of milk by handlers to fluid milk distributors.

(3) Cancel the designation as a pool plant for any plant so designated pursuant to § 927.3 (b) or (c) if the operator of such plant fails to cooperate in an allocation program set up pursuant to (2) of this paragraph or if, in the absence of such program, the market administrator determines that milk handled at such plant is no longer a reserve supply of fluid milk for the marketing area.

(d) *Excess of fluid milk for the marketing area.* The market administrator is authorized to establish an emergency fund from monies obtained from the producer-settlement fund, in accordance with § 927.9 (k). Upon the declaration by the War Food Administrator of an emergency in the utilization of milk received from producers, the market administrator may use the monies in such fund to facilitate the transportation of milk from plants where it cannot be utilized to plants where such milk can be utilized. The market administrator may also use the monies in such fund to carry out other programs for the utilization of milk received from producers, which programs are specifically authorized by the War Food Administrator. The market administrator may, before utilizing monies in such fund for any purpose, consult the advisory committee representing producers appointed pursuant to § 927.3 (b). In the operation of any program authorized pursuant to this paragraph the market administrator may consult a sub-committee of those members of the advisory committee appointed pursuant to (c) of this section who operate pool plants.

§ 927.11 *Expense of administration—Payment by handlers.* As his pro rata share of the expense of administration hereof, each handler shall, on or before the 18th day of each month, pay to the market administrator a sum not exceeding 2 cents per hundredweight on the total quantity of milk received from producers, and on the total quantity of butterfat and skim milk subject to payments pursuant to § 927.9 (h), the exact amount to be determined by the market administrator subject to review by the War Food Administrator. The amount of any such payment due on the 18th day of any month which has not been received by the market administrator on the last day of such month shall be increased by one-half of 1 percent. This section shall not be deemed to duplicate any similar payment by any handler under an order issued by the Commissioner of Agriculture and Markets of the State of New York, with respect to the marketing area.

§ 927.12 *Limitation on time for auditing, reauditing, billing and petitioning.* The market administrator may not audit, reaudit, or charge a handler for operations during any month later than two years after the date of the filing of the report for such operations, except in the case of fraud.

A handler may not petition, pursuant to subsection 15 (A) of section 8c of the Act, to the War Food Administrator for review of an action by the market administrator later than 90 days after notification by registered mail of such action by the market administrator: *Provided,* That in cases of administrative review pursuant to § 927.3 (b) (3) or 927.4 (b) (2) a handler may not petition pursuant to subsection 15 (A) of section 8c of the Act later than 90 days after notification by registered mail of the decision of the War Food Administrator in such cases.

§ 927.13 *Suspension, termination, and liquidation*—(a) *Suspension or termination.* The War Food Administrator shall, whenever he finds that any or all of the provisions hereof obstruct or do not tend to effectuate the declared policy of the Act, terminate or suspend the operation of such provision or provisions.

(b) *Continuing obligation of handlers.* Unless otherwise provided by the War Food Administrator in any notice of amendment, termination, or suspension of any or all of the provisions hereof, such amendment, termination or suspension shall not affect, waive or terminate any right, duty, obligation, or liability which shall have arisen or may thereafter arise in connection with any provision of this order; release or waive any violation of this order occurring prior to the effective date of such amendment, termination, or suspension; or affect or impair any rights or remedies of the War Food Administrator or of any other person with respect to any such violations.

(c) *Continuing power and duty of market administrator.* The market administrator shall (1) continue in such capacity until discharged by the War Food Administrator; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, to such person as the War Food Administrator shall direct; and (3) if so directed by the War Food Administrator, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator pursuant hereto.

(d) *Liquidation.* Upon the termination or suspension hereof, the market administrator shall, if so directed by the War Food Administrator, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid and owing at the time of such termination or suspension. Any funds collected for expenses, pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator in liquidating the business of the market administrator's office shall be distributed by the market administrator to handlers in an equitable manner.

§ 927.14 *Agents.* The War Food Administrator may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

EXHIBIT A

RULES AND REGULATIONS FOR ACCOUNTING FOR AND CLASSIFYING BUTTERFAT AND SKIM MILK

SECTION 1. *Definitions.* The terms used herein shall have the same definitions as are set forth in Order No. 27. In addition, the following terms shall have the following meanings:

(a) "Order No. 27" means the order regulating the handling of milk in the New York metropolitan milk marketing area, issued effective September 1, 1938, and as subsequently amended.

(b) The term "pooled," when used in conjunction with milk, butterfat, skim milk, or other dairy products, means that the butterfat or skim milk in such products is used, or should be used, in the computation of the uniform price, pursuant to § 927.7 of Order No. 27.

(c) The term "exempt," when used in conjunction with milk, butterfat, skim milk, or other dairy products, means that the butterfat or skim milk in such products is exempt from the computation of the uniform price, pursuant to § 927.7 of Order No. 27. Exempt butterfat or skim milk shipped to another plant shall be considered pooled butterfat or skim milk at such other plant.

(d) The term "non-pooled," when used in conjunction with milk, butterfat, skim milk, or other dairy products, means that the butterfat or skim milk in such products is neither pooled nor exempt butterfat or skim milk.

(e) "Fluid milk" means the combination of butterfat and skim milk which does not contain more than 10 percent or less than 3 percent butterfat. This definition shall not be deemed to include products that are included in other definitions of this section.

(f) "Fluid skim milk" means a product consisting principally of uncondensed skim milk and containing less than 3 percent butterfat. This definition includes buttermilk obtained from churning.

(g) "Milk beverage" means a flavored or cultured beverage containing skim milk but not more than 10 percent butterfat.

(h) "Cream" means the combination of butterfat and skim milk which contains more than 10 percent butterfat. This definition shall not be deemed to include products that are included in other definitions of this section.

(j) "Frozen cream" means pooled cream which is held in a licensed cold storage warehouse at an average temperature below 0° Fahrenheit for 7 consecutive days and below 15° Fahrenheit for at least 21 days thereafter, as shown by charts of a recording thermometer, and which is subject at all times to being inspected by a representative of the market administrator to determine the physical presence of the cream and the temperature of the room where stored. After the first 7 consecutive days, such cream may be moved from one licensed cold storage warehouse to another: *Provided,* That the market administrator receives notice of such removal within 48 hours thereafter.

(k) "Sour cream" means cream which has been fermented by means of a lactic acid or other harmless milk culture and which is sold under the name of sour cream.

(l) "Manufacturing cream" means cream which is permitted by local or State authorities to be used only in manufactured dairy products.

(m) "Plain condensed milk" means that unsweetened, unsterilized product resulting from the evaporation of water from fluid milk, which product contains not less than 7 percent butterfat and not less than 17.8 percent milk solids not butterfat.

(n) "Evaporated milk" means the product resulting from the evaporation of water from fluid milk, which product contains not less than 7.9 percent butterfat and not less than 25.9 percent total milk solids and which product is packed in hermetically-sealed cans.

(o) "Sweetened condensed milk" means the product resulting from the evaporation of water from fluid milk and the addition of sugar. It shall contain not less than 28 percent milk solids, 8.5 percent butterfat, and 38 percent sugar.

(p) "Condensed skim milk" means the product resulting from the evaporation of at least 50 percent of the water from fluid skim milk. This includes the products known as condensed skim milk, sweetened condensed skim milk, and condensed buttermilk.

(q) "Milk powder" means the product resulting from the removal of water from fluid milk, cream, plain condensed milk, condensed skim milk, or fluid skim milk. It shall contain not more than 5 percent of moisture and may contain substances other than milk solids, which substances may have been added either prior to or after the removal of the water. It includes products known as whole milk powder, malted milk powder, and ice cream powder.

(r) "Skim powder" means milk powder containing not more than 10 percent of butterfat. This definition includes products known as non-fat dry milk solids and dried buttermilk.

(s) "Cheese" means the product made from the separated curd obtained by coagulating the casein of fluid milk, fluid skim milk, or cream.

(t) "Cheddar cheese" means cheese made by the Cheddar process from the heated and pressed curd obtained by the action of rennet on fluid milk or fluid skim milk.

(u) "Cream cheese" means cheese made by the Neufchatel process from curd obtained by the action of lactic-acid-producing bacteria with or without rennet on fluid milk or cream and containing not less than 20 percent butterfat.

(v) "Frozen desserts" means those products commonly known as ice cream, frozen custard, and sherbet.

(w) "Mix" means the homogenized mixture containing milk solids, water, and sugar, with other ingredients, which is prepared for use in the manufacture of frozen desserts. It shall contain not less than 12 percent of sugar and not less than 0.5 percent of other solids not milk solids.

(x) "Butter" means the product resulting from churning with or without salt and containing at least 80 percent butterfat. This does not include the product known as plastic cream.

(y) Any handler may request the market administrator to hold a hearing for the purpose of amending the definitions in this section to include products not covered by such definitions.

SEC. 2. *Classification of butterfat and skim milk shipped in the form of fluid milk, cream, plain condensed milk, frozen desserts, or fluid skim milk.* (a) Butterfat shipped in the form of fluid milk from any plant to a plant

in the marketing area shall be classified as Class I–A, and any skim milk shipped in the form of fluid milk or fluid skim milk or milk beverage from any plant to a plant in the marketing area shall be classified as Class V–A.

(b) Butterfat shipped in the form of cream from any plant to a plant in the marketing area shall be classified as Class II–A and the skim milk in such cream shall be classified as Class V–A, unless the cream leaves the plant where first received in the marketing area in the form of frozen desserts or mix, in which case the butterfat and skim milk may be classified in the appropriate classes for butterfat and skim milk utilized in frozen desserts or mix. Likewise, butterfat shipped in the form of plain condensed milk from any plant to a plant in the marketing area shall be classified as Class III–A unless such plain condensed milk leaves the plant where first received in the marketing area in the form of frozen desserts or mix, in which case the butterfat may be classified in appropriate classes for butterfat utilized in frozen desserts or mix.

(c) Butterfat which is shipped in the form of fluid milk, cream, or plain condensed milk from a pool plant to another plant outside the marketing area (except as provided in (g), (h), (j), (k), and (l) of this section) may be classified at such other plant.

(d) Skim milk which is shipped in the form of fluid milk, cream, or fluid skim milk from a pool plant to another plant outside the marketing area (except as provided in (g), (h), (j), (k), and (l) of this section) may be classified at such other plant.

(e) Butterfat which in the form of fluid milk, cream, or plain condensed milk is held at, or shipped from, a non-pool plant shall be classified in accordance with the form in which it is held at or moved from such plant, except that butterfat received at such plant in the form of milk which leaves such plant in the form of cream or plain condensed milk, and is shipped less than 65 miles to another plant, may be classified at such other plant in accordance with the form in which it is held at or moved from such other plant.

(f) Skim milk which, in the form of milk, cream, or skim milk, is held at, or shipped from, a non-pool plant shall be classified in accordance with the form in which it is held at or moved from such plant, except that skim milk which is shipped less than 65 miles in the form of fluid skim milk from a non-pool plant where such skim milk was separated, to another plant, may be classified at such other plant in accordance with the form in which it is held at or moved from such other plant.

(g) Butterfat shipped in the form of milk from any plant outside the marketing area, or from any plant inside the marketing area receiving such milk directly from dairy farmers, to a plant in another area regulated by an order issued pursuant to the act, shall be classified as Class I–B and skim milk in such milk shall be classified as Class V–B.

(h) Butterfat shipped in the form of fluid milk from any plant to a plant located in an area outside the States of New York, Vermont, Pennsylvania, and New Jersey shall be classified as Class I–A, Class I–B, or Class I–C, and the skim milk in such milk shall be classified as Class V–A, V–B, or V–C, except that if the milk is moved less than 65 miles from the plant where received from dairy farmers, the butterfat and skim milk shall be classified in accordance with (c), (d), (e), or (f) of this section.

(j) Butterfat which is moved in the form of cream or plain condensed milk from any plant to a plant outside the New England cream area, outside New York, outside New Jersey, and outside Pennsylvania, shall be classified as Class II–D, and the skim milk shall be classified as Class V–D unless such cream or plain condensed milk is moved into the marketing area, or unless such cream is subsequently moved into the special cream area, except that if such cream or plain condensed milk is shipped less than 65 miles from the plant where it was separated or condensed, the butterfat and skim milk shall be classified in accordance with (c), (d), (e), or (f) of this section.

(k) Butterfat which is moved in the form of cream or plain condensed milk to a plant in the New England cream area shall be classified as Class II–E, and the skim milk shall be classified as Class V–D unless such cream or plain condensed milk is moved into the marketing area or unless such cream is subsequently moved into the special cream area, except that if such cream or plain condensed milk is shipped less than 65 miles from the plant where separated or condensed, the butterfat and skim milk shall be classified in accordance with (c), (d), (e), and (f) of this section.

(l) Butterfat which is shipped in the form of fluid milk or cream, and not classified as Class I–A or Class I–B to a plant, the handling of milk at which is subject to another order issued pursuant to the act, shall be classified as Class II–D, if the area for which the other order is applicable is outside the New England cream area, or Class II–E if the area for which the other order is applicable is in the New England cream area, unless such milk or cream is moved into the marketing area or the special cream area. All butterfat leaving a plant regulated by another order issued pursuant to the act in the form of fluid milk shall be classified as Class I–B unless such milk enters the marketing area.

(m) Butterfat which is shipped from a plant in the form of frozen desserts or mix to a plant or a purchaser in New York City shall be classified as Class IV–A unless such frozen desserts or mix is shipped from the first plant in New York City where the butterfat is handled outside New York City and remains outside New York City. In the latter case, the butterfat shall be classified as Class IV–B.

(n) Butterfat which is shipped from a plant in the form of frozen desserts or mix to a plant or a purchaser outside New York City shall be classified in accordance with the classification applicable to butterfat in frozen desserts or mix leaving a plant in such location, unless such frozen desserts or mix is subsequently moved into New York City.

(o) For purposes of this section, mileage shall be the shortest highway mileage as determined from the latest mileage guide issued by the Household Goods Carriers' Bureau, Agent, Washington, D. C.

SEC. 3. *Method of accounting for and classifying butterfat received in various forms and classifying of butterfat lost.* Butterfat shall be accounted for in accordance with the method outlined in the paragraphs of this section and shall be classified in accordance with the form in which it is held at or moved from the plant in accordance with § 927.4 (c) of Order No. 27, except that butterfat moved from a plant in the form of milk, cream, plain condensed milk, and frozen desserts and mix may be classified as provided in section 2 in accordance with the form in which it is held at or moved from some other plant. Any deductions or additions required in any paragraph shall be made to the result obtained after all additions or deductions required in the preceding paragraphs have been made.

(a) Compute the total pounds of butterfat in the opening inventories in all forms and received at the plant in all forms. This shall be known as the total butterfat to be accounted for.

(b) Classify the butterfat leaving the plant and in the closing inventories as follows:

(1) Classify or summarize the classification at another plant of butterfat leaving the plant in the form of milk and classify or summarize the classification at another plant in the closing inventories at the plant in the form of milk.

(2) Classify or summarize the classification at another plant of butterfat leaving the plant in the form of cream and classify or summarize the classification at another plant of butterfat in the closing inventories at the plant in the form of cream.

(3) Classify or summarize the classification at another plant of butterfat leaving the plant in the form of plain condensed milk and classify or summarize the classification at another plant of butterfat in the closing inventories at the plant in the form of plain condensed milk.

(4) Classify or summarize the classification at another plant of butterfat leaving the plant in the form of frozen desserts or mix and classify or summarize the classification at another plant of butterfat in the closing inventories at the plant in the form of frozen desserts or mix.

(5) Classify the butterfat leaving the plant and the closing inventories at the plant in other forms in accordance with § 927.4 (c) of Order No. 27.

(6) Add together the total butterfat in (1) through (5) of this paragraph. The total shall be known as the butterfat accounted for at the plant.

(c) Subtract the total butterfat accounted for from the total butterfat to be accounted for at the plant. This shall be known as the plant loss.

(d) Deduct butterfat in opening inventories or received in forms other than milk, cream, plain condensed milk, and frozen desserts and mix, from butterfat leaving the plant or in closing inventories at the plant in like forms to the extent possible.

(e) Deduct any remaining butterfat in opening inventories or received in forms other than milk, cream, plain condensed milk, frozen desserts and mix, sweetened condensed milk, whole milk powder, and butter from plant loss.

(f) Deduct the opening inventories of butterfat in the form of frozen desserts or mix from butterfat leaving the plant or in closing inventories at the plant in accordance with section 5.

(g) Deduct the butterfat received in the form of frozen desserts or mix pro rata from the remaining classes of frozen desserts or mix leaving the plant or in closing inventories at the plant. Deduct any remaining butterfat received in the form of frozen desserts or mix from plant loss.

(h) Add to the remaining butterfat in each class leaving the plant or in the closing inventories at the plant in the form of:

(1) Frozen desserts or mix, ____ percent;

(2) Bottled cream (which cream was bottled at the plant during the month), ____ percent;

(3) Cream cheese, ____ percent;

(4) Butter, ____ percent;

Provided, That, if such additions are greater than the remaining plant loss, they shall be reduced pro rata to the point where they are equal to the remaining plant loss. Such additions shall be deducted from plant loss.

(j) Deduct remaining butterfat in the opening inventories or received in the form of butter, sweetened condensed milk, and whole milk powder, pro rata from the remaining butterfat leaving the plant or in the closing inventories at the plant in the form of frozen desserts or mix. Deduct any remaining butterfat received in the form of butter, sweetened condensed milk, or whole milk powder from plant loss.

(k) Deduct the opening inventories of butterfat in plain condensed milk from butterfat leaving the plant or in closing inventories at the plant in accordance with section 5.

(l) Deduct the butterfat received in the form of plain condensed milk pro rata from the classification of butterfat leaving the plant or in the closing inventories in the plant in the form of plain condensed milk. Deduct any remaining butterfat received in the form of plain condensed milk pro rata from butterfat on hand at or leaving the plant in the form of frozen desserts, mix, evaporated milk, sweetened condensed milk, whole milk powder, or candy products. If any butterfat received in the form of plain condensed milk still remains, it shall be deducted from plant loss and classified as Class III–A.

(m) Deduct butterfat in the opening inventories or received in the form of manufacturing cream from remaining butterfat leaving the plant or in the closing inventories at the plant in the form of the following products and in the order in which such products are listed:

(1) Butter.

(2) Cream cheese.

(3) Other cheese (to the extent that cream is used in the manufacturing of such cheese).

(4) Frozen desserts and mix (pro rata, except none from frozen desserts or mix the butterfat in which is classified as Class IV–A).

(5) Sweetened condensed milk, evaporated milk, and milk powder (pro rata, to the extent that cream is used in the manufacture of such products).

(6) Frozen desserts and mix (the butterfat of which is classified as Class IV–A).

(7) Sour cream.

(n) Deduct butterfat in the opening inventories or received in the form of frozen cream from remaining butterfat leaving the plant or in the closing inventories at the plant in the following forms and in the order in which they are listed:

(1) Frozen cream.

(2) Sour cream (butterfat of which is classified as Class II–A).

(3) Frozen desserts or mix (butterfat of which is classified as Class IV–A).

(4) Butter.

(5) Cream cheese.

(6) Other cheese (to the extent that cream is used in the manufacturing of such cheese).

(7) Other frozen desserts and mix (pro rata).

(8) Sweetened condensed milk, evaporated milk, and milk powder (pro rata to the extent that cream is used in the manufacture of such products).

(9) Other cream.

(o) Deduct the opening inventories of butterfat in other cream from butterfat leaving the plant or in closing inventories at the plant in accordance with section 5.

(p) Deduct butterfat received in the form of other cream pro rata from remaining butterfat leaving the plant in the form of cream, frozen desserts, mix, butter, and, to the extent that cream is used in the manufacture of such products, from butterfat leaving the plant in the form of plain condensed milk, evaporated milk, sweetened condensed milk, milk powder, and cheese.

(q) Deduct any remaining butterfat received in the form of cream from plant loss and classify it as Class II–A.

(r) Add to the remaining butterfat leaving the plant or in the closing inventories at the plant in the form of:

(1) Cream, ____ percent;

(2) Plain condensed milk, ____ percent;

(3) Evaporated milk, ____ percent;

(4) Sweetened condensed milk, ____ percent;

(5) Milk powder, ____ percent;

(6) Frozen desserts or mix, ____ percent;

(7) Cream cheese, ____ percent;

(8) Butter, ____ percent;

Provided, That, if such additions are greater than the remaining plant loss, they shall be reduced pro rata to the point where they are equal to the plant loss. Deduct such additions from the plant loss.

(s) Deduct opening inventories of butterfat in the form of milk from butterfat leaving the plant or in closing inventories at the plant in accordance with section 5.

(t) Deduct butterfat received in the form of milk from other plants and deduct exempt butterfat from remaining butterfat leaving the plant or in closing inventories at the plant.

(u) Add to remaining butterfat in all classes __ percent: *Provided*, That, if such additions are greater than the remaining plant loss, they shall be reduced pro rata to the point where they are equal to the plant loss. Deduct such additions from the plant loss. Classify any remaining plant loss as Class I–A.

(v) Classification of butterfat deducted pursuant to (p) may be interchanged with the classification of butterfat deducted pursuant to (t) from the same products covered by (p) or with the classification of butterfat in receipts from dairy farmers classified on the basis of the products covered by (p): *Provided*, That, such interchange does not change the total classification of total pooled butterfat, or *Provided, That*, such interchange results in more pooled butterfat classified as Class I–A or Class II–A and less non-pooled butterfat being classified as Class I–A or Class II–A.

SEC. 4. *Allocation of pooled, non-pooled, and exempt butterfat and skim milk to butterfat and skim milk classes*—(a) *Milk.* If butterfat is received at a plant in the form of pooled, non-pooled or exempt milk, such butterfat shall be allocated to the several classes established pursuant to section 3 for the butterfat received in the form of milk as follows:

(1) Butterfat in non-pooled milk, including non-pooled milk from dairy farmers, shall be allocated pro rata as far as possible to the classes, except Class I–A and Class II–A, which have been established for butterfat received in the form of milk. Any remaining non-pooled butterfat shall be allocated to Class I–A and Class II–A butterfat.

(2) Butterfat in exempt milk shall be allocated after the allocation in (1) of this paragraph, pro rata to the remaining butterfat in the classes established for butterfat received in the form of milk.

(3) After the allocations in (1) and (2) of this paragraph, at the option of the handler or handlers involved, butterfat in pooled milk from other plants may be allocated to any of the remaining butterfat in the classes established for butterfat received in the form of milk.

(b) *Cream.* If pooled and non-pooled cream is received at a plant, the butterfat in the non-pooled cream shall be allocated pro rata as far as possible to the separate classes, except Class I–A and Class II–A, which have been established pursuant to section 3, for all of the butterfat received at that plant in the form of cream. Any excess butterfat in the non-pooled cream shall be allocated to Class I–A or to Class II–A. The butterfat received in the form of pooled cream from the separate sources may be allocated, at the option of the handler or handlers involved, to the remaining butterfat in the classes established for butterfat received in the form of cream.

(c) *Skim milk.* If pooled, non-pooled or exempt skim milk in the form of milk, cream, or fluid skim milk is received at a plant, the skim milk shall be allocated to the classes of skim milk at the plant as follows:

(1) The non-pooled skim milk shall be allocated pro rata as far as possible to Class V–B, Class V–C, and Class V–D. Any remaining non-pooled skim milk shall be allocated to Class V–A.

(2) The exempt skim milk shall be allocated pro rata to all classes of skim milk in the plant remaining after the allocation in (1) of this paragraph.

(3) Pooled skim milk from other plants may be allocated, at the option of the handler or handlers involved, to any of the classes of skim milk remaining after the allocations in (1) and (2) of this paragraph.

(d) *Plain condensed milk.* If pooled and non-pooled plain condensed milk is received at a plant, the butterfat in the non-pooled plain condensed milk shall be allocated pro rata to the separate classes which have been established pursuant to section 3 for all of the butterfat received at that plant in the form of plain condensed milk. The butterfat in the pooled plain condensed milk from the separate sources may be allocated to any remaining butterfat in the classes established for butterfat received in the form of plain condensed milk at the option of the handler or handlers involved.

(e) *Frozen desserts or mix.* If pooled and non-pooled frozen desserts or mix is received at a plant the butterfat in the pooled frozen desserts or mix shall be allocated to that part of the total butterfat received in the form of frozen desserts or mix which is classified as Class IV–A.

SEC. 5. *Inventories.* Closing inventories may be classified by the handler at the time for filing reports in accordance with § 927.6 (a) of Order No. 27 in the class in which he believes such inventories will be classified during the month following the receipt of such butterfat from dairy farmers. In classifying the butterfat received during the next month, the opening inventories of butterfat shall be deducted from the class or classes of butterfat, if any, leaving the plant, in which it was classified for the preceding month. If there is not sufficient butterfat in such class or classes leaving the plant, the remaining butterfat in the opening inventories shall be allocated by the market administrator at the time of audit to other classes on hand at or leaving the plant, and the audit for the previous month shall be adjusted accordingly. Butterfat in opening inventories of cream which must be allocated to butterfat in closing inventories of cream shall be classified as Class II–A. Butterfat in opening inventories of plain condensed milk that must be allocated to butterfat in closing inventories of plain condensed milk shall be classified as Class III–A. In classifying butterfat and in allocating classes of butterfat to the various sources, pursuant to sections 3 and 4, any opening inventories which are allocated to closing inventories shall be deducted pro rata from all classes of butterfat receipts. For the first month for which an audit must be made by the market administrator, opening inventories shall be treated as receipts of non-pooled product.

SEC. 6. *Conversion factors.* In the absence of specific weights or butterfat tests, the market administrator shall use the following conversion factors in determining weights and tests of products.

(a) *Weights.* Weights of products shall be as shown in the following table:

Product	Unit	Net weight
Cream (11% butterfat)	40-quart can	
Cream (12% butterfat)	40-quart can	
Cream (13% butterfat)	40-quart can

Evaporated milk	Case, tall cans	
Evaporated milk	Case, baby cans	
Sweetened condensed milk	40-quart can	
Mix	40-quart can	

(b) *Butterfat tests.* Butterfat tests of products shall be as shown in the following table:

Product	Test (percent)
Cream (except New Jersey) (sold as cream)	18
Cream (New Jersey) (sold as cream)	16
Victory-mix	11
Plain condensed milk	7
Evaporated milk	7.9
Sweetened condensed milk	8.5
Cream cheese (sold as cream cheese)	33
Cream cheese (sold as Neufchatel)	20
Mix (except chocolate)	10
Mix (chocolate)	8
Butter (salt)	80
Butter (unsalted)	82

SEC. 7. *Butterfat in byproducts.* (1) Butterfat on hand at or leaving the plant in the form of whey, whey cream, or whey butter, obtained from the manufacture of Cheddar cheese, shall be classified as Class III–C.

(2) Butterfat in byproducts of milk or milk products manufacturing or shipping operations except that classified pursuant to (1) of this section shall be considered plant loss. Such byproducts shall include but not be limited to fluid skim milk, skim powder, condensed skim milk, and rinsings.

SEC. 8. *Exceptional cases.* In the event that operations at a plant are such that, in the opinion of the market administrator, the provisions of these rules and regulations are not applicable, the market administrator shall make exceptions to such rules and regulations to fit the specific cases, pending a hearing to amend the rules and regulations, and such exceptions shall be binding until such time as the rules and regulations are amended. This provision does not prevent the handler from petitioning the War Food Administrator, pursuant to section 8 (c) 15 (A) of the act, for review of the exceptions to the rules by the market administrator.

Copies of this notice of hearing may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1331 South Building, Washington, D. C., or may be there inspected.

THOMAS J. FLAVIN,
Assistant to the War Food Administrator.

ORDER ADMINISTRATOR AND MEAT ORDER REPRESENTATIVES

DELEGATION OF AUTHORITY WITH RESPECT TO LIVESTOCK AND MEATS

Pursuant to the authority vested in me by War Food Order No. 75, as amended (8 F.R. 11119, 9 F.R. 4319, 5333, 5767), and to effectuate the purposes of that order and of War Food Order No. 75–1, as amended (8 F.R. 11327, 9 F.R. 4319, 5888), the following delegations of authority are hereby made, subject to such general instructions with respect to policy and procedure as may from time to time be issued by me or by the Deputy Director:

(a) *Order Administrator.* The Order Administrator and Alternate Order Administrator of War Food Order No. 75–1, are authorized, subject to the supervision of the Chief of the Livestock and Meats Branch, Office of Distribution, War Food Administration, to grant or deny petitions for relief from hardship submitted by any slaughterer, and with respect to all slaughterers designated as "national packers" by the said Livestock and Meats Branch:

(1) To issue licenses and deny applications for licenses; and

(2) To establish, assign, adjust and revise quotas or quota bases.

(b) *Meat Order Representatives.* Subject to the supervision of the Order Administrator, Meat Order Representatives of the Office of Distribution, War Food Administration, are authorized, with respect to custom slaughterers and all other slaughterers except national packers as referred to in (a) hereof:

(1) To issue licenses and permits, and deny applications for licenses and permits.

(2) To establish, assign, adjust and revise quotas or quota bases;

(3) To classify and reclassify slaughterers; and

(4) To grant or deny petitions for relief from hardship.

Nothing contained herein shall be construed to affect any power or authority vested in the Director of Distribution.

This delegation of authority supersedes the delegation of authority to the Order Administrator, regional directors, State supervisors, area supervisors, and County War Boards, issued under Food Distribution Order No. 75 on August 26, 1943 (8 F.R. 11893, 12161).

Issued this 15th day of July 1944.

C. W. KITCHEN,
Acting Director of Distribution.

WAR PRODUCTION BOARD.

[Certificate 203, Amdt. 1]

PRODUCERS OF PENICILLIN

APPROVAL OF COLLABORATION IN EXCHANGE OF TECHNICAL INFORMATION

The ATTORNEY GENERAL:

Referring to Certificate No. 203 issued pursuant to section 12 of Public Law No. 603, 77th Congress (56 Stat. 357), on June 21, 1944 (7 F.R. 7036), concerning a proposal, described in a memorandum dated June 5, 1944,[1] from the Director of the Chemicals Bureau and the Director of the Office of Production Research and Development of the War Production Board, that certain named producers of penicillin, as well as others who might be added from time to time, be requested to collaborate in the exchange of technical information respecting the production and processing of penicillin derived by fermentation from penicillium notatum and of any raw material or intermediate components of penicillin, I submit herewith a supplementary memorandum dated July 13, 1944,[1] proposing the addition to the group exchanging information of other producers of penicillin not listed in the earlier memorandum or falling within the classification of producers who might be added in accordance with the terms of that memorandum.

For the purposes of the statute cited, I approve the proposal described in the memorandum of June 5, 1944, as amended by the memorandum of July 13, 1944; and after consultation with you I hereby find and so certify to you that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with my approval as herein expressed is requisite to the prosecution of the war. Nothing in my approval, however, is to be construed as authorizing the imposition of limitations upon the use of information exchanged by the manufacturers.

DONALD M. NELSON,
Chairman.

TITLE 7—AGRICULTURE

Chapter XI—War Food Administration (Distribution Orders)

[WFO 42, Amdt. 9]

PART 1460—FATS AND OILS

PARTIAL SUSPENSION OF RESTRICTIONS ON USE OF LARD AND RENDERED PORK FAT

War Food Order No. 42, as amended (9 F.R. 2971, 4319, 4802, 5333, 6391), is further amended by deleting (b) (12) and substituting in lieu thereof the following:

(12) Notwithstanding any other provision of this order, any manufacturer who, during the period from May 15 to June 30, 1944, both inclusive, purchased and accepted delivery of lard or rendered pork fat, or who, during the period from July 17 to July 31, 1944, both inclusive, purchases and accepts delivery of lard or rendered pork fat, may use such lard or rendered pork fat without charge against quota in the manufacture of soap.

This amendment shall become effective at 12:01 a. m., e. w. t., July 18, 1944.

With respect to violations, rights accrued, liabilities incurred, or appeals taken under War Food Order No. 42, as amended, prior to said date, all provisions of said War Food Order No. 42, as amended, in effect prior hereto shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

(E.O. 9280, 7 F.R. 10179; E.O. 9322, 8 F.R. 3807; E.O. 9334, 8 F.R. 5423; E.O. 9392, 8 F.R. 14783)

Issued this 15th day of July 1944.

WILSON COWEN,
Assistant War Food Administrator.

TITLE 29—LABOR

Chapter IX—War Food Administration (Agricultural Labor)

[Specific Wage Ceiling Reg. 15]

PART 1111—SALARIES AND WAGES OF AGRICULTURAL LABOR IN THE STATE OF WASHINGTON

WORKERS ENGAGED IN PICKING CHERRIES IN CERTAIN WASHINGTON COUNTIES

§ 1111.1 *Wages of workers engaged in picking cherries in the Counties of Chelan, Douglas and Okanogan, State of Washington.* Pursuant to § 4001.7 of the regulations of the Director of the Office of Economic Stabilization relating to wages and salaries issued August 28, 1943 (8 F.R. 11960, 12139), as amended on December 9, 1943 (8 F.R. 16702) and June 1, 1944 (9 F.R. 6035) and to the regulations of the War Food Administrator issued January 20, 1944 (9 F.R. 831), entitled "Specific Wage Ceiling Regulations" and based upon relevant facts submitted by the Washington WFA Wage Board and obtained from other sources, it is hereby determined that:

(a) *Areas, crops, and classes of workers.* Persons engaged in picking cherries in the Counties of Chelan, Douglas and Okanogan, State of Washington, are agricultural labor as defined in § 4001.1(l) of the regulations of the Director of the Office of Economic Stabilization issued on August 28, 1943 (8 F.R. 11960, 12139), as amended on December 9, 1943 (8 F.R. 16702) and June 1, 1944 (9 F.R. 6035).

(b) *Wage rates; maximum wage rates for picking cherries.*

1. Hourly rate—85¢ per hour.
2. Piece rate—3½ cents per lb. or the equivalent where container rates are used.

(c) *Administration.* The Washington WFA Wage Board located at 235 Liberty Building, Yakima, Washington, will have charge of the administration of this order in accordance with the provisions of the specific wage ceiling regulations issued by the War Food Administrator January 20, 1944 (9 F.R. 831).

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

PART 602—GENERAL ORDERS AND DIRECTIVES

[SFAW Reg. 23]

The fulfillment of requirements for the defense of the United States will result in a shortage in the supply of bituminous coal for defense, for private account and for export; and the following regulation is deemed necessary and appropriate in the public interest and to promote the national defense:

DISTRIBUTION OF BITUMINOUS COAL IN UNITED STATES

Sec.
602.500 What this regulation does.
602.501 Meaning of terms used in this regulation.
SUBPART A—PROVISIONS TO WHICH SHIPPERS OF COAL ARE SUBJECT
602.502 Shipments of by-product and other special purpose coal; first preference.
602.503 Shipments of coal moving to docks via the Great Lakes; second preference.
602.504 Shipments by certain commercial lake dock operators; preference and restrictive provisions.
602.505 Shipments to retail dealers of coal produced in Districts 7 and 8 (excluding certain ex-lake dock shipments); preference and restrictive provisions.
602.506 Method of fulfilling preferences when supply is insufficient.
602.507 Prohibitions against shipments contrary to this regulation.
602.508 Use of coal preparation facilities.
602.509 Production not to be curtailed.
602.510 When orders must be received and what they must contain.
602.511 Reports by producers, commercial dock operators and lake or tidewater forwarders.

SUBPART B—PROVISIONS TO WHICH INDUSTRIAL CONSUMERS OF COAL ARE SUBJECT
Sec.
602.512 How this regulation applies to industrial consumers.
602.513 How "days' supply" and "monthly consumption requirements" are calculated by industrial consumers.
602.514 When orders must be filed and what they must contain.
602.515 Restrictions on receipts by industrial consumers of by-product and other special purpose coal.
602.516 Restrictions on receipts by industrial consumers of coal moving via the Great Lakes or ex-lake dock.
602.517 Restrictions on receipts by industrial consumers of coal other than by-product and special purpose coal and other than coal moving via the Great Lakes or ex-lake dock.
SUBPART C—PROVISIONS TO WHICH RETAIL DEALERS RECEIVING COAL ARE SUBJECT
602.518 Restrictions on receipts by retail dealers from commercial lake dock operators.
602.519 Receipts by retail dealers of coal produced in Districts 7 and 8.
PROVISIONS OF GENERAL APPLICABILITY
602.520 Assistance to persons unable to obtain sufficient coal.
602.521 Preservation of orders and effect of representations.
602.522 Damages for breach of contract.
602.523 Violations.
602.524 Official interpretations.
602.525 Applications for modification or exception.
602.526 Effect on other SFAW regulations.
602.527 Effective date.

AUTHORITY: §§ 602.500 to 602.527, inclusive, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176.

§ 602.500 *What this regulation does.* This regulation controls the distribution of bituminous coal produced in the United States. It does not apply to those transactions between retail dealers and consumers which are governed by Solid Fuels Administration for War Regulation No. 21. This regulation combines many of the provisions formerly contained in Solid Fuels Administration for War Revised Regulation No. 10 and Solid Fuels Administration for War Regulation No. 20 and adds a number of new provisions. Among the new provisions are those applicable to shipments of coal produced in Districts 7 and 8 to retail dealers and those applicable to all coal moving from certain commercial lake docks to industrial consumers and retail dealers.

Subpart A of this regulation sets forth provisions to which persons shipping bituminous coal are subject.

Subpart B of this regulation sets forth provisions to which industrial consumers receiving coal are subject.

Subpart C of this regulation sets forth provisions to which retail dealers receiving coal are subject.

Subpart D of this regulation sets forth provisions of general applicability.

§ 602.501 *Meaning of terms used in this regulation.* For purposes of this regulation:

(a) "Coal" means bituminous and subbituminous coal.

(b) "By-product coal" means coal which is to be charged into by-product coke ovens for the production of coke for metallurgical uses, or for the production of gas or for the recovery of by-products.

(c) "Other special purposes coal" means coal, other than by-product coal, which is to be:

(1) Used for foundry or other metallurgical purposes in which the coal or its products of combustion come in direct contact with the metal during the processing; or

(2) Used for foundry facings requiring special chemical or physical characteristics; or

(3) Used for the production of water gas; or

(4) Charged into retorts for the production of gas; or

(5) Used as a raw material, because of special chemical or physical characteristics, to form a component part of chemicals, or directly entering into the chemical processes; or

(6) Used in beehive coke ovens, except those engaged exclusively in the production of coke for domestic use.

(d) "Briquettes" means briquettes containing any bituminous coal.

(e) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or organized group of persons.

(f) "Producer" means any person to the extent that he is engaged in the business of mining or preparing bituminous coal (or the sales agent of such person).

(g) "Wholesaler" means any distributor, jobber, forwarder, commercial dock operator (river, lake or tidewater) or other person (except a retail dealer) who resells bituminous coal.

(h) "Shipper" means any person who disposes of coal to a wholesaler, retail dealer or industrial consumer. To "ship" means to dispose of coal.

(i) "Retail dealer" means any person (including the retail outlet, branch or department of one who is also a producer or wholesaler) to the extent that he sells, delivers, or disposes of coal in a transaction involving the disposal of coal physically handled in a truck, wagon, or other less-than-carload facility, without regard to quantity or frequency of delivery.

(j) "Industrial consumer" means any person who consumes more than 10,000 tons of coal per year, or any person who, although he consumes less than 10,000 tons of coal per year, receives coal in cargo or carload lots from a producer or wholesaler.

(k) "Public utility" means an industrial consumer who renders a public service by supplying electricity, water or gas to a community.

(l) "District" means a bituminous coal producing district, as defined in the Bituminous Coal Act of 1937. A list of such districts is set forth in Appendix A.

(m) "SFAW means the Solid Fuels Administration for War.

SUBPART A—PROVISIONS TO WHICH SHIPPERS OF COAL ARE SUBJECT

§ 602.502 *Shipments of by-product and other special purpose coal; first preference.* If you are a shipper of by-product or other special purpose coal produced in Districts 1–4, inclusive, 6–11, inclusive, or 13, you shall first arrange your distribution schedules for the period April 1, 1944 to March 31, 1945, so that orders received pursuant to commitments and directions for by-product and other special purpose coal are met in full. If necessary, from time to time your distribution schedules should be revised so as to assure that a first preference is given to such orders. You are prohibited from shipping other coal until you have made adequate provision for fulfilling these orders.

No order for by-product coal is covered by this preference unless it is pursuant to:

(a) A contract to supply by-product coal entered into on or before March 10, 1944, reported to SFAW pursuant to SFAW Regulation No. 16,[1] and not disapproved in writing by SFAW; or

(b) A contract to supply by-product coal entered into after March 10, 1944, and approved in writing by SFAW; or

(c) An instruction or direction issued by SFAW.

NOTE: Any shipment of by-product coal other than pursuant to (a), (b), or (c) of this section, is prohibited by SFAW Regulation No. 16.

All contracts for other special purpose coal are covered by the first preference.

NOTE: The amount of by-product coal and other special purpose coal which an industrial consumer may receive is restricted under § 602.515 of this regulation. To the extent that any contract or commitment exceeds the amount which the industrial consumer is permitted to receive under this section or to the extent that any contract or commitment is modified by SFAW direction, this preference is not applicable.

To the maximum extent practicable, a shipper should meet those commitments for by-product and other special purpose coal to which the first preference applies in regular equal monthly shipments. If you ship such coal by rail, river, or tidewater, you should spread such shipments throughout the period April 1, 1944 to March 31, 1945. If you ship such coal by lake, you should spread such shipments throughout the current season of navigation and conclude them on or before November 1, 1944.

§ 602.503 *Shipments of coal moving to docks via the Great Lakes; second preference.* If you are a shipper of coal produced by Districts 1–4, inclusive, or 6–11, inclusive, after you have arranged to ship by-product and other special purpose coal to the extent required by § 602.502, you shall next arrange your distribution schedules for the period April 1, 1944 to November 1, 1944, so that orders received pursuant to commitments and directions for coal moving via the Great Lakes to any dock, or other unloading facility located on the Great Lakes, are met in full. If necessary, from time to time your distribution schedules should be revised so as to assure that a second preference is given

[1] 9 F.R. 2491.

to these orders. You are prohibited from shipping coal, except by-product and other special purpose coal, until you have made adequate provision for fulfilling these orders.

No order for coal moving via the Great Lakes to a dock, or other unloading facility on the Great Lakes, is covered by this preference unless it is pursuant to:

(a) A contract to ship coal via the Great Lakes entered into on or before February 29, 1944, reported to SFAW pursuant to SFAW Regulation No. 15,[1] and not disapproved in writing by SFAW; or

(b) A contract to ship coal via the Great Lakes entered into after February 29, 1944, and approved in writing by SFAW; or

(c) An instruction or direction issued by SFAW.

NOTE: Any shipment of coal moving via the Great Lakes to a dock or other unloading facility located on the Great Lakes, other than pursuant to (a), (b), or (c) of this section, is prohibited by SFAW Regulation No. 15. The amount of coal moving via the Great Lakes to a dock, or other unloading facility located on the Great Lakes, which an industrial consumer may receive, is restricted under § 602.516 of this regulation. To the extent that any contract or commitment exceeds the amount which the industrial consumer is permitted to receive by that section, this preference is not applicable. To the extent that any contract for the shipment of coal to an industrial consumer or to a commercial lake dock operator is modified by SFAW direction, this preference is not applicable.

To the maximum extent practicable and consistent with effective utilization of transportation facilities, you should spread your shipments of lake coal entitled to the second preference in equal monthly amounts throughout the current season of navigation and conclude them on or before November 1, 1944.

§ 602.504 *Shipments by certain commercial lake dock operators; preference and restrictive provisions*—(a) *Preference to retail dealers.* If you are a commercial dock operator located on Lake Superior or on the west bank of Lake Michigan, north of, and including Waukegan, Illinois, or in the State of Michigan, after you have arranged to meet any orders for by-product and other special purpose coal (as provided in § 602.502) you shall next arrange your distribution schedules for the period April 1, 1944 to March 31, 1945 so that orders from retail dealers located in Michigan, Minnesota, North Dakota, South Dakota and Wisconsin for all coal (except "slack" or "nut and slack"), briquettes and packaged fuel, to be shipped ex-lake dock, are met to the extent of 90 per cent of the amount which you shipped to each such retail dealer during the period April 1, 1943 to March 31, 1944. If necessary, from time to time your distribution schedules should be revised so as to assure that preference is given to these orders. You are prohibited from shipping other coal (except "slack" or "nut and slack"), briquettes and packaged fuel, until you have made adequate provision for fulfilling those orders.

[1] 9 F.R. 1501.

This preference is applicable to all such orders received by you from retail dealers to whom you shipped coal during the period April 1, 1943 to March 31, 1944, and you shall treat orders of independent dealers on the same basis as orders of affiliated retail dealers. In filling any order you are permitted to arrange credit terms and other conditions of the sale so long as such arrangements are not illegal or unreasonable and so long as they do not result in evasion of this regulation.

NOTE: Orders of retail dealers who do not have storage facilities or truck scales (unequipped retail dealers) are entitled to this preference on the same basis as orders of retail dealers having storage facilities or truck scales (equipped retail dealers).

(b) *Restrictions on ex-lake dock shipments to industrial consumers and retail dealers.* This paragraph applies to you if you are a commercial dock operator located on Lake Superior or on the west bank of Lake Michigan, north of, and including Waukegan, Illinois, or in the State of Michigan.

(1) You are prohibited from shipping ex-lake dock any coal, briquettes or packaged fuel, directly or indirectly, to any industrial consumer or retail dealer not located in Michigan, Minnesota, North Dakota, South Dakota or Wisconsin.

(2) You are prohibited from shipping ex-lake dock to a retail dealer any coal (except "slack" or "nut and slack"), briquettes, or packaged fuel not covered by a preference; and after you have filled all orders entitled to a preference, you are prohibited from shipping any such coal, briquettes or packaged fuel suitable for delivery to retail dealers, except pursuant to SFAW direction. You should promptly report any such tonnage which you expect to have available to Solid Fuels Administration for War, Washington 25, D. C.

(3) You are prohibited from delivering to any industrial consumer, during the period May 1, 1944 to December 1, 1944, more than 75 per cent of the total tonnage of coal which you are obliged to ship to that industrial consumer during the period May 1, 1944 to May 15, 1945. However, the Area Distribution Manager is authorized to modify the above provisions to permit deliveries in excess of 75 per cent, but otherwise consistent with this regulation, where the industrial consumer is engaged primarily in the operation of a seasonal industry, such as a fruit or vegetable cannery, and in other cases to prevent hardship.

NOTE: SFAW Regulation No. 3 prohibits ex-dock distribution to other than certain destinations. These prohibitions remain in effect except to the extent that they are modified by this regulation.

§ 602.505 *Shipments to retail dealers of coal produced in Districts 7 and 8 (excluding certain ex-lake dock shipments); preference and restrictive provisions*—(a) *Preference to retail dealers.* If you shipped coal produced in Districts 7 and 8 to retail dealers during the period April 1, 1943 to March 31, 1944 (and to the extent that you are not shipping as a commercial dock operator located on Lake Superior, on the west bank of Lake Michigan, north of, and including, Waukegan, Illinois, or in the State of Michigan), after you have arranged to meet orders for by-product and other special purpose coals (as provided in § 602.502) and orders for coal moving via the Great Lakes (as provided in § 602.503), you shall next arrange your distribution schedules so that for the period April 1, 1944 to March 31, 1945, orders from retail dealers for coal produced in Districts 7 and 8 are met to the extent set forth in this section. If necessary, from time to time, your distribution schedules should be revised so as to assure that a third preference is given to these orders. You are prohibited from shipping coal, except coal covered by the first and second preferences, until you have made adequate provision for fulfilling these orders of retail dealers.

This preference is applicable to all orders received by you from retail dealers to whom you shipped coal during the period April 1, 1943 to March 31, 1944, and you shall treat orders of independent dealers on the same basis as orders of affiliated retail dealers. In filling any order, you are permitted to arrange credit terms and other conditions of the sale so long as such arrangements are not illegal or unreasonable, and so long as they do not result in evasion of this regulation.

NOTE: Orders of retail dealers who do not have storage facilities or truck scales (unequipped retail dealers) are entitled to this preference on the same basis as orders of retail dealers having storage facilities or truck scales (equipped retail dealers).

(1) *Coal to which third preference is applicable.* The third preference is applicable to all coal produced in Districts 7 and 8, except slack. Resultant coal 1½" x 0 and smaller produced in District 7, and resultant coal 2¼ x 0 and smaller produced in District 8, shall be considered slack. Neither the preference nor the restrictive provisions of this section are applicable to slack. Shippers may consider low volatile lump, egg, stove, and domestic mine run coal produced in Districts 7 and 8 as a unit and interchangeable. They may consider high volatile lump, egg, stove and nut coal produced in Districts 7 and 8 as a unit and interchangeable. (The designation of mines contained in the Minimum Price Schedules of the former Bituminous Coal Division shall be the basis for determining whether coal is low or high volatile coal within the meaning of this regulation.) To the maximum extent consistent with reasonable mining operating conditions, shipments under this preference of the other sizes of coal from Districts 7 and 8 shall be made on the basis of the amount of each such size shipped to the individual retail dealer during the period April 1, 1943 to March 31, 1944.

(2) *Amount of coal to which preference is applicable.* During the period April 1, 1944 to March 31, 1945, you are required to ship to each retail dealer entitled to this perference an amount of coal produced in Districts 7 and 8 equal to 90 percent of the amount of such coal which you shipped to that retail dealer during the period April 1, 1943 to March 31, 1944. (For the purpose of calculating the amount of coal which you shall ship under this preference, you may obtain special permission from the Area Distribution Manager to substitute as a base year the period April 1, 1942 to March 31, 1943. In calculating the amount of coal which you shipped to a retail dealer located in the States of Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, Delaware, New York, New Jersey or Pennsylvania, you shall exclude coal produced in Districts 7 or 8 shipped all-rail to such dealers pursuant to SFAW directions.) During the period April 1, 1944 to October 1, 1944, you are required to ship to such retail dealer not less than 40 percent (to the nearest carload or barge lot) of the total amount of coal which you are required to ship to such dealer during the period April 1, 1944 to March 31, 1945.

(3) *Order of making shipments to retail dealers.* In making shipments under this preference, you shall first fill or arrange to fill orders from retail dealers located in Consuming Area 1, which consists of the States of Alabama, Florida, Georgia, Kentucky, Maryland, North Carolina, South Carolina, Tennessee, Virginia, West Virginia and the District of Columbia.

You shall next fill or arrange to fill orders of retail dealers who are located in Consuming Area 2, which consists of the States of Michigan, Minnesota, Wisconsin, that part of the State of Indiana east of and including the counties of St. Joseph, Marshall, Fulton, Cass, Carroll, Tippecanoe, Clinton, Boone, Marion, Johnson, Brown, Jackson, Washington and Harrison, that part of the State of Ohio west of and including the counties of Erie, Huron, Ashland, Richland, Morrow, Delaware, Franklin, Pickaway, Ross, Pike, Scioto and Lawrence, and that part of the Dominion of Canada which was in former Market Area 21.[2]

You shall next fill or arrange to fill orders from retail dealers located in Consuming Area 3, which consists of all other localities.

NOTE: Present production estimates indicate that retail dealers in Consuming Area 3 will receive less than 90 per cent of the amount of coal which they obtained last year from District 8 and substantially less than 90 percent of the amount of coal which they obtained last year from District 7.

[2] This area was defined as all points in the Province of Ontario west of the following described line: beginning at but excluding Port Burwell, Ontario, on the north shore of Lake Erie; thence following the Canadian Pacific Ry. and excluding all points thereon from Port Burwell, Ontario to Eden, Ontario; continuing via the Canadian Pacific Ry. and including all points thereon to and including Tillsonburg, Ontario; thence continuing via and including all points on the Michigan Central RR. from Tillsonburg, Ontario, to St. Thomas, Ontario; thence via and including all points on the Canadian National Ry. from St. Thomas through London, Ontario, to and including Pottersburg, Ontario; continuing via the Canadian National Ry., but excluding all points thereon, through St. Mary, Ontario, Stratford, Ontario, to Dublin, Ontario; continuing via the Canadian National Ry. and including all points thereon to Goderich, Ontario, through Clinton, Ontario.

If you are a producer located in District 7 or District 8, producing coal at a mine which was not in operation during the period April 1, 1943 to March 31, 1944, you shall, before delivering coal to any retail dealer or other person for resale to a retail dealer, report to the Area Distribution Manager (1) your approximate average daily production and (2) the tonnage (by sizes and kinds) you will have available for distribution to retail dealers. SFAW will thereupon arrange for the distribution of such coal.

(b) *Additional shipments to retail dealers.* After you have filled or arranged to fill all orders entitled to this preference, you may apply to the Area Distribution Manager for permission to ship additional coal to any retail dealer. Unless such permission has been obtained, you are prohibited from shipping to a retail dealer any coal (except slack) not covered by a preference. After you have filled or arranged to fill all orders entitled to a preference, you may apply to SFAW for permission to ship coal to retail dealers not previously supplied by you.

(c) *Application of preference to wholesalers reselling coal to retail dealers.* If you are a producer of District 7 or District 8 coal, you are required to ship to each wholesaler to whom, or for whose account, you shipped such coal during the period April 1, 1943 to March 31, 1944, an amount of such coal sufficient to assure that orders of retail dealers to whom the wholesaler shipped your District 7 or District 8 coal during the period April 1, 1943 to March 31, 1944, receive the same proportionate amount of coal as if you were required to fill the orders of those retail dealers directly, in accordance with the provisions of this regulation. However, you are not required to ship coal to such a wholesaler if:

(1) You report to SFAW the amount of coal produced in District 7 or District 8 which you shipped to such wholesaler during the period April 1, 1943 to March 31, 1944, and you indicate your willingness and ability to make available an amount equal to 90 per cent of such tonnage for distribution subject to SFAW direction, to meet the needs of the community which was previously served by such wholesaler; or

(2) You ascertain the identity of all retail dealers previously served by such wholesaler and you arrange to ship to each of them directly the proportionate amount of coal to which each is entitled under this regulation.

(d) *Information to be reported.* If you are a shipper of coal produced in Districts 7 and 8, and are required by § 602.511 to file Form SFA No. 79, you shall report each month on the bottom of page 2 of that form the total amount of coal (except slack) produced in Districts 7 and 8 which you will have shipped to all retail dealers or wholesalers entitled to this preference in each of the three consuming areas from April 1, 1944 to the end of that month, and you shall also show the total amount of such coal which you shipped to retail dealers in each consuming area during the same period last year. Further, you shall report each month the total amount of slack produced in Districts 7 and 8 which you will have shipped to all retail dealers in each of the three consuming areas from April 1, 1944 to the end of that month and the total amount of such slack which you shipped to retail dealers in each consuming area during the same period last year.

NOTE: To the extent that exact figures showing your current shipments are not yet available when you prepare Form SFA No. 79, you may estimate the amount of such shipments.

§ 602.506 *Method of fulfilling preferences when supply is insufficient.* If you are a shipper of coal and you do not have sufficient coal to meet all orders entitled to equal preference under this regulation, you shall, to the maximum extent practicable, prorate your available supply without discrimination, among all orders entitled to that preference.

When an order to which you are required by this regulation to give a preference is based on a commitment which provides for special treatment to a particular industrial consumer, you may apply to SFAW for permission to deviate from the provisions of this section.

If, at any time, you find that you will be unable to meet all orders entitled to a preference under this regulation, you shall, as soon as possible notify those customers to whom reduced shipments will be made of the extent to which their orders will be reduced.

§ 602.507 *Prohibitions against shipments contrary to this regulation.* If you are a shipper of coal, you are prohibited from disposing of any coal to any person who is not entitled to receive such coal.

§ 602.508 *Use of coal preparation facilities.* No preparation, sizing, or crushing of coal shall be engaged in by any person in order to avoid fulfilling any order which may be filled under this regulation, or to evade any provision of this regulation. To the maximum extent practicable, shippers of coal having screening facilities shall utilize such facilities to effectuate the provisions of this regulation.

§ 602.509 *Production not to be curtailed.* Notwithstanding the provisions of this regulation, the production of coal is not to be curtailed. If you are a producer and you do not have adequate orders on which shipments consistent with this regulation may be made during any calendar week, to permit continued operation of the mine without curtailment of production, you shall arrange for the distribution of such surplus coal during that calendar week; but to the extent that any person is thereby permitted to receive more coal than he would otherwise be entitled to receive under this regulation, you shall report such fact to the Solid Fuels Administration for War at the time you file SFA Form No. 79 as provided in § 602.511 of this regulation.

If you are a producer and you expect to have surplus coal available which you

will be unable to dispose of by voluntary arrangement under the provisions of this section, you shall immediately report this situation to the Area Distribution Manager for your district.

§ 602.510 *When orders must be received and what they must contain*—(a) *Shipments to industrial consumers.* If you are a shipper of coal, you are prohibited from shipping any coal to an industrial consumer (except those industrial consumers specifically exempted in § 602.514 (b) of this regulation) on any order, during any calendar month, by any method or combined methods of transportation, unless (1) the order for coal (produced in any district except District 5) has been received on or before the 24th day of the preceding month, and (2) the written order, or confirmation of the order, contains, or is amended to contain, the information required to be submitted by the industrial consumer in § 602.514 of this regulation.

(b) *Shipments to wholesalers.*—If you are a shipper of coal, you are prohibited from shipping any coal to a wholesaler (except a commercial dock operator located on the Great Lakes or on the Atlantic Seaboard north of, and including, New York Harbor) unless his order contains (1) the names and locations of the industrial consumers to whom the coal is to be resold by the wholesaler, and (2) such information as is required to be submitted to the wholesaler in the orders of the industrial consumers, as provided in § 602.514 of this regulation. However, a shipper is not required to obtain such information when the order is for coal to be shipped to a lower lake dumping port or to a tidewater dumping port, and the coal is not segregated and earmarked for transshipment to a particular industrial consumer.

§ 602.511 *Reports by producers, commercial dock operators and lake or tidewater forwarders*—(a) *Reports required to be filed.* (1) If you are a producer of coal in any district, except District 5, or if you are a commercial dock operator (not located on Lake Superior or on the west bank of Lake Michigan, north of, and including Waukegan, Illinois, or in the State of Michigan) or a lake or tidewater forwarder, you shall report on or before the last day of each calendar month preceding the month of shipment that information which is required to be reported on Form SFA No. 79.

If you are required to file Form SFA No. 79, and you ship coal produced in Districts 7 or 8, you shall include the information required to be reported under § 602.505 (d) of this regulation. If you are required to file Form SFA No. 79, and you ship coal (including slack) produced in districts other than Districts 7 or 8, you shall report each month on the bottom of page 2 of Form SFA No. 79 the total amount of such coal which you will have shipped to all retail dealers from April 1, 1944 to the end of that month, and the total amount of such coal which you shipped to retail dealers during the same period last year.

NOTE: To the extent that exact figures showing your current shipments are not yet available when you prepare Form SFA No. 79, you may estimate the amount of such shipments.

Form SFA 79 is supplied by the Solid Fuels Administration for War and may be obtained from the Bituminous Coal Producers Advisory Board or from the Area Distribution Manager for your district. If you are a producer, you shall file such information at the office specified for your district in Appendix "B" of this regulation. If you are a commercial dock operator, or a lake or tidewater forwarder, you shall file such information with the Solid Fuels Administration for War, Washington 25, D. C.

(2) If you are a commercial lake dock operator located on Lake Superior or on the west bank of Lake Michigan, north of, and including Waukegan, Illinois, or in the State of Michigan, you shall report each month the total amount of coal (including "slack" or "nut and slack"), which you will have shipped to all retail dealers from April 1, 1944 to the end of that month, and the total amount of coal which you shipped to retail dealers during the same period last year.

NOTE: To the extent that exact figures showing your current shipments are not yet available when you prepare your report, you may estimate the amount of such shipments.

(b) *Confidential character of reports.* The Area Distribution Manager shall make available to designated representatives of the appropriate Bituminous Coal Producers Advisory Board any information contained in reports required to be filed under this section. Such information shall be confidential, and is not to be compiled, abstracted or disclosed by the Area Distribution Manager, any member of the Advisory Board, or any other person, except in so far as it is necessary to accomplish the purposes of this regulation, or as authorized by SFAW.

SUBPART B—PROVISIONS TO WHICH INDUSTRIAL CONSUMERS OF COAL ARE SUBJECT

§ 602.512 *How this regulation applies to industrial consumers.* Subpart B of this regulation applies only to persons who consume coal. It does not apply to persons who buy coal for resale. (If you buy coal for resale and are not a retail dealer, Subpart A of this regulation applies to you; if you are a retail dealer, Subpart C of this regulation and SFAW Regulation No. 21 apply to you.)

(a) This regulation is not applicable to receipts of coal for vessel fuel or bunker fuel, or to receipts by the War Department, Navy Department (including Marines and Coast Guard), Veterans' Administration, Maritime Commission, Foreign Economic Administration (that part formerly Lend-Lease and Office of Economic Warfare) and War Shipping Administration.

(b) To the extent that the Post Office, Treasury Procurement or Bureau of Prisons is an industrial consumer, as defined in this regulation, and uses more than 40 per cent of the coal it acquires for space heating, domestic heating of water or domestic cooking (except in the operation of a hospital or commercial restaurant), the amount of coal which it may receive for such purposes is the same as that which a "consumer" is permitted to receive under the provisions of SFAW Regulation No. 21. The present regulation is not otherwise applicable to any of these Federal agencies.

(c) If you consume less than 10,000 tons of coal per year and receive it from a retail dealer or any person acting in the capacity of a retail dealer, as defined in § 602.501 of this regulaion, this regulation is not applicable to you. Receipts of coal by you are governed by the provisions of SFAW Regulation No. 21.

(d) If you are an industrial consumer of coal, this regulation applies to you. You are an industrial consumer if you consume 10,000 tons of bituminous coal per year regardless of whether you receive the coal from a producer, wholesaler or retail dealer, regardless of the method of transportation employed in delivering the coal to you, and regardless of the use to which the coal is put. You are also an industrial consumer even though you consume less than 10,000 tons of bituminous coal per year if you receive such coal in cargo or carload lots from a producer or wholesaler as defined in § 602.501 of this regulation, regardless of the use to which the coal is put.

(e) If you are an industrial consumer and you use more than 40 per cent of the coal you acquire for space heating, domestic heating of water or domestic cooking (except in the operation of a hospital or commercial restaurant), the amount of coal which you may receive for such purposes is the same as that which a "consumer" is permitted to receive under the provisions of SFAW Regulation No. 21, while the amount of coal you may receive for other purposes is governed by the provisions of this regulation. All other provisions of this regulation are applicable to you.

(f) If you are an industrial consumer, except those exempted in § 602.514, you must file your orders and other information as required by that section of this regulation.

(g) If you are an industrial consumer using by-product or other special purpose coal, you are prohibited from receiving more coal than is permitted by § 602.515 of this regulation.

(h) If you are an industrial consumer and use coal which you receive at a dock on the Great Lakes or ex-lake dock, you are prohibited from receiving more coal than is permitted by § 602.516 of this regulation.

(i) If you are an industrial consumer using coal (except by-product and other special purpose coal) which you receive all-rail or by river or tidewater, you are prohibited from receiving more coal than is permitted by § 602.517 of this regulation.

§ 602.513 *How "days' supply" and "monthly consumption requirements" are calculated by industrial consumers.* For the purpose of determining how much coal you are permitted to receive under this regulation, it may be necessary for you to calculate your "days' supply" of coal and also your "monthly consumption requirements." The method by which these amounts are calculated is as follows:

(a) *"Days' supply".* Days' supply means the total amount of bituminous coal which an industrial consumer reasonably expects he will have in storage upon the last day of the calendar month in which he places an order for coal, divided by the average number of tons he reasonably expects will be consumed each day (including Sundays and legal holidays) during the succeeding calendar month. In determining the amount of coal you have "in storage", you shall include all bituminous coal produced in the United States or in Canada which you reasonably expect will be in your bin, dock, pile or in railroad cars or vessels, or in other storage facilities auxiliary to each of your plants (or railroad systems). You shall also include coal which is held in storage for your account or under your control. You should not include coal in transit which is not expected to arrive at your plant or storage facility (or railroad system) by the end of the month in which the order is placed. (A railroad system, in computing days' supply, shall include coal in cars on its system for its own use.)

If you use a single storage facility to supply coal to two or more plants (or railroad systems) you shall compute the days' supply of coal for each plant (or railroad system) separately. This is done by dividing the tonnage in the storage facility by the sum of the average number of tons which you reasonably expect will be consumed at each plant (or railroad system) each day (including Sundays and legal holidays) during the calendar month in which the coal is to be received. The result of this process of division shall be deemed to be the days' supply of each plant (or railroad system).

You shall compute separately your days' supply of those sizes and qualities of bituminous coal which are not substantially interchangeable in your operations.

If you order coal for a railroad system which uses coal produced in Districts 1–4, inclusive, 6–8, inclusive, and 13, and which also uses coal produced in other districts or Canada, you may compute separately the days' supply of coal produced in the first group of districts upon the basis of the estimated monthly consumption of such coal, and the days' supply of coal produced in other districts or Canada, upon the basis of the estimated monthly consumption of such other coal.

(b) *"Monthly consumption requirements".* Monthly consumption requirements means the requirements of a plant (or railroad system) during the calendar month in which the coal is to be received. You shall compute separately monthly consumption requirements for those sizes and qualities of bituminous coal which are not substantially interchangeable in your operations.

If you order coal for a railroad system which uses coal produced in Districts 1–4, inclusive, 6–8, inclusive, and 13, and which also uses coal produced in other districts or Canada, you may compute separately the monthly consumption requirements of coal produced in Districts 1–4, inclusive, 6–8, inclusive, and 13, upon the basis of the estimated monthly consumption of such coal, and the monthly consumption requirements of coal produced in other districts or Canada upon the basis of the estimated monthly consumption of such other coal.

§ 602.514 *When orders must be filed and what they must contain*—(a) *Industrial consumers generally.* If you are an industrial consumer, you are prohibited from receiving any coal (other than "surplus coal" offered by a producer pursuant to § 602.509) produced in any district, except District 5, under any order, unless you file such order with your supplier on or before the 24th day of the calendar month preceding the month of shipment.

You are not permitted to receive any coal pursuant to any order, unless the order, or confirmation of the order, contains, or is amended to contain, the following information:

(1) Separately, by uses, the specific number of tons ordered from your supplier.

(2) Separately, by uses, your estimated days' supply (calculated as set forth in § 602.513 of this regulation) as of the last day of the calendar month during which the order is placed.

(3) Separately, by uses, your monthly consumption requirements (calculated as set forth in § 602.513 of this regulation).

(4) Separately, by uses and groups of districts, the total tonnage of coal you have ordered from all suppliers for delivery to you from each group of districts during the same calendar month. Districts 9, 10 and 11 are to be reported as Group A; Districts 1–4, inclusive, 6 and 13, are to be reported as Group B; Districts 7 and 8 are to be reported as Group C; and all other districts and Canada are to be reported as Group D.

(5) A statement on the order, or confirmation of the order, that the above information is correct.

(b) *Exceptions.* The following industrial consumers are exempted from the provisions of this section:

(1) An industrial consumer who receives coal by truck and who lacks facilities for storing more than 10 days' supply of coal (based on his estimated requirements for an average winter month).

(2) An industrial consumer who does not receive, during the calendar month, from all sources combined, more than 50 tons or one carload of bituminous coal.

(3) An industrial consumer to the extent that he receives coal from a commercial dock operator located on Lake Superior or on the west bank of Lake Michigan, north of and including, Waukegan, Illinois, or in the State of Michigan.

§ 602.515 *Restrictions on receipts by industrial consumers of by-product and other special purpose coal.* If you are an industrial consumer using by-product or other special purpose coal, you are prohibited from receiving from all sources combined, during the period May 1, 1944 to May 15, 1945, by-product or other special purpose coal produced in Districts 1–4, inclusive, 6–11, inclusive, and 13 in excess of an amount representing the difference between your inventory of such coal as of May 1, 1944, and the amount of your consumption requirements for such coal for the period May 1, 1944 to May 15, 1945, except that you are not required to maintain less than a 30 days' supply of by-product or special purpose coal.

You are not permitted to receive any by-product coal unless you have complied with the provisions of SFAW Regulation No. 16,[4] which requires you to report your by-product commitments. The amount of coal which you may receive under your commitments is subject to modification by SFAW direction.

§ 602.516 *Restrictions on receipts by industrial consumers of coal moving via the Great Lakes or ex-lake dock.* If you are an industrial consumer who receives coal via the Great Lakes, whether such coal is received by you directly at a dock on the lakes, or is received ex-lake dock, you are prohibited from receiving from all sources combined, during the period May 1, 1944 to May 15, 1945, coal produced in Districts 1–4, inclusive, and 6–11, inclusive, in excess of an amount representing the difference between your inventory of such coal as of May 1, 1944 and the amount of your consumption requirements for such coal for the period May 1, 1944 to May 15, 1945.

You are not permitted to receive any coal by vessel or barge at a dock or other unloading facility located on the Great Lakes unless you have complied with the provisions of SFAW Regulation No. 15,[5] which requires you to report your lake coal commitments. The amount of coal which you may receive under your commitments is subject to modification by SFAW direction.

If you are an industrial consumer not located in Wisconsin, Minnesota, North Dakota, South Dakota or Michigan, you are prohibited from receiving any coal from any commercial dock operator located on Lake Superior, or on the west bank of Lake Michigan, north of and including Waukegan, Illinois, or in the State of Michigan, unless you first obtain permission from SFAW.

If you receive coal from a dock operator located on Lake Superior or on the west bank of Lake Michigan, north of, and including Waukegan, Illinois, or in the State of Michigan, and if, on December 1, 1944, you have more than 100 days' supply of coal, you shall, on or before December 10, 1944, furnish to such dock operator a statement showing your days' supply as of December 1, 1944. You shall furnish such statement to the Area Distribution Manager, Room 116, United States Court House, Minneapolis, Minnesota, except that if you are located in the State of Michigan, you shall furnish a copy of such statement to the Assistant Area Distribution Manager, 2210 Penobscot Building, Detroit, Michigan.

§ 602.517 *Restrictions on receipts by industrial consumers of coal other than by-product and special purpose coal, and other than coal moving via the Great Lakes or ex-lake dock*—(a) *No restrictions on surplus coal.* Notwithstanding any other provisions of this section in-

[4] 9 F.R. 3491.
[5] 9 F.R. 1501.

dustrial consumers are permitted to receive "surplus coal" which a producer may ship in accordance with § 602.509 of this regulation. Industrial consumers should make every reasonable effort to make known to producers and wholesalers that they are ready, willing and able to accept coal in addition to the amount ordered, to the extent that such coal is available and offered in accordance with the provisions of § 602.509 of this regulation.

(b) *Restrictions on receipts by industrial consumers of coal produced in Districts 9, 10 and 11 (Group A).* If you are an industrial consumer whose days' supply of bituminous coal exceeds 120 days, calculated on the basis of your estimated consumption requirements for the month of November 1944, you are prohibited from receiving during any calendar month coal produced in Districts 9, 10 and 11 (Group A), or any such districts, in an amount greater than 100 percent of your monthly consumption requirements, without first obtaining permission from SFAW.

NOTE: Although an industrial consumer who has a stockpile containing 120 days' supply is permitted to purchase 100 percent of his monthly consumption requirements of coal produced in Districts 9, 10 and 11, the primary purpose of this provision is to encourage industrial consumers to stockpile between 40 and 90 days' supply of such coal. Any industrial consumer having a stockpile containing a 40 to 90 days' supply will not be required, when it is necessary to reduce such stockpile, to draw down at a greater rate than any other industrial consumer having a stockpile containing 40 to 90 days' supply. The failure of an industrial consumer to build a stockpile containing at least 40 days' supply, if he has facilities for storing coal in such quantity, will be considered by Solid Fuels Administration for War as adequate ground for denying any relief to such consumer when and if he requests aid in securing coal.

(c) *Restrictions on receipts by industrial consumers of coal produced in Districts 1–4, inclusive, 6 and 13 (Group B).* If you are an industrial consumer, you are prohibited from receiving during any calendar month coal produced in Districts 1–4, inclusive, 6 and 13 (Group B), or any of such districts, in an amount which exceeds your monthly consumption requirements for such calendar month. However, if you do not have (in addition to the amount which will satisfy your current monthly consumption requirements) a supply of coal equal to your estimated consumption requirements for the month of November 1944, you may obtain that additional amount which will enable you to accumulate by November 1, 1944, a supply of coal equal to your estimated consumption requirements for the month of November 1944.

(d) *Restrictions on receipts by industrial consumers of coal produced in Districts 7 and 8 (Group C).*—(1) *Restrictions imposed by Stock Limitation Table.* If you are an industrial consumer, you are prohibited from receiving during any calendar month coal produced in Districts 7 and 8 (Group C), or either of such districts, in amounts greater than those shown on the Stock Limitation Table set forth below. The Table operates as follows:

Column 1 indicates the industrial consumer's estimated days' supply, as calculated pursuant to the provisions of § 602.513.

Column 2 indicates the maximum percentage of monthly consumption requirements, calculated pursuant to § 602.513 which may be obtained by public utilities purchasing coal shipped from any mine, yard, dock or other place, by any method of transportation, and to any destination, except that this column does not apply to (i) public utilities receiving coal in Canada, and (ii) public utilities receiving coal shipped by tidewater and consigned directly to the public utility at a dock or other unloading facility in New York Harbor or New England.

Column 3 indicates the maximum percentage of monthly consumption requirements which may be obtained by (i) public utilities receiving coal in Canada, and (ii) public utilities receiving coal shipped by tidewater and consigned directly to the public utility at a dock in New York Harbor or New England.

Column 4 indicates the maximum percentage of monthly consumption requirements which may be obtained by industrial consumers (other than public utilities) who receive coal from any mine, yard, dock, or other place, by any method of transportation, and at any destination, except that this column does not apply to (i) industrial consumers receiving coal in Canada, and (ii) industrial consumers receiving coal shipped by tidewater and consigned directly to the industrial consumer at a dock in New York Harbor or New England.

Column 5 indicates the maximum percentage of monthly consumption requirements which may be obtained by (i) industrial consumers (other than public utilities) receiving coal in Canada, and (ii) industrial consumers (other than public utilities) receiving coal shipped by tidewater and consigned directly to the industrial consumer at a dock in New York Harbor or New England.

70 days or more	50	50	50	50

(2) *Exceptions in the restrictions imposed by the Stock Limitation Table.* Notwithstanding the restrictions set forth in the Stock Limitation Table above:

(i) A public utility to which column 2 is applicable, which has more than 40 days' supply, may order and receive, in addition to the amount of coal permitted under the Stock Limitation Table, such additional coal as is necessary to maintain such 40 days' supply.

(ii) A public utility to which column 3 is applicable, which has more than 55 days' supply, may order and receive, in addition to the amount of coal permitted under the Stock Limitation Table, such additional coal as is necessary to maintain such 55 days' supply.

(iii) An industrial consumer to whom column 4 is applicable, who has more than 20 days' supply, may order and receive, in addition to the amount of coal permitted under the Stock Limitation Table, such additional coal as is necessary to maintain such 20 days' supply.

(iv) An industrial consumer to whom column 5 is applicable, who has more than 35 days' supply, may order and receive, in addition to the amount permitted under the Stock Limitation Table, such additional coal as is necessary to maintain such 35 days' supply.

(e) *No restrictions on receipts by industrial consumers of coal produced in Districts 5, 12, 14–23, inclusive, and Canada (Group D).* If you are an industrial consumer you are not presently restricted in the amount of coal which you may receive from Districts 5, 12, 14–23, inclusive, and Canada (Group D).

NOTE: Coal produced in districts in Group D shall be included in calculating days' supply under § 602.513 of this regulation.

(f) *Restrictions on receipts by industrial consumers of coal produced in more than one group of districts.* You will note that under this section more stringent restrictions are imposed on receipts of coal produced in Group C than on receipts of coal produced in the other groups, and that more stringent restrictions are imposed on receipts of coal produced in Group B than on receipts of coal produced in Group A. If you are an industrial consumer receiving coal from any two of such groups of districts, you are prohibited from receiving more coal in the aggregate during any calendar month than you may receive under this regulation from the more liberal group from which you buy; moreover, you are prohibited from receiving during any calendar month more coal from the less liberal group from which you buy than you would be permitted to receive if you bought coal only from that group.

If you receive coal from three groups of districts, you are prohibited from receiving more coal in the aggregate during any calendar month than you may receive under this regulation from the most liberal group from which you buy coal; you may not receive from the least liberal group more coal than you would be permitted to receive if you bought only from that group; and you may not receive from the next most liberal group an amount of coal greater than the difference between the amount you are permitted to receive from that group and the amount you are permitted to receive from the least liberal group.

If you order coal for a railroad system and compute separately the days' supply of coal produced in districts included in Groups B and C, and the days' supply of coal produced in districts included in Groups A and D, as permitted under § 602.513 of this regulation, you are prohibited from receiving, in the aggregate, during any calendar month, from districts included in Groups B and C, an amount of coal greater than your average monthly purchases of coal from such districts during January, February, March and April 1944.

SUBPART C—PROVISIONS TO WHICH RETAIL DEALERS RECEIVING COAL ARE SUBJECT

Subpart C of this regulation applies to retail dealers. To the extent that you sell, deliver, or dispose of coal in a transaction involving the disposal of coal physically handled in a truck, wagon, or other less-than-carload facility without regard to quantity or frequency of delivery, you are a retail dealer.

§ 602.518 *Restrictions on receipts by retail dealers from commercial lake dock operators.* If you are a retail dealer located in Michigan, Minnesota, North Dakota, South Dakota, or Wisconsin, you are prohibited from receiving ex-lake dock during the period April 1, 1944 to March 31, 1945, from any commercial lake dock operator on Lake Superior or on the west bank of Lake Michigan, north of and including Waukegan, Illinois, or in the State of Michigan, more than 90 per cent of the total amount of coal (except "slack" or "nut and slack"), briquettes, and packaged fuel which was shipped to you by such commercial lake dock operator during the period April 1, 1943 to March 31, 1944.

If you are a retail dealer located in any other area, you are prohibited from receiving any coal from any commercial lake dock operator located on Lake Superior or on the west bank of Lake Michigan, north of and including, Waukegan, Illinois, or in the State of Michigan, unless you first obtain permission of the Solid Fuels Administration for War, Washington 25, D. C.

§ 602.519 *Receipts by retail dealers of coal produced in Dictricts 7 and 8.*—(a) *Restrictions on receipts.* If you are a retail dealer, you are prohibited from receiving from any shipper (other than a commercial lake dock operator described in § 602.518), during the period April 1, 1944 to March 31, 1945, more than 90 per cent of the total amount of coal (except slack) produced in Districts 7 and 8 which he shipped to you during the period April 1, 1943 to March 31, 1944.

NOTE: Under § 602.505 (a) (2), a shipper may obtain special permission to substitute as a base year the period April 1, 1942 to March 31, 1943.

(b) *Effect and operation of preference.* Under § 602.505 of this regulation, shippers are required to give preferential treatment to orders of retail dealers for coal in an amount equal to 90 per cent of the tonnage shipped to such dealers during the period April 1, 1943 to March 31, 1944. In filling orders entitled to a preference under § 602.505, your supplier is entitled to treat low volatile lump, egg, stove and domestic mine run coal produced in District 7 and 8 as a unit and interchangeable, and high volatile lump, egg, stove, and nut coal produced in Districts 7 and 8 as a unit and interchangeable. For this reason, in order to obtain the full benefit of the preference, you should, when ordering coal, indicate your willingness to accept interchangeable sizes of coal produced in Districts 7 and 8.

NOTE: Present production estimates indicate that retail dealers located in Consuming Area 3, as defined in § 602.505 will receive less than 90 per cent of the amount of coal which they obtained last year from District 8 and substantially less than 90 per cent of the amount of coal which they obtained last year from District 7.

SUBPART D—PROVISIONS OF GENERAL APPLICABILITY

§ 602.520 *Assistance to persons unable to obtain sufficient coal.* Any person who is informed that a supplier will be unable to fill a commitment or order for coal to which such person is entitled under the provisions of this regulation, shall:

(a) Endeavor to secure such coal from other suppliers;

(b) Request, if he so desires, assistance in obtaining such coal by filing a written request, in duplicate, with the Area Distribution Manager for the area from which the coal would have been obtained under the commitment or order. Such written request shall be accompanied by a copy of the commitment or order which is not expected to be filled, and a statement indicating the extent to which the commitment or order is not expected to be filled.

Upon receipt of such a request, the Area Distribution Manager shall transmit one copy of the request to the appropriate Bituminous Coal Producers Advisory Board, which shall immediately consult with the Area Distribution Manager and transmit to him in writing its recommendation, and shall notify him in writing of any sources of supply which may be available to furnish coal to the person filing the request. The Area Distribution Manager shall furnish such information to the person filing the request, who may then make any voluntary arrangement with such supplier for the purchase of coal.

The Advisory Board and the Area Distribution Manager may also recommend to the Solid Fuels Administration for War the issuance of appropriate directions to assure shipments of adequate coal to the person filing the request.

§ 602.521 *Preservation of orders and effect of representations.* All statements required by this regulation to be contained in written orders and confirmations of orders, as well as those to be contained in reports required to be filed shall be deemed made to SFAW. All persons shall, on behalf of SFAW, keep and preserve for a period of not less than two years all written orders and confirmations of orders served upon them pursuant to the provisions of this regulation. These orders and confirmations shall, upon request, be submitted for inspection, copy, and audit by the duly authorized representatives of SFAW.

Any person disposing of coal may rely upon any statement made by a purchaser to this regulation.

§ 602.522 *Damages for breach of contract.* No person shall be held liable for damages or penalties under any contract for any default which shall result directly or indirectly from compliance with the provisions of this regulation.

§ 602.523 *Violations.* Any person who violates any provision of this regulation or who, by any statement or omission, falsifies any records which he is required to keep, or who certifies false or misleading information to the Solid Fuel Administrator for War, or any person who obtains a delivery of bituminous coal by means of a false or misleading statement, may be prohibited from delivering or receiving any material under priority control. The SFAW may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. sec. 80) or under the Second War Powers Act (Public No. 507, 77th Cong., March 27, 1942).

§ 602.524 *Official interpretations.* No interpretation of this regulation is authorized or official unless it is in writing and signed by the Administrator, the Deputy Administrator or the General Counsel of SFAW. Inquiries and communications with reference to the meaning and application of this regulation may be addressed to the Solid Fuels Administration for War, Washington 25, D. C., or to the appropriate Area Distribution Manager of SFAW.

§ 602.525 *Applications for modification or exception.* Applications for modification for or exception from any provision of this regulation shall be filed in triplicate, with the Area Distribution Manager or with the Solid Fuels Administration for War, Washington 25, D. C. Applications shall set forth in detail the grounds for requesting relief and information supporting the request.

§ 602.526 *Effect of other SFAW regulations.* The provisions of this regulation shall supersede the provisions of SFAW Revised Regulation No. 10 (9 F.R. 4380) and SFAW Regulation No. 20 (9 F.R. 3487), except that this shall have no effect upon civil or criminal liabilities incurred under the provisions of those regulations.

§ 602.527 *Effective date.* The provisions of this regulation shall become effective immediately except that provisions governing required or permissible coal shipments or limitations upon coal shipments shall apply only in respect to shipments on or after 12:01 a. m., August 1, 1944.

NOTE: The reporting provisions of this regulation have been approved by the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.

Issued this 17th day of July 1944.

HAROLD L. ICKES,
Solid Fuels Administrator for War.

TITLE 32—NATIONAL DEFENSE

Chapter VIII—Foreign Economic Administration

Subchapter B—Export Control

[Amdt. 196]

PART 802—GENERAL LICENSES

PART 805—SELECTED DESTINATIONS

GENERAL LICENSE FOR MAIL SHIPMENTS TO CERTAIN DESTINATIONS

Part 802 *General Licenses* is hereby amended by adding thereto § 802.30 as follows:

§ 802.30 *General License "G-Post"*—(a) *Definitions.* When used in this section:

(1) "Net value" shall mean the actual selling price less shipping charges or the domestic market price at the time and place of shipment whichever is larger, as defined in § 802.10 of this part.

(b) A general license designated "G-Post" is hereby granted, subject to the provisions of paragraphs (c) and (d) of this section, authorizing the exportation to the following destinations of all articles and materials, except those listed in paragraph (d) of this section, when contained in individual mail shipments weighing no more than eleven (11) pounds gross and having a net value of $25.00 or less: *Provided,* That not more than one parcel or package per week may be mailed by or on behalf of the same person or concern to or for the same addressee (the naming of addressees other than known ultimate addressees for the purpose of evading the limitations of this general license is prohibited).

GROUP I

Fluorspar, other, 5960.20 ----------	1.00
Fruit juices, 1772.00 thru 1779.00 ----	1.00
Fruits and preparations, 1302.00 thru 1305.00, 1310.00 thru 1312.00, 1321.00 thru 1328.00, 1330.05 thru 1347.00 --	1.00
Gas masks, 9190.92, 9190.98 ----------	None
Gauges, precision, 6178.90, 7750.07, 9190.01 ----------	None
Glycerin, 8314.00 ----------	1.00
Graphite, 97.93%, Ceylon lump amorphous, 5472.01 ----------	1.00
Graphite and graphite manufactures except 97.98% Ceylon lump amorphous (except graphite electrodes) 5472.01, 5472.03, 5480.55 ----------	1.00
*Gum benzoin, 2489.93 ----------	1.00
Hempseed, 2220.20 ----------	None
Hemp, 3399.98, 3419.05, 3399.20 ------	1.00
Hexamethylenetetramine and compounds, 8329.96, 8329.98 ----------	1.00
Hops, concentrated hops, and hop extract, 1259.98, 2591.00, 2999.91 ---	1.00
*Hormones, 8123.00, 8135.98 ----------	1.00
Hyoscine (Scopolamine), 8127.96, 8180.19 ----------	1.00
Hypodermic needles, and surgeons' needles, 9157.00 ----------	1.00
Industrial indicating, recording, or controlling instruments and apparatus, 7740.08 ----------	1.00
Ichthyol, 8135.98 ----------	1.00
Insulin, 8123.00 ----------	1.00
*Ipecac, 2209.98 ----------	1.00
Iron or steel body valves and parts for steam, water, oil and gas, 7745.98 --	1.00
Jewel bearings, 5990.98 ----------	1.00
Jute, yarn, cordage, twine, and empty bags, 3205.09, 3211.00, 3224.00, 3229.05 ----------	1.00
Kapok fiber, except used or waste, 3205.11 ----------	1.00
Kyanite, 5960.98 ----------	1.00
*Lactose (milk sugar), 8135.93 ------	1.00
*Lanolin, 0858.05 ----------	1.00
Lead, metal and finished articles, 6507.00 thru 6515.98, 6645.35 ------	1.00
Leather, calf upper, 0304.10, 0304.20, 0305.10, 0305.20 ----------	1.00
Leather, sole and belting, except offal, 0324.00, 0330.00 ----------	1.00
Leather, sole; other than backs, bends and sides, 0332.05, 0332.98 --	1.00
Lenses for precision instruments, 9147.00, 9149.98 ----------	1.00
Magnesium, metal, 6638.00, 6691.05 --	1.00
Manila hemp, fiber and cordage, 3205.15, 3414.00 ----------	1.00
*Mapharsen, 8124.98, 8135.98 ----------	1.00
Meat products, 0020.00, 0021.00, 0027.00 thru C036.18 0037.00, 00038.00, C039.09 ----------	1.00
Measuring and scientific instruments (including precision gauges) i. n. s. ALL ----------	None
Mercury metal, salts, and compounds, 6635.00, 8397.41 thru 8397.48 ------	1.00
*Mesothorium, 6649.65, 8398.91, 8438.20 ----------	1.00
Metal drums, containers, gas cylinders, 6205.01, 6205.03, 6205.11, 6205.13 ----------	None
Metals, all metals and manufactures, except clothing fasteners affixed to garments, i. n. s., ALL ----------	25.00
Meters and parts, gas and water, 7741.00, 7742.00 ----------	1.00
Methyl alcohol, 8310.00 ----------	$1.00
*Methylmethacrylate, 8258.03, 8261.03	
Methylamine, 8329.92 ----------	1.00
Methylene blue, 8059.00 ----------	1.00
Methylene chloride, 8069.98 ----------	1.00
Mica, unmanufactured, 5510.00 ------	1.00
Mica manufactures, other (except book pack splittings and good stained and better block or film), 5513.00 ----------	1.00
Molybdenum content of ferromolybdenum, 6220.85 ----------	1.00
Molybdenum, metal, salts and compounds, 6636.00, 6649.45, 6691.07, 6691.08, 8397.58 ----------	1.00
Naphthalene, 8020.05 ----------	1.00
Narcotics and narcotic preparations, all ----------	None
Neat's foot oil, 0803.00 ----------	1.00
*Neoarsphenamine, 8124.98, 8135.98 ---	1.00
Nichel-chrome, electric resistance wire, 6630.00 ----------	1.00
Nickel, metals, salts, and compounds, 6545.01 thru 6549.98, 8397.61 thru 8397.68 ----------	1.00
Nikethamide, 8124.03, 8135.98 ------	1.00
Novaigin, 8135.98 ----------	1.00
*Nux vomica, 2209.15 ----------	1.00
*Nylon, 3840.05, 8258.05 ----------	1.00
Oiticica oil, 2249.06 ----------	1.00
Oilseeds, i. n. s., all ----------	25.00
Optical elements for fire-control instruments, aircraft instruments, etc., 5230.09, 9147.00 ----------	None
Optical glass, except ophthalmic, 5230.06 ----------	1.00
Palm kernels, nuts, and oil, 1449.03, 2220.20, 2249.25 ----------	1.00
Pamaquine naphthoate (plasmochin) 8127.98, 8135.98 ----------	1.00
Paraffin wax, refined and unrefined, 5045.00, 5046.00 ----------	None
Paris green, 8205.91, 8397.02 ----------	1.00
Peanuts and peanut butter, 1259.98, 1375.00 ----------	1.00

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 3305—PAPERBOARD

[Conservation Order M-378 as Amended July 18, 1944]

PAPERBOARD

The fulfillment of requirements for the defense of the United States has created shortages in the supply of paperboard and of materials entering into the production of paperboard for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3305.1 *Conservation Order M-378*—(a) *What this order does.* This order deals with the production and use of paperboard. It requires producers of paperboard to set aside a reserve production, subject to direction by the War Production Board and provides for credits against that reserve production. It limits the inventories of users of paperboard and requires persons who use paperboard to file applications with the War Production Board stating their consumption and requirements, and prohibits them from accepting delivery of paperboard after August 7, 1944, unless they file their applications before that date. These applications will be used as a basis for allocating paperboard under a procedure which will follow, with some variations, that established by Order M-290 for containerboard. The new system, which will be described in a revision of this order, will replace existing procedures for the distribution of paperboard.

(b) *Definition.* For the purpose of this order "paperboard" means the types and grades of paperboard classified under caption numbers 221,000 through 269,000, except 224,001 through 224,005 (solid sulphite and sulphate pulp boards), 224,008 (milk bottle plug cap board), 241,000 through 249,000 (nonbending cardboards), 253,000 (pressboard), 261,100 (homogeneous wallboard), 261,200 (hard pressed wallboard), and 262,000 (insulating building board), in Form WPB-514, as currently revised, in sheet or roll form and whether or not lined, pasted or specially treated. It does not include containerboard as defined in Order M-290.

NOTE: Paragraphs (c), (d) and (e), formerly paragraphs (d), (e) and (f), redesignated July 18, 1944.

(c) *Reserve production.* Each manufacturer of paper or paperboard shall reserve for the month of June, 1944, and for each succeeding month thereafter, time and supplies sufficient to produce within each month the amount of paperboard designated by the War Production Board as his reserve production. The amount so designated for June, 1944, and and for each month thereafter, until the War Production Board determines otherwise, is forty percent of the average monthly finished production of paperboard which each manufacturer reported to the War Production Board on Form WPB-514 for the most recent three calendar quarters.

(d) *Direction of reserve production.* On or before the 15th day of any month, the War Production Board may direct any manufacturer to employ his reserve, subject to the provisions of paragraph (f), to produce any grades of paperboard which the manufacturer is able to produce and in any quantity not exceeding the tonnage of his reserve production. The War Production Board may require a manufacturer to sell and deliver his reserve production to any person. Any order taken by a manufacturer at the direction of the War Production Board shall reduce his reserve production by the amount of finished production represented by that order. A manufacturer may refuse to produce and deliver his reserve production in accordance with the directions of the War Production Board only for the reasons specified for the refusal of rated orders in § 944.2 of Priorities Regulation No. 1. If a manufacturer is not directed by the War Production Board as to the disposition of part or all of his reserve production on or before the 15th day of the month in which such production is reserved, he may employ the production for which no directions have been received in any way he wishes that is consistent with the provisions of this and other orders of the War Production Board.

(e) *Production for federal agencies*—(1) *Reporting orders and changes in orders.* Any manufacturer who has accepted an order for paperboard, directly or through another person, to be produced for the account of any of the agencies or uses listed in paragraph (f) (3) shall immediately report such acceptance in triplicate on Form WPB-3270, including the other information called for therein. Thereafter any change in a reported order which involves cancellation or an alteration in the quantity or month of manufacture shall be reported immediately by the manufacturer to the War Production Board on Form WPB-3270.

(2) *Credit against reserve production.* If a manufacturer accepts an order from one of the sixteen agencies or uses listed in paragraph (f) (3) and properly reports that fact to the War Production Board on Form WPB-3270, the War Production Board will credit the tonnage in his order against any unused portion of his reserve production for the month in which the tonnage is to be produced, and will notify him. The manufacturer shall produce such orders according to his schedule as so reported to the War Production Board.

(3) *List of agencies or uses.* The agencies or uses referred to in paragraph (f) (1) are:

1. United States Army.
2. United States Army Map Service.
3. United States Army Air Forces.
4. United States Navy.
5. The United States Marine Corps.
6. The United States Coast Guard.
7. The United States Maritime Commission and War Shipping Administration.
8. Lend-Lease Administration—Foreign Economic Administration.
9. Panama Canal.
10. Bureau of Public Debt.
11. United States Government Printing Office.
12. United States Bureau of Engraving and Printing.

13. Procurement Division of the United States Treasury.
14. Office of Economic Warfare—Foreign Economic Administration (orders with an O. E. W. or F. E. A. approved export license).
15. United States Post Office.
16. Producers of products or parts of products which are to be delivered on a contract or purchase order issued by any of the agencies listed above, if the paperboard furnished to such producers is to be used exclusively either as a component part, or for the necessary packaging, of products or parts of products so ordered. (Report Government Agency as listed above, order number and name of converter or user).

Restrictions on Acceptance and Delivery of Paperboard

(f) *Restrictions on acceptance.* No person may accept delivery of paperboard on or after August 7, 1944, unless authorized by the War Production Board pursuant to his application on Form WPB–3811. In order to allow time for proper examination of applications, a person who has filed an application on Form WPB–3811 before August 7, 1944, may receive paperboard without authorization until directed otherwise by the amendment of this order. The only exceptions are:

(1) A jobber or other person may accept paperboard which he will resell as such (whether after further fabrication or not).

(2) A person may accept less than five tons of paperboard in any calendar quarter.

(3) A person may accept on or after August 7, 1944, paperboard that was actually in transit to him at midnight on August 6, 1944.

(g) *Procedure for obtaining authorization of War Production Board.* Any person may apply to the War Production Board on Form WPB–3811 for authorization to accept paperboard.

(h) *Restrictions on delivery.* (1) Starting August 7, 1944, no person shall, unless otherwise directed by the War Production Board, deliver any paperboard in lots of more than fifty pounds to any person who has not filed with him one of the following certificates:

(i) The undersigned certifies that he has filed Form WPB–3811.

(ii) The undersigned certifies that his receipts of paperboard during the current quarter are for resale as such.

(iii) The undersigned certifies that his receipts of paperboard during the current calendar quarter, including the paperboard covered by this order, are not expected to exceed five tons.

(2) It is not necessary to give the same certificate twice to the same supplier, since a certificate covers future as well as present purchases. Certificates must be substantially in the above form and must be signed by the purchaser or a duly authorized official of the purchaser, either manually or as provided in Priorities Regulation 7.

(3) The above restrictions on delivery do not apply to paperboard which was in transit at midnight on August 6, 1944, to the person to whom delivery is made.

(4) The certificates set forth above constitute representations to the War Production Board subject to the penalties for misrepresentation. The standard certification given in Priorities Regulation 7 may not be used in their stead.

Miscellaneous

NOTE: Paragraph (l), formerly (g), redesignated July 18, 1944.

(l) *Inventory restrictions.* No person shall knowingly deliver to any person, and no person shall accept delivery of, any quantity of paperboard, if the total inventory in the hands of the person accepting delivery is, or by virtue of the acceptance will become, either (a) in excess of two carloads, or (b) in excess of his reasonably anticipated requirements for the next sixty days, whichever is greater. No person shall order any quantity of paperboard for delivery to him, or for his account, on any future date, if receipt thereof on that date would increase his inventory of such paperboard to more than the amount permitted in the first sentence of this paragraph.

The restrictions of this paragraph apply equally to paperboard of foreign and domestic origin, and to intra-company deliveries as defined in § 944.12 of Priorities Regulation 1.

(j) *Delivery of waste.* No person shall require any customer to deliver waste in return for paperboard shipped on any order.

NOTE: Paragraphs (k), (l) and (m), formerly (h), (i) and (j), redesignated July 18, 1944.

(k) *Records. All persons affected by* this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(l) *Audit and inspection.* All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(m) *Reports.* The reporting requirements of paragraphs (e), (f), (g) and (h) of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942. All persons affected by this order shall execute and file with the War Production Board such other reports and questionnaires as may be required, subject to the approval of the Bureau of the Budget.

(n) *Multiple function organizations.* Where any person (including any parent subsidiary organization) engages in two or more of the types of operations subject to this order (for instance, if he is both a producer and a converter of paperboard), the provisions of this order applicable to each type of function shall apply separately to his operations of that type. For example, a manufacturer who uses paperboard as a production material may not receive paperboard from his own mill without an authorization.

NOTE: Paragraphs (o) and (p), formerly (l) and (m), redesignated July 18, 1944.

(o) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of or from processing or using materials under priority control and may be deprived of priorities assistance.

(p) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable War Production Board regulations, as amended from time to time.

(q) *Appeals.* An appeal from the provisions of this order may be made by a letter stating informally, but completely, the particular provision appealed from, the precise relief desired, the reasons why denial of the appeal would result in undue and excessive hardship, and such other statistical and narrative information as may be pertinent.

(r) *Communications to War Production Board.* All reports required to be filed hereunder, all appeals and all other communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Paperboard Division, Washington 25, D. C., Ref: M–378.

Issued this 18th day of July 1944.

[Conservation Order L–41, Direction 4]

PRISONER OF WAR HOUSING

The following direction is issued pursuant to conservation Order L–41:

It is not necessary to get War Production Board permission under Order L–41 to construct facilities to house prisoners of war assigned by the Army to the builder if priorities assistance for the construction has been granted on Form CMPL–593 Navy (Army), pursuant to Direction 3 to CMP Regulation 6 and WPB Directive 31.

PART 1114—TIRE RETREADING, RECAPPING AND REPAIR EQUIPMENT

[General Limitation Order L–61, as Amended July 18, 1944]

The fulfillment of requirements for the national defense has created a shortage in the supply of certain critical materials used in the manufacture of retreading, recapping and repair equipment for the national defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1114.1 *General Limitation Order L–61*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or any organized group of persons, whether incorporated or not.

(2) "Retreading, recapping or repair equipment" means any mechanical device used in connection with applying uncured rubber (in the form of camelback, patching rubber or otherwise) to rubber casings or innertubes for the purpose of renewing or repairing a rubber casing or innertube. The term includes, but is not limited to; full circle molds, full circle matrices, holders, tables, steam chambers, kettle curing devices, curing rings, curing bands, pressure plates, spacer rings, curing rims, sectional molds, sectional matrices, tire and tube repair and spot equipment, tire spreaders, tire buffers, mechanical stitchers, mechanical rollers, regroovers. It does not include, however, small tools such as knives, hand rollers, hand stitchers, jacks, shears, and other miscellaneous shop tools and supplies.

(3) "Delivery" means any physical delivery of any item of retreading, recapping or repair equipment, or parts of such equipment to other persons.

(4) "Approved order" means: (i) an order for new retreading, recapping or repair equipment authorized on Form WPB–1319, which bears the certification previously required by Order L–61. (These orders are identified by the standard form of certification set forth in Priorities Regulation 7 together with date and serial number of authorization on Form WPB–1319); (ii) any order for new retreading, recapping or repair equipment which the War Production Board has authorized under Order L–61 before March 23, 1944, to be produced or delivered; (iii) any U. S. Army or Navy order or order for export which bears a preference rating.

(b) *Production and delivery.* No person shall manufacture retreading, recapping or repair equipment or parts except to fill orders in accordance with the following restrictions.

Any order may be accepted and filled, but orders which are not approved orders or orders bearing blanket MRO ratings authorized by other War Production Board orders and regulations, for example, CMP Regulation 5), shall be treated as unrated orders as required by paragraph (c). The term, "blanket MRO ratings", is defined in Priorities Regulation 3.

Orders classified as "unrated" may be filled by a manufacturer only to the extent that he is able to do so without interfering with his production and shipment of approved orders or orders bearing blanket MRO ratings. This does not mean that additional materials will necessarily be made available for "unrated" orders, even though a particular manufacturer may otherwise be in a position to fill unrated orders.

Facilities which can be used in the production of items of retreading, recapping or repair equipment in more than one of the groups listed below are called interchangeable facilities in this paragraph. For the purposes of the production pattern, "molds and matrices" include curing rings, spacer rings, curing tables, steam chambers and kettle curing devices.

PRODUCTION PATTERN

GROUP AND TYPE OF EQUIPMENT
1 Repair parts for retreading, recapping or repair equipment produced after December 7, 1941.
2 Airplane full circle tire molds and matrices.
3 Tractor-implement (front and rear wheel), earth mover and road grader full circle molds and matrices.
4 Truck-bus full circle molds and matrices.
5 Sectional molds and matrices, all types.
6 Passenger tire full circle molds and matrices and miscellaneous equipment, or parts not specifically covered in groups 1 to 5 inclusive.

Interchangeable facilities must be used to fill rated orders for new retreading, recapping or repair equipment or for parts in the sequence established by the above production pattern. This means that a manufacturer must use interchangeable facilities to fill rated orders classified in each higher group before he may use the same facilities to fill rated orders in any lower group. If he is using interchangeable facilities for a lower group and is required by the production pattern to divert those facilities to unfilled rated orders in a higher group, he may postpone the diversion of facilities to the higher group for not more than 15 days after receipt of a rated order in the higher group.

Interchangeable facilities may be used to fill unrated orders only when the facilities are not needed to fill any rated orders. When a person is able to fill unrated orders under the above rule, these orders may be filled in any sequence without regard to the production pattern.

Preference ratings for retreading, recapping or repair equipment or for parts of equipment shall have no effect upon the use of interchangeable facilities to fill rated orders in different groups. For example, all rated orders for items in Group 1 must be filled before any rated orders for items in Group 2, even though the ratings on the orders for Group 2 items are higher than those on the orders for Group 1 items. Rated orders which are classified in the same group, however, shall be produced and shipped in accordance with Priorities Regulation 1.

(c) *Use of preference ratings.* Except for ratings assigned to approved orders and blanket MRO ratings, no person shall apply or extend any ratings to get re-

treading, recapping or repair equipment or parts. Any rating purporting to be applied or extended to get any retreading, recapping or repair equipment or parts, except for ratings assigned to approved orders and blanket MRO ratings, shall be void and no person shall give any effect to it.

(d) [Deleted July 18, 1944.]

(e) [Deleted Mar. 23, 1944.]

(f) *Miscellaneous provisions.*—(1) *Applicability of regulations.* Except as otherwise provided in paragraph (b), this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(2) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall unless otherwise directed, be addressed to: War Production Board Office of Rubber Director, Washington 25, D. C., Ref.: L–61.

(4) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Records.* Each manufacturer or distributor of new retreading, recapping and repair equipment affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales of such equipment.

Issued this 18th day of July 1944.

PART 1204—PHTHALIC ALKYD RESINS

[General Preference Order M–139, Direction 3]

PROVISIONS FOR OBTAINING EMERGENCY ALLOTMENTS OF ALKYD RESINS TO MEET EMERGENCY ORDERS FOR SMALL QUANTITIES OF PRODUCTS CONTAINING ALKYD RESINS FOR MILITARY END USES

The following direction is issued pursuant to General Preference Order M–139:

(a) *Who may apply.* Any person filing an application on Form WPB–2945 for alkyd resins in accordance with Order M–139 may also request allocation of a specified quantity of resins as an "emergency allotment" to be used in filling emergency orders received by the applicant during the allocation month specified on the form.

(b) *Quantity allowed.* Applications for emergency allotment may be authorized by War Production Board up to a maximum of 5 per cent of the average monthly consumption of alkyd resins by the applicant during the previous three months, based on records on file with War Production Board.

(c) *End use restrictions on emergency allotments of alkyd resins.* The use of an emergency allotment of alkyd resins is subject to the following restrictions:

(1) It may only be used during the allocated month to make products for delivery on a military end use that has been previously approved on applications (on Form WPB–2945) for delivery or use of alkyd resins during either of the two preceding calendar months, provided that the end use has not been specifically denied on the application (on Form WPB–2945) in which the emergency allotment is approved. Any part of the emergency allotment not used during the allocated month shall revert to inventory at the end of that month, and may not be used without further authorization.

(2) No applicant shall make more than a single shipment to any customer in any month of products containing those alkyd resins for the same end use.

(3) No applicant shall make any single shipment in any calendar month of products containing those alkyd resins which shall exceed 500 pounds of solid phthalic alkyd resin content.

(4) An emergency allotment of alkyd resins may only be used in filling emergency orders. An emergency order means any order for a product containing alkyd resins which is received during the month for which the emergency allotment has been authorized, and calling for delivery during the same month for an approved military end use described in (c) (1) above.

Issued this 18th day of July 1944.

PART 3133—PRINTING AND PUBLISHING

[Limitation Order L–241, as Amended July 18, 1944]

COMMERCIAL PRINTING AND DUPLICATING

Scope

(a) The purpose of this order.

Definitions and explanations

(b) Commercial printing.
(c) Printer.
(d) Paper.
(e) Use.
(f) Production waste.
(g) Inventory.
(h) Transfer of quotas.
(i) Exceptions.

Consumption quota

(j) Printing which is covered by other orders.
(k) Printing which is not restricted.
(l) Computation of consumption quota.
(m) Borrowing and carry-over.
(n) Total permitted consumption.
(o) Small magazine and book publishers.
(p) Certification to printer.

Delivery restrictions

(q) Limit on tonnage which may be accepted.
(r) Increase of deliveries.
(s) Certification to paper dealer or mill.

Issuance of schedules

(t) Prohibited and restricted uses of paper and paperboard.

Miscellaneous provisions

(u) Records.
(v) Applicability of regulations.
(w) Appeals.
(x) Communications.
(y) Violations.

Schedule I

(a) Limits on basis weights.
(b) Exceptions to limits on basis weights.
(c) Exceptions to Order L–120.

Schedule II

(a) Commercial printing which is charged against the quota of both the printer and the person who issues the item.
(b) Catalogs, directories, school yearbooks, music, song sheets, comic publications.
(c) Shopping guides, free distribution newspapers, want ad publications, free distribution publications in newspaper format.
(d) Certification.

Scope

§ 3133.9 *Limitation Order L–241.*—(a) *The purpose of this order.* This order does four things: First it limits the tonnage of paper which a printer may use for commercial printing. This is called his "consumption quota", and is based upon the tonnage of paper which he used for commercial printing in 1941. A printer may not exceed his consumption quota even though the paper is physically available to him. Second, it limits the tonnage of paper which may be accepted by or on behalf of a printer. This is based upon his inventory of paper. Third, it limits the basis weight of paper which may be used in printing certain items. Fourth, it limits the tonnage of paper which a person may cause to be consumed in printing certain items.

Definitions and Explanations

(b) *Commercial printing.* "Commercial printing" means all printing or duplicating produced by any type of printing machine covered by Order L–226 or any type of duplicating machine covered by Order L–54–c, List I, Item 5. However, this order does not affect printing which is covered by other orders of the War Production Board, as described in paragraph (j), and printing which is unrestricted, as described in paragraph (k). "Printed matter" includes duplicated matter as well as printed matter.

(c) *Printer.* The term "printer" is used throughout this order, for the sake of convenience and brevity, to include printers who operate printing machines and duplicators who operate duplicating machines. The order applies to every printer, including a printer who operates a private or "captive" plant as well as a printer who does work for the trade. The term does not include a publisher or a person who orders printing.

(d) *Paper.* "Paper" means any grade, quality, type, basis weight or size of paper, gummed paper, paperboard or bristol used in commercial printing. The term includes paper reclaimed wholly or partly from printed or unprinted waste, as well as paper made entirely from virgin fiber.

(e) *Use.* (1) Paper is "used" when ink is first applied to it by a printer. However, paper is not "used" under this order when ink is applied to it by penruling equipment. Sometimes paper is put through a press more than once, either by the same printer or by different printers—for instance, when several colors are used or when the imprint of a particular distributor is added after part of the printing is done. For the purposes of this order the paper is deemed to be "used" when the first application of ink is made by a printer. It makes no difference how many other applications of ink are put on the paper by the same or different printers.

(2) When a job is started in one calendar quarter and runs over into the next, the paper actually used during each quarter must be charged against the printer's consumption quota for that quarter. The entire job may not be regarded as if it were started and finished in the same quarter.

(f) *Production waste.* All production waste shall be included in determining the tonnage of paper which a printer uses in commercial printing.

(g) *Inventory.* "Inventory" means all the paper which is available for a printer's use. It is immaterial whether such paper is in the printer's hands or in the hands of a paper dealer or other person. Paper in transit is not included.

(h) *Transfer of quotas.* (1) Quotas provided by one War Production Board order may not be used for the purposes set forth in any other order. Thus, for example, a printer may not use for commercial printing any part of a consumption quota established under Order L–240 (Newspapers), Order L–244 (Magazines) or Order L–245 (Books and Booklets), and he may not permit any part of his consumption quota established under this order to be used for newspapers, magazines or books. An exception to this rule is stated in paragraph (o).

(2) It sometimes happens that one printer does work for another printer, and there is a question as to which one should deduct the paper from his quota. Printer A may "farm out" certain work by purchasing "press time" from printer B. This may be done, for example, where printer A cannot fill an order for a customer because he does not have available the right equipment, material, personnel, or facilities. In such a case, where the customer looks only to A for the finished product and where B acts merely as a sub-contractor, the paper may be charged against A's quota, even though B actually does the printing. This does not mean that A may assign his quota to B. The rules governing the assignability of quotas are stated in Priorities Regulation 7A.

(i) *Exceptions.* Certain paragraphs of this order contain exceptions to general rules. These exceptions apply only to the provisions to which they specifically refer. They do not apply to any other portions of the order.

Consumption Quota

(j) *Printing which is covered by other orders.* Certain types of printing are not covered by this order. When a printer adds up the weight of paper which he used in 1941, he may not count the paper which went into those items. Also, a printer may not use the consumption quota which he gets under this order for the printing of any of those items, except as provided in paragraph (o). They are:

(1) Newspapers (defined in Limitation Order L–240).
(2) Magazines (defined in Limitation Order L–244).
(3) Books (defined in Limitation Order L–245).
(4) Greeting cards and illustrated post cards (defined in Limitation Order L–289).
(5) Displays (defined in Limitation Order L–294).
(6) Wallpaper (defined in Limitation Order L–177).
(7) Commercial printing for governmental units (defined in Limitation Order L–340).
(8) Boxes (defined in Limitation Order L–239).
(9) Converted products named in Lists A, B, C or D of General Conservation Order M–241–a, except gummed paper.
(10) Any other "converted products" defined in General Conservation Order M–241–a, except those which must be printed in order to serve the purpose for which they are made.

NOTE: Subparagraphs (8), (9), and (10) formerly (7), (8), and (9) redesignated July 18, 1944.

(k) Printing which is not restricted. (1) A printer is not limited in the amount of paper which he may use for printing which is required for delivery to the Army, Navy, Maritime Commission or War Shipping Administration by a contractor as a part of a contract for an item purchased by one of those agencies. Official Army or Navy post, camp, station or unit newspapers or news sheets are within this exception, and hence are not limited, if:

(i) They are ordered by the officer in command of the Army or Navy establishment on official War Department or Navy Department purchase orders, requisitions or contracts;

(ii) They contain no paid advertising; and

(iii) They are not owned, edited or operated by civilians but are run entirely by military personnel (although the printing may be done in commercial plants).

(2) Moreover, a printer is not limited in the amount of paper which he may use for official election forms, such as ballots and tally sheets, which are ordered and paid for by any State, County or Municipality of the United States.

(3) No person may order commercial printing under paragraph (k) and no person may accept such an order, unless the person placing the order furnishes to that printer a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the printer and to the War Production Board that he is familiar with paragraph (k) of Order L–241 and that this purchase order is for printing governed by paragraph (k) of Order L–241.

(4) When a printer adds up the weight of paper which he used in 1941, he may not count the paper which went into the items described in paragraphs (k) (1) and (k) (2) above. Also, a printer may use an unlimited amount of paper for those items from now on.

(l) *Computation of consumption quota.* In the second calendar quarter of 1944 and in each calendar quarter after that, no printer may use for commercial printing any paper in excess of his quarterly consumption quota, which shall be computed as follows:

(1) Determine the printer's "quarterly base tonnage" according to either of the two following methods, depending on his individual needs. Having selected one method, the printer must use that method throughout the year.

First method:

(i) Add up the total pounds of paper used in 1941 for all types of printing;

(ii) Subtract the pounds of paper used in 1941 for the items covered by other orders, as listed in paragraph (j) above;

(iii) Subtract the pounds of paper used in 1941 for the unrestricted items listed in paragraph (k) above;

(iv) Divide by four. This is the printer's "quarterly base tonnage", from which the required reductions shall be made.

Second method:

(i) Add up the total pounds of paper used during the same calendar quarter of 1941 for all types of printing;

(ii) Subtract the pounds of paper used during that quarter of 1941 for the items covered by other orders, as listed in paragraph (j) above;

(iii) Subtract the pounds of paper used during that quarter of 1941 for the unrestricted items listed in paragraph (k) above.

(iv) The balance is the printer's "quarterly base tonnage", from which the required reductions shall be made.

(2) If the printer's quarterly base tonnage is not more than 1¼ tons, his quarterly consumption quota is 1¼ tons. Moreover, any person who used no paper whatever for commercial printing in 1941 may use a total of 1¼ tons per calendar quarter for commercial printing, beginning with the second quarter of 1944.

(3) If the printer's quarterly base tonnage is more than 1¼ tons, but not more than 5 tons, his quarterly consumption quota is the same as his quarterly base tonnage. Such a printer is not permitted to increase his quota to 5 tons in a quarter of 1944 if his quarterly base tonnage is less than 5 tons. For exam-

ple, if a printer used 4 tons of paper in the second quarter of 1941, his quota for the second quarter of 1944 is 4 tons.

(4) If the printer's quarterly base tonnage is more than 5 tons but less than 6⅔ tons, his quarterly consumption quota is 5 tons. For example, if a printer used 6 tons of paper in the second quarter of 1941, the 25 percent cut would, if it were applicable, limit him to 4½ tons in the second quarter of 1944. However, he need not make this entire reduction, for his quota in that quarter is 5 tons.

(5) If the printer's quarterly base tonnage is more than 6⅔ tons his quarterly consumption is 75 percent of his quarterly base tonnage.

(6) In every case, the printer's quarterly consumption quota is subject to the borrowing and carry-over provisions contained in paragraph (n).

A printer may use his quarterly consumption quota for any type of printing which is not covered by other orders, as listed in paragraph (j). Also, he may use any amount of paper in addition to his quarterly consumption quota for the unrestricted items described in paragraph (k).

(m) *Borrowing and carry-over.* (1) A printer may add, under either method of computation, an extra 15 percent to his consumption quota in any quarter if he subtracts that amount from his consumption quota for the next quarter.

(2) If a printer uses less than he is allowed in any quarter, he may add the saving to his consumption quota in a subsequent quarter, or distribute the saving over several subsequent quarters.

(n) *Total permitted consumption.* A printer may use in any calendar quarter:

(1) His quarterly consumption quota as determined under paragraph (l);

(2) Plus permitted borrowing from his consumption quota for the next calendar quarter as provided in paragraph (m) (1);

(3) Plus any less-than-quota savings carried over from previous calendar quarters as provided in paragraph (m) (2); or minus any tonnage which had been borrowed during the preceding calendar quarter from his consumption quota for that calendar quarter, as provided in paragraph (m) (1);

(4) Plus ex-quota tonnage, if any, which may have been granted on appeal for consumption in that calendar quarter.

(o) *Small magazine and book publishers.* (1) If a magazine publisher's quarterly base tonnage is not more than 1¼ tons, or if a person has no quarterly base tonnage for the publication of magazines, he may cause up to a total of 1¼ tons of paper to be used for the printing of magazines in any calendar quarter, provided the tonnage in excess of his quarterly base tonnage, if any, is deducted from a commercial printer's consumption quota under Order L-241. Publishers who obtain a quota under this provision shall file with the War Production Board, within 15 days after such paper is used, a letter signed by the publisher and countersigned by the printer setting forth:

(i) The name and address of the publisher,

(ii) The name and address of the printer,

(iii) The title(s) of the magazine(s),

(iv) The publisher's base period consumption, if any, and

(v) The tonnage deducted from the commercial printer's quota under Order L-241.

(2) If a book publisher's base tonnage is not more than 5 tons, or if a person has no base tonnage for the publication of books, he may cause up to a total of 5 tons of paper to be put into process for the production of books in any year, provided the tonnage in excess of his base tonnage, if any, is deducted from a commercial printer's consumption quota under Order L-241. Publishers who obtain a quota under this provision shall file with the War Production Board, within 15 days after such paper is used, a letter signed by the publisher and countersigned by the printer setting forth:

(i) The name and address of the publisher,

(ii) The name and address of the printer,

(iii) The publisher's base period consumption, if any, and

(iv) The tonnage deducted from the commercial printer's quota under Order L-241.

(3) The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(p) *Certification to printer.* No printer may fill an order for (1) magazines, (2) books, (2) greeting cards or illustrated post cards, (4) commercial printing purchased by a government, or (5) any of the items listed in schedule II of this order, unless he receives, or has previously received, from the person who publishes or issues the item, or causes the item to be printed, a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

> The undersigned certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the printer and to the War Production Board that he is familiar with (insert the relevant provision) (1) Order L-244 (magazines), (2) Order L-245 (books), (3) Order L-289 (greeting cards and illustrated post cards), (4) L-340 (governmental commercial printing and duplicating), (5) Schedule II to Order L-241, and that all orders placed by the undersigned with that printer for items regulated by the relevant order (or schedule), as amended from time to time, will be in compliance therewith.
>
> This is a one-time certification and need not accompany each individual order for printing.

Delivery Restrictions

(q) *Limit on tonnage which may be accepted.* No printer may accept, and no person may accept for a printer's use, delivery of any quantity of paper if his total inventory of all kinds of paper for use in commercial printing exceeds a 60 consecutive days' supply, or if acceptance of the delivery will bring his inventory above this level. The number of days' supply shall be computed at the average daily rate of allowable consumption for the current calendar quarter.

(r) *Increase of deliveries.* A printer may accept delivery of paper which would increase his inventory to more than a 60 consecutive days' supply of paper only in the following two circumstances:

(1) If the amount of a particular item in the printer's inventory is less than 30 days' supply, he may accept delivery of not more than an additional 30 days' supply of that item, provided the amount purchased is required for his production within 30 days of acceptance.

(2) Regardless of the quantity of a particular item, or of all items, in a printer's inventory, he may accept delivery of any item which he is entitled to accept under paragraphs (q) and (r) (1) in the unit quantity (e. g., full carload, full truckload, 10,000 pounds, 5,000 pounds, 4 cases) in which he accepted delivery of that item in 1941.

(s) *Certification to paper dealer or mill.* No printer may order or accept delivery of paper, and no person may deliver paper to a printer, unless the printer furnishes, or has previously furnished, to the person making the delivery, a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

> The undersigned printer certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that he is familiar with Order L-241 and that all purchases by him of items regulated by that order, as amended from time to time, will be in compliance therewith.

This is a one-time certification and need not accompany each individual order for paper.

Issuance of Schedules

(t) *Prohibited and restricted uses of paper and paperboard.* The War Production Board may issue, from time to time, schedules which will prohibit the use of paper in certain items, limit the basis weight of paper which may be used in other items, and limit the tonnage of paper which a person who publishes or issues certain items may cause to be consumed in the printing of those items.

Miscellaneous Provisions

(u) *Records.* In order to assure compliance with this order, every printer must calculate, as accurately as he can, the tonnage of paper which he used during each quarter of 1941 for the items covered by this order. He must also keep accurate records of this type of information for each calendar quarter beginning with January 1, 1943. He must preserve these figures and his work sheets, subject to inspection by War Production Board officials as long as this order remains in force and for 2 years after that.

(v) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board.

(w) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter referring to the particular provision appealed from and stating fully the grounds of the appeal or by filling in the pertinent information on Form WPB-3605.

(x) *Communications.* All communications concerning this order shall be addressed to: War Production Board, Printing and Publishing Division, Washington 25, D. C., Ref: L-241.

(y) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control, and may be deprived of priorities assistance.

SCHEDULE I

(a) *Limits on basis weights.* No person may manufacture and no person may cause to be manufactured any of the items listed in this schedule in a basis weight, thickness, area or weight per unit greater than the maximum specified for such use.

(1) Art reproductions, without advertising—basis weight 25 x 38—120 #.

(2) Diaries, date books, desk calendar pads, and advertising memo pads—basis weight 17x22—16 #.

(3) Dodgers and handbills—basis weight 24 x 36—35 #.

(4) News letters and loose leaf services other than books (as defined in Order L-245)—basis weight 17 x 22—16 #.

(5) Accounting records, books and forms—basis weight 17 x 22—28 #; or if for loose leaf accounting forms used on an automatic posting machine—basis weight 17 x 22—32 #.

(6) Corporate securities, checks, domestic and foreign currency—basis weight 17 x 22—24 #.

(7) Notes, contracts, mortgages, wills, deeds, insurance policies, and legal forms—basis weight 17 x 22—20 #.

(8) Letterheads—basis weight 17 x 22—16 #.

(9) Card indexes and card records—basis weight 25½ x 30½—140 #.

(10) Time cards—caliper .014 inches.

(11) County record books and other permanent government records—basis weight 17 x 22—36 #.

(12) Prospectuses for the sale of securities—basis weight 25 x 38—50 #.

(13) Legal briefs and records on appeal—basis weight 25 x 38—50 #.

(14) All other office, business and financial forms, except blank books, and except forms produced by a liquid or gelatin process—basis weight 17 x 22—16 #.

(15) Road and street maps and guides for civilian use—basis weight 17 x 22—16 #.

(16) Telephone directories—body basis weight 24 x 36—28 #; cover basis weight 22½ x 28½—110 #.

(17) Admission tickets—basis weight 22½ x 28½—90 #, or any coated stock made from raw stock not over 22½ x 28½—90 #.

(b) *Exceptions to limits on basis weights.* The above restrictions do not apply to paper which has been manufactured before October 21, 1943.

(c) *Exceptions to Order L-120.* Schedules I and III to Order L-120 provide:

Paper or paperboard may be manufactured for a particular use in any basis weight or thickness permitted for such use by this or any other order of the War Production Board, provided the basis weight or thickness does not exceed the maximum specified by the War Production Board for such use, and provided all other provisions of this or such other orders are fully complied with.

Pursuant to this provision the manufacture of paper in the basis weights specified in this list for items 1, 6, 7 and 16 is hereby permitted.

SCHEDULE II

(a) *Commercial printing which is charged against the quota of both the printer and the person who issues the item.* Certain items of commercial printing are subject to a "two-sided" limitation. As is the case with all types of commercial printing covered by this Order, the paper consumed in printing such items must be deducted from the commercial printer's quota; however, in the case of the items covered by this Schedule II, the same paper must also be deducted from the quota of the person who causes the items to be printed. In other words, the publisher or issuer of the item must reduce his consumption of paper for that item by the required percentage and he must also have the printing done by a printer who will debit his quota under paragraph (1) of this order.

If a person did not publish or issue, in 1941, a particular item listed in this Schedule, he has no quota for the publication or issuance of that item after January 1, 1944.

Any paper which a commercial printer consumed in printing these items in 1941 shall be included in computing his quota under paragraph (1) whether or not he prints any of these items after January 1, 1944. The paper which a commercial printer consumed in printing such items after January 1, 1944, must be deducted from his quota, whether or not he printed such items in 1941.

(b) *Catalogs, directories, school yearbooks, song sheets, comic publications*—(1) *Consumption quota.* During the year 1944, and each year after that, no person may cause to be consumed in the printing of any item listed in this paragraph (b) (1) more than 75%, by weight, of the paper which he caused to be consumed in the printing of that item in 1941. It is not necessary for the weight of each copy or edition to be reduced, as long as the total weight of the paper consumed in the printing of all copies or editions of that item is reduced by the required amount.

(i) Catalogs (including supplements) of 12 or more bound pages issued by a person who manufactures, distributes or offers for sale the products, commodities or services listed therein, except catalogs issued at intervals of more than 3 years.

(ii) Directories (except telephone directories) of 12 or more bound pages issued by a person whose primary business is not publishing.

(iii) School and college annuals and yearbooks.

(iv) Song sheets which are not "books" as defined in Order L-245 or "magazines" as defined in Order L-244.

(v) Comic or cartoon publications which are not "books" as defined in Order L-245 or "magazines" as defined in Order L-244.

(2) *Definition of "item".* Each of the numbered subdivisions of paragraph (b) (1) is a separate "item", not individual publications covered by a particular subdivision. Thus, for example, a person who issued one type of comic book in 1941 may use his 1944 quota for the publication of any other type of comic book, but he may not use it for the publication of catalogs, directories, school yearbooks or song sheets.

(3) *Carry-over.* If a publisher or issuer of any of the items listed in paragraph (b) (1) uses less paper than he is allowed in 1944, he may add this saving to his consumption quota for the production of such items for 1945.

(c) *Shopping guides, free distribution newspapers, want ad publications, free distribution publications in newspaper format*—(1) *Consumption quota.* In the second calendar quarter of 1944, and in each calendar quarter after that, no publisher or other person may cause to be consumed in the printing of any shopping guide, free distribution newspaper, want ad publication or free distribution publication in newspaper format any paper in excess of his quarterly consumption quota, which shall be determined as follows:

(i) Ascertain the tonnage of paper consumed in printing that particular publication in the corresponding quarter of 1941, including all supplements, inserts and other printed matter physically incorporated into such publication or delivered together with it. This is the publisher's "quarterly base tonnage", from which the required reductions shall be made.

(ii) If the publisher's quarterly base tonnage in any calendar quarter is less than 25 tons, his consumption quota for that quarter is the same as his base tonnage. He need not use less than he used in the corresponding quarter of 1941, but he may not use more.

(iii) If the publisher's base tonnage in any calendar quarter is 25 tons or more, the following sliding scale of percentage cuts shall be applied:

Deduct 9% of the amount over 25 tons but not over 125 tons.

Deduct 13% of the amount over 125 tons but not over 250 tons.

Deduct 17% of the amount over 250 tons but not over 500 tons.

Deduct 25% of the amount over 500 tons but not over 1000 tons.

Deduct 29% of the amount over 1000 tons.

The balance remaining after subtraction of the above reductions from the publisher's quarterly base tonnage is his consumption quota for that quarter. For example, if the publisher consumed during the third quarter of 1941 340 tons, his consumption quota for the third quarter of 1944 would be determined as follows:

25 tons no cut	25	tons	
100 tons 9% cut	91	tons	
125 tons 13% cut	108.75	tons	
90 tons 17% cut	74.7	tons	
340 tons quarterly base tonnage	299.45	tons quarterly consumption quota	

(2) *Carry-over.* If the publisher or issuer of a shopping guide, free distribution newspaper, want ad publication or free distribution publication in newspaper format uses less paper than he is allowed in any quarter, he may add the saving to his consumption quota in a subsequent quarter or distribute the saving over several subsequent quarters.

(3) *Transfer of quotas.* Where two or more shopping guides, free distribution newspapers, want ad publications, or free distribution publications in newspaper format are published by the same person and are distributed primarily in the same city or trading area, he may combine or distribute his consumption quotas among his publications in that city or trading area. However, after May 24, 1944, no such publisher may transfer any part of his consumption quota to a different city or trading area.

(d) *Certification.* No person may order any of the items listed in this schedule to be printed unless he furnishes or has previously

furnished to the printer, a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

> The undersigned publisher or issuer certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the printer and to the War Production Board that he is familiar with Schedule II to Order L–241 and that all orders placed by the publisher or issuer with that printer for items regulated by that schedule, as amended from time to time, will be in compliance therewith.
>
> This is a one-time certification and need not accompany each individual order.

Issued this 18th day of July 1944.

Recording Secretary.

PART 3133—PRINTING AND PUBLISHING

[Limitation Order L–340]

GOVERNMENTAL COMMERCIAL PRINTING AND DUPLICATING

Scope

(a) The purpose of this order.

Definitions and Explanations

(b) Government.
(c) Commercial printing.
(d) Printer.
(e) Paper.
(f) Use.
(g) Production waste.
(h) Inventory.

Consumption Quota

(i) Printing which is covered by other orders.
(j) Printing which is not restricted.
(k) Consumption restrictions for governments other than the United States Government.
(l) Consumption restrictions for the United States government.
(m) Certification to printer.

Delivery Restrictions

(n) Limit on tonnage which may be accepted.
(o) Increase of deliveries.
(p) Certification to paper dealer or mill.
(q) Limits on basis weights.

Miscellaneous Provisions

(r) Records.
(s) Applicability of regulations.
(t) Appeals.
(u) Communications.
(v) Violations.

Scope

§ 3133.50 *Limitation Order L–340*—(a) *The purpose of this order.* This order does three things. First, it limits the tonnage of paper which a government may cause to be used for commercial printing. This is called its "consumption quota" and is based upon the tonnage of paper which it caused to be used for commercial printing in the base period. Second, it limits the tonnage of paper which may be accepted by or on behalf of a government. This is based upon its inventory of paper. Third, it limits the basis weight of paper which a government may cause to be used in printing certain items.

Definitions and Explanations

(b) *Government.* (1) "Government" means the United States government and the government of any state, county, municipality or local political unit. The term does not mean a department, agency, bureau or other subdivision of a government. Each government may apportion its consumption quota under this order among its constituent departments, agencies, bureaus and other subdivisions. Such subdivisions may not, collectively, cause paper to be used in commercial printing in excess of the consumption quota of the governmental entity which they comprise.

(2) This order does not apply to any government if its base tonnage is less than one ton, or if the total cost of commercial printing purchased by it in the base period did not exceed $1,000.

(c) *Commercial printing.* "Commercial printing" means all printing and duplicating produced by any type of printing machine covered by Order L–226 or any type of duplicating machine covered by Order L–54–c, List I, Item 5. However, this order does not affect printing which is covered by other orders of the War Production Board, as described in paragraph (i), and printing which is unrestricted, as described in paragraph (j). "Printed matter" includes duplicated matter as well as printed matter.

(d) *Printer.* The term "printer" is used throughout this order, for the sake of convenience and brevity, to include printers who operate printing machines and duplicators who operate duplicating machines. This order applies to a government which operates its own printing plant as well as a government which purchases printing.

(e) *Paper.* "Paper" means any grade, quality, type, basis weight or size of paper, gummed paper, paperboard or bristol used in commercial printing. The term includes paper reclaimed wholly or partly from printed or unprinted waste, as well as paper made entirely from virgin fiber.

(f) *Use.* Paper is "used" when ink is first applied to it by a printer. However, paper is not "used" under this order when ink is applied to it by pen-ruling equipment. Sometimes paper is put through a press more than once, either by the same printer or by different printers; for instance, when a sheet is printed on its second side, or when several colors are used. For the purposes of this order the paper is deemed to be "used" when the first application of ink is made by a printer. It makes no difference how many other applications of ink are put on the paper by the same or different printers.

(g) *Production waste.* All production waste shall be included in determining the tonnage of paper which a government causes to be used in commercial printing.

(h) *Inventory.* "Inventory" means all the paper which is available for the use of a government in commercial printing. It is immaterial whether such paper is in the printer's hands or in the hands of the paper dealer, government, or other person. Paper in transit is not included.

Consumption Quota

(i) *Printing which is covered by other orders.* Certain types of printing are not covered by this order. When a government adds up the weight of paper which it caused to be used in the base year, it may not count the paper which went into these items. Also, a government may not use the consumption quota which it gets under this order for the printing of any of these items. They are:

(1) Newspapers (defined in Limitation Order L–240).

(2) Magazines (defined in Limitation Order L–244).

(3) Books and booklets (defined in Limitation Order L–245).

(4) Converted products named in Lists A, B, C or D of General Conservation Order M–241–a, except gummed paper.

(j) *Printing which is not restricted.* A government is not limited in the amount of paper which it may cause to be used in commercial printing required for any official election.

(k) *Consumption restrictions for governments other than the United States government.* In the 12-month period beginning July 1, 1944 and ending June 30, 1945, or in the last fiscal year ending prior to January 1, 1946, and in each corresponding 12-month period after that, no government (other than the United States government) may cause to be used for commercial printing any paper in excess of its annual consumption quota which shall be computed as follows:

(1) (i) Select a base period which shall be either the 12-month period ending June 30, 1942, or the last fiscal year ending prior to June 30, 1942.

(ii) Add up the total pounds of paper used in the base period for all types of printing.

(iii) Subtract the pounds of paper used in the base period for all the items covered by other orders as listed in paragraph (i).

(iv) Subtract the pounds of paper used in the base period for the unrestricted items described in paragraph (j).

(v) This is the government's base tonnage from which the required reductions shall be made.

(2) If the government's base tonnage is more than 1 ton but less than 1⅓ tons, its annual consumption quota is 1 ton.

(3) If the government's base tonnage is more than 1⅓ tons, its annual consumption quota is 75 percent of its base tonnage.

(4) A government may cause its annual consumption quota to be used for any type of printing which is not covered by other orders as listed in paragraph (i). Also, it may cause any amount of paper to be used in addition to its annual consumption quota for the unrestricted items described in paragraph (j).

(5) If a government is unable to determine its base period consumption in tons of paper, it may, as an alternative, compute the dollar value of its purchases of commercial printing during the base year using the method described in paragraph (k) (1).

(i) If the government's purchases of commercial printing in the base year were more than $1,000, but less than $1,110, its annual consumption quota is $1,000.

(ii) If the government's purchases of commercial printing in the base year were more than $1,110, its annual consumption quota is 90% of the cost of commercial printing purchased in the base year.

(l) *Consumption restrictions for the United States Government.* After July 1, 1944, no department, agency or other subdivision of the United States Government may cause any paper to be used for commercial printing except in accordance with the conservation orders issued by the Director of the Bureau of the Budget.

(m) *Certification to printer.* No person may order commercial printing on behalf of a government, and no person may accept such an order, unless the person placing the order furnishes or has previously furnished to that printer a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose.

> The undersigned certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the printer and to the War Production Board that he is familiar with Order L–340, and that all orders placed by the undersigned with that printer for items regulated by Order L–340, as amended from time to time, will be in compliance therewith.
>
> This is a one-time certification and need not accompany each individual order for printing.

Delivery Restrictions

(n) *Limit on tonnage which may be accepted.* No government may accept, and no person may accept for a government's use, delivery of any quantity of paper if the government's total inventory of all kinds of paper for use in commercial printing exceeds 60 consecutive days' supply, or if acceptance of the delivery will bring its inventory above this level. The number of days' supply shall be computed at the average proposed rate of consumption during the succeeding 60 days, *Provided,* That the proposed rate of consumption is not in violation of the consumption quota restrictions contained in this order.

(o) *Increase of deliveries.* A government may accept delivery of paper which would increase its inventory to more than 60 consecutive days' supply of paper only in the following two circumstances:

(1) If the amount of a particular item in the government's inventory is less than 30 days' supply, it may accept delivery of not more than an additional 30 days' supply of that item, *Provided,* The amount purchased is required for its production within 30 days of acceptance.

(2) Regardless of the quantity of a particular item, or of all items, in a government's inventory, it may accept delivery of any item which it is entitled to accept under paragraphs (n) and (o) (1) in the unit quantity (e. g., full carload, full truckload, 10,000, 5,000 pounds, 4 cases) in which it accepted delivery of that item in the base period.

(p) *Certification to paper dealer or mill.* No government may order or accept delivery of paper, and no person may deliver paper to a government, unless the government furnishes, or has previously furnished, to the person making the delivery a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

> The undersigned certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that he is familiar with Order L–340 and that all purchases by the undersigned of items regulated by that order, as amended from time to time, will be in compliance therewith.
>
> This is a one-time certification and need not accompany each individual order for paper.

Miscellaneous Provisions

(q) *Limits on basis weights.* Schedule I of Order L–241 provides, "No person may manufacture and no person may cause to be manufactured any of the items listed in this schedule in a basis weight or thickness, area or weight per unit greater than the maximum specified for such use." All commercial printing which a government causes to be produced under this order must be in compliance with Schedule I of Order L–241.

(r) *Records.* In order to secure compliance with this order, every government must calculate, as accurately as it can, the tonnage of paper which it used during the base period for the items covered by this order. It must also keep accurate records of this type of information for each 12-month period beginning July 1, 1944, or for each fiscal year commencing after June 30, 1944. It must preserve these figures and its work sheets, subject to inspection by War Production Board officials, as long as this order remains in force and for two years after that.

(s) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board.

(t) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in duplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(u) *Communications.* All communications concerning this order shall be addressed to the War Production Board, Printing and Publishing Division, Washington 25, D. C., Ref: L–340.

(v) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control, and may be deprived of priorities assistance.

PART 3270—CONTAINERS

[Limitation Order L–103, Schedule C, as Amended July 18, 1944]

GLASS CONTAINER AND CLOSURE SIMPLIFICATION; GLASS CONTAINERS FOR CERTAIN FOOD PRODUCTS

§ 3270.49 *Schedule C to Limitation Order L–103*—(a) *Definition.* For the purposes of this schedule:

"Standard glass container" means any container constructed in accordance with the specifications and design prescribed by any exhibit set forth in Drawings 1 to 15, inclusive, annexed to Order L–103, which possesses the finish prescribed for such exhibit or, subject to the provisions of paragraph (b) (2) hereof, any other finish which is interchanged therewith in accordance with paragraph (g) of Limitation Order L–103.

(Note that in accordance with the footnotes to Drawings 7, 8, 9 and 13 glass containers conforming to the specifications of the following exhibits constitute "standard glass containers" for the purposes of this schedule only if they are manufactured before December 20, 1943—16–80, 16–81, 17–09, 17–11, 17–22, 17–76, 18–08, 18–14, 51–87, 51–89, 51–93, 51–95, 51–97, 51–99.)

(b) *Restrictions on use.* (1) With the exceptions set forth in paragraph (c) of this schedule, on and after July 4, 1943, no person shall use a glass container for the packing for sale of any product listed in the annexed table, except a standard glass container, having a capacity equal to or greater than that specified for such product in column II of said table.

(2) Notwithstanding the provisions of paragraph (g) of Order L–103, no person shall use for the packing for sale of any product listed in the table annexed to this schedule any glass container with a "deep screw cap" finish, except as specifically permitted by an exhibit authorized for such product.

(c) *Exceptions.* (1) Nothing in this schedule shall prevent the use, for the packing of any product listed in the annexed table, of any glass containers

which were completely manufactured before the 4th day of July 1943.

(2) Nothing in this schedule shall restrict the sale, delivery, use or manufacture of glass containers with a capacity larger than 140 fluid ounces, of designs that existed on May 11, 1942.

(3) Nothing in this schedule shall prohibit any person who packed less than a total of 5,000 containers with all of the products listed in the annexed table during the calendar year 1942 from purchasing, accepting delivery of, or using without restriction, during any subsequent calendar year, a maximum of 5,000 glass containers for packing such products.

(4) Except as specifically permitted by the drawings and exhibits annexed to Order L–103 molded lettering or decoration on standard glass containers for the respective products listed in said table shall be limited to the manufacturers' identification (which may include trademark, name, symbol), place of manufacture, date of manufacture by year, design number, and mold or cavity number.

(d) *Manufacture.* (1) No person shall manufacture, sell, or deliver any glass container which he knows, or has reason to believe, will be used in violation of any provision of this schedule.

(2) On and after the 5th day of April 1943, no molds may be manufactured for a container for any of the products listed in the annexed table which does not conform to the specifications of a standard glass container usable for such product, nor may any mold for a container for a product listed in the annexed table be replaced—whether because of wear or for any other reason—except by a mold which conforms to said specifications.

Issued this 18th day of July 1944.

13. Tomato paste Not less than 25% by weight dry tomato solids	[1]6
14. Tomato pulp and puree Not less than 10.7% (specific gravity 1.045) or more than 25% by weight dry tomato solids	12
15. Vinegar	16
16. Fruits and vegetables and mixtures thereof, including ripe olives, but excluding cranberries and maraschino cherries	16
17. Honey	[1]6
18. Pickles and relishes	[1]8
19. Peanut butter	[1]16
20. Fruit and vegetable juices and mixtures thereof	12
21. Olives, green	[3]5
22. Maraschino cherries	[3]7
23. Cranberries and cranberry sauce	[1]8
24. Mustard, including, but not limited to, prepared mustard, horseradish mustard, compound mustard, and imitation mustard	[4]6

[1] Any tumbler may be used (in addition to standard) for packing the applicable product provided:

(i) Such tumbler was made from a mold that was actually in existence on or before April 5, 1943;

(ii) Such tumbler has no larger than a 70 mm. finish;

(iii) The capacity of such tumbler is no less than 8 fl. oz. and no greater than 9¾ fl. oz.

[2] Until completion of the 1943 packing season for tomato catsup, any bottle of a design previously used for tomato catsup may be used therefor, in addition to the specified standards, provided:

(i) Said bottle was made from a mold actually in existence on April 5, 1943;

(ii) Such bottle is made to hold 14 oz. by weight of tomato catsup;

(iii) The height of such bottle to the "fill point" does not exceed 7⅞ inches.

After completion of 1943 tomato catsup packing season, only the containers permitted for said product pursuant to paragraph (b) (1) of this schedule may be used.

[3] Standard glass containers having a capacity equal to or greater than 3 oz. (and less than 5 oz.) may be used for olives, and standard glass containers having a capacity equal to or greater than 4 oz. (and less than 7 oz.) may be used for maraschino cherries, provided these containers were completely manufactured on or before December 20, 1943.

[4] Nothing in this schedule shall prevent the use for the packing of mustard of any glass container which was completely manufactured before June 20, 1944.

PART 3270—CONTAINERS

[Supplementary Order L–103–b, as Amended July 18, 1944]

GLASS CONTAINER AND CLOSURE QUOTAS

§ 3270.36 *Supplementay Order L–103–b.* This order lists the only products which may be commercially packed in new machine-made, glass containers or with new metal closures. It specifies closure materials and sets forth the number of glass packages and metal closures which may be used for each listed product. In addition, some restrictions are placed upon the manufacture of closures.

The order limits "commercial packs" only. Although there are certain manufacturing restrictions, the use of glass containers or metal closures for home canning purposes is not affected.

Likewise, the provisions of this order cover only new glass containers and closures. Used containers or closures are not limited. However, closures which are fabricated from used closures—that is, where the used closures are a production material—are regarded as new closures made of "waste" and are governed by the pertinent provisions of this order.

Definitions of the various terms used in this order appear in paragraph (x) hereof.

Restrictions on Use of Glass Containers and Closures

(Note exceptions from these restrictions in paragraphs (p) through (v)).

(a) *Prohibited acceptances and uses of glass containers and closures.* No packer shall accept delivery of or use any new glass container, or any new metal closure for packing any product not listed in a schedule of this order.

(b) *Limitations on acceptance and use of glass containers and closures.* (1) During any calendar year beginning with 1944, no packer shall accept delivery of or use, for packing any product which is listed in a schedule of this order, more new glass containers or more new metal closures (other than closures made from waste) than his quota for that product.

(2) The limitations of subparagraph (1) shall not apply in the following cases:

(i) Jobbers or retailers may obtain closures and glass containers without restriction but must resell them in conformity with the provisions of this order.

(ii) Packers may, after November 1 of each year, accept delivery of an additional 10% of their current year's quota of new glass containers, but may not use them until the following year, and they must charge them to the following year's quota.

(iii) Certain other exceptions are set forth in paragraphs (p), (q), (r), (s) and (u) (1) and also in the schedules of this order.

(c) *Closure materials.* No packer shall accept delivery of or use, for packing any product, new metal closures made of any material except those permitted for that product in the schedules of this order. However, blackplate (including rejects) may be used wherever tinplate or terneplate is specified, and frozen plate may be used wherever tinplate, terneplate or blackplate is specified. Likewise, closures made of waste may be used in accordance with the following paragraph:

(d) *Closures made of waste.* Closures made of waste shall not be used for packing any product not listed in the schedules attached to this order. Closures made of waste may be used in addition to specified quotas for listed products.

(e) *Home canning jars.* No packer shall pack any commodity in a home canning jar. (Note that the use of these jars for home canning is not restricted).

Quotas

(f) *General.* Closure and glass quotas are stated separately in the attached schedules, and are not necessarily the same for any given product.

Quotas are not interchangeable as between listed products. That is, a packer who packs two products, product A and product B, must compute his quota (in the manner described in the following paragraph (g)) for each product separately. He cannot allot any portion of his quota for product A to product B, even if he does not pack his full quota of product A.

Furthermore, quotas may not be transferred from one packer to another except as provided in Priorities Regulation 7A.

(g) *Computation of quotas.* In most cases where this order provides a quota for the packing of any product, it does so, in the attached schedules, by stating a percentage figure followed by a calendar year—for instance, 100% 1943. Where this appears in the "glass quota" column opposite a product, it means, unless otherwise specified, that a packer's glass container quota for that product during 1944 and subsequent calendar years is computed as follows:

(1) He takes the number of new glass containers which he used for packing that product during a named base year.

(2) He subtracts the number of new glass containers which he used for packing that product during the same base year and which were quota exempt under the provisions of any prior order of the War Production Board or under any previous amendment of this order.

(3) He multiplies the resulting figure by the applicable percentage.

Identical rules apply to the computation of closure quotas, except that unless otherwise specified they are based on the number of new metal closures used during the specified base period.

The schedules of this order provide that the quotas for some products are based on the number of new metal closures or new glass containers accepted rather than those used during the specified base period. Here again, the method of computation, described in this paragraph, applies, except that the word "accepted" should be substituted for the word "used" in steps 1 and 2 above. Only the new metal closures or the new glass containers which a packer actually accepted delivery of and those which were invoiced to him during the applicable base period may be included in his quota base in such cases. But, for the purpose of making charges against quota, a packer must include the new metal closures and the new glass containers which he actually accepts delivery of, and those which are set aside for him or held by another party for his account—whether or not they are actually invoiced to him.

In a few cases, the schedules of this order set forth special rules, not covered by the above, for the computation of quotas for particular products. Such rules must be followed, and supersede the general statements contained in this paragraph (g) to the extent that they conflict with them.

(h) *Use of quotas.* As indicated above, most quotas are based on past use. The word "use" refers only to the actual filling operation in the case of glass and the actual capping operation in the case of closures. Therefore, to the extent that a person did not do this directly during the base period, he has no quota, despite the fact that he may have supplied the actual packer with the product, closures, containers, etc. After December 31, 1943, any packing done for him must be within the quota of the person performing the actual filling and capping operation.

In the case of products whose quotas are based upon acceptances, a person is deemed to have "accepted" glass containers or closures (for the purpose of computing quotas) only to the extent that he himself actually took possession of them or had them invoiced to him. If he did not do this during the base period, he has no quota, and the rules stated in the preceding paragraph of this paragraph (h) apply.

Packers who use or accept new glass containers or metal closures for packing products for the account of others, as well as for their own account, must conduct both operations within their own quotas. Without a special appeals grant under this order, they cannot regard their use or acceptances of glass containers and metal closures for the account of others as an addition to their quotas. This is true even where the other person may represent to the packer that he has a quota which he is not using himself.

On the other hand, packers are entitled to include, in their own quota bases, their use or acceptances of new glass containers or new metal closures, for the account of others during the specified base periods.

Restrictions on Sale and Delivery of Glass Containers and Closures

(i) *General restrictions.* No person shall sell or deliver any glass containers or closures which he knows, or has reason to believe, will be accepted or used in violation of any provision of this order.

(j) *Export deliveries.* (1) During any calendar year, no person shall deliver more empty new glass containers or more new metal closures to any person in a foreign country than he delivered to that person during 1943.

(2) The War Production Board may authorize any person to deliver new glass containers and new metal closures contrary to the restriction of paragraph (j) (1). Application for authorization shall be made by letter setting forth fully the reasons for the request.

(k) *Certificates.* No person shall sell or deliver any new glass containers or new metal closures except under a purchase order or contract validated by the delivery to such person of a purchaser's certificate, signed manually, or as provided in Priorities Regulation 7.

This certificate shall be in substantially the form attached hereto as Exhibit A in the case of sales or deliveries of all glass containers, and of all metal closures except malt and non-alcoholic beverage closures. Attention is called to the fact that this certificate, once filed by a purchaser with a supplier, covers all future deliveries from that supplier to that purchaser.

The certificate should be in substantially the form attached hereto as Exhibit B, where sales or deliveries of malt or non-alcoholic beverage closures are concerned. This certificate differs from Exhibit A in that it must be filed with each purchase order for beverage closures in order to validate the order.

Jobbers as well as packers must file certificates in accordance with this paragraph (k). However, in Exhibit B, jobbers need only supply the information called for in sections (b) and (d) of that certificate.

(l) *Outstanding certificates.* Certificates previously filed with a supplier under any previous amendment of this order, shall remain valid insofar as sales or deliveries of glass containers are concerned. Exhibit A certificates previously filed under order M–104, shall remain valid insofar as closure (other than malt or non-alcoholic beverage), deliveries are concerned. In either of the above cases, no new certificate need be filed by any purchaser to validate his orders placed with the supplier to whom the previous certification was made.

(m) *Cases where certificates need not be filed.* No certificates shall be required for the sale or delivery of the following:

(1) Home canning jars
(2) Home canning closures
(3) Returnable glass containers for packing miscellaneous dairy products
(4) Prescription bottles and ointment jars for prescription use
(5) Closures for prescription and ointment jars for prescription use
(6) Glass containers or closures of any kind to retailers for resale empty or unused or to persons purchasing them from retailers.
(7) Glass containers or closures on shipments, empty or unused, to persons in a foreign country.

(n) *Standard certifications.* The standard certification provided for in paragraph (d) of Priorities Regulation 7, cannot be used in place of the certifications provided by this order; nor may the certifications provided by this order be waived in accordance with paragraph (f) of Priorities Regulation 7.

Restrictions Relating Solely to Manufacture of Closures

(o) *Closure material.* (1) No person shall use any zinc, aluminum, tinplate, terneplate, blackplate, frozen plate, waste-waste or waste for the manufacture of the following types of closures:

(i) Cover caps which serve as a protective or decorative closure in addition to any original sealing medium (other than paraffin) such as another closure.

(ii) Double shell or semi-double shell caps.

(iii) Two-piece closures when both pieces are made of metal, except as permitted in paragraph (o) (2).

(2) No person shall use any zinc, aluminum, tinplate, terneplate, black-

plate, or wire for the manufacture of any closure of the home canning type, except as, and to the extent permitted in Schedule VII attached to this order. No closure manufactured pursuant to Schedule VII shall knowingly be sold to, or used by, any person for packing any product for sale.

(3) No person shall use any tinplate, terneplate or blackplate heavier than 90 pounds per base box for the manufacture of crown caps. This restriction does not apply to rejects, frozen plate waste-waste, or waste.

(4) No person shall use for the manufacture of closures any tinplate with a tin coating in excess of 0.50 lb. per base box except as otherwise specified in Schedule I, where in a few instances the figure 1.50 appears in the tinplate closure material column. In those cases tinplate with a tin coating of 1.50 lbs. per base box may be used.

(5) No person shall use any wire for the manufacture of paperboard disc plug caps, except that wire may be used for such caps having a diameter of two inches or larger.

Exceptions Pertaining to Both Glass Containers and Closures

(p) *Deliveries to certain agencies and persons.* Nothing in this order shall prohibit the purchase, acceptance of delivery, or use (such use to be in addition to any quota specified in the schedules attached to this order) of glass containers or closures by any of the following persons or by any person for packing any product to be delivered to or for the account of any of the following persons:

(1) Army, Navy, Marine Corps, Maritime Commission, War Shipping Administration of the United States (including persons operating vessels for such Administration or Commission for use thereon), or the United Seamen's Service, Inc.

(2) Any person for packing products for retail sale or distribution through post-exchanges, sales commissaries, officers' messes, servicemen's clubs, ship service stores, or outlets; provided same are located at Army or Navy Camps, are not operated for private profit and are established primarily for the use of Army or Navy personnel within Army or Navy establishments or on Army or Navy vessels.

(3) American Red Cross, United Service Organizations, or such other nonprofit Defense Recreation Committees, engaged in the operation of recreation centers in the United States, its territories or island possessions, solely for military personnel, as are certified to be within the exemption provided by this paragraph (p) (3) by the Office of Community War Services under the Federal Security Agency.

(4) Any agency of the United States purchasing for a foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(q) *Special provisions in schedules relative to exempt deliveries to certain agencies and persons.* The schedules of this order contain certain limitations on the exception provided by the preceding paragraph (p) in the case of certain products—as, for instance, malt and nonalcoholic beverages. In such cases, the provisions of the schedules are controlling and supersede paragraph (p) to the extent that they conflict therewith.

(r) *Small users.* The restrictions of this order shall not apply to any person who was a packer before January 1, 1944, during any calendar year in which he accepts no more than a total of twenty-five hundred dollars ($2500) worth (cost price to him) of empty new glass containers and new metal closures for all products, provided that the cost of the closures which he accepts shall, in no event, exceed one thousand dollars ($1000).

Exceptions Relative to Glass Containers Only

(s) *Large size glass containers.* The restrictions of this order which pertain to glass containers shall not apply to any glass container with a capacity larger than 140 fluid ounces.

(t) *Glass containers of non-permitted sizes manufactured prior to January 4, 1944.* A packer may accept and use, for packing any product listed in the schedules of this order, any glass container which was manufactured before January 4, 1944, even though the container is of a size which is not permitted for that product by the schedules. Such acceptance and use must be in accordance with the quota provisions of this order and with the provisions of Order L–103.

(u) *Quota status of glass containers in inventory as of January 1, 1944.* Glass containers in the possession of a packer as of January 1, 1944, may be used by him for packing any listed product as follows:

(1) Quota free, if accepted for packing a product which had a limited quota in 1943, (unless "borrowed" as described in point 3 of this paragraph).

(2) Within quota, if accepted for packing a product which had an unlimited quota in 1943.

(3) Within quota, if borrowed against anticipated 1944 use as permitted in paragraph (e) of this order as amended November 1, 1943.

(v) [Deleted July 18, 1944.]

Prior Appeals

(w) *Appeals granted prior to December 31, 1943 under Order M–104 and Order L–103–b.* All appeals granted prior to December 31, 1943 under orders L–103–b and M–104 are cancelled and shall be ineffective on and after January 1, 1944. Therefore, after that date, no person shall accept delivery of or use or shall manufacture, sell or deliver any new glass container or any new metal closure except in accordance with the provisions of this order—unless he receives a new grant on appeal after January 1, 1944.

Definitions

(x) *Definitions.* For the purposes of this order:

(1) "Glass container" means any empty new machine-made bottle, jar or tumbler, with a capacity of 140 fluid ounces or less, which is made of glass and which is suitable for packing any product. It shall not include ampoules or vials made from glass tubing.

(2) "Packer" means any person who uses glass containers or closures for commercially packing any product in the United States, its territories or island possessions.

(3) "Home canning jar" means a glass container which is specifically made for use as a home canning jar (that is, for the purpose of packing or preserving food or food products in the home) and which carries some lettering or other marking identifying it as such.

(4) "Closure" means any new sealing or covering device affixed or to be affixed to a glass container for the purpose of retaining the contents within the container. The term shall not include bulbs or droppers for medicinal bottles.

(5) "Metal closure" means any closure which is made of zinc, aluminum, tinplate, terneplate, blackplate, frozen plate, waste-waste, or waste.

(6) "Tinplate" means sheet steel coated with tin, and includes "primes", "seconds", and all other forms of tinplate except waste and waste-waste.

(7) "Terneplate" means sheet steel coated with a lead-tin alloy, and includes "primes", "seconds", and all other forms of terneplate except waste and waste-waste.

(8) "Blackplate" means any sheet steel, other than tinplate or terneplate, and includes "rejects", and all other forms of blackplate except waste.

(9) "Frozen plate" means only tinplate, terneplate or blackplate which, since before August 9, 1943, has been held in the owner's inventory because, for any reason, it was not suitable for manufacture by the owner into articles permitted the use of steel under the provisions of War Production Board orders.

(10) "Waste-waste" means hot dipped or electrolytic tin coated steel sheets which have been rejected during processing by the producer because of imperfections which disqualify such sheets from sale as primes or seconds.

(11) Tinmill blackplate "rejects" means steel sheets rejected during processing by the producer because of imperfections which disqualify such sheets for sale as prime blackplate.

(12) "Waste", means:

(i) Used closures made of tinplate, terneplate or blackplate;

(ii) Used cans made of tinplate, terneplate or blackplate;

(iii) Tinplate, terneplate or blackplate discs produced in the ordinary course of manufacturing screw bands for home canning closures;

(iv) Slitter or shear trimmings, or lithographing lay sheets, produced in the ordinary course of manufacturing closures or cans.

(13) The term "0.50 tinplate" wherever used in this order, includes "menders" arising in the production of such tinplate which have been hot dipped with a maximum tin coating of 1.25 pounds per base box.

Miscellaneous

(y) *Multiple unit users.* Any packer who uses glass containers at more than one plant may choose to compute and apply a separate quota for each plant (or group of plants) or a collective quota for all such plants. Any organization which consists of a parent corporation and one or more wholly-owned subsidiary corporations may consider itself as a single packer for purposes of this paragraph.

(z) *Applicability of regulation.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(aa) *Appeals.* Appeals from this order shall be filed by addressing a letter to the War Production Board, Containers Division, Washington 25, D. C. Ref: L–103–b.

The letter of appeal need not follow any particular form. It should state informally, but completely, the particular provision appealed from, the precise relief desired, the reasons why denial of the appeal would result in undue and excessive hardship, and such other statistical and narrative information as may be pertinent.

(bb) *Communications.* All communications concerning this order shall be addressed to: War Production Board, Containers Division, Washington (25), D. C., Ref.: L–103–b.

(cc) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or accepting further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

Issued this 18th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

EXHIBIT A—PURCHASER'S CERTIFICATE FOR ALL GLASS CONTAINER DELIVERIES AND ALL CLOSURE DELIVERIES EXCEPT MALT AND NON-ALCOHOLIC BEVERAGE CLOSURES

One copy of this certificate is to be delivered to each person from whom purchases of new glass containers or new metal closures (other than malt and non-alcoholic beverage closures) are made. Such certificate shall cover all purchases present and future.

The undersigned purchaser hereby certifies to the seller and to the War Production Board that he is familiar with Limitation Order L–103–b and that he will not use or sell any glass containers or any closures purchased from

SCHEDULES—GENERAL EXPLANATION

Schedules I through VI list the only products which may be packed in new glass containers or with new metal closures. Schedule VII relates to the manufacture of home canning closures.

The data set forth in the two "quota" columns, opposite each product, indicate the number of new glass containers and new metal closures (determined in accordance with the general rules set forth in paragraph (g) of Order L–103–b), which may be used for packing that product. However, any special quota provisions which these schedules make applicable to any product, are controlling to the extent that they conflict with paragraph (g).

Where the "x" mark appears opposite a product in one of the columns headed "Closure Material", it indicates that, except as listed hereafter, only closures made of that material may be used to pack that product. The general exceptions from this rule are:

(i) Closures made of blackplate may be used, within quotas, wherever tinplate or terneplate is specified.

(ii) Closures made of frozen plate may be used, within quota, wherever either tinplate, terneplate or blackplate is specified.

(iii) Closures made of waste may be used in addition to specified quotas for listed products.

All special provisions of these schedules relating to closure materials for specific products must be followed, and control to the extent that they conflict with the above.

All size specifications for glass containers set forth in these schedules must be followed in addition to the provisions of Order L–103 and its schedules.

Attention is called to Paragraphs (p) through (u) of this order which establish limited exceptions to its provisions. Here again any special provisions which these schedules contain relative to quota exemptions, as in the case of certain beverages, must be observed.

SCHEDULE I—FOODS

NOTE: Schedule I amended in its entirety July 18, 1944.
Closures made of aluminum or blackplate rejects may be used without regard to quota or material restriction.

Product	Calendar year packing quota glass	Calendar year packing quota closures	Closure material: Tinplate	Closure material: Blackplate
1. All foods for human consumption except as otherwise listed in this schedule.	Unlimited	Unlimited		X
2. Spaghetti and macaroni products, corn beef hash, and sauerkraut.	100% 1942 or 1943	100% quota glass containers.	X	
3. Candy and nut meats	100% 1942 or 1943	100% quota glass containers.		X
4. Coffee, bean or ground	See Note	50% of glass quota		X
NOTE: A packer may accept sufficient glass containers to pack the same quantity of coffee that he packed in both glass containers and cans in 1941.				
5. Shortening	Unlimited	None		
6. Meat and fish and products made from them, ice cream mix, apple cider and juice, fruits (only crushed, fountain fruit and ice cream toppings), soup mix, cheese spreads.	Unlimited	Unlimited	X

Schedule VI—Beverages

(The rules set forth in this Schedule are controlling wherever they conflict with any other provisions of Order L–103–b. However, except as modified herein, all provisions of Order L–103–b are applicable)

Malt Beverages

Product: Malt beverages, including only beer, ale, porter, near beer and mixtures thereof.

Glass Containers

(a) *Glass container quota.* 100% of the number of new returnable glass containers which the packer accepted delivery of for malt beverages during 1943—less the number of quota exempt returnable glass containers which were accepted during the period between July 1, 1943 and December 31, 1943.

(b) *Exceptions from glass quota provisions.* In addition to his quota of glass containers for malt beverages, any packer may accept delivery of the following portion of the number of new or used glass containers used, or actually to be used, during the then current calendar year for delivering malt beverages to or for any of the persons listed under paragraph (p) of this order:

(1) *Export shipment.* The full amount of glass containers for delivering malt beverages to or for any such person for shipment to points outside the continental United States.

2. *Domestic consumption.* 8% of the full amount of glass containers for delivering malt beverages to or for any such person for use or distribution within the continental United States.

Closures

(c) *Closure quota (See Note 3).* 115% of the number of new metal closures used for malt beverages during 1943. (Quota exempt closures may not be included in base.)

(d) *Closure material.* (See Note 1) Blackplate (including rejects) as allocated; electrolytic waste-waste, and frozen plate. Hot dipped waste-waste may be used only to make malt beverage closures which are to be exported unused. The export of unused malt beverage closure to foreign countries is exempted from the limitations of paragraph (j) of this order.

No closures made of waste may be used in addition to quota, pursuant to paragraph (d) of Order L–103–b, except as follows:

(1) Closures made of used cans.

(2) Closures made of used closures and of discs produced in the ordinary course of manufacturing home canning screw bands.

(e) *Closure material for armed forces.* Closures for overseas shipments of malt beverages or closures for shipments unused to overseas bottling plants, when the beverage is for delivery to the United States Army or Navy, may be made of 0.50 lb. electrolytic tinplate of 1.03 basis weight.

Non-Alcoholic Beverages

Product. Non-alcoholic beverages, including only carbonated soft drinks; non-carbonated soft drinks; unflavored carbonated waters and unflavored naturally carbonated and still waters (See Note 2); drinks consisting of fruit juices, vegetable juices and combinations thereof, where less than 85% by weight of such drinks is pure fruit juice, vegetable juice, or a mixture thereof; and sterilized milk drinks made with powdered milk.

Glass Containers

(a) *Glass container quota.* 80% of the number of new glass containers which the packer accepted delivery of for non-alcoholic beverages during 1941.

(b) *Exceptions from glass quota provisions.* In addition to his quota of glass containers for non-alcoholic beverages, any packer may accept delivery of the following portion of the number of new or used glass containers used, or actually to be used, during the then current calendar year for delivering non-alcoholic beverages to or for any of the persons listed in paragraph (p) of this order.

(1) *Export shipment.* The full amount of glass containers for delivering non-alcoholic beverages to or for any such person for shipment to points outside the continental United States.

(2) *Domestic consumption.* 8% of the full amount of glass containers for delivering non-alcoholic beverages to or for any such person for use or distribution within the continental United States.

Closures

(c) *Closure quota (See Notes 2 and 3).* 115% of the number of new metal closures used for non-alcoholic beverages during 1943 (Quota exempt closures are not to be included in base).

(d) *Closure material (See Note 1).* Blackplate (including rejects) as allocated; electrolytic waste-waste, and frozen plate. Hot dipped waste-waste may be used only to make non-alcoholic beverage closures which are to be exported unused. The export of unused non-alcoholic beverage closures to foreign countries is exempted from the limitations of paragraph (j) of this order.

No closures made of waste may be used in addition to quota, pursuant to paragraph (d) of Order L–103–b except as follows:

(1) Closures made of used cans.

(2) Closures made of used closures and of discs produced in the ordinary course of manufacturing home canning screw bands.

(e) *Closure material for armed forces.* Closures for overseas shipments of non-alcoholic beverages or closures for shipments unused to overseas bottling plants, when the beverage is for delivery to the United States Army or Navy, may be made of 0.50 lb. electrolytic tinplate of 1.03 basis weight.

Wines

Product. Wines.

Glass container quota. 100% of 1943.

Closure quota. 50% quota glass containers.

Closure material. Blackplate within quota. Closures made of aluminum or blackplate rejects may be used without regard to quota.

Distilled Spirits

Product. Distilled spirits, including cordials.

Glass container quota. 100% of 1943.

Closure quota. 50% quota glass containers.

Closure material. Blackplate within quota. Closures made of aluminum or black-

plate rejects may be used without regard to quota.

NOTE 1: Permission to accept delivery of used cans made of tinplate or of sheets recovered from such cans or of tinplate slitter or shear trimmings, lithographing lay sheets and discs must be obtained in accordance with Conservation Order M-325.

NOTE 2: Except with regard to items listed in Schedule II, no new metal closures shall be affixed to glass containers smaller than 12 fl. oz. for packing unflavored carbonated natural or mineral waters unless such glass containers were manufactured on or before June 1, 1942.

NOTE 3: No person other than a jobber purchasing for resale shall accept delivery of malt beverage or non-alcoholic beverage closures which would increase his inventory beyond 30% of his 1944 quota of such closures plus the number of closures used in the preceding three calendar months for purposes described in paragraph (p) of this order. This restriction does not apply to closures made of waste materials described in paragraphs (d) (1) and (2) of this schedule.

SCHEDULE VII—HOME CANNING CLOSURES

No manufacturer of glass containers shall ship any jars with 70 mm. screw finish, intended for home canning unless at least 40% of such jars shipped during each calendar month are delivered as a unit, consisting of the jar and a "glass lid closure" packed together. A "glass lid closure" is one consisting of a glass lid, a screw band and a top seal jar ring.

8. Top seal metal lids larger than 70 mm	From October 1, 1943 to September 30, 1944—6% of production of 70 mm. lids from October 1, 1942 to September 30, 1943.	X			
8a. Bands for top seal metal lids larger than 70 mm	25% of 1944 quota for top seal metal lids larger than 70 mm.	X			
9. Zinc Mason P/L closures, 70 mm	60% 1941 production			X	
10. Jelly glass lids	Unlimited				X

INTERPRETATION 1: Revoked Jan. 4, 1944.

INTERPRETATION 2

GLASS CONTAINER AND CLOSURE QUOTAS

Paragraph (g) sets forth the method for computing a packer's quota of new glass containers or new metal closures. The first step in the process (subparagraph (1) of paragraph (g)) is to take the number of new glass containers or new metal closures used or accepted for packing that product during the named base period. In arriving at this number a packer may not include more containers or closures than he was permitted to accept or use under the provisions of the applicable order in existence at the time. New glass containers or new metal closures accepted or used pursuant to the grant of an appeal are properly included in making the computation. (Issued Apr. 3, 1944.)

Interpretation 3

A caterer or restaurateur, who fills glass containers with food which is ready for consumption, for the purpose of delivering it to a plant to be served in in-plant feeding operations, is not a packer within the meaning of the term as defined in paragraph (x) (2) of this order and therefore not subject to the restrictions contained in it. He may properly use the certification contained in Exhibit A in placing his purchase orders if the glass containers are to be used for this purpose only. (Issued May 15, 1944.)

PART 3270—CONTAINERS

[Conservation Order M-81, Direction 4, as Amended July 18, 1944]

EXPERIMENTAL USE OF ALUMINUM FOR CANS

The following amended direction is issued pursuant to Conservation Order M-81:

(a) *Purpose.* The War Production Board has made available aluminum to be used for experimental purposes during the third quarter of 1944 in the manufacture of cans, and it may be used in accordance with the following provisions:

(b) *Use of aluminum.* During the third quarter of 1944 aluminum may be used in the manufacture of cans and these cans may only be used in the sizes specified for the packing of the following products (where no size is specified, any size is permitted):

1. Baking Powder (2 lb. and up)
2. Lard and shortening (50 lb. size).
3. Malted Milk Powder (5 lb. and up)
4. Tobacco (8 oz. and 16 oz. only)
5. Snuff
6. Tooth Powder
7. Cereal Beverages and soluble coffee
8. Cocoa
9. Ointment & Salve Boxes
10. Tablet Boxes
11. Pretzels, Crackers, Biscuits & Potato Chips (12⅞ x 14½" and larger)

(c) *Other products.* Container manufacturers who do not make containers for any product listed in Paragraph (b) may apply for an allotment of aluminum to make an experimental run of cans to pack any other product.

(d) *Filing applications.* Application for permission to use aluminum for the purposes stated in Paragraphs (b) and (c) shall be made by letter stating the product to be packed and the tonnage of steel used to make cans for that product in 1941, and shall be accompanied by a CMP 4-B application requesting an allotment of aluminum for that purpose. They shall be filed before July 10, 1944 with the Containers Division, War Production Board, Washington 25, D. C., even though the applicant has been notified that his CMP case has been transferred to the field office. An allotment of aluminum on such application shall constitute authorization for any packer to use the cans made therefrom for packing the stated product.

(e) *Non-interference with war production.* In processing applications under this Direction the War Production Board will be guided by the policy that production in any one plant or labor requirements for that production, shall not interfere with war production in that plant or any other plant located in the same area.

Issued this 18th day of July 1944.

PART 3291—CONSUMERS DURABLE GOODS[1]

[Limitation Order L-71, as Amended July 18, 1944]

DRY CELL BATTERIES AND PORTABLE ELECTRIC LIGHTS OPERATED BY DRY CELL BATTERIES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials and certain facilities used in the production of dry cell batteries, zinc shells for dry cell batteries and portable electric lights for defense for private account and for export and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

Section 3291.125[1] *Limitation Order L-71* is amended to read as follows:

§ 3291.125[1] *Limitation Order L-71*—(a) *Definitions.* For the purpose of this order:

(1) "Circular C435" means Circular C435 of the National Bureau of Standards, issued February 18, 1942, entitled "American Standard Specification for Dry Cells and Batteries."

(2) "Dry cell battery" means any primary cell or assembly of cells in which the electrolyte is nonspillable and in which electric current is produced by electrochemical action.

(3) "Portable electric light" means any flashlight or other portable electric light operated by one or more dry cell batteries. It does not include bulbs, dry cell batteries, electric flares covered by L-158, aviation ground lighting equipment covered by L-235, aircraft lighting

[1] Formerly Part 1142, § 1142.1.

equipment covered by L-327, or devices specifically designed and built for use in military operations, marine navigation or lifesaving.

(4) "Manufacturer" means any person engaged in the business of making or assembling dry cell batteries, zinc shells for dry cell batteries or portable electric lights.

(b) *Restrictions on use of materials in the manufacture of portable electric lights.* No manufacturer shall use any metal or crude, reclaimed or synthetic rubber in the manufacture of portable electric lights or parts for portable electric lights, except

(1) Iron and steel. (No steel may be used except tin mill blackplate rejects and wasters).

(2) Aluminum for reflectors only.

(3) Copper and copper base alloy for plating current carrying parts other than cases.

(4) Tin in solder.

(5) Zinc for plating, electrical contact fittings and reflectors.

(6) Crude, reclaimed or synthetic rubber as permitted by Rubber Order R-1.

(c) *General restrictions on production and delivery.* (1) No manufacturer shall make or deliver any dry cell batteries or portable electric lights except according to a quota authorized by the War Production Board on Form WPB-2719 (formerly PD-880).

(2) Each manufacturer must file this form with the War Production Board on or before the 10th day of March, June, September and December, showing his proposed production and delivery.

(3) Manufacture of portable electric lights will be authorized to qualified manufacturers so that total production will not exceed the approved War Production Board program and so that production in any one plant or labor requirements therefor will not interfere with the war production in that plant or in any plant located in the same area.

(4) The War Production Board when assigning quotas on Form WPB-2719 (formerly PD-880) or at any other time, may direct any manufacturer in writing to distribute specified amounts of his production for certain purposes or for certain end uses. If at any time the War Production Board finds that the supply of zinc shells for the production of dry cell batteries authorized under paragraph (c) (1) is not sufficient to complete that production, it may direct any manufacturer of dry cell batteries to reduce or cancel his orders for zinc shells, or it may limit the number and type of zinc shells which may be received and used by such manufacturer.

(d) *Special restrictions on delivery.* (1) No manufacturer shall sell any new portable electric lights except to fill orders rated AA-5 or higher.

(2) No person shall resell any new portable electric lights which he bought from a manufacturer after July 18, 1944, except to fill orders rated AA-5 or higher or orders certified under Priorities Regulation No. 19 as amended from time to time.

(3) No manufacturer shall sell any dry cell batteries knowing or having reason to believe that they will ultimately be used in a radio set designed primarily for the reception of broadcasts on standard wave lengths 550 to 1500 KC, except (i) Batteries having cells designated "D" in Table 1 of Circular C435 with modifications as permitted in section 2.2 of that circular, or larger sized cells than those designated "D", (ii) "C" batteries as described in Table 8 of Circular C435.

(e) *Special exemptions.* The restrictions contained in paragraphs (b) and (d) do not apply to the manufacture or sale of dry cell batteries or portable electric lights made to fill specific orders calling for delivery to or for the account of the Army, Navy, Maritime Commission, War Shipping Administration, Office of Scientific Research and Development, Panama Canal, Coast and Geodetic Survey, or orders approved by the Maritime Commission on Form WPB-646 (formerly PD-300).

(f) *Applicability of other orders and regulations.* This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other orders of the War Production Board limits the use of any material in the production of dry cell batteries or portable electric lights to a greater extent than does this order, the other order shall govern unless it states otherwise.

(g) *Appeal.* Any appeal from the provisions of this order shall be filed on Form WPB-1477 in triplicate with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(h) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making, or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(i) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref: L-71.

(j) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports as the War Production Board may specify from time to time, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 18th day of July 1944.

PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L-71, Direction 1]

DISTRIBUTION OF FLASHLIGHT CASES ON WPB-547 ORDERS

The following direction is issued pursuant to Limitation Order L-71:

For the calendar quarter ending September 30, 1944 the War Production Board has issued authorizations to manufacturers on Form WPB-2719 for the production of flashlight cases under the following agency classifications:

1. Army.
2. Navy.
3. Maritime Commission and War Shipping Administration.
4. Export.
5. Post Exchanges and Ship Service Stores.
6. All others covered by preference ratings.

Each manufacturer who has received an authorization under classification 6 is hereby directed to reserve out of his production, 45% of the number of flashlight cases produced by him under this classification, for delivery only against orders bearing a preference rating assigned on Form WPB-547. The remaining 55% of his production under classification 6 shall be delivered against other orders rated AA-5 or higher.

To the extent any manufacturer may have on hand on October 15, 1944 any flashlight cases which he is unable to deliver by reason of this direction, request should be made in writing to the War Production Board for further instructions as to deliveries.

Issued this 18th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

Subchapter C—Director, Office of War Utilities

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 4500—POWER, WATER, GAS AND CENTRAL STEAM HEAT

[Utilities Order U–1, Direction 2]

The following direction is issued pursuant to Utilities Order U–1:

(a) *What this direction does.* This direction makes applicable the simplified procedures provided for in the June 1944 revision of application form WPB–2774, to authorizations issued to producers on form WPB–2774 before the revised application form came into use.

(b) *Provisions applicable to certain WPB–2774 authorizations.* Except as noted in paragraph (d) below, the following special provisions are hereby made applicable to all WPB–2774 authorizations issued to electric, water, gas, or central steam heat producers and in effect on June 10, 1944, even though contrary provisions appear on the face of such authorizations:

(1) The applicant may use for the job authorized in his approved WPB–2774 application only materials and equipment of the kind, type, size and capacity listed in section III of his application and approved by the War Production Board, but he may use such materials and equipment in quantities required, irrespective of the quantities authorized on WPB–2774, except that transformers, poles, crossarms and meters must not be used in quantities which exceed those specifically approved on the application. No change may be made in the kind, type, size, and capacity of the materials and equipment listed in section III of the application and approved by the War Production Board, unless an amendment is filed and specific approval obtained. Nor may more materials and equipment be used than are required for the construction, installation or purchase authorized.

(2) The applicant is authorized to use the abbreviated allotment number U–2 for the purchase of controlled materials and Class A products to the extent authorized for use by paragraph (b) (1) above, except for purchase of:

(i) Carbon steel for jobs for which more than 100 tons of carbon steel have been allotted for all quarters;

(ii) Copper wire and cable for jobs for which more than 10,000 pounds of copper wire and cable have been allotted for all quarters; and

(iii) Aluminum wire and cable for jobs for which more than 5,000 pounds of aluminum wire and cable have been allotted for all quarters.

Where specific allotments of these three materials have been made in quantities which exceed the quantities indicated, these specific allotments remain in force, subject to the provisions of CMP Regulation 6 and the authorization under which the allotment was made.

(3) Producers are hereby authorized, without making a formal return to the War Production Board, to cancel on their books controlled materials balances remaining from specific allotments other than those which remain in force under paragraph (b) (2) above.

(4) The preference rating AA–3 is hereby assigned for the purchase of quantities of equipment and materials (other than controlled materials) additional to those rated for purchase in the approved application, to the extent that such additional quantities are authorized for use by paragraph (b) (1) above; except that the rating must not be used to purchase transformers, poles, crossarms and meters in quantities which exceed those specifically rated for purchase on the application.

(5) The abbreviated allotment number and preference rating assigned herein may not be used to order materials and equipment available in the applicant's inventory in excess of a practical working minimum. The allotment number and preference rating may be used to replace materials and equipment in inventory, but only to the extent that inventory has been reduced below a practical working minimum, or to the extent that the applicant is permitted to replace the item used in accordance with the "short item" procedure of Utilities Order U–1.

(6) The abbreviated allotment number and preference rating assigned herein must not be used to order materials and equipment earlier or in greater quantity than is required for the construction, installation or purchase authorized.

(7) Orders for controlled materials placed pursuant to this direction must show the abbreviated allotment number U–2 and must specify the month in which delivery is requested. Orders for Class A products shall be placed as provided in Direction 4, CMP Regulation 6. Orders for materials and equipment other than controlled materials to which the preference rating assigned herein is applied must also show the abbreviated allotment number U–2 for identification purposes.

(c) *Clearance with regional utility engineers.* The provisions of this direction do not relieve producers from compliance with paragraph (m) of Utilities Order U–1.

(d) *Cases to which paragraph (b) does not apply.* The provisions of paragraph (b) above do not apply to authorizations which were revoked or on which all authorized work was completed prior to the effective date of this direction. Nor do such provisions set aside or supersede any specific exceptions or conditions which were made in the blank space below Section V of any approved WPB–2774 application.

(e) *Section headings on WPB–2774.* References herein to "section III" and "section V" of form WPB–2774 may be considered to mean "section C" and "section E" respectively on an edition of Form WPB–2774 prior to that of February 21, 1944.

Issued this 18th day of July 1944.

2. Section 1429.19 (h) (1) (v) is added to read as follows:

(v) *Permitted increases to prices established in Table A for live and processed turkey items during July, August, September and October 1944.* The following additions shall be made to the maximum base prices during the months of July, August, September and October 1944, as indicated below, for the corresponding turkey items in Table A of Section 1429.19 of this regulation. These increases may not be added cumulatively, but, rather, each addition establishes the total amount which may be added for sales and deliveries during the month indicated.

(Figures are in cents per pound)

Permitted increases to—	Turkey Items Sold During			
	July	August	September	October
Maximum base prices for live turkeys	1.0	1.0	1.0	0.5
Maximum base prices for any processed turkey item [1]	2.0	2.0	2.0	1.0

[1] (a) For the increases here indicated, processed turkeys must be hard frozen and dry packed in standard veneer turkey boxes, wire bound, or standard sawed lumber turkey boxes, wire bound, except that standard fibre turkey boxes, wire bound, may be used for frozen eviscerated turkeys. The term "standard turkey box" as used hereinafter shall be deemed to mean these two types of boxes.

(b) If items are dry packed in standard turkey boxes, wire bound, but not hard frozen, deduct ¼ cent per pound.

(c) If items are dry packed hard frozen in containers other than standard turkey boxes, wire bound, deduct ½ cent per pound.

(d) If items are dry packed not hard frozen in containers other than standard turkey boxes, deduct ¾ cent per pound.

(e) If items are ice or wet packed, deduct 1 cent per pound.

(f) If items are sold and delivered in loose form, deduct 1½ cents per pound.

The additions permitted by this subdivision shall be in effect only during the months above set out and shall terminate and become ineffective immediately after the last day of October 1944, or upon the suspension or revocation of any Embargo Order issued by the War Food Administration limiting sales of turkey items to the United States Government or any of its agencies, should such suspension or revocation occur earlier.

This amendment shall become effective July 20, 1944.

Issued this 17th day of July 1944.

PART 1499—COMMODITIES AND SERVICES

[Rev. SR 11 to GMPR, Amdt. 52]

LEASING OF TRUCKS BETWEEN CARRIERS

A statement of considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

The last undesignated paragraph of § 1499.46 (b) (142) is deleted so that subparagraph (142) shall read as follows:

(142) Leasing of trucks between carriers pursuant to directions of the Office of Defense Transportation under the provisions of its Administrative Order ODT 10, issued March 10, 1944, General Order ODT 3, Revised, as amended March 10, 1944 and General Order ODT 17, as amended March 10, 1944. This exemption applies only to the compensation charged between carriers for the rental of the truck, and does not extend to any other type of truck rental or to the rates which the lessee may charge the shipper.

This amendment shall become effective July 17, 1944.

[MPR 266,[1] Amdt. 9]

CERTAIN TISSUE PAPER PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 266 is amended in the following respects:

1. Section 1347.515 (b) (2) is amended to read as follows:

(2) *F. o. b. mill basis.* Where shipments of toilet tissue are made on an f. o. b. mill basis the manufacturer's maximum price, which in no event shall exceed the prices charged by the manufacturer for deliveries during March 1942, shall be a price computed in accordance with the provisions of either:

(i) Paragraph (a) (1) of this section less the sum of $0.60 per cwt., or

(ii) Paragraph (b) (1) (i) of this section less the sum of $0.50 per cwt.

On shipments to the Army, Navy or Lend-Lease Administration freight charges to the point of delivery may be added to the resulting f. o. b. mill price. On shipments to all other persons freight charges to the point of delivery may be added to the resulting f. o. b. mill price provided that in no event shall such maximum price, including freight charges, exceed the maximum delivered price which would apply at the given destination.

2. Section 1347.516 (b) (3) is amended to read as follows:

(3) *F. o. b. mill basis.* Where shipments of paper towels are made on an f. o. b. mill basis the manufacturer's maximum price, which in no event shall exceed the price charged by the manufacturer for deliveries during March 1942, shall be a price computed in accordance with the provisions of either:

(i) Paragraph (a) (1) of this section less the sum of $0.60 per cwt., or

(ii) Paragraph (b) (1) (i) of this section less the sum of $0.50 per cwt.

PART 1358—TOBACCO

[MPR 500,[2] Amdt. 1]

BURLEY TOBACCO (TYPE NO. 31) OF THE 1943 CROP

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 500 is amended in the following respects:

1. Section 1 is amended to read as follows:

SECTION 1. *Explanation of regulation.* The purpose of this regulation is to establish maximum prices for sales and purchases of, and for certain services performed with respect to, the 1943 crop of Burley tobacco. Specific dollars-and-cents maximum prices are fixed for sales and purchases of specified grades of the tobacco on the warehouse floor, for sales by and purchases from dealers and for services performed by dealers for purchasers of the tobacco. The maximum prices and the corresponding grades of the tobacco are set forth in paragraph (a), section 2 of the regulation, and the maximum prices which dealers may charge for their services are set forth in paragraph (c) of that section.

The maximum prices established are not applicable to sales or purchases of, or to services performed with respect to, any crop prior to 1943. Maximum prices for the 1942 crop of this tobacco are established by Maximum Price Regulation No. 283,[1] as amended.

2. Section 2 (c) (4) is redesignated section 2 (c) (5) and section 2 (c) (4) is added to read as follows:

(4) *Dealer's maximum price for services performed by hand on drop leaves.* The maximum price a dealer may charge for his services in hand-stemming, hand-picking, sand-screening, redrying and packing drop leaves shall be $9.00 per hundredweight (finished weight), plus the actual cost to him of any hogshead or other packing materials furnished by the dealer.

"Drop leaves" refers to Burley tobacco leaves, including broken leaves and scraps, resulting from the handling of tied tobacco in receiving rooms, hanging rooms, packing rooms, green storage, or elsewhere and which are hand-stemmed, hand-picked, sand-screened, redryed and packed by the dealer separately from tied Burley tobacco.

This amendment shall become effective July 24, 1944.

Issued this 18th day of July 1944.

PART 1362—CERAMIC PRODUCTS, STRUCTURAL CLAY PRODUCTS AND OTHER MASONRY MATERIALS

[RMPR 206,[2] Amdt. 4]

VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 206 is amended in the following respects:

1. The first paragraph of section 1.2 is amended to read as follows:

This regulation covers sales of vitrified clay sewer pipe and allied products where the shipment originates at the factory rather than at a distribution yard, except that price adjustments for dealers and jobbers authorized pursuant to section 1.4 (d) below are also within the scope of the regulation. The regulation shall be applicable to all of the 48 states of the United States and the District of Columbia, which are divided for the purpose of this regulation into 7 geographical areas.

2. Paragraph (c) of section 1.4 is amended to read as follows:

(c) *Maximum Price Regulation No. 188, as amended.* The provisions of this revised regulation supersede Maximum Price Regulation No. 188, as amended, with respect to all sales and deliveries made by manufacturers where the shipment originates at the factory. New products falling within the definition of sewer pipe products, but which cannot be priced under the provisions of this Revised Maximum Price Regulation No. 206, shall be priced in accordance with the pricing provisions of Maximum Price Regulation No. 188.

3. A new paragraph is added to section 1.4 to read as follows:

(d) *General Maximum Price Regulation.* In any case wherein it is found necessary to adjust maximum prices for any jobbers or dealers by reason of an adjustment in the maximum prices of manufacturers under this regulation, such adjustment may be made under this regulation. To that extent, this regulation shall supersede the General Maximum Price Regulation.

4. Paragraph (a) of section 4.1 is amended to add a third subparagraph thereto to read as follows:

In the case of sales of sewer pipe products sold f. o. b. factory on a "pick-up basis" or for "less than carload shipments by rail" within the States of Iowa, Minnesota, North Dakota, South Dakota, and Zones 3 and 4 in the State of Wisconsin, as defined in section 8.1 below, sellers may add 11.4 percent to the highest prices charged during the month of March 1942 for the same quality, kind, and quantity of sewer pipe products delivered to purchasers of the same class.

5. A new section 5.5 is added to the regulation to read as follows:

SEC. 5.5. *Maximum prices for sales and deliveries by jobbers and dealers.* The maximum prices for sales and deliveries by jobbers and dealers of vitrified clay sewer pipe and allied products covered by this regulation shall be the prices established in accordance with the provisions of §§ 1499.2, 1499.3, and 1499.18 of the General Maximum Price Regulation, except that any person purchasing for resale in the same form may add to a maximum price established on or prior to July 24, 1944, an amount not to exceed the actual dollars-and-cents increase in cost to him resulting from the increase in maximum prices permitted manufacturers within the West Central Area under sections 4.1 (a), 8.3, and 8.4, as amended, of this regulation.

6. Section 8.3 is amended to delete therefrom Charts II and III and to substitute in their place new Charts II and III to read as follows:

ment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Second Revised Maximum Price Regulation 13 is amended in the following respects:

1. In section 3 (c) (1), the first paragraph is amended to read as follows:

When delivery is by common or contract carrier, the estimated average weights in Appendix C (section 16) of this regulation may be applied to the applicable freight rate in figuring the allowable charge for delivery. The basing points for the applicable freight rate are as follows:

(i) Ponderosa pine plywood: Klamath Falls, Oregon.

(ii) Douglas fir plywood: Seattle, Washington; except that in sales in the primary market the addition for delivery shall be computed at a rate of 10½ cents per hundred pounds.

(iii) Other softwood species: The seller must apply to the Lumber Branch, Office of Price Administration, Washington 25, D. C., for a basing point.

2. In section 4 (a), Item II and Item III are amended to read as follows:

Item II. The inbound transportation charge, including tax, to the plywood distribution plant based on the applicable carload freight rate as set out in section 3 (c) (1), and the appropriate estimated average weights set out in Appendix C (section 16) of this regulation. The incoming transportation charge may be rounded out to the nearest nickel per 1,000 square feet.

Item III. A mark-up on the sums of Items I and II as follows:

In sales of	Ponderosa pine plywood	Douglas fir plywood
$200 worth or more of plywood (including this mark-up)	*Percent* 30	*Percent* 20
Less than $200 worth of plywood (when figured at the lower mark-up)	40	25

This mark-up may be rounded out to the nearest nickel per 1,000 square feet.

3. In section 5, paragraphs (a) and (b) are amended to read as follows:

(a) Inbound transportation charges are to be figured on the basis of the location of the warehouse or yard (rather than the location of a plywood distribution plant). This means that inbound transportation in all cases is to be figured at the carload freight rate as set out in section 3 (c) (1) for a shipment direct from the mill to the warehouse or yard (regardless of whether the warehouse or yard purchased in less than carload quantities from a mill, or purchased from a plywood distribution plant or another warehouse or yard).

(b) The mark-up on the sum of the carload f. o. b. mill price (for direct-mill shipments) and inbound carload freight (figured according to paragraph (a) above) shall be not more than the following:

In sales of	Ponderosa pine plywood	Douglas fir plywood
1,000 square feet or more of plywood	*Percent* 50	*Percent* 33⅓
Less than 1,000 square feet of plywood	60	45

4. Section 16 is amended to read as follows:

SEC. 16. *Appendix C: Estimated average weights of plywood.* Estimated average weights no higher than the following may be used in figuring delivery charges:

	Pounds per M surface feet	
	Douglas fir plywood	Ponderosa pine plywood
¼"	490	
5/32"		450
3/16"	640	525
7/32"	790	700

13/32"	1,825	1,750
7/16"	1,925	1,750
15/32"	2,000	1,925
½"	2,225	2,100
17/32"	2,375	2,275
9/16"	2,600	2,450
19/32"	2,800	2,625
⅝"	3,000	2,800
21/32"	3,175	
11/16"	3,350	3,150
23/32"		

For thicknesses greater than 1 1/16", use 1" weight plus weight of other thicknesses necessary.

	Pounds per M lineal feet Douglas fir
¼" studding strips	150

NOTE: The seller must apply to the Lumber Branch, Office of Price Administration, Washington 25, D. C., for estimated average weights for "Other softwood species".

This amendment shall become effective July 24, 1944.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 25—MEDICAL

ORTHOPEDIC AND PROSTHETIC APPLIANCES

Sections 25.6115[1] and 25.6116 are amended, and § 25.6117 is revoked, as set forth below:

§ 25.6115 *Conditions governing the furnishing.* * * *

(c) Beneficiaries supplied prosthetic appliances will be additionally entitled to fitting and training in the use of the appliances; and such service may be obtained under contract, if determined necessary by the medical director. (Section 104, Title I, Public No. 346, 78th Congress.)

(d) Artificial limbs and other prosthetic or orthopedic appliances of a permanent type may be purchased, made or repaired for, and special clothing made necessary by wear of such appliances may be furnished to:

(1) Out-patients entitled to and in need of such appliances, etc., (i) for a disease or injury which is service connected; or (ii) for an associated condition, not attributed to military or naval service, but held to be aggravating the disability from a service-connected disease or injury (adjunct treatment).

(2) Hospitalized patients; when medically held needed for (i) a service-connected condition; (ii) an associated disease or injury held to be aggrevating disability from a service-connected disorder (adjunct treatment); (iii) a disease or injury, not attributed to military or naval service, for which hospitalization had been authorized; or (iv) for a condition, also not service connected, that is associated with and held to be aggravating disability from the disease or injury for which the patient had been admitted to hospital (auxiliary treatment). Repair or replacement of a previously supplied artificial limb will not be considered invariably necessitated because of surgical treatment of a stump in itself, e. g., for ulcer or neuroma. But when, because of reamputation or other treatment, or a disease process resulting in atrophy, sufficient change in the contour of the stump occurs, alteration or replacement of a socket or other part of the artificial limb or, if necessary, the furnishing of a new limb, will be authorizable. Like authority may be exercised when, upon hospitalization of a beneficiary for treatment of a stump, it is medically determined that the artificial limb he had been wearing is defective or improperly fitted, and is creating the necessity of treatment of the stump. Alteration of the appliance or, if clearly necessary, the furnishing of a new artificial limb, may then be held a proper part of the patient's treatment.

(3) Domiciled members, when medically held needed for (i) a service-connected condition; (ii) a disease or injury not service connected, but held to be aggravating disability from a service-connected condition (adjunct treatment); (iii) appliances, except artificial limbs and hearing devices, not considered for furnishing under (i) or (ii), may nevertheless be procured or repaired for domiciled members, when medically determined necessary as an incident of domiciliary care. In individual cases when, in medical judgment, an artificial limb or hearing device is held necessary as an incident of domiciliary care, and is not furnishable under (i) or (ii) hereof, a recommendation for such service, with a sufficient explanation of the circumstances may be submitted to the medical director, whose approval or disapproval will decide whether such article is to be supplied. Repairs to artificial limbs or hearing devices that have been so supplied upon authority of the medical director, may be made, without his prior approval, when the expense of any item of such repairs does not exceed $25. (Public No. 346, 78th Cong.) (July 25, 1944)

§ 25.6116 *Retired personnel.* (a) (1) Pursuant to the provisions of Public No. 308, 78th Congress, approved May 23, 1944, an artificial limb or other appliance will be supplied, when medically determined necessary, for any officer or enlisted man retired from the Army, Navy, Marine Corps, or Coast Guard who had lost a limb or the use thereof through injury or disease incurred or contracted in line of duty in the military or naval service at any time.

(2) No commutation in lieu of such artificial limb or other appliance will be payable on or after May 23, 1944.

(3) Repairs of limbs or other appliances furnished persons under (1) will be made at Government expense.

(4) "Other appliances" will be taken to mean braces, etc., for support of a part in which function has been lost or much impaired.

(5) Transportation of such retired personnel, necessitated for fitting of an artificial limb, may be furnished by the Veterans' Administration.

(6) Such artificial limbs or other appliances will be supplied at field stations in accordance with the general procedure pertaining to the furnishing of orthopedic and prosthetic appliances, and subject to the provisions of subparagraphs (1) to (5) of this paragraph.

Paragraphs (b) and (c) are canceled. (58 Stat. 225) (July 25, 1944).

§ 25.6117 *Retired personnel; not regular establishment.* [Canceled July 25, 1944.]

UNLOADING OF LUMBER AT BALTIMORE, MD.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 17th day of July, A. D. 1944.

It appearing, that cars C&O 42185 and 42831 containing lumber at Baltimore, Maryland, on the Baltimore and Ohio Railroad Company, have been on hand for an unreasonable length of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action; *It is ordered*, that:

Lumber at Baltimore, Maryland, to be unloaded. (a) The Baltimore and Ohio Railroad Company, its agents or employees, shall unload forthwith cars C&O 42185 and 42831, containing lumber now on hand at Baltimore, Maryland.

(b) Said carrier shall notify the Director of the Bureau of Service, Interstate Commerce Commission, Washington, D. C., when such carloads of lumber have been completely unloaded. Upon receipt of such notice this order shall expire. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901, 911; 49 U.S.C. 1 (10)-(17) 15 (2))

It is further ordered, That this order shall become effective immediately, and that a copy of this order and direction shall be served upon the Baltimore and Ohio Railroad Company and upon the Association of American Railroads, Car Service Division, as agents of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

OFFICE OF ALIEN PROPERTY CUSTODIAN.

[Vesting Order 3856]

CHRISTIAN G. SCHWAGER

In re: Estate of Christian G. Schwager, deceased; File D-28-1476.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian, after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Carl Krauter, Executor, acting under the judicial supervision of the County Court of Choctaw County, Oklahoma;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, whose names, addresses and respective interests are set forth in Exhibit A, attached hereto and by reference made a part hereof;

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national

interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of the persons whose names, addresses and respective interests are set forth in Exhibit A, attached hereto and by reference made a part hereof, and each of them, in and to the estate of Christian G. Schwager, deceased, and

All that real property, together with all fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property, subject to recorded liens and encumbrances and other rights of record, situated in Choctaw County, State of Oklahoma, and particularly described in Exhibit B attached hereto and by reference made a part hereof,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: June 28, 1944.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

RENE MOELLHAUSEN

In re: Estate of Rene Moellhausen, deceased, File D–28–4393; E. T. sec. 7421.

Under the authority of the Trading with the Enemy Act as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Dorothy Lion, 7 Water Street, New York, New York, and Harry Wilson Boyce, c/o Francis D. Murphy, 225 West 34th Street, New York, New York, Co-Executors, acting under the judicial supervision of the Bergen County Orphans' Court, Hackensack, New Jersey;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Paul Moellhausen, Germany.
Helen Moellhausen, Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Paul Moellhausen and Helen Moellhausen, and each of them, in and to the estate of Rene Moellhausen, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: July 11, 1944.

J. W. RICH CONSTRUCTION CO.

APPROVAL OF MAXIMUM PRICES

Order No. 1884 under § 1499.158 of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Approval of maximum prices for sales of a kitchen stool manufactured by J. W. Rich Construction Company.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries, of a kitchen stool manufactured by J. W. Rich Construction Company, West Memphis, Arkansas.

(1) (i) For all sales and deliveries since the effective date of Maximum Price Regulation No. 188, by the manufacturer to retailers, and by the manufacturer to persons, other than retailers, who resell the article from the manufacturer's stock, the maximum prices are those set forth below:

Article	Model No.	Maximum prices to persons, other than retailers, who resell from manufacturer's stock	Maximum prices to retailers
Kitchen stool	210	*Each* $1.50	*Each* $1.77

These prices are f. o. b. factory, and are subject to a cash discount of 2%, 10 days, net 30 days.

(ii) For all sales and deliveries by the manufacturer to any other class of purchaser or on other terms and conditions

of sale, the maximum prices shall be those determined by applying to the prices specified in subparagraph (1) (i) of this paragraph (a), the discounts, allowances, and other price differentials made by the manufacturer, during March 1942, on sales of the same type of article to the same class of purchaser and on the same terms and conditions. If the manufacturer did not make such sales during March 1942 he must apply to the Office of Price Administration, Washington, D. C., under the fourth pricing method, § 1499.158, of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until authorized by the Office of Price Administration.

(2) (i) For all sales and deliveries on and after the effective date of this order to retailers by persons, other than the manufacturer, who sell from the manufacturer's stock, the maximum price is that set forth below, f. o. b. factory:

Article	Model No.	Maximum price to retailers
Kitchen stool	210	*Each* $1.77

(ii) For all sales and deliveries by persons who sell from the manufacturer's stock, to any other class of purchaser or on other terms and conditions of sale, the maximum prices shall be those determined under the applicable provisions of the General Maximum Price Regulation.

(b) At the time of or prior to the first invoice to each purchaser, other than a retailer, who resells from the manufacturer's stock, the manufacturer shall notify the purchaser for resale of the maximum prices and conditions established by paragraph (a) (2) of this order for such resales. This notice may be given in any convenient form.

SPECIFIED BUILDING MATERIALS, ETC.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 19 under Second Revised Order A-3 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, it is ordered:

(a) *Purpose of this order.* This order permits the Kund Cabinet Company, Bedford, Pennsylvania, to increase its maximum price to wholesalers only, for sales and deliveries of a wood transfer case of its manufacture described in the application, in the amount set forth below. This order also permits persons who purchase this article from the manufacturer, for resale, to increase their maximum prices by a like amount.

(b) *Adjustment of maximum prices.* The Kund Cabinet Company, Bedford, Pennsylvania, for all its sales and deliveries to wholesalers may add an increase of 40¢ over the present maximum price of $1.70. The maximum price established by this order of $2.10 is subject to a cash discount of two percent for payment within ten days, net thirty days and all its purchasers for resale of the article described in paragraph (a) above may add the adjustment charge of 40¢ to their maximum prices; provided the adjustment charge is separately quoted and billed, and provided they comply with the requirements for notice set forth in paragraph (c) below:

(c) *Notice.* At the time of or prior to the first invoice to a purchaser at a price which includes the adjustment charge provided in paragraph (b) above, the Kund Cabinet Company and its purchasers for resale shall send a notice to the purchaser fully explaining the terms of this order.

(d) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective July 18, 1944.

Issued this 17th day of July 1944.

JAMES G. ROGERS, Jr.,
Acting Administrator.

If the manufacturer did not make such sales during March 1942 he must apply to the Office of Price Administration, Washington, D. C., under the fourth pricing method, § 1499.158, of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until authorized by the Office of Price Administration.

(2) (i) For all sales and deliveries on and after the effective date of this order to retailers by persons, other than the manufacturer, who sell from the manufacturer's stock, the maximum price is that set forth below, f. o. b. factory:

Article	Model No.	Maximum price to retailers
		Each
Clothes dryer	#P-84	$1.56

These prices are subject to a cash discount of 2%, 10 days, net 30 days.

(ii) For all sales and deliveries by persons who sell from the manufacturer's stock, to any other class of purchaser or on other terms and conditions of sale, the maximum prices shall be those determined under the applicable provisions of the General Maximum Price Regulation.

(b) At the time of or prior to the first invoice to each purchaser, other than a retailer, who resells from the manufacturer's stock, the manufacturer shall notify the purchaser for resale of the maximum prices and conditions established by paragraph (a) (2) of this order for such resales. This notice may be given in any convenient form.

(c) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 18th day of July 1944.

Issued this 17th day of July 1944.

JAMES G. ROGERS, Jr.,
Acting Administrator.

(b) The maximum prices authorized in paragraph (a) are subject to the following:

(1) The instructions for manufacturers and wholesalers which preface the tables in Appendix A of RMPR 506;

(2) The provisions in section 4 (a) of RMPR 506 with respect to a manufacturers' wholesale percentage, and the quota of deliveries which must be made at Group I prices;

(3) The marking and informational requirements of section 6 of RMPR 506. In addition to these requirements, the Wells-Lamont Corporation, on all deliveries of the style numbers listed in paragraph (a), made pursuant to this order, on and after September 15, 1944, must place the letter "S" following the lot number or brand name stated on the label, tickets, or other device used to mark the gloves.

(c) The definitions in RMPR 506 shall apply to this order.

(d) The Wells-Lamont Corporation must furnish each of its customers, who, on or after July 17, 1944, purchases the style numbers listed in paragraph (a) for purposes of resale, a notice in the form set forth below. The Wells-Lamont Corporation must also notify each such customer (other than a seller at retail) that he is required in turn to transmit to his customers a copy of the notice set forth below. The notice may be attached to the invoice or may be stamped or printed on the invoice.

This notice is sent to you as required by Order No. 34 under section 4 (b) of Revised Maximum Price Regulation 506 issued by the Office of Price Administration. It lists ceiling prices fixed by OPA for the work glove numbers enumerated in the table below, manufactured by the Wells-Lamont Corporation.

OPA has ruled that the Wells-Lamont Corporation may sell these numbers at or below the prices listed in Column A below, subject to the provisions of section 4 (a) of RMPR 506 with respect to the quota of deliveries which must be made at Group I prices. Wholesalers in turn are authorized to make regular sales at wholesale of these numbers at or below the prices listed in Column B. Retailers will determine their ceiling prices on these numbers in accordance with section 2 of RMPR 506.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 59–37]

CENTRAL ILLINOIS PUBLIC SERVICE COMPANY

ORDER EXTENDING DATE FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of July, A. D. 1944.

The Commission having previously instituted a proceeding pursuant to sections 11 (b) (2) and 15 (f) of the Public Utility Holding Company Act of 1935 raising issues, among other things, as to whether it is necessary or appropriate in the public interest or for the protection of investors and consumers to require that Central Illinois Public Service Company revise and simplify its capital structure and take other steps so as fairly and equitably to redistribute voting power among its security holders and to require that it restate its plant and investment, surplus, capital and other accounts so as to segregate, dispose of and eliminate writeups and intangibles in its accounts, set up adequate reserves, and make other adjustments; and

Hearings having been held in such proceedings and having been continued subject to call of the Trial Examiner; and

Notice having been previously given that a hearing in this matter would be reconvened on July 20, 1944; and

Counsel for Central Illinois Public Company having requested that the date for such reconvened hearing be extended; and

The Commission finding that it is appropriate in the public interest and in the interest of investors and consumers to extend the date for such hearing;

It is ordered, That the reconvened hearing in this matter previously set for July 20, 1944 be held on the 12th day of September, 1944 at 10 o'clock in the forenoon at the Commission's offices, 18th and Locust Streets, Philadelphia, 3, Pennsylvania.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

WAR PRODUCTION BOARD.

FUNK AIRCRAFT COMPANY

CONSENT ORDER

J. C. Funk, H. C. Funk, K. R. Jensen and W. G. Jensen, copartners doing business as Funk Aircraft Company of South Coffeyville, Oklahoma, were charged by the War Production Board with having used preference ratings to secure materials to be used for a purpose other than that for which the preference ratings were assigned to the company. Preference ratings used were assigned to the company for the purpose of purchasing materials to be used in making repair and spare parts for civilian aircraft. Materials were purchased with such preference rating for use by the company in the manufacture and assembly of civilian aircraft in violation of Controlled Materials Plan Regulation 3 and Priorities Regulation 1. Funk Aircraft Company admits extending the rating to secure materials such as airplane motors, propellers, propeller spinners, etc., and the use of some materials in the manufacture and assembly of civilian aircraft. The company does not admit, but does not wish to contest, the fact that at the time of the extension of the above preference ratings it was intended to use such materials in the manufacture of civilian aircraft. In the light of the above facts, the company has consented to the issuance of this order.

Wherefore, upon the agreement and consent of J. C. Funk, H. C. Funk, K. R. Jensen and W. G. Jensen, copartners doing business as Funk Aircraft Company, the Regional Compliance Chief and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) J. C. Funk, H. C. Funk, K. R. Jensen and W. G. Jensen, individually or as copartners doing business as Funk Aircraft Company or otherwise, their or its successors or assigns, shall not directly or indirectly process, fabricate, work on, manufacture or assemble any new aircraft for civilian use so long as the production of aircraft for civilian use is restricted, unless hereafter specifically authorized in writing by the War Production Board.

(b) This order shall not be construed to prohibit the use by J. C. Funk, H. C. Funk, K. R. Jenson and W. G. Jensen, individually or as copartners doing business as Funk Aircraft Company or otherwise, their or its successors or assigns, from using materials for the repair of civilian aircraft when the use of such material and such repair is not otherwise prohibited by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve J. C. Funk, H. C. Funk, K. R. Jensen and W. G. Jensen, individually or as copartners doing business as Funk Aircraft Company or otherwise, their or its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on the 17th day of July 1944.

Issued this 17th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

§ 66.2 *Terms defined.* When used in the regulations, unless otherwise distinctly expressed or manifestly incompatible with the intent thereof:

(a) "Act" means the following provisions of the Department of Agriculture Appropriation Act, 1945, approved June 28, 1944 (P. Law 367, 78th Cong., 2nd Sess.), or any future act of Congress conferring similar authority:

> • • • For enabling the Secretary, independently and in cooperation with other branches of the Government, State agencies, purchasing and consuming organizations, boards of trade, chambers of commerce, or other associations of businessmen or trade organizations, and persons or corporations engaged in the production, transportation, marketing, and distribution of farm and food products, whether operating in one or more jurisdictions, to investigate and certify to shippers and other interested parties the class, quality, and condition of cotton, tobacco, fruits, and vegetables, whether raw, dried, canned, or otherwise processed, poultry, butter, hay, and other perishable farm products when offered for interstate shipment or when received at such important central markets as the Secretary may from time to time designate, or at points which may be conveniently reached therefrom under such rules and regulations as he may prescribe, including payment of such fees as will be reasonable and as nearly as may be to cover the cost for the service rendered: *Provided*, That officers and employees who, under proper authorization, use privately owned motor vehicles in the performance of official travel within the corporate limits of their official stations for the purpose of inspecting and grading farm and food products and the supervision thereof at points located within the said corporate limits may be reimbursed for such travel at a rate not to exceed 3 cents per mile: *Provided further*, That certificates issued by the authorized agents of the Departments shall be received in all courts of the United States as prima facie evidence of the truth of the statements therein contained, • • •

(b) "Department" means the United States Department of Agriculture.

(c) "Administration" means the War Food Administration of the Department.

(d) "Administrator" means the War Food Administrator or any employee of the Department to whom the Administrator has heretofore delegated or may hereafter delegate the authority to act in his stead.

(e) "Director" means the Director of Distribution of the Administration or any employee of the Department to whom the Director has heretofore delegated or may hereafter delegate the authority to act in his stead.

(f) "Branch" means the Grain Products Branch, Office of Distribution of the Administration.

(g) "Chief of Branch" means the Chief of the Branch or any employee of the Branch to whom there has heretofore been delegated or there may hereafter be delegated the authority to act in his stead.

(h) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(i) "Inspector" means (1) any employee of the Department authorized by the Administrator or (2) any other person to whom a license has been issued by the Administrator to investigate and certify, in accordance with the regulations, to shippers of hops and other interested parties, any one or more of the following: (i) the class, (ii) quality, and (iii) condition of hops.

(j) "Regulations" means the provisions of this Part 66.

(k) "Hops" means the dried cones of the cultivated varieties of hops.

(l) "Office of inspection" means the office of an inspector.

(m) "Inspection" means an inspection of hops by an inspector to determine any one or more of the following: (1) The class, (2) quality, and (3) condition of such hops.

(n) "Inspection certificate" means a written statement, issued by an inspector, pursuant to the act and the regulations, relative to any one or more of the following: (1) The class, (2) quality, and (3) condition of hops.

(o) "Interested party" means any person financially interested in a transaction involving any inspection, review inspection, or appeal inspection of hops.

(p) "Supervising inspector" means an inspector who is designated by the Chief of Branch to supervise the work of inspectors and to handle appeal inspections of hops in accordance with §§ 66.24 to 66.32 hereof, inclusive.

(q) "Official sampler" means (1) any inspector or (2) any employee of the Department authorized by the Administrator or any other person to whom a license has been issued by the Administrator to draw samples of hops for inspection.

ADMINISTRATION

§ 66.3 *Authority.* The Chief of Branch shall, under the supervision of the Administrator and the Director, perform such duties as the Administrator or the Director, or both, may require in the administration of the provisions of the act or the regulations.

INSPECTION SERVICE

§ 66.4 *Kind of service.* The inspection and certification of hops shall be (a) pursuant to such standards of class, quality, and condition of hops as may be promulgated by the Administrator or (b) pursuant to such instructions and procedures as may be prescribed by the Director.

§ 66.5 *Who may obtain service.* An application for inspection may be made by any interested party, including, but not being limited to, the United States, any State, county, municipality, or common carrier, and any authorized agent of any of the foregoing.

§ 66.6 *How to make application.* An application for inspection may be made to any inspector orally, in writing, or by telegraph. Such inspector may require that an oral application be confirmed in writing.

§ 66.7 *Form of application.* An application for inspection shall include the following information: (a) the date of the application; (b) the identification and location of the hops; (c) the name and post office address of the applicant and, if made by an authorized agent, the name and post office address of such agent; (d) the interest of the applicant in the inspection; (e) if the hops have been inspected previously, a statement to that effect; and (f) such other information relating to the inspection as may be required by the Chief of Branch.

§ 66.8 *When application is deemed filed.* An application shall be deemed filed when made or delivered to an inspector.

§ 66.9 *When application may be withdrawn.* Upon payment by an applicant of the fees and charges required by § 66.43 hereof, an application for inspection may be withdrawn by such applicant at any time before an inspection certificate has been issued.

§ 66.10 *When inspection may be refused.* An inspection may be refused by the inspector to whom an application is made or delivered for noncompliance, by the applicant, with the act or the regulations. The aforesaid inspector shall immediately notify the applicant of the reason for such refusal.

§ 66.11 *Authority of agent.* In the discretion of the inspector to whom an application for inspection is made or delivered by an agent of an applicant, proof of the authority of such agent may be required.

§ 66.12 *Lot inspection.* A lot inspection of hops shall be made by examining a representative sample or samples (drawn only by an official sampler) of a designated quantity of hops for any one or more of the following: (a) class, (b) quality, and (c) condition. Such representative sample or samples of the hops shall be drawn in accordance with such instructions as may be prescribed, from time to time, by the Director.

§ 66.13 *Sample inspection.* A sample inspection of hops shall be made by examining any sample of hops (not drawn by an official sampler) for any one or more of the following: (a) class, (b) quality, and (c) condition. Such sample shall be, in the opinion of the inspector, of a sufficient quantity of hops to permit an accurate determination of the aforesaid class, quality, and condition of such hops.

§ 66.14 *Inspection certificate, issuance.* An inspection certificate shall be issued for each lot inspection and each sample inspection; but in no case shall an inspector sign an inspection certificate covering hops not examined by him.

§ 66.15 *Inspection certificate, form.* Each inspection certificate shall be approved by the Director as to form, shall state the results of the respective inspection, and shall embody, within its written or printed terms, such statements of fact as may be required or authorized by the Director.

(a) *Lot inspection certificate.* A lot inspection certificate shall be issued to show the results of any lot inspection made in accordance with § 66.12 hereof.

(b) *Sample inspection certificate.* A sample inspection certificate shall be issued to show the results of a sample inspection made in accordance with § 66.13 hereof and shall clearly state that such sample inspection certificate applies only to the quantity of hops described therein.

§ 66.16 *Advance information.* Upon the request of any applicant for inspection, all or part of the contents of any inspection certificate issued to such applicant may be telegraphed or telephoned to him at his expense.

§ 66.17 *Disposition of inspection certificate.* The original of any inspection certificate shall, immediately upon its issuance, be delivered or mailed to the applicant unless otherwise directed by such applicant. One copy thereof shall be filed in the respective office of inspection, and one copy shall be forwarded to the Chief of Branch unless otherwise directed by such Chief. Additional copies may be furnished, without charge, to the applicant if a request therefor is made prior to the issuance of such inspection certificate.

REVIEW INSPECTION

§ 66.18 *How to obtain a review inspection.* Any interested party who is dissatisfied with the determination, stated in an inspection certificate, of the class, quality, or condition of any quantity of hops may file an application for a review of the inspection, and such application for a review inspection shall be in writing or by telegraph and filed, within 10 days after the date of such inspection, in the office of inspection where such inspection was made.

§ 66.19 *Application for review inspection, form.* An application for a review inspection shall be signed by the applicant or his duly authorized agent and shall state: (a) the identification of the hops with respect to which such application is made; (b) the names and post office addresses of all other interested parties; (c) such other information as may be required by the Chief of Branch; and (d) that an application for an ap-

peal inspection, provided in § 66.24 hereof, has not been filed, if such is the fact.

§ 66.20 *Basis for review inspection.* A review inspection shall be made by an inspector of the respective office of inspection and shall be based upon (a) a portion of the sample or samples of hops which were drawn for the original lot inspection or (b) a portion of the sample of hops which was submitted for the original sample inspection, as the case may be.

§ 66.21 *Review inspection certificate.* Immediately after a review inspection has been completed, an inspection certificate shall be issued showing the results of such review inspection; and such certificate shall supersede the original inspection certificate issued for the hops involved. Each review inspection certificate shall bear on its face the notation "Review Inspection" and shall clearly identify the number and date of the inspection certificate which it supersedes. Such supersedure shall be effective as of the date of issuance of the review inspection certificate.

§ 66.22 *Disposition of review inspection certificate.* The original of any review inspection certificate shall, immediately upon its issuance, be delivered or mailed to the applicant unless otherwise directed by such applicant. A copy of such review inspection certificate shall be furnished each interested party of record; and one copy shall be forwarded to the Chief of Branch unless otherwise directed by such Chief.

§ 66.23 *Review inspection not to prevent filing appeal.* The review inspection provisions of the regulations shall not prevent any applicant for review inspection or any other interested party from filing an application for an appeal inspection in accordance with the provisions of § 66.24 hereof.

APPEAL INSPECTION

§ 66.24 *When and by whom appeal inspection may be requested.* An application for an appeal inspection may be made by any interested party who is dissatisfied with the determination, stated in any unsuperseded lot, sample, or review inspection certificate, of the class, quality, or condition of any quantity of hops: *Provided,* That (a) the identification of the hops, as stated in the respective inspection certificate, has remained unchanged; (b) the hops have not left the place where they were located when the inspection appealed from was made, and (c) the application is filed within 15 days after the date of the inspection appealed from. The aforesaid application shall be in writing or by telegraph, and shall be filed in the office of any supervising inspector or with the Chief of Branch. Such application shall be accompanied, or followed, by the inspection certificate with respect to which the application for appeal inspection is made, if such certificate is in the possession of the appellant.

§ 66.25 *Appeal inspection application form.* An application for an appeal inspection shall be signed by the applicant or his duly authorized agent and shall state: (a) the identification and location of the hops at the time of making the appeal; (b) the names and post office addresses of all other interested parties; and (c) such other information as may be required by the aforesaid supervising inspector or Chief of Branch.

§ 66.26 *Record of filing appeal application.* A record showing the date and place of filing (a) an application for appeal inspection and (b) other documents pertaining to such appeal inspection shall be made immediately upon receipt thereof at the office of the aforesaid supervising inspector or by the Chief of Branch.

§ 66.27 *When appeal inspection may be refused.* An appeal inspection may be refused (a) for noncompliance, by the applicant, with the act or the regulations or (b) if it appears that (1) the identification of the hops involved has changed, (2) the condition of such hops has undergone a material change since the issuance of the inspection certificate with respect to which the appeal is made, or (3) the hops cannot be made accessible for a thorough reexamination and resampling.

§ 66.28 *When appeal application may be withdrawn.* Upon payment by an appellant of the fees and charges required by § 66.43 hereof, an application for an appeal inspection may be withdrawn by such appellant at any time before an Appeal Inspection Certificate (specified in § 66.30 hereof) has been issued.

§ 66.29 *Who shall make an appeal inspection.* An appeal inspection shall be made only by a supervising inspector.

§ 66.30 *Appeal Inspection Certificate, issuance.* Immediately after an appeal inspection has been completed, an inspection certificate designated as "Appeal Inspection Certificate" shall be issued by the respective supervising inspector showing the results of such appeal inspection.

§ 66.31 *Appeal Inspection Certificate, disposition.* The original of an Appeal Inspection Certificate shall be delivered or mailed to the appellant unless otherwise directed by such appellant. A copy thereof shall be furnished to each interested party of record, and a copy shall be filed in the office of the aforesaid supervising inspector. Additional copies may be furnished, without charge, to such interested party if a request therefor is made prior to the issuance of such Appeal Inspection Certificate.

§ 66.32 *Appeal Inspection Certificate supersedes inspection certificate.* An Appeal Inspection Certificate shall supersede the inspection certificate with respect to which an appeal inspection is made; and such supersedure shall be effective as of the date of issuance of such Appeal Inspection Certificate.

LICENSED INSPECTORS

§ 66.33 *Who may be licensed.* Unless otherwise required by the provisions of § 66.34 hereof, any person who possesses proper qualifications and who has no interest, financial or otherwise, direct or indirect, in merchandising, handling, storing, or processing hops may be licensed by the Administrator as an inspector. Each license which is issued by the Administrator shall be countersigned by the Chief of Branch.

§ 66.34 *Applicant to be examined.* Each person who applies for a license as an inspector shall, if so required by the Chief of Branch, be examined for the purpose of determining his competency as an inspector. Such examination shall be held at such time and place and in such manner as may be prescribed by the Chief of Branch.

§ 66.35 *Suspension or revocation of license.* Pending final action by the Administrator, the Chief of Branch may, whenever he deems such action necessary, suspend the license of any inspector by giving him notice to that effect, accompanied by a statement of the reasons therefor. Within 10 days after the receipt of the aforesaid notice and statement of reasons by the respective licensee, he may file an appeal, in writing, with the Administrator supported by any argument or evidence which such licensee may wish to offer as to why his license should not be suspended or revoked. After the expiration of the aforesaid 10 day period and consideration of such argument and evidence, the Administrator will take such action as he deems appropriate with respect to such suspension or revocation.

OFFICIAL SAMPLERS

§ 66.36 *Who may be licensed.* Any person who possesses proper qualifications and has no interest, financial or otherwise, direct or indirect, in merchandising, handling, storing, or processing hops may be licensed by the Administrator to draw samples of hops. Each license which is issued by the Administrator shall be countersigned by the Chief of Branch.

§ 66.37 *When samples shall be drawn.* Upon the request of any inspector or applicant for inspection, an official sampler shall draw a sample or samples of hops from a designated lot or lots of hops in accordance with such methods which are prescribed by the Chief of Branch.

§ 66.38 *Where samples shall be forwarded.* An official sampler shall forward all samples of hops drawn by such sampler to a designated office of inspection in accordance with the instructions of a supervising inspector, and shall furnish, with each such sample, the information which such supervising inspector may request.

§ 66.39 *Samples shall be accepted for inspection.* Samples of hops drawn by official samplers shall be accepted by any inspector for inspection; and such inspection shall apply only to the quantity of hops from which the respective sample was drawn.

§ 66.40 *Suspension or revocation of license.* Pending final action by the Administrator, the Chief of Branch may, whenever he deems such action necessary, suspend the license of any official sampler by giving him notice to that effect, accompanied by a statement of the reasons therefor. Within 10 days after the receipt of the aforesaid notice and statement of reasons by the respective licensee, he may file an appeal, in writing, with the Administrator supported by any argument or evidence which such licensee may wish to offer as to why his license should not be suspended or revoked. After the expiration of the aforesaid 10 day period and consideration of such argument and evidence, the Administrator will take such action as he deems appropriate with respect to such suspension or revocation.

FEES AND CHARGES FOR INSPECTION

§ 66.41 *Fees and charges for inspection or review inspection.* Fees and charges for any inspection or review inspection shall be in accordance with the applicable provisions of (a) and (b) of this section.

(a) *Inspection by a salaried employee of the Department.* Unless otherwise required by the provisions of (b) of this section, fees and charges for any inspection or review inspection by an inspector who is a salaried employee of the Department shall be in accordance with such schedule of fees and charges as may be fixed and issued by the Director.

(b) *Inspection under a cooperative agreement.* Fees and charges for any inspection or review inspection made pursuant to a cooperative agreement with any State or person shall be in accordance with the terms and provisions of such cooperative agreement.

§ 66.42 *Fees and charges for appeal inspection.* Fees and charges for any appeal inspection shall be in accordance with such schedule of fees and charges as may be fixed and issued by the Director: *Provided,* That if the supervising inspector who makes an appeal inspection finds that there is a material error in the inspection from which an appeal is taken, no fees or charges shall be required.

§ 66.43 *Fees and charges when an application for inspection or appeal inspection is withdrawn or inspection or appeal inspection refused.* In the event (a) any application for inspection or appeal inspection is withdrawn or (b) any inspection or appeal inspection refused pursuant to the applicable provisions of the regulations, the interested party who made the aforesaid application for inspection or appeal inspection shall pay only such expenses which were incurred by the respective inspector or supervising inspector in connection with such inspection or appeal inspection, prior to the aforesaid withdrawal or refusal, as such inspector or supervising inspector may require.

§ 66.44 *Payment of fees and charges.* Fees and charges for any inspection, review inspection, or appeal inspection shall be paid by the interested party making application for any such inspection in accordance with the provisions of (a) and (b) of this section; and, if so required by the respective inspector or supervising inspector, such fees and charges shall be paid in advance.

(a) *Fees and charges for inspection by a salaried employee of the Department.* Fees and charges for any inspection, review inspection, or appeal inspection by any inspector or supervising inspector who is a salaried employee of the Department shall, unless otherwise required pursuant to (b) of this section, be paid by the interested party making application for any inspection, as aforesaid, by check, draft, or money order payable to the Treasurer of the United States and remitted promptly to the Office of Distribution of the Administration.

(b) *Fees and charges for inspection or review inspection under a cooperative agreement.* Fees and charges for any inspection or review inspection under a cooperative agreement with any State or person shall be paid, in accordance with the terms of such cooperative agreement, by the interested party making application for any such inspection.

§ 66.45 *Refunds.* The Director will cause to be refunded to any State or person, who is a party to an inspection service cooperative agreement with the United States, any fees and charges remitted in excess of the amount due the United States.

§ 66.46 *Fees and charges for official samplers.* Fees and charges for the drawing of any samples of hops by any official sampler shall be paid by the interested party, including, but not being limited to, the Office of Distribution of the Administration, making an application for any inspection, either direct to such official sampler or to the person by whom such official sampler is employed in such capacity. All fees and charges for the aforesaid drawing of any sample of hops by any official sampler shall be in accordance with such schedule of fees and charges for the aforesaid drawing of samples of hops as may be fixed and issued by the Director: *Provided,* That if the official sampler is employed under a cooperative agreement, the fees and charges shall be in accordance with the terms of such cooperative agreement.

MISCELLANEOUS

§ 66.47 *Fraud or misrepresentation.* Any wilful misrepresentation or any deceptive or fraudulent practice found to have been made or committed by any person in connection with the making or filing of an application for inspection or appeal inspection or any wilful violation of the regulations may be deemed sufficient cause for debarring such person from any further benefits under the act after opportunity for hearing has been accorded him, and, pending investigation and hearing, the Director may, without hearing, direct that such person shall be denied the benefits of the act. The facts and circumstances with respect to any such wilful misrepresentation, deceptive or fraudulent practice, or wilful violation may be published.

§ 66.48 *Publications.* Publications under the act and the regulations may be made in the FEDERAL REGISTER, the Service and Regulatory Announcements of the aforesaid Office of Distribution, and such other media as the Director may approve for the purpose.

§ 66.49 *Inspection records confidential.* Unless otherwise permitted by the regulations, records of any inspections, including, but not being limited to, copies of any inspection, review inspection, or appeal inspection certificates issued, records of such certificates, applicant's accounts, or other information relating to the work of any office of inspection shall not be made available to, or be opened for examination by, any person who is not connected with the inspection service prescribed by the regulations. Such records as aforesaid shall be held strictly confidential and for reference only by the inspector in charge of such office of inspection, his assistants, and such inspector's supervising inspector. Summarized reports which do not disclose the operations of an individual grower, shipper, or other interested party and which are identified clearly as to source and contents may be released to the public: *Provided,* That, when so released, they shall be published in such manner and in such media as will make the information available alike to all interested parties.

§ 66.50 *Political activity.* All inspectors are forbidden, during the period of their respective appointments or licenses to take an active part in political management or in political campaigns. Political activity in city, county, State, or national elections, whether primary or regular, or in behalf of any party or candidate, or any measure to be voted upon, is prohibited. This applies to all appointees, including, but not being limited to, temporary and cooperative employees, and employees on leave of absence with or without pay. Wilful violation of this section will constitute grounds for dismissal in the case of appointees, and revocation of licenses in the cases of licensees.

§ 66.51 *Identification.* All inspectors and official samplers shall have in their possession at all times and present upon request, while on duty, the means of identification furnished by the Administration to the respective inspector and official sampler.

Issued at Washington, D. C., this 18th day of July 1944.

PART 1432—RICE

RESTRICTIONS ON SALE AND DISTRIBUTION

War Food Order No. 10, as amended (8 F.R. 9863; 8 F.R. 14785; 9 F.R. 5289; 9 F.R. 4321, 4319) is hereby amended to read as follows:

§ 1432.1 *Restrictions on sale and distribution of rice*—(a) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons whether incorporated or not, and includes any State or political subdivision or agency thereof.

(2) "Governmental agency" means (i) the Armed Services of the United States (excluding, for purposes of this order, United States Army post exchanges, United States Navy ships' service departments, and United States Marine Corps post exchanges); (ii) the War Food Administration (including, but not restricted to any corporate agency thereof); (iii) the War Shipping Administration; (iv) the Veterans' Administration; and (v) any other instrumentality or agency designated by the War Food Administrator.

(3) "Armed Services of the United States" means the Army, the Navy, the Marine Corps, or the Coast Guard of the United States.

(4) "Director" means the Director of Distribution, War Food Administration, or any employee of the War Food Administration, designated by such Director.

(5) "Miller" means any person who mills 500 or more barrels of rough rice, in any month.

(6) "Mill" means to convert rough rice into brown or milled rice for one's own account or the account of another.

(7) "Barrel" means 162 pounds.

(8) "Rough rice" means the commodity defined as such by the "United States Standards for Rough Rice", as amended May 15, 1942.

(9) "Brown rice" means the commodity defined as such by the "United States Standards for Brown Rice", as amended May 15, 1942.

(10) "Milled rice" means the commodity defined as such by the "United States Standards for Milled Rice", as amended April 1, 1944.

(b) *Restrictions.* Beginning October 1, 1944, every miller shall set aside each calendar month and shall hold for sale to a governmental agency, a quantity of milled rice in an amount equal to 35 percent of the total quantity of the brown and milled rice milled by him during the month. Milled rice so set aside shall be of the grade No. 4, or better, of one of the Classes I to X inclusive, or of the grade No. 5 of one of the Classes I to X inclusive, containing not more than 15 percent of broken rice. Beginning October 1, 1944, no miller shall deliver or otherwise dispose of, except to a governmental agency, rice milled by him during any calendar month, in an amount exceeding 65 percent of the total combined quantity of brown and milled rice milled by him during such calendar month. Deliveries to a governmental agency of grades or classes of brown or milled rice other than those specified in this paragraph may be credited against the amount of rice required to be set aside. All rice set aside may be offered for sale, at no more than ceiling prices established by the Office of Price Administration, to a governmental agency in response to announcements or notices by such agency that offers for the sale of such rice will be received on specified dates.

(c) *Exemptions from restrictions of paragraph* (b). (1) The Director may, upon application of any miller, authorize such miller to deliver to persons other than governmental agencies, brown or milled rice, and to credit such deliveries against the quantity of milled rice required to be set aside under (b) hereof, when satisfactory evidence is submitted to the Director that the brown or milled rice so delivered is to be subsequently delivered to a governmental agency in the form of rice or a product thereof.

(2) The restrictions contained in this order shall not apply to rice owned by any individual for use in his own household.

(d) *Contracts.* The provisions of this order and of all orders or regulations issued pursuant thereto shall be observed without regard to contracts heretofore or hereafter made, or any rights accrued or payments made thereunder.

(e) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises, or stocks of rice of any person, and to make such investigations, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(f) *Records and reports.* (1) The Director shall be entitled to obtain such information from and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in rice.

(g) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may apply in writing for relief to the Director setting forth in such petition all pertinent facts and the nature of the relief sought. The Director may thereupon take such action as he deems appropriate, which action shall be final.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless instructions to the contrary are issued by the Director, be addressed to the Director of Distribution, War Food Administration, Washington 25, D. C., Ref. WF-10.

(i) *Violations.* Any person who violates any provision of this order may, in accordance with applicable procedure, be prohibited from receiving, making any deliveries of, or using rice. Any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provisions of this order.

(j) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any person within the War Food Administration any or all of the authority vested in him by this order.

(k) *Effective date.* This order shall become effective at 12:01 a. m., e. w. t., August 1, 1944. With respect to any violations of said War Food Order No. 10, as amended, or rights accrued, liabilities incurred, or appeals taken under said order, prior to August 1, 1944, said War Food Order No. 10, as amended, shall be deemed in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, or liability.

NOTE: All reporting and record-keeping requirements of this order have been approved by, and all subsequent reporting and record-keeping requirements of this order will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

S. Pencil Sales," or any other word or words of similar import, to designate, describe or refer to respondent's business; or otherwise representing, directly or by implication, that respondent's business is that of selling or distributing pencils; (2) using the words "Character Reference Bureau," or other word or words of similar import, to designate, describe or refer to respondent's business; or otherwise representing, directly or by implication, that respondent's business is that of obtaining information concerning the characters of individuals; (3) representing, directly or by implication, that the giving of information requested by such post cards or mailable matter by the recipients thereof is for the acceptance of an advertising or introductory offer of free goods, or that the amount of such goods, is limited; (4) representing, directly or by implication, that the information sought from the recipients of such post cards or mailable matter is for the purpose of identifying any person and determining his fitness of character for a responsible position; or (5) selling or distributing post cards or other mailable matter which represent, directly or by implication, that respondent's business is other than that of obtaining information to be used in the collection of debts; or which represent, directly or by implication, that the information sought through such letters is for any purpose other than for use in the collection of debts; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order, William H. Kampf et al., Docket 4988, June 15, 1944]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 15th day of June, A. D. 1944.

In the Matter of William H. Kampf and Earl H. Wilson, Individuals

This proceeding having been heard by the Federal Trade Commission upon complaint of the Commission and testimony taken before Arthur F. Thomas, an examiner of the Commission theretofore duly designated by it, in support of the allegations of the complaint, and in opposition thereto, respondents having waived all intervening procedure and further hearing as to the facts, and the Commission, having made its findings as to the facts and its conclusion that respondent William H. Kampf has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent William H. Kampf, an individual, his representative, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of post cards or other mailable matter in commerce, as "commerce" is defined in the Federal Trade Commission Act do forthwith cease and desist from:

1. Using the words "U. S. Pencil Sales", or any other word or words of similar import, to designate, describe or refer to respondent's business; or otherwise representing, directly or by implication, that respondent's business is that of selling or distributing pencils.

2. Using the words "Character Reference Bureau", or other word or words of similar import, to designate, describe or refer to respondent's business; or otherwise representing, directly or by implication, that respondent's business is that of obtaining information concerning the characters of individuals.

3. Representing, directly or by implication, that the giving of information requested by such post cards or mailable matter by the recipients thereof is for the acceptance of an advertising or introductory offer of free goods, or that the amount of such goods is limited.

4. Representing, directly or by implication, that the information sought from the recipients of such post cards or mailable matter is for the purpose of identifying any person and determining his fitness of character for a responsible position.

5. Selling or distributing post cards or other mailable matter which represent, directly or by implication, that respondent's business is other than that of obtaining information to be used in the collection of debts; or which represent, directly or by implication, that the information sought through such letters is for any purpose other than for use in the collection of debts.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

And it is further ordered, That the proceeding be, and the same hereby is, dismissed as to respondent Earl H. Wilson.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

TITLE 29—LABOR

Chapter V—Wage and Hour Division

PART 526—INDUSTRIES OF A SEASONAL NATURE

LOUISIANA SUGARCANE BAGASSE OPERATIONS; EXEMPTION FROM MAXIMUM HOURS PROVISIONS [1]

In the matter of the application to include certain operations on sugar cane bagasse within that portion of the cane

[1] Affects tabulation in § 526.101.

sugar processing and milling branch of the cane sugar industry in Louisiana which has been granted a partial exemption from the maximum hours provisions of the Fair Labor Standards Act of 1938 pursuant to section 7 (b) (3) of the act.

Whereas, an application was filed to include the artificial drying, separating into proper lengths, and grinding of bagasse resulting from the processing of sugar cane into raw sugar, syrup and molasses within that portion of the cane sugar processing and milling branch of the cane sugar industry located in Louisiana which the Administrator determined, on November 18, 1939 (4 F.R. 4615), to be an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder; and

Whereas, upon consideration of the facts stated in the said application, the Administrator determined (8 F.R. 15493), pursuant to § 526.5 (b) (2) of regulations, Part 526, as amended, that a prima facie case had been shown for amending the existing determination granting an exemption under section 7 (b) (3) of the act to that portion of the sugar cane processing and milling branch of the cane sugar industry which is located in Louisiana, to include therein the artificial drying, separating into proper lengths, and grinding of bagasse resulting from the processing of sugar cane into raw sugar, syrup and molasses, in sugar cane processing plants in Louisiana, during the sugar cane processing season; and

Whereas, within 15 days following the publication of this preliminary determination the Administrator received an objection and request for hearing; and

Whereas, pursuant to §§ 526.5 and 526.6 of the said regulations, the Administrator gave notice of a public hearing to be held in Room 914, the Richards Building, 837 Gravier Street, New Orleans, Louisiana, on January 28, 1944 before Nathan Rubinstein, an authorized representative of the Administrator, who was authorized to receive evidence and hear argument for the purpose of determining:

Whether the artificial drying, separating into proper lengths, and grinding of bagasse resulting from the processing of sugar cane into raw sugar, syrup, and molasses in sugar cane processing plants in Louisiana during the sugar cane processing season shall be included within that portion of the cane sugar processing and milling branch of the cane sugar industry located in Louisiana which has been determined to be an industry of a seasonal nature pursuant to section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder;

and

Whereas, following such hearing the said representative of the Administrator duly made the following findings:

1. Certain sugar cane mills in Louisiana dehydrate bagasse resulting from the grinding of sugar cane in order to make it suitable for use as litter, horticultural humus, and other purposes.

2. In order to produce a satisfactory product, it is necessary to dehydrate the bagasse while it is still "fresh"; that is, immediately after it comes from the cane sugar mill, and before it becomes mouldy or discolored as the result of exposure to the air. "Fresh" bagasse is available for dehydrating only while the cane sugar plants are engaged in the milling of sugar cane.

3. The dehydrating of bagasse in Louisiana takes place during a regularly recurring period of about 3 months each year, concurrently with the processing of sugar cane into raw sugar, syrup, and molasses. The dehydrating activities cease completely at about the same time that the milling of sugar cane ceases, for the reason that fresh bagasse is not available in the remainder of the year. The dehydrating operations do not lengthen the operating season of the sugar cane mills in Louisiana.

4. The dehydrating of bagasse, as carried on at present in Louisiana is a part of, and should be included within, that portion of the sugar cane processing and milling branch of the cane sugar industry located in Louisiana, which the Administrator has determined (4 F.R. 4615) to be an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act and Part 526 of the regulations, as amended.

5. The term "dehydrating of bagasse" as used in this determination includes the following operations when performed on the premises of a sugar cane mill during the sugar cane processing season: chopping or cutting the stalks into sizes suitable for dehydrating; separating the bagasse into proper lengths; drying the bagasse artificially; baling, wrapping and storing the dehydrated bagasse; and any operations necessary and incident to the foregoing.

The application is granted in accordance with the above findings of fact,

and

Whereas, on June 13, 1944, there was caused to be published, pursuant to the provisions of § 526.7 of the regulations, a notice (9 F.R. 6460) to the effect that any person aggrieved by the said findings might, within 15 days after June 13, 1944, file a petition with the Administrator requesting that he review the action of the said representative upon the record of the hearing; and

Whereas, no such petition was filed within the said 15-day period,

Now, therefore, pursuant to the provisions of § 526.7 of the regulations, the exemption provided by section 7 (b) (3) of the Fair Labor Standards Act of 1938 shall become effective for the "dehydrating of bagasse", in accordance with the above findings upon publication of this determination in the FEDERAL REGISTER.

Signed at New York, New York, this 13th day of July 1944.

L. METCALFE WALLING,
Administrator.

Chapter VI—National War Labor Board

PART 803—GENERAL ORDERS

EXEMPTION OF CERTAIN EMPLOYERS FROM WAGE ADJUSTMENTS

§ 803.4 *General Order No. 4.*[1] • • • (d) • • •

The National War Labor Board, under this paragraph, has approved the following exceptions to the exemption provided for in paragraph (a) of this order:

(28) Firms in the automotive repair and tire industry in Region X of the National War Labor Board, embracing the states of California, Nevada and Arizona. For the purposes of this subdivision, the automotive and tire repair industry is defined as comprising those firms who regularly employ an individual, or individuals, to perform any or all of the following functions for the general public: the repairing of damaged automobile or truck fenders and bodies to restore their original shape and smoothness or surface by hammering out and filling dents, and by welding breaks in the metal; the disassembling and overhauling of automobile, or truck engines, transmissions, clutches, rear ends, the grinding of valves, and the aligning of wheels, or the retreading and recapping of automobile or truck tires. The foregoing definitions shall include any firm employing a body and fender repairman, metal man, assembler, automotive electrician, body builder, brake specialist, combination man, front-end man, frame and axle man, automotive machinist, automotive mechanic or truck mechanic who performs any or all of the aforementioned functions. Establishments exclusively engaged in the servicing of automobiles and trucks, filling tanks with gasoline, greasing, lubricating, washing, etc., shall not be included in this definition, provided that they employ no person who performs any of the functions included above in the industry. (Approved, July 4, 1944)

(29) Jewelry stores and watch repair establishments in Region IX, embracing the States of Colorado, Montana, New Mexico, Wyoming, Utah and Idaho. (Approved, July 11, 1944).

(30) Jewelry industry in Region X. For the purposes of this subdivision, the jewelry industry is defined as follows: (i) Manufacturing jewelers and trade shops: Establishments engaged in the manufacture of jewelry for the purpose of resale and establishments engaged in providing for the retail jewelry trade in services of special order manufacturing, engraving, jewelry repair and watch and clock repair. (ii) Retail jewelry: Establishments engaged in selling at retail any combination of the lines of jewelry such as diamonds and other precious stones mounted in precious metals as rings, bracelets, brooches, sterling and plated silverware, and watches and clocks. (Approved July 11, 1944).

(31) All contractors in the building and construction industry in the United States. (Approved, July 7, 1944).

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-585]

DOWNES LUMBER CO., INC.

Downes Lumber Co., Inc., of Boston, Massachusetts, is a retailer of pine lumber. During the period between May 27 and October 22, 1943, it placed fifteen separate orders for one carload each of restricted Western pine lumber and obtained delivery on these orders, each of which bore an AA-1 rating and a certification that the lumber was required to fill a specific purchase order already entered. Each of these certifications was false in that the lumber was not required to fill specific purchase orders already entered, but was obtained in order to replenish the company's inventory. The company had a copy of Order L-290 and was grossly negligent in relying on statements of its suppliers' salesmen to the effect that the order meant something other than its language plainly indicated.

The furnishing of these false certificates has interfered with the controls established by the War Production Board over the distribution of scarce material and subjected the company to administrative action under the provisions of Limitation Order L-290 and Priorities Regulation No. 1. In view of the foregoing, it is hereby ordered, that:

§ 1010.585 *Suspension Order No. S-585.* (a) Downes Lumber Co., Inc., its successors and assigns shall not order or accept deliveries of restricted Western lumber, as defined in Limitation Order L-290 as amended March 20, 1944, unless specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Downes Lumber Co. Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 18, 1944, and shall expire November 18, 1944.

Issued this 11th day of July 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-589]

THOMAS POOLE

Thomas Poole of 64 Garden Street, Rockport, Massachusetts, in the spring of 1943 began construction of a residence on land owned by him on School Street, Rockport, without authorization from the War Production Board. The cost of this construction was $3,000, which amount exceeded the limit of $200. permitted by Conservation Order L-41 and was in violation of that order. Thomas Poole was aware of War Production Board restrictions on construction, and doing this construction without authorization constituted a wilful violation of Conservation Order L-41. This violation of Conservation Order L-41 has diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.589 *Suspension Order No. 589.* (a) Neither Thomas Poole, his successors or assigns, nor any other person, shall do any construction on the premises owned by Thomas Poole on School Street, Rockport, Massachusetts, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Thomas Poole, his successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 18th, 1944.

Issued this 18th day of July 1944.

PART 3281—PULP AND PAPER

[General Conservation Order M-241, as Amended July 18, 1944]

PAPER AND PAPERBOARD

§ 3281.63 *General Conservation Order M-241.*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time, except to the extent of any inconsistency, in which event the provisions of this order shall govern.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Produce" and "manufacture" mean and include all making and finishing operations prior to packing or packaging.

(3) "Finished production" means paper or paperboard ready for packing or packaging.

(4) "Grade" means any kind of paper or paperboard for which a caption or subcaption is provided in Form WPB-514 or any particular grade even though not specifically mentioned within such kind, except those grades listed below which are covered by other WPB orders as specified. Also included are all the coated papers not mentioned by captions but for which any captioned grade or item thereunder is used as a base stock.

Paper and paperboard under the following WPB-514 Captions in the table immediately following are specifically excluded from this order and are subject to and should be reported under the appropriate controlling order indicated therein.

NOTE: Table amended July 18, 1944.

Type	WPB-514 Caption	Controlling order
Container board	210000 through 219000	M-299
Paperboard	220000 through 269000 (except 240000 through 249000, 253000 and "Sanitary food container stock" as listed in Appendix B to this order and 261100, 261200, 262000).	M-378
Building boards	261100, 261200 and 262000	
Asbestos and asbestos filled paper.	123000	M-79

(c) *Restrictions on production of paper and paperboard.* Unless specifically authorized by the War Production Board, no person shall produce paper or paperboard on any paper machine (Yankee, Harper, Fourdrinier, Cylinder or Wet Machine), which did not produce paper or paperboard in the period May 1, 1943 to July 15, 1943 inclusive.

(d) *Reserve production.* (1) (i) Each manufacturer shall reserve in his total overall production of paper or paperboard for the month of July 1944 and for each calendar month thereafter time and supplies sufficient to produce and deliver within such month the following percentage or percentages applied either to his total production or to his production of a stated grade or combination of grades as indicated below:

NOTE: Table amended July 18, 1944.

Type	WPB-514 Caption	Percent
(Grade) Condenser Tissue	047200	100
(Grades) "Sanitary Food Containers Stock"	For captions see Appendix B to this order	100
(Class) All other papers and paperboards	All other captions except those excluded under paragraph (b) (4).	35

The War Production Board may from time to time change such percentage or percentages and apply percentages to other grades or combination of grades, by notice in writing to each manufacturer or by publication in the FEDERAL REGISTER at least ten days prior to the first of the month, to the production of which such change is applicable.

(ii) When production is reserved by applying a percentage to a stated grade or grades, the production of such grade or grades for which a manufacturer is obligated shall be determined by applying the stated percentage to the average monthly finished production of such grade or grades which the manufacturer has reported on Form WPB–514 for the most recent three calendar quarters.

When production is reserved by applying a percentage to a class or classes such as Rag Content Papers the production of such class or classes for which a manufacturer is obligated shall be determined by applying the percentage to the lesser of: (*a*) the monthly production of the class or classes which the manufacturer can produce subject to his authorized use of pulp under Order M–93, or (*b*) the average monthly production of the class or classes which the manufacturer has reported on Form WPB–514 for the most recent calendar quarter.

(iii) On or before the 15th day of any month, the War Production Board may direct any manufacturer to employ his reserve production for any month to produce any grade of paper or paperboard which such manufacturer is qualified to produce and in any quantity not exceeding the percentage of his production designated for such month by the War Production Board less his tonnage credit current at the time against such month's reserve production under the provisions of paragraph (d) (4). Similar directions may be issued by the War Production Board after the 15th day of any month under paragraph (d) (2) (ii). The War Production Board may require the manufacturer to sell and deliver such tonnage to any person it may name. The manufacturer may refuse to so produce, sell, or deliver such reserve production only for the reasons specified for the refusal of rated orders in § 944.2 of Priorities Regulation No. 1.

(2) (i) If, on or before the 15th day of any month in which production is reserved, the manufacturer does not receive from the War Production Board directions as to the disposition of all production reserved in such month, he may employ, subject to the provisions of paragraph (d) (2) (ii) below, the production for which no directions have been received, as he may desire consistent with the provisions of this and other orders of the War Production Board.

(ii) If, as of record with the War Production Board on the 15th day of any month, a manufacturer of paper or paperboard has not been credited with accepting voluntarily or by directive from the War Production Board, an order or orders for paper and paperboard to be delivered, directly or through another person to the Armed Forces (i. e., the first six procurement activities listed in paragraph (d) (5)) from his production in such month in a total amount equal to 30% of his reserve production by type the manufacturer shall continue to be obligated for such month until the close of the fourth calendar day prior to the first day of the next succeeding month, for that portion of such percentage of his reserve production for which he has accepted no orders for delivery to the Armed Forces.

(3) The War Production Board may establish in an appendix or appendices to this Order M–241 additional controls over the production, distribution, delivery and use of any grade or combination of grades of paper or paperboard for which 100 percent production is reserved. The reserve of such grade or combination of grades shall then be subject to direction for the entire month and continuously for so long as 100 percent of such production is reserved. When 100 percent of the production of any grade or combination of grades is reserved, the use of reporting Form WPB–3270 is not required for such grade or combination since the full control will be specified in the proper appendix.

(4) (i) *Credit for directed tonnage.* Should the War Production Board direct a manufacturer of paper or paperboard to accept an order to be shipped from his reserve production, the reserve production for which such manufacturer is obligated shall be reduced (except as provided in the paragraph immediately following) by the tonnage specified in such directive, and such reduction concurrently recorded to such manufacturer's credit on the records of the War Production Board.

(ii) *When directed tonnage is not credited.* Credit against the reserve production obligations of a manfacturer is not given for the tonnage specified in a directive when the following conditions prevail:

(a) Any one of the first six procurement activities (the Armed Forces) requests a qualified manufacturer to bid on a contract or accept a purchase order from such activity, and

(b) The manufacturer fails to bid on the contract or refuses to voluntarily accept the purchase order, and

(c) The War Production Board records on the acceptance of contracts and purchase orders by such manufacturer against his reserve production show that the acceptance of such contract or part thereof or such purchase order at the time the request was issued would not have caused him to produce more tonnage in any month than his reserve production obligations for such month, and

(d) Because of such failure to bid on the contract or refusal to accept the purchase order, a directive is issued to the manufacturer by the War Production Board.

(iii) Any manufacturer who has accepted, directly or through another person, an order or orders for paper or paperboard to be produced for the account of any activity or use listed in paragraph (d) (5), shall immediately report such acceptance in triplicate on Form WPB–3270 and thereafter shall immediately report to the War Production Board on such form any change requested by the purchaser in any previously reported order or orders, if such change involves cancellation, or a change in quantity or in the month of manufacture. When the proper order or orders or requested changes reported on Form WPB–3270 have been correctly reported to the War Production Board, the manufacturer will be notified accordingly and credit against the manufacturer's reserve production will be recorded, subject to the provisions of paragraph (d) (2) (ii). Thereafter the manufacturer shall produce such orders according to his schedule as so reported to the War Production Board. (The reporting requirements of this paragraph have been approved by the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.)

(5) Procurement activities:

1. United States Army
2. United States Army Map Service
3. United States Army Air Forces
4. United States Navy
5. The United States Marine Corps
6. The United States Coast Guard
7. United States Maritime Commission and War Shipping Administration
8. Lend-Lease Administration — Foreign Economic Administration
9. Panama Canal
10. Bureau of Public Debt
11. United States Government Printing Office
12. United States Bureau of Engraving and Printing
13. Procurement Division of the United States Treasury
14. Office of Economic Warfare—Foreign Economic Administration (orders with an O. E. W. or F. E. A. approved export license)
15. United States Post Office
16. Producers of products or parts thereof, for any of the 15 procurement activities listed above to the extent that the primary paper or paperboard is to be used exclusively as a component part of the product or part thereof, or is to be used exclusively for the necessary packaging of the product or part thereof, to be delivered on a contract or purchase order issued by such activity. (Report Government Department Order number and name of converter or user.)

(e) *Restrictions on inventory.* Unless specifically authorized by the War Production Board or excepted by paragraph (e) (4):

(1) *Consumers inventories except those covered by M–241–a, L–241, L–244, L–245, and (after July 1st, 1944) L–289.* (i) No person shall knowingly deliver to any person except a paper merchant and no person except a paper merchant shall accept delivery of any quantity of paper or paperboard (other than newsprint) if the total inventory in the hands of the person accepting delivery is, or will by virtue of such acceptance become, either (a) in excess of two carloads or (b), in excess of forty-five calendar days' supply, whichever is greater, on the basis of either his average rate of consuming such paper or paperboard for the preceding quarter or his average rate of consuming such paper or paperboard as projected for the then current quarter.

(ii) Regardless of the provisions of (1) (i) above, no person shall knowingly deliver to a manufacturer of folding boxes, setup boxes, or paper shipping sacks and no manufacturer of folding boxes, setup boxes, or paper shipping sacks shall accept delivery of any quantity of paper or paperboard (other than newsprint) if the total inventory in the hands of the person accepting delivery is, or will by virtue of such acceptance become either (a) in excess of two carloads or (b) in excess of sixty calendar days' supply, whichever is greater, on the basis of either his average rate of consuming such paper or paperboard for the preceding quarter or his average rate of consuming such paper or paperboard as projected for the then current quarter.

(2) *Merchants inventories.* After January 1, 1944, no person shall knowingly deliver to a paper merchant, and no paper merchant shall accept delivery of any quantity of paper or paperboard (other than newsprint) if the total inventory in the hands of such paper merchant is, or will by virtue of such acceptance become, either (a) in excess of two carloads, or (b), in excess of forty-five calendar days' supply, whichever is greater, on the basis of either his average rate of distributing such paper or paperboard for the preceding quarter or his average rate of distributing such paper or paperboard as projected for the then current quarter.

(3) *Mill inventories.* "Mill inventory" means all paper and paperboard other than that produced or being produced for prompt shipment against a definite order.

No person shall produce at any mill any quantity of paper or paperboard, if his inventory at such mill is, or will by virtue of such production, become, in excess of (a) two carloads or (b), in excess of sixty calendar days' supply, whichever is greater, on the basis of either the average rate of shipment of paper or paperboard from such mill for the preceding quarter or the average rate of shipment of paper or paperboard from such mill as projected for the then current quarter.

(4) *Item inventories.* The restrictions of paragraph (e) apply equally to paper and paperboard of foreign and domestic origin, and apply to intra company deliveries as defined in § 944.12 of Priorities Regulation No. 1. They do not, however, apply to those papers commonly reported on United States Department of Commerce (Census) Form WPB–514, as revised, under the captions "Blueprint and similar base stock (043110 and 043210); photographic and other sensitizing stock (043130, 043220 and 043230); and Cigarette (047300)"; or to any paper or paperboard after it is printed or converted beyond waxing or coating.

(f) *Miscellaneous provisions—(1) Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(2) *Audit and inspection.* All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(3) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(4) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of or from processing or using materials under priority control and may be deprived of priorities assistance.

(5) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(6) *Communications.* All communications concerning this order shall unless otherwise directed be addressed to War Production Board, Paper Division, Washington 25, D. C., Ref.: M–241.

Issued this 18th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A—CONDENSER TISSUE

(a) *Definitions:* For the purpose of this appendix:

"Condenser tissue" includes the following mill grades: Kraft Condenser Tissue, Linen Condenser Tissue; Tan Condenser Tissue; Kraft Electrolytic; Manila Electrolytic; Kraft Coil; Rag Coil; and Cream and Grey Special Tissue, and any other similar grade which may be produced from time to time.

Restriction on delivery and receipt of condenser tissue:

(b) *Restrictions on acceptance of delivery.*—On and after July 1, 1944, no consumer shall accept delivery from a producer of condenser tissue except as authorized by the War Production Board in writing.

(c) *Delivery restrictions.*—On and after July 1, 1944 no producer shall deliver condenser tissue except on an order accompanied by a written statement, manually signed by the consumer or an authorized official of the consumer in the following form:

> Authorized under M–241 Appendix A.
> Date of authorization _____, authorization number _____.

This written statement shall constitute a representation (subject to the penalties of Section 35A of the United States Criminal Code) that the consumer is authorized under this and other applicable War Production Board regulations and orders to place the delivery order and receive the items ordered for the purpose for which ordered. The standard certification of Priorities Regulation 7 must not be used instead of the certification described in this paragraph (c).

(d) *Ratings.*—Ratings shall be used in connection with condenser tissue only as may be directed by the War Production Board on form WPB–3680. No consumer shall apply any other rating to any order for condenser tissue or use a rating in any other way to procure condenser tissue from a producer.

(e) The War Production Board may at any time by wire or letter revise a previously issued authorization so as to make any of the paper covered by such authorization available for another use, and, for the purpose of fulfilling a time requirement of the armed forces, may direct a producer to produce and deliver condenser tissue for such requirement prior to the production and delivery of any other condenser tissue.

(f) *Applications and reports.* (1) Each person who desires to receive a delivery or deliveries of condenser tissue in any calendar month shall file his application in triplicate on Form WPB–3680 with the War Production Board on or before the fifth day of the month immediately preceding such month, or at any other time currently required in such form, and shall furnish the information provided for on such form.

(2) The reporting requirements set forth in paragraph (f) (1) of this appendix have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(g) This Appendix A of M–241 is subject to all the provisions of M–241 not inconsistent with the provisions of this appendix.

APPENDIX B—SANITARY FOOD CONTAINER STOCK

NOTE: Appendix B added July 18, 1944.

(a) *Definitions.* For the purpose of this appendix:

(1) "Sanitary food container stock" means and is limited to the following captions as they now appear or will appear in the following WPB–514 forms respectively:

WPB–514 (Current)	*WPB–514 (Proposed)*
053600 Cup stock	224004 Cup and round nested food container stock.
224004 Hot drink cup stock	
224005 Round nested food container stock	
224001 Milk bottle stock	224001 Milk bottle stock.
225001 Milk bottle stock	
224002 Milk bottle hood and lip cover stock	224002 Milk bottle hood and lip cover stock.
225002 Milk bottle hood and lip cover stock	
224003 Liquid tight cylindrical can and lid stock	224006 Liquid tight container stock.
225002 Liquid tight cylindrical can and lid stock	224005 Cup lid stock.
225004 Milk bottle cap and plug stock	224008 Milk bottle cap and plug stock.

(b) *Reserve production.* (1) The reserve production for which a manufacturer is obligated under this Appendix B shall be determined for each kind of "Sanitary Food Container Stock" by the total monthly production of such kind which the manufacturer can produce subject to his authorized use of pulp under WPB Order M–93. (This provision supersedes paragraph (d) (1) (ii) of M–241.)

(2) The War Production Board may at any time direct any manufacturer to employ that part of his reserve production for which no directive has been issued (and which has not been used or for which a definite commitment has not been made to fill a purchase order authorized by the War Production Board) to produce any grade of "sanitary food container stock" and to sell and deliver such production to any person it may name, and thereafter such manufacturer shall so produce and deliver. The manufacturer may refuse to so sell and deliver such production only for the reasons specified for the refusal of rated orders in § 944.2 of Priorities Regula-

tion No. 1. (This provision supersedes paragraph (d) (1) of (iii) of M-241.)

(3) A manufacturer may use any part of his reserve production for which he has not received a directive or directives by the War Production Board to produce and deliver the quantity of "sanitary food container stock" specified by a purchaser in an order authorized and certified in accordance with the provisions of paragraph (c) (2) below. (This provision supersedes paragraph (d) (2) (i) of M-241.)

(c) *Delivery restrictions.* (1) On and after July 18, 1944 no person shall purchase or accept delivery from any manufacturer of any quantity of "sanitary food container stock" except as authorized in writing by the War Production Board.

(2) On and after July 18, 1944 no person shall sell or deliver any part of his production of "sanitary food container stock" except in accordance with a directive issued by the War Production Board or in fulfillment of a purchase order containing a statement manually signed by an authorized official of the purchaser in the following form:

Authorized by the War Production Board under M-241
Appendix B. Date of authorization _____
Authorization No. _____
Quantity _____

This written statement shall constitute a representation (subject to the penalties of section 35A of the United States Criminal Code) that the purchaser is authorized under this and other applicable War Production Board regulations and orders to purchase and receive the quantity of "sanitary food container stock" ordered, for the purpose, if any, specified in the purchase authorization issued to him by the War Production Board. The Standard Certification of Priorities Regulation 7 must not be used as a substitute for the certification specified in this paragraph (c).

(3) An authorization to purchase given to a converter of "sanitary food container stock" may be passed on by the converter to an intermediate processor, such as a waxer of the stock, and the manufacturer may sell and deliver to the processor under the authorization provided the processor delivers a certificate in the form prescribed in paragraph (c) (2) and also certifies on his order that the stock so purchased under a particular authorization number will be delivered only to the converter to whom the authorization was issued.

(d) *Variations in quantity produced and delivered.* (1) Each directive and each purchase authorization issued by the War Production Board under this order is subject as to quantity manufactured, delivered and accepted, to the following percent of variation in quantity ordered:

	Percent
Less than 20,000 pounds	15
20,000 to 40,000 pounds	10
40,000 pounds or more	5

This variation shall not be exceeded as to delivery, and if exceeded in manufacture, the amount of the excess, unless it can and may be used in filling another authorized purchase order, shall be immediately reported to the War Production Board with information as to the specifications, amounts, and name of purchaser who ordered it. The War Production Board will thereafter promptly direct its disposition.

(2) If, on or before the 15th day of the second month in any calendar quarter year, a manufacturer has not received directives and accepted authorized purchase orders for "sanitary food container stock" in a total tonnage equal to the total tonnage he is able to produce in such calendar quarter year, subject to his use of pulp authorized under Order M-93, he shall on or before the 20th day of such month mail to the War Production Board a statement of the tonnage of each kind of "sanitary food container stock" he is able to produce in such calendar quarter year over and above the tonnage for which he has received directives or accepted authorized purchase orders. The War Production Board will thereafter endeavor to see that such manufacturer receives directives or authorized purchase orders of sufficient tonnage to cover such production. This provision shall not prevent the manufacturer from accepting authorized purchase orders thereafter voluntarily offered him and is only for the purpose of assuring the full production authorized under Order M-93 and the distribution of any unsold production to those who have not received the full amount they have been authorized to purchase.

(3) If, for any reason beyond his control, a manufacturer finds he is unable to use in any calendar quarter year the pulp allocated to him for the manufacture of "sanitary food container stock" or to produce and deliver during such calendar quarter year in accordance with any directive or directives issued to him by the War Production Board or to produce and deliver any authorized purchase order or orders accepted by him for production in such quarter year, he shall immediately so notify the War Production Board giving specific information with respect to each such directive or purchase order as to name of customer, specifications, promised shipping dates and the tonnage of the pulp allocated to him which he is unable to use in such quarter. The War Production Board shall thereafter take such action as may be practicable to prevent an overall loss in production of "sanitary food container stock" and failure to fulfill authorized purchase orders, and may direct that the pulp such manufacturer is unable to use for producing such directives or authorized purchase orders be sold and shipped to another manufacturer or manufacturers of such stock for use in manufacturing such "sanitary food container stock", and may authorize such other manufacturer to use such pulp for manufacturing such stock. Thereafter, such other manufacturer's reserve production of "sanitary food container stock" shall be correspondingly increased.

(e) This appendix B of M-241 is subject to all the provisions of M-241 not inconsistent with the provisions of this Appendix except the provisions of paragraphs (d) (2) and (d) (4).

NOTE: The reporting requirements of this appendix have been approved by the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L-335, Direction 9]

LIMITATIONS ON RECEIPTS OF CERTAIN SPECIES AND GRADES OF LUMBER

The following direction is issued pursuant to Order L-335:

(a) *Limitation on receipts of lumber for use in making products listed in Schedule I.* No person shall receive any of the following types of lumber for use in producing an item listed on Schedule I below: #1 common and better grades of white oak; #2, 3, & 4 common grades of the species Idaho white pine, spruce, ponderosa pine, sugar pine, and white fir; and red cypress in widths 10 inches and wider, in lengths 12 feet and longer in B and better grades of yard lumber and boat stock, tank, and first and second grades of factory lumber.

(b) *Additional limitation on receipts of lumber for use in making hardwood flooring.* No person shall receive for use in manufacturing hardwood flooring any species of lumber other than birch, beech, maple, pecan, and oak.

(c) *Limitation on receipts of lumber for use as dunnage.* No person shall receive any of the following types of lumber for use as dunnage: #4 common and better grades of the species Idaho white pine, ponderosa pine, sugar pine, and spruce; D and better grades of Douglas fir; #1 common and better grades of all hardwoods; and red cypress in all grades; and "#1 common and better Southern yellow pine".

(d) *Receipts from certain mills exempted.* The provisions of this direction do not apply to direct receipts from sawmills which on the average cut less than 5,000 board feet of lumber per eight hour day or from sawmills, which, prior to June 1, 1944, did not sort or grade the lumber that they produced.

(e) *Deliveries by sawmills prohibited.* No sawmill shall sell, ship, or deliver, or cause to be sold, shipped or delivered, any lumber which he knows or has reason to believe will be received or used in violation of the provisions of this direction or any order or regulation of the War Production Board.

(f) *Appeals.* Any appeals from the provisions of this direction shall be made by mailing a letter to the Lumber and Lumber Products Division, War Production Board, Washington 25, D. C., Ref: L-335.

Chapter XI—Office of Price Administration

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 3,[1] Amdt. 33]

SUGAR

A rationale accompanying this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 3 is amended in the following respects:

1. Section 1407.87c is added to read as follows:

§ 1407.87c *Allotment may not be obtained for provisional allowance purposes.* An industrial user is not entitled to receive an allotment for any product or use of sugar for which he is entitled to receive a provisional allowance.

2. Section 1407.87d is added to read as follows:

§ 1407.87d *Provisional allowance for making soup.*—(a) *General.* An industrial user may get a provisional allowance of sugar to manufacture canned or bottled soup which is rationed under Revised Ration Order 13.

(b) *How to apply.* A provisional allowance for soup is granted for three-month periods, corresponding to the quarterly allotment periods for industrial users. An application for such a provisional allowance for any period may be made at any time from fifteen days before to the end of that period. The application must be made, on OPA Form R-315, to the Board (or District Office if he is registered there) with which the industrial user is registered.

(1) An industrial user's application for a provisional allowance of sugar for use in manufacturing soup must contain the following information separately for each kind of soup:

(i) The number of cases of twenty-four No. 2 cans (or equivalent[2]) of the product which he expects to make during the period for which application is made;

(ii) The total number of cases of twenty-four No. 2 cans (or equivalent[2]) of each kind of soup produced by him during the period from August 1, 1943 to June 30, 1944, inclusive;

(iii) The total amount of sugar used by him for each kind of soup during that period;

(iv) The average number of pounds of sugar which he used per case of twenty-four No. 2 cans (or equivalent[2]) for each kind of soup during that period;

(v) A report of his use of his last provisional allowance showing the amount of sugar used and the number of cases of twenty-four No. 2 cans (or equivalent[2]) of soup made;

(vi) The amount, if any, of unused sugar remaining from his last provisional allowance of sugar for soup.

(c) *Action on application.* The Board (or District Office) shall grant the application if the applicant is entitled to receive a provisional allowance for soup, and if the application gives all the necessary information called for in paragraph (b) of this section.

(1) The amount of the provisional allowance of sugar for use in manufacturing soup shall be computed in the following way, separately for each kind of soup:

(i) The number of cases of twenty-four No. 2 cans (or equivalent[2]) of soup which the applicant expects to make during the quarter is multiplied by the average number of pounds of sugar which he used for each case of twenty-four No. 2 cans (or equivalent[2]) from August 1, 1943 to June 30, 1944, inclusive;

(ii) The resulting figures, for each kind of soup, are added together and the result is his provisional allowance for soup. The Board shall issue to him a certificate for the amount of his provisional allowance less any unused balance of his last provisional allowance of sugar issued to make soup.

(d) *Restriction on use.* If an industrial user receives a provisional allowance under this Order for making soup, he may use that provisional allowance only for the purpose of making soup.

(e) *Records.* An industrial user who, during any calendar month uses sugar to make soup, must, before the 16th day of the following month file with his board (or District Office if he is registered there) a written report of the number of pounds of sugar used by him during the preceding month to make each kind of soup. The report must state the number of cases of twenty-four No. 2 cans (or equivalent[2]) of each kind of soup manufactured and the amount of sugar used by him in manufacturing that soup.

3. Section 1407.88 is amended by inserting the parenthetical statement "(or District Office if he is registered there)" after the word "Board" wherever it appears therein.

4. Section 1407.90a is added to read as follows:

§ 1407.90a *Amendment of registration when products are added to those for which industrial user may receive provisional allowance.* Any industrial user who, after June 30, 1944, becomes entitled to receive a provisional allowance must amend his registration, on OPA Form R-1200, within twenty days after he becomes entitled to receive the provisional allowance. He must reduce his base period use of sugar, shown on Schedule II of OPA Form R-1200, by the amount used by him during the base period to make the product or use for which he is entitled to receive the provisional allowance. He must also amend Schedule I of OPA Form R-1200 to show the products or uses made by him for which he is entitled to receive the provisional allowance. In addition, he must, at the same time, report to his Board the unused portion of that part of his current allotment which was based on his use of sugar to make that product or use. That amount shall be considered excess inventory.

5. Sections 1407.91 (b) (7), (8) and (9) are redesignated §§ 1407.91 (b) (8), (9) and (10), respectively.

6. Section 1407.91 (b) (7) is added to read as follows:

(7) The unused portion of that part of the current allotment of an industrial user which was based on his use of sugar to make a product or use, for which product or use he becomes entitled to receive a provisional allowance.

7. Section 1407.241, Schedule A, Table III, is amended to read as follows:

TABLE III—CONVERSION FACTORS (FOR USE IN TABLE I OF THIS SCHEDULE AND IN SECTION 1407.87d), FOR TRANSLATING DOZENS OF CANS AS FOLLOWS:

TO CASES OF 24 NO. 2 CANS

Size:	*Factor*
8 oz. Talls	0.21
No. 1 Picnics	0.26
12 oz. vacuum	0.36

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 16,[1] Amdt. 14]

MEAT, FATS, FISH, AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 16 is amended in the following respects:

1. Section 7.13 (a) (4) is added to read as follows:

(4) An industrial user may get a provisional allowance to enable him to acquire foods covered by this order to manufacture canned or bottled soup which is rationed under Revised Ration Order 13.

2. Section 7.13 (b) (4) is redesignated section 7.13 (b) (5) and a new section 7.13 (b) (4) is added to read as follows:

(4) An industrial user's application for a provisional allowance for foods covered by this order for use in manufacturing soup must contain the following information, separately for each kind of soup:

(i) The number of cases of twenty-four No. 2 cans (or equivalent [2]) of the product which he expects to make during the period for which application is made;

(ii) The total number of cases of twenty-four No. 2 cans (or equivalent [2]) of each kind of soup produced by him during the period from August 1, 1943, to June 30, 1944, inclusive;

(iii) The total number of pounds of each type of food covered by this order used by him for each kind of soup during that period;

(iv) The average number of pounds of each type of food covered by this order which he used per case (of twenty-four No. 2 cans or equivalent [2]) for each kind of soup during that period;

(v) A report of his use of his last provisional allowance showing the number of pounds of each type of food covered by this order used and the number of cases of twenty-four No. 2 cans (or equivalent [2]) of soup made;

(vi) The number, if any, of unused points remaining from his last provisional allowance for foods covered by this order for soup.

3. Section 7.13 (c) (4) is added to read as follows:

(4) The amount of the provisional allowance for foods covered by this order for use in manufacturing soup shall be computed in the following way, separately for each kind of soup:

(i) The number of cases of twenty-four No. 2 cans (or equivalent [2]) of soup which the applicant expects to make during the quarter is multiplied by the average number of pounds of each type of food covered by this order which he used for each case of twenty-four No. 2 cans (or equivalent [2]) from August 1, 1943 to June 30, 1944, inclusive;

(ii) The resulting figures, in each case, are multiplied by the point value established on the Official Table of Trade Point Values for the foods used by the applicant;

(iii) The figures are added together and the result is his provisional allowance for soup.

The board shall issue to him a certificate for the amount of his provisional allowance less the point value of any unused balance of his last provisional allowance, or supplemental allotment, for foods covered by this order to make soup.

This amendment shall become effective July 22, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1426—WOOD PRESERVATION AND PRIMARY FOREST PRODUCTS

[MPR 491,[1] Amdt. 1]

PRESSURE PRESERVATIVE TREATMENT OF FOREST PRODUCTS AND PRESSURE TREATED FOREST PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 491 is amended in the following respects:

1. Section 1 (a) is amended to read as follows:

(a) On and after November 19, 1943, regardless of any contract or other obligation, no person shall sell or deliver, and no person shall buy or receive in the course of trade or business, any preservative treatment service by pressure process or any forest products preservatively treated by pressure process at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things.

2. In section 2, the fourth unnumbered paragraph is amended to read as follows:

The maximum prices for treatment service only (sections 18 (a) and 19 (a)) are to be used by treating companies for sales of pressure preservative treatment of forest products not owned by the treating company. These prices include the loading of trams, pressure treatment in accordance with the American Wood Preservers' Association specifications or any applicable Federal Government specifications, and the unloading of trams after treatment. Specific additions are provided to cover the cost of the preservative used in treatment. Retort time is the elapsed time between the beginning of the first recorded step in the treatment operation and the end of the last recorded step, plus an allowance of 20 minutes for changing charges.

3. Section 4 (c) is added, to read as follows:

(c) The final price for the sale of the treated product shall be evened out to the nearest quarter dollar per M'BM, quarter cent per lineal foot, five cents per pole, or one-half cent per piece for other items, whichever is applicable.

4. Section 5 (c) (2) is amended to read as follows:

(2) When shipment is by transportation facility owned or controlled by the seller, other than private truck, the actual sound and tested going rates in the area and in the industry, and shown in published tariffs, may be used.

5. Section 7 (b) is amended to read as follows:

(b) *For pressure treated products.* In small quantity sales by established treating plants, the following additions may be made to the total invoice value exclusive of any transportation charges. Additions for transportation charges may be made, of course, but the inbound portion thereof must not exceed that permitted in section 5 for transportation of carload shipments. On sales by rail, the lowest applicable rail rate available to the seller shall be passed on to the buyer. On sales by truck, the seller may quote a delivered price.

(1) For pressure treated poles or other round material, except fence posts, where the total invoice value, exclusive of all transportation charges, does not exceed $250.00 on items 50 feet and shorter or $500.00 when 50% or more of the items are in lengths over 50 feet, an addition of 25% may be made.

(2) For pressure treated lumber, switch ties, cross ties and other sawn material:

(i) Lumber, switch ties and other sawn material (except cross ties):	
5,000 to 10,000 bd. ft.	10%
Less than 5,000 bd. ft.	25%
(ii) Cross ties:	
125 to 250 cross ties	10%
Less than 125 cross ties	25%

6. Section 13 (c) is added to read as follows:

(c) Any pressure treating company which during the year 1943 received 75% or more of its total dollar sales from T. S. O. business, from any plant, at a flat average price with no charge for extra handling and no variation in price between long and short time of treatment, may file an application for establishment of a flat average price for each plant meeting these qualifications. The application must be filed with the Lumber Branch of the Office of Price Administration, Washington, D. C., within 30 days from July 24, 1944, and must contain the following information from 1943 records:

1. Name and address of the applicant.
2. Plant for which average price is requested.
3. Average price requested.
4. Total volume of sales in cubic feet of T. S. O.
5. Volume of sales in cubic feet of T. S. O. sold at a flat price regardless of length of retort time or extra handling.
6. Extra handling which is now subject to addition under section 20 actually performed in last quarter of 1943 but for which no additional charge was made.
7. Volume of sales in cubic feet of T. S. O. which was subject to deductions under sections 18 (a) (3) (i) and 19 (a) (3) (ii) because of length of retort time.

7. Section 18 (a) (4) is amended to read as follows:

(4) Piling all lengths and other round material longer than 14' not otherwise priced. Cubitures to be those provided in Table 1.

8. Section 18 (a) (5) is amended to read as follows:

(5) Poles, stubs, anchor logs and push braces. Cubitures shall be those provided in Tables 2, 3 and 7.

9. Section 18 (b) is amended to read as follows:

(b) *For sellers of pressure treated forest products,* the maximum prices shall be the sum of the following: (1) The maximum price for the unseasoned and untreated forest product provided in the applicable price regulation, using the random length price for poles and piling, (2) the price of the preservative delivered to the seller's treating plant plus one-quarter cent (¼¢) per gallon in the case of creosote and mixtures thereof, or plus one and one half percent (1½%) of the delivered price in the case of salts or other preservatives and (3) treating charges, as provided below which include unlimited retort time, incising of sawn material, if required, and all handlings. For other allowable additions see sections 5, 7, and 21.

10. Section 18 (b) (4) is amended to read as follows:

(4) Piling all lengths and other round material, longer than 14' not otherwise priced. Cubitures to be those provided in Table 1.

(i) Additions to the above prices per cubic foot may be made for piles shipped from unsold stock which has been stored for 30 days or more at the following rates:

12½% of the above per cubit foot prices for 70' and 75' piles. 25% of the above per cubic foot prices for piles longer than 75'.

11. Section 18 (b) (5) is amended to read as follows:

(5) Poles, stubs, anchor logs and push braces, including peeling, shaving, and framing (if required) consisting of roofing, two gains and boring of holes therein. Cubitures shall be those provided in Tables 2, 3, and 7.

(i) Additions to the above prices per cubic foot may be made for poles, if shipped from unsold stock which has been stored for 30 days or more at the following rates:

12½% of the above per cubit foot prices for 70' and 75' poles. 25% of the above per cubic foot prices for poles longer than 75'.

12. Section 18 (b) (6) is amended to read as follows:

(6) Round material not otherwise priced, including unlimited retort time, figured on cubitures provided in Tables 3 and 7—$0.28 per cu. ft.

13. Section 18 (c) is deleted.

14. In section 18, Table 1 is amended to include the following:

15. In section 18, Table 2 is amended to include the following footnote:

Cubitures, for sizes not listed above, except for top diameter poles, shall be those provided in the American Wood Preservers' Association volume table or figured in accordance with the formula therein allowing 1" over the minimum diameter specified by the buyer and figuring a taper of 1" for each 10' of length. Weights, based on treatment with a final retention of 8 lbs. Grade One Creosote Oil, shall be 48 lbs. per cubic foot.

16. In section 18, Table 2A is added, to read as follows:

TABLE 2A—LUMBER WEIGHTS

The established estimated weights in the applicable price regulation for the untreated material (rough green or surfaced green as the case may be) may be increased by 50 pounds per M'BM for each pound of creosote or creosote mixture treatment specified. For salt treatment 900 pounds may be added to the rough or surfaced green weights, except when kiln dried after treatment, in which case an addition of 225 pounds may be made.

17. In section 19 (a), the parenthetical phrase "(See Footnote 4)" is changed to read "(See Footnote 4 in § 18 (a))".

18. Section 19 (a) (4) is amended to read as follows:

(4) Piling all lengths and other round material, longer than 14' not otherwise priced, for unlimited retort time up to the time necessary to obtain 20 pounds final retention of preservative per cubic foot. Cubitures to be those provided in Table 4.

19. Section 19 (a) (5) is amended to read as follows:

(5) Poles, stubs, anchor logs, and push braces including unlimited retort time. Cubitures shall be those provided in Tables 3, 5, 6, and 7.

20. Section 19 (a) (6) is amended to read as follows:

(6) Round material not otherwise priced, including unlimited retort time figured on cubitures provided in Tables 3 and 7—$0.18 per cu. ft.

21. Section 19 (a) (8) is added to read as follows:

(8) Tie plugs, including unlimited retort time — $0.25 per cu. ft.

22. Section 19 (b) is amended to read as follows:

(b) *For sellers of pressure treated forest products other than fence posts* (see paragraph (c)), the maximum prices shall be the sum of the following: (1) The maximum prices for the unseasoned and untreated forest products provided in the applicable price regulation, using the random length price for poles and piling, (2) the price of the preservative delivered to the seller's treating plant plus one quarter cent (¼¢) per gallon in the case of creosote and mixtures thereof, plus one and one half percent (1½%) of the delivered price in the case of salts or other preservatives, and (3) treating charges provided below which include the loading and unloading of trams and all handlings. For other allowable additions, see Sections 5, 7 and 21.

*Copies may be obtained from the Office of Price Administration.

23. Section 19 (b) (4) is amended to read as follows:

(4) Piling all lengths and other round material, longer than 14' not otherwise priced, for unlimited retort time up to the time necessary to obtain 20 pounds final retention of preservative per cubic foot. Cubitures shall be those provided in Tables 3, 4, and 7.

(ii) Additions to the above prices per cubic foot may be made for piles, if shipped from unsold stock which has been stored for 30 days or more at the following rates:

12½% of the above per cubic foot prices for 70' and 75' piles.
25% of the above per cubic foot prices for piles longer than 75'.

24. Section 19 (b) (5) is amended to read as follows:

28. In section 19, Table 5 is amended to include the following footnote:

Cubitures for sizes not listed above, except top diameter poles, shall be those provided in the American Wood Preservers' Association volume table or figured in accordance with the formula therein allowing 1" over the minimum diameter specified by the buyer and figuring a taper of 1" for each 10' of length. Weights, based on treatment with a final retention of 8 lbs. of Grade One Creosote Oil, shall be 55 lbs. per cubic foot.

29. In section 19, Table 6 is amended to include the following footnote:

Cubitures for sizes not listed above, except top diameter poles, shall be those provided in the American Wood Preservers' Association volume table or figured in accordance with the formula therein allowing 1" over the minimum diameter specified by the buyer and figuring a taper of 1" for each 10' of length. Weights, based on treatment with a final retention of 8 lbs. Grade One Creosote Oil, shall be 40 lbs. per cubic foot.

30. In section 19, Table 10 is added, to read as follows:

TABLE 10—WEIGHTS OF OAK AND HARDWOOD PILING

WEIGHTS PER CUBIC FOOT

Species:	*12 lb. treatment*
Oak	69 pounds.
Hardwood	65 pounds.

25. Section 19 (b) (6) is amended to read as follows:

(6) Round material not otherwise priced, including unlimited retort time, figured on cubitures provided in Tables 3 and 7, $0.23 per cubic foot.

26. In section 19 (c), Table 3, footnote 1 is amended and footnotes 2 and 3 are added, to read as follows:

1. These prices include a wholesaler's discount. Prices for retailers are found in Maximum Price Regulations 324 and 536.

2. For retentions and preservatives other than 8 pounds per cubic foot of Grade One Creosote Oil, add to or subtract from the basic prices the difference between the price of preservative specified and the price of 8 pounds of Grade One Creosote Oil. Add to the basic weights shown one pound per cubic foot for each one pound increase in the retention specified for retentions over 8 pounds per cubic foot.

3. Cubitures for sizes not listed above shall be those provided in the American Wood Preservers' Association volume table or figured in accordance with the formula therein allowing 1" over the minimum diameter specified by the buyer and figuring a taper of 1" for each 10' of length.

27. In section 19, Table 4 is amended to include the following:

HANDLING CHARGES—Continued

2. Switch ties—Continued.	
Tram to yard, no addition.	
Tram to closed type car (per M'BM)	$1.00
Car to yard (per M'BM)	2.00
Yard to open type car (per M'BM)	2.00
Yard to closed type car (per M'BM)	3.00
Ground to pile or from pile to pile when such rehandling is necessary in separating mixed species, grades and/or sizes (per M'BM)	2.00
Loading in sets in accordance with the requirements of the purchaser, in addition to above loading charge (per M'BM)	2.50
3. Lumber and other sawn material not otherwise priced:	
Yard or car to tram, no addition.	
Tram to yard, no addition.	
Tram to open type cars, no addition.	
Tram to closed type cars (per M'BM)	1.00

Ground to pile or from pile to pile when such rehandling is necessary in separation of species, grades or sizes:	
4½" top diameter and smaller (per piece)	.02
5" top diameter and larger (per piece)	.05
7. Tie Plugs:	
Yard or car to tram, no addition.	
Tram to yard or car, no addition.	
Car to yard (per bag or bundle of 500 plugs)	.02
Yard to car (per bag or bundle of 500 plugs)	.02
8. Switch ties:	
Yard or car to tram, no addition.	
Tram to open type car, no addition.	
Tram to closed type car (per tie)	$0.02
Car to yard (per tie)	.05
Yard to open type car (per tie)	.03
Yard to closed type car (per tie)	.05
Ground to pile or from pile to pile when such rehandling is necessary in separating mixed species, grades and/or sizes (per tie)	.05

For other retentions, add to or subtract from the basic weights one pound per cubic foot for each one pound variation in the retention of preservative specified.

31. Section 20 is amended to read as follows:

SEC. 20. *Additions; treatment service only; all species.* Additions applicable to treatment service only—paragraph (a) of section 18 and paragraph (a) of section 19 and to all tables thereunder:

HANDLING CHARGES

Additional charges permitted for each handling of material in addition to the two handlings included in treatment service prices, i. e., loading and unloading of trams:

1. Cross ties:	
Yard or car to tram, no addition.	
Tram to open type cars, no addition.	
Tram to yard, no addition.	
Tram to closed type cars (per tie)	$0.02
Car to yard (per tie)	.05
Yard to open type car (per tie)	.03
Yard to closed type car (per tie)	.05
Ground to pile or from pile to pile when such rehandling is necessary in separating mixed species, grades and/or sizes (per tie)	.05
2. Switch ties:	
Yard or car to tram, no addition.	
Tram to open type car, no addition.	

32. In section 21, notes 1, 3, and 5 are amended, note 8 is deleted and new notes 8 and 12 are added, to read as follows:

1. *Adzing and/or boring cross ties*, including customary branding in the ends thereof, if required, and all handling in connection therewith (per tie)	$0.075
3. *Branding and marking:*	
(a) Poles, piling and other round material, except for manufacturer's brand and markings showing class or size and length and date (per brand or marking operation)	.075
(b) Application of tags to lumber or other material (per tag)	.02
(c) Marking or stenciling salt treated lumber (per M'BM)	.50
5. *Framing of poles, stubs, push braces and anchor logs:*	
(a) Poles, including roofing, and if required, two gains and boring of holes therein:	
All poles regardless of class or top dimension under 40' in length (per pole)	.15
For 40' length Class 6 or top dimension equivalent and smaller (per pole)	.15
For 40' length Class 5 or top dimension equivalent and larger (per pole)	.30
For all poles longer than 40' regardless of class or top dimension (per pole)	.30
For each additional gain and boring of hole therein (per gain)	.06
For boring of each additional hole, per hole	.02
(b) Stubs, push braces and anchor logs:	
Roofing, per piece	.075
Boring of holes, per hole	.02
8. *Incising*, prior to preservative treatment, of sawn material of all species except those listed under section 18, per M BM	3.00

12. *Cut back allowance.* When the requirements of the buyer exceed the available supply of the seller of 8' railroad cross ties for delivery required, the seller may cut back 8'6" railroad cross ties and may charge the maximum price for the 8'6" cross ties cut back plus one handling charge of 5¢ per tie. This handling addition may not be made if the cut-off operation is performed during the adzing and boring machine operation. The addition for treatment, processing, etc., on such cut back cross ties shall be those additions applicable to the 8' length. Transportation up to the point of cut-off shall be figured at the weight of the 8'6" cross ties and from the point of cut-off transportation shall be figured at the weight of the 8' cross ties. The seller shall keep a record of such sales and show this charge as a separate item on the invoice.

This amendment shall become effective July 24, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Budget in accordance with the Federal Reports Act of 1942.

Issued this 18th day of July 1944.

JAMES G. ROGERS, Jr.,
Acting Administrator.

No. 144——3

PART 1499—COMMODITIES AND SERVICES

[Rev. SR 14 to GMPR, Amdt. 154]

ROASTED CHICORY

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

1. Section 1.7 is amended to read as follows:

SEC. 1.7. (a) *"Roasted chicory in bulk"* means any roasted chicory, ground to any degree of fineness sold in containers of more than one pound capacity.

(b) *Maximum prices of roasted chicory in bulk.* The maximum prices, of the best grade and quality roasted chicory in bulk, per roasted pound, in any quantity, to all classes of purchasers, shall be as follows:

(1) For sellers whose total bulk sales during the fiscal year 1941–42 did not exceed 4,000,000 pounds:

(i) F. o. b. seller's factory shipping point, Fort Huron, Michigan	$.1200
(ii) F. o. b. seller's factory shipping point, New Orleans, Louisiana	.1265

(2) For sellers whose total bulk sales during the fiscal year 1941–42 exceeded 4,000,000 pounds:

(i) F. o. b. seller's factory shipping point	$.1150

(3) *Delivered maximum prices.* Maximum prices for roasted chicory in bulk, per roasted pound, delivered to any point shall be determined by adding to the maximum prices specified for the appropriate factory shipping point the amount actually paid for transportation of the quantity delivered, not to exceed the cost at the cheapest available freight rate from that factory shipping point to the buyer's receiving point.

(c) *Maximum prices for roasted chicory in packages of one pound or less.* The maximum price for the best grade and quality roasted chicory in packages of one pound or less, when sold by the processor or one other than a wholesaler or retailer as defined in Maximum Price Regulations Nos. 421, 422 and 423, in any quantity, to any class of purchaser, shall be as follows:

(1) If prepared in granulated or powdered form at the rate of 18 cents per pound delivered at the buyer's customary point of acceptance, except that when transportation expenses from processor's customary shipping point to such place exceeds one cent per pound, this price may be increased by the amount over one cent actually paid for such expenses not to exceed the cost for transportation at the cheapest available freight rate.

(2) If prepared other than in granulated or powdered form, such as in compressed tablets or rolls, the seller shall determine his maximum price by applying to the maximum prices established for granulated or powdered form above his same dollars-and-cents differential per pound charged for sales of compressed tablets or rolls in March 1942.

(3) If the total maximum price for the amount in the seller's customary shipping case results in a fraction of one-half cent or more, it may be raised to the next higher cent. If it results in a fraction of less than one-half cent, it shall be lowered to the next lower cent.

(d) *Discounts.* The specific maximum prices set out in any of the paragraphs of this section shall be reduced by the amount of the seller's customary discounts or allowances for cash or prompt payment.

(e) *Maximum prices obtainable by order.* Sellers who cannot determine their maximum prices for roasted chicory under this section shall obtain an order from the Price Administrator, Washington, D. C. establishing their maximum prices, upon application explaining why they are unable to determine a maximum price and furnishing an itemized statement of manufacturing and selling costs. After the application is filed deliveries of the item may be made, but no payment shall be made or received for it until the maximum price is authorized.

(f) *Notification to wholesalers and retailers of authorized change in maximum price.* With the first delivery of roasted chicory after the effective date of any provision in this section establishing a new maximum price, the seller shall supply each purchaser with a written statement showing that price and for each wholesaler and retailer who purchases from him, the statement shall be as follows:

(Insert date)

NOTICE TO WHOLESALERS AND RETAILERS

Our OPA ceiling price for roasted chicory (describe item by variety, grade, brand, if any, container type and size) has been established by the Office of Price Administration. We are authorized to inform you that if you are a wholesaler or retailer pricing this item under Maximum Price Regulations Nos. 421, 422, or 423, you must refigure your ceiling price for this item on the first delivery of it to you from your customary type of supplier with this notification on or after (insert effective date of the applicable amendment). You must refigure your ceiling price following the rules in section 6 of Maximum Price Regulations Nos. 421, 422, or 423, whichever is applicable to you.

For a period of 60 days after the seller has established his maximum price under this section, and with his first shipment after the 60-day period to each purchaser who has not made a purchase within that time, the seller shall include the notice set forth above in each case or carton containing the item, or securely attach it to the case or carton, or insert it on or attach it to the invoice accompanying the shipment.

This amendment shall become effective July 18, 1944.

Issued this 18th day of July 1944.

JAMES G. ROGERS, Jr.,
Acting Administrator.

[RMPR 436, Amdt. 3]

CRUDE PETROLEUM, NATURAL AND PETROLEUM GAS

The statement of considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 436 is amended in the following respects:

1. Section 9 (f) is revoked.

2. The first paragraph in section 10 is amended to read as follows:

SEC. 10. *Specific prices.* The following specific prices shall be the maximum prices for the items named at the points enumerated below. Except for specific maximum prices established for the Lance Creek Field under section 10 (o) (2), where a contract was in effect on October 1, 1941, for the purchase of crude petroleum at the receiving tank at a price in excess of the highest posted purchase price as of October 1, 1941, for the given pool applicable to such production and deliveries were made prior to or within 60 days after October 1, 1941, in accordance with such contract, and if a specific maximum price has been established for crude petroleum produced at such pool under section 10, then the maximum price at the receiving tank for the production covered by the contract shall be the sum of the price actually charged on October 1, 1941, or if no delivery was made on October 1, 1941, on the first delivery after such date and the difference between the specific price as set out in this section 10 and the highest posted price as of October 1, 1941, except that on and after May 17, 1943, the maximum price at the receiving tank for crude petroleum produced in the Franklin heavy sand crude area located in Venango County, Pennsylvania, shall be the sum of the two amounts specified above and 20¢ per barrel.

3. The last sentence in section 15 (b) is amended to read as follows: "If the seller had no contracts in effect on May 1, 1942, with purchasers of the same class, then his maximum price shall be determined under (d) below."

This amendment shall become effective July 24, 1944.

Issued this 19th day of July 1944.

[RMPR 369,[1] Amdt. 1]

DRY ROOFING FELT AND DRY FLOORING FELT

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation 369 is amended in the following respects:

1. Appendix B is amended to read as follows:

APPENDIX B—MAXIMUM PRICES FOR DRY FLOORING FELT

(a) Maximum prices for dry flooring felt shall in no event exceed the specific dollar and cent prices set forth below, except that if during March 1942 there was an agreement between seller and buyer for the sale of dry flooring felt, the maximum price for sales between that seller and that buyer shall not be in excess of the amount which is arrived at by computation under the pricing formula contained in that agreement, or the specific dollar and cent prices set forth below, whichever is lower *And provided*, That any person selling to a purchaser the same grade and quality of dry flooring felt which be delivered to that purchaser during March 1942, may charge that purchaser the highest price he charged him during that month.

MAXIMUM PRICES

Thickness per .001 inch (within a tolerance of 2 points):	*Maximum price per short air dry ton f. o. b. point of shipment*
38 point, inlaid	$68.00
38 point, print	68.00
40 point, print	62.00
55 point, print	78.00

(b) *Provided further*, That if any person had during March 1942, established a customary price differential between 110 inch dry flooring felt and narrower widths, he may now, upon sales and deliveries of dry flooring felt in widths of less than 110 inches, add to the applicable maximum prices set forth in this Appendix B, an amount not in excess of such dollar and cent differential in effect during March, 1942. In no event shall such differential exceed the dollar and cent difference between the actual dollar and cent cost of manufacturing such dry flooring felt in 110 inch widths and in the narrower width for which a differential is established hereunder. The differential determined under this paragraph (b) must be reported to and approved by the Office of Price Administration. This approval must be obtained prior to the time of making the first sale and shall be obtained as follows: The seller must submit to the Office of Price Administration in Washington, D. C., a statement setting forth the following:

(1) Description of the grade.

(2) Maximum price established under this paragraph (b) of Appendix B.

(3) Maximum prices at which all grades in all widths were delivered or offered for delivery during March, 1942.

(4) An explanation of the method used to calculate the differential.

Unless the Office of Price Administration or a duly authorized representative thereof shall by letter mailed to the applicant within 21 days from the filing of such report approve, disapprove or extend the time within which to do any of the foregoing, such report shall be deemed to have been approved, subject to non-retroactive written disapproval or adjustment at any later time by the Office of Price Administration.

This amendment shall become effective July 24, 1944.

NOTE: All of the reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 19th day of July 1944.

PULPWOOD PRODUCED IN DESIGNATED SOUTHERN STATES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation 387 is amended in the following respects:

1. The table of prices in Appendix A (a) (1) is amended to read as follows:

F. O. B. freight cars:	
Pine	$7.60
Southern hardwood (rough)	8.10
Southern hardwood (peeled) and veneer cores	10.80
F. O. B. barges:	
Pine	[1] 8.60

[1] The maximum price per cord for pine pulpwood cut from the stump on and after July 24, 1944 which is to be hauled by barges from landings constructed or put into general use after June 1, 1944, shall be $7.60.

2. In Appendix A (a) (1), the last paragraph entitled "Delivered mill by truck or similar vehicle" is amended to read as follows:

Delivered mill by truck or similar vehicle. When pulpwood is delivered to a consumer by truck or similar vehicle, the maximum price shall be the f. o. b. car price stated above plus or minus the same dollars and cents differential, if any, which the particular mill paid over or under its highest f. o. b. car price in the months of January and February, 1943, for the same type of delivery, except when pulpwood is delivered by truck or similar vehicle to a consumer's mill in Mobile, or Tuscaloosa, Alabama, an amount not in excess of $2.00 per cord and $1.25 per cord, respectively, may be added to the maximum f. o. b. car price stated above.

3. In section 8 (a), subparagraph (13) is added and reads as follows:

(13) "Veneer cores" means that portion of a veneer bolt which remains after the veneer has been removed by the rotary slicing method;

This amendment shall become effective July 24, 1944.

Issued this 19th day of July 1944.

PART 1396—FINE CHEMICALS, DRUGS AND COSMETICS

[MPR 203,[1] Amdt. 2]

VITAMIN A NATURAL OILS AND CONCENTRATES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

1. Section 1396.214 (b) is amended by adding a new subparagraph (4) to read as follows:

(4) The maximum prices set forth in paragraph (a) of this section shall not apply to any blends or mixtures made of Vitamin A concentrates with Vitamin A natural oils. Prices for such blends or mixtures are governed by paragraph (e) below.

2. Section 1396.214 is amended by adding a new paragraph (e) to read as follows:

(e) *Blends or mixtures.* (1) No person shall sell or deliver a blend of one or more Vitamin A concentrates with one or more Vitamin A natural oils unless, prior thereto, an order establishing maximum prices for the particular sale or delivery has been issued from the National Office of the Office of Price Administration.

(2) Any person, before selling or delivering such blend shall file application for a maximum price with the Chemicals and Drugs Branch of the Office of Price Administration, Washington, D. C. The application shall set forth:

(i) The potency in U. S. P. units of Vitamin A per gram of each Vitamin A concentrate in the blend.

(ii) The potency in U. S. P. units per gram of each Vitamin A natural oil in the blend.

(iii) The total number of U. S. P. units of each Vitamin A concentrate in the blend.

(iv) The total number of U. S. P. units of each Vitamin A natural oil in the blend.

(v) A statement of the necessity for offering such blend for sale.

(vi) The name and address of the buyer, if known.

(3) An order under this paragraph (e) will, in general, establish a maximum price for the sale of a blend of Vitamin A concentrates and natural oils at a level determined by computing and combining the maximum prices of the various component concentrates and natural oils in the blend. A copy of said order will be sent to the indicated buyer of the blend. The maximum price for a blend will in no case exceed the price a seller would realize if the Vitamin A concentrates and natural oils contained in that blend were sold separately at the maximum prices for these products set forth above. In appropriate cases where, in the judgment of the Administrator, the sale of a blend will lead to evasion or circumvention of the provisions of this regulation, he may refuse to authorize a maximum price for such blend or may authorize for that blend a price lower than the price the seller would realize if the components of the blend were sold separately at the maximum prices therefor set forth in this regulation. An example of the general method of computing a price for a blend by computing and combining the maximum prices of the various components follows:

Example: A blend consists of 100 grams of Vitamin A natural oil of 40,000 U. S. P. units potency per gram, and 100 grams of Vitamin A concentrate of 350,000 U. S. P. units potency per gram. Since the 40,000 oil commands a maximum price of 14 cents per million U. S. P. units, 100 grams of 40,000 potency, containing a total of 4 million units, has a maximum price of 56 cents. Since the 350,000 concentrate commands a maximum price of 30 cents per million U. S. P. units, 100 grams of 350,000 potency containing a total of 35,000,000 units, has a maximum price of $10.50. The maximum price of the blend of 200 grams will be $11.06, or $0.2835 per million U. S. P. units ($11.06 divided by 39, which is the total millions of U. S. P. units contained in the 200 grams of blend, i. e. 4,000,000 plus 35,000,000).

(4) All persons making sales and deliveries of such blends or mixtures shall furnish the buyers a notice prior to payment by them, stating:

The Office of Price Administration has authorized the maximum price of ---------- per million U. S. P. units for this blend of Vitamin A oils by Order No.------- under Maximum Price Regulation No. 203.

This amendment shall become effective July 24, 1944.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 218]

PART 95—CAR SERVICE

RESTRICTIONS ON SHIPMENTS OF ORANGES FROM ARIZONA OR CALIFORNIA

At a session of the Interstate Commerce Commission Division 3, held at its office in Washington, D. C., on the 18th day of July, A. D. 1944.

It appearing, that the Secretary of Agriculture on October 3, 1942, issued Marketing Order No. 66, regulating the handling and shipment of oranges grown in the States of California or Arizona (7 F.R. 8576), pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.);

And it further appearing, that the movement of such oranges under permits is necessary to prevent congestion of traffic and a shortage of equipment; the Commission is of the opinion that an emergency exists requiring immediate action in order to best promote the service in the interest of the public and the commerce of the people: *It is ordered*, That:

Oranges from Arizona and California not to be transported without a permit. No common carrier by railroad subject to the Interstate Commerce Act shall furnish a car for loading with, or accept for transportation or move a car loaded with, oranges in carload or less-than-carload quantities from any origin in the States of Arizona or California destined to interstate or Canadian points, except upon presentation by the shipper to the carrier of a permit from the Director of Distribution, War Food Administration, as provided for in Marketing Order No. 66 (7 F.R. 8576). (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, That this order shall become effective at 12:01 a. m., Pacific war time, July 23, 1944; that copies of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement, and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service

Subchapter C—National Wildlife Refuges: Individual Regulations

PART 21—PACIFIC REGION NATIONAL WILDLIFE REFUGES

HART MOUNTAIN NATIONAL ANTELOPE REFUGE, OREG.

Under authority of section 84 of the Act of March 4, 1909, as amended by the Act of April 15, 1924, 43 Stat. 98, and in extension of § 12.9 of the Regulations for the Administration of National Wildlife Refuges under the Jurisdiction of the Fish and Wildlife Service, dated December 19, 1940,[1] the following is hereby ordered:

§ 21.404 *Hart Mountain National Antelope Refuge, Oregon; hunting of deer.* Until further notice deer may be taken during the open season prescribed by the State Game Commission of Oregon, on certain lands, hereinafter described, of the United States within the exterior boundary of the Hart Mountain National Antelope Refuge, Oregon, in accordance with the provisions of the Regulations for the Administration of National Wildlife Refuges under the Jurisdiction of the Fish and Wildlife Service, dated December 19, 1940, and subject to the following special provisions, conditions, restrictions, and requirements:

(a) *Area open to hunting.* Such lands of the United States in the Hart Mountain National Antelope Refuge, Oregon, as shall be mutually agreed upon from time to time by the Director of the Fish and Wildlife Service and the State Game Commission of Oregon, and as indicated by appropriate posting on the ground by the officer in charge, shall be open to the hunting of deer.

(b) *Compliance with State laws and regulations.* Any person who hunts on the refuge shall be in possession of a valid hunting license issued by the State of Oregon authorizing him to hunt deer and a permit, if required. Said license and permit shall serve as a Federal permit for hunting deer on the refuge and must be carried on the person of the licensee while so hunting. The license and permit must be exhibited upon the request of any representative of the Oregon State Game Commission authorized to enforce the State game laws or of any representative of the Department of the Interior. The licensee must comply in every respect with the State laws and regulations governing the hunting of deer and upon request of any of the aforesaid representatives must exhibit for inspection all game killed by him or in his possession.

(c) *Disorderly conduct, intoxication.* No person who is intoxicated will be permitted to enter or remain upon the refuge for the purpose of hunting hereunder, and any person who indulges in any disorderly conduct on the refuge will be removed therefrom by the officer in charge and dealt with as prescribed by law.

(d) *Entry upon refuge.* Persons entering the refuge for the purpose of hunting, as permitted by the regulations in this section, shall use such routes of travel as may be designated by suitable posting by the officer in charge and shall not otherwise enter upon the refuge.

(e) *Limitation on firearms.* Deer may be taken only with a rifled firearm, except that a gun using 22 caliber rim fire ammunition may not be used in hunting or taking deer on the refuge.

PART 21—PACIFIC REGION NATIONAL WILDLIFE REFUGES

LITTLE PEND OREILLE NATIONAL WILDLIFE REFUGE, WASH.

Pursuant to section 84 of the Act of March 4, 1909, as amended by the Act of April 15, 1924 (43 Stat. 98; 18 U.S.C. 145), and section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1222; 16 U.S.C. 715i), as amended, and in extension of § 12.9 of the Regulations for the Administration of National Wildlife Refuges under the Jurisdiction of the Fish and Wildlife Service, dated December 19, 1940,[1] the following is hereby ordered:

§ 21.563a *Little Pend Oreille National Wildlife Refuge, Washington; hunting of deer.* Until further notice deer may be taken in the open season prescribed therefor by the State Game Commission of Washington on lands of the United States within the exterior boundary of the Little Pend Oreille National Wildlife Refuge, Washington, under the following special provisions, conditions, restrictions, and requirements:

(a) *State game laws.* Any person who hunts within the refuge must comply with the applicable State laws and regulations.

(b) *Hunting license and permit.* Any person who hunts within the refuge shall be in possession of a valid State hunting license and a permit, if such license and permit are required. The license and the permit must be carried on the person of the licensee while so hunting and must be exhibited upon request of any representative of the Washington State Game Commission or of the Fish and Wildlife Service. Upon request of any such officer the licensee must also exhibit for inspection all game killed by him or in his possession.

(c) *Disorderly conduct, intoxication.* No person who is intoxicated will be permitted to enter upon the refuge for the purpose of hunting, and any person who indulges in any disorderly conduct on the refuge will be removed therefrom by the officer in charge and dealt with as prescribed by law.

(d) *Forfeiture of privileges.* Failure of any person hunting upon the refuge to comply with any of the provisions, conditions, restrictions, or requirements of the regulation in this section or the violation by him of any provision of Federal laws or regulations applicable to wildlife, not only will render such person liable to prosecution under the law, but also will be sufficient cause for removing him from the refuge and for refusing him further hunting privileges on such refuge, or any other use or privilege on any such refuge for which a permit may be required.

PART 23—SOUTHWESTERN REGION NATIONAL WILDLIFE REFUGES

BOSQUE DEL APACHE NATIONAL WILDLIFE REFUGE, N. MEX.

Under authority of section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1222; 16 U.S.C. 715i), as amended, and in extension of § 12.3 of the Regulations for the Administration of National Wildlife Refuges under the Jurisdiction of the Fish and Wildlife Service, dated December 19, 1940,[1] the following is hereby ordered:

§ 23.94 *Bosque del Apache National Wildlife Refuge, New Mexico; fishing.* Noncommercial fishing is permitted from June 1 to October 15, inclusive, of each year in the waters hereinafter specified of the Bosque del Apache National Wildlife Refuge, New Mexico, in accordance with the provisions of the Regulations for the Administration of National Wildlife Refuges under the Jurisdiction of the Fish and Wildlife Service, dated December 19, 1940,[1] and subject to the following conditions, restrictions, and requirements:

(a) *Waters open to fishing.* All the waters of the refuge shall be open to fishing.

(b) *State fishing laws.* Any person who fishes within the refuge must comply with the applicable fishing laws and regulations of the State of New Mexico. Fishing under this regulation shall be by hook and line (including rod and reel) only, as defined by State law for all species except catfish. The use of trot and set lines in accordance with State law is permitted in fishing for and taking catfish. All other contrivances of whatever nature are prohibited.

(c) *Fishing licenses and permits.* Any person who fishes within the refuge shall be in possession of a valid fishing license issued by the New Mexico State Game

[1] 5 F.R. 5284.

and Fish Commission, if such license is required. This license shall serve as a Federal permit for fishing in the specified waters of the refuge and must be carried on the person of the licensee while so fishing. The license must be exhibited upon the request of any representative of the New Mexico State Game and Fish Commission or of the Fish and Wildlife Service.

(d) *Routes of travel.* Persons entering the refuge for the purpose of fishing shall follow such routes of travel as may be designated by suitable posting by the officer in charge of the refuge.

(e) *Use of boats.* The use of boats or floating devices of any description, including motorboats, either inboard or outboard, is prohibited on all waters of the refuge except for official purposes.

(f) *Temporary restrictions.* During periods of waterfowl nesting or concentrations on the refuge, fishing will not be permitted in such areas of the refuge as, in the judgment of the officer in charge, should be closed to fishing in order to provide adequate protection for such waterfowl and are posted suitably by such officer.

Notices

DEPARTMENT OF THE INTERIOR.

General Land Office.

TALLAHASSEE, FLA.

RESTORATION OF LAND FOR APPLICATION, PETITION, LOCATION OR SELECTION

JULY 14, 1944.

Order of restoration under section 24, Federal Power Act No. 1172.

On August 27, 1925, lot 5, sec. 23, T. 1 N., R. 16 E., Tallahassee Meridian, Florida, containing 42.10 acres, was reserved from entry and included in Power Project No. 644.

The Federal Power Commission has determined that the value of the above-described land would not be injured or destroyed for purposes of power development by location, entry, or selection under the public land laws, subject to the provisions of section 24 of the Federal Power Act.

At 10:00 o'clock a. m. of the sixty-third day from the date on which this order is signed the land shall, subject to all valid existing rights, existing withdrawals and reservations, and the terms and conditions of section 24 of the Federal Power Act, as amended, be open to such application, petition, location, or selection as may be authorized by the public land laws in accordance with the provisions of 43 CFR 295.8 (Circ. 324, May 22, 1914, 43 L. D. 254) and 43 CFR Part 296, to the extent that these regulations are applicable.

Any application for the land should be filed with the General Land Office, Washington 25, D. C., and will be subject to the following reservation:

Made in accordance with and subject to the provisions and reservations of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1063), as amended by the act of August 26, 1935 (49 Stat. 846, 16 U.S.C. sec. 818).

PACIFIC POWER & LIGHT COMPANY

NOTICE OF APPLICATION

JULY 19, 1944.

Notice is hereby given that the Pacific Power & Light Company, a corporation organized under the laws of the State of Maine and doing business in the States of Washington and Oregon, with its principal business office at Portland, Oregon, applied to the Commission on June 12, 1944, for authority, pursuant to section 203 of the Federal Power Act, to sell and transfer to the United States Government (War Department) all of its electric transmission facilities located in the United States Government's Hanford Engineer Works Project in the State of Washington.

The proposed contract between the Company and the Government, filed with such application, provides that the Government's acquisition of the Company's transmission facilities will necessitate providing the Company with equivalent substitute facilities for serving its integrated electric system; and it is proposed that such service shall be provided, at least temporarily, from and by means of the electric transmission system of the Bonneville Power Administration; and further that, in the event of the termination of such service from Bonneville, such service shall be provided either by the reverter of said transmission property from the Government to the Company, subject to the terms and conditions of the contract, or by the construction of equivalent substitute facilities to be installed and owned by the Company for reintegrating its electric transmission system, for the cost of which equivalent substitute facilities the Company is to be reimbursed by the Government to the extent and under the conditions set forth in the contract.

Any person desiring to be heard or to make any protest with reference to such application should, on or before the 3d day of August 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's rules of practice and regulations.

FEDERAL SECURITY AGENCY.

Food and Drug Administration.

[Docket No. FDC–42]

STANDARDS OF FILL OF CONTAINER FOR CANNED OYSTERS

NOTICE OF HEARING

Notice is hereby given that the Administrator of the Federal Security Agency on his own initiative, in accordance with the provisions of sections 401 and 701 of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C., secs. 341 and 371 (Supp. V, 1939); the Reorganization Act of 1939, 53 Stat. 561, 5 U.S.C. sec. 133 (Supp. V, 1939); and Reorganization Plans No. I (53 Stat. 1423, 4 F.R. 2727) and No. IV (54 Stat. 1234, 5 F.R. 2421), will hold a public hearing commencing at 10 o'clock in the morning of August 22, 1944, in Room 3106, South Building, United States Department of Agriculture, Independence Avenue, between 12th and 14th Streets SW., Washington, D. C., for the purpose of receiving evidence upon the basis of which regulations may be promulgated fixing and establishing reasonable standards of fill of container for canned oysters.

Edward E. Turkel is hereby designated as presiding officer to conduct the hearing in the place of the Administrator, with full authority to administer oaths and affirmations and do all other things appropriate to the conduct of the hearing.

The hearing will be conducted in accordance with the rules of practice provided therefor (21 CFR, Cum. Supp., 2.701 to 2.715).

In lieu of oral testimony, interested persons may submit affidavits to the presiding officer at Room 4148, South Building, United States Department of Agriculture, Independence Avenue, between 12th and 14th Streets SW., Washington, D. C., on or before the date of the opening of the hearing. Such affidavits should be submitted in quintuplicate and, if relevant and material, will be received and made a part of the record of the hearing, but the Administrator will consider the lack of opportunity for cross-examination in determining the weight to be given to statements contained therein. Every interested person will be permitted, in accordance with the above-mentioned rules of practice, to examine all affidavits submitted and to file counter-affidavits with the presiding officer.

At the hearing the evidence will be restricted to testimony and exhibits that are relevant and material to the issue contained in the suggested regulation.

A suggested regulation to be considered at the hearing is set forth below, which suggested regulation is subject to adoption, rejection, amendment, or modification, in whole or in part, as the evidence of record adduced at the hearing may require.

§ 36.6 *Canned oysters: Fill of containers; label statement of substandard fill.* (a) The standard of fill of containers for canned oysters is a fill such that the drained weight of oysters taken from each container (except that cylindrical container which is $2^{11}/_{16}$ths inches in diameter and 4 inches in height) is not less than 68 percent of the water capacity of the container. The standard of fill of container for canned oysters in that cylindrical container which is $2^{11}/_{16}$ths inches in diameter and 4 inches in height is a fill such that the drained weight of oysters taken from each container is not less than 7.5 avoirdupois ounces. Water capacity of containers is determined by the general method prescribed in 21 CFR, Cum. Supp., 10.1 (a). The drained weight of oysters is determined by the following method:

Keep the unopened canned oyster container at a temperature of not less than 68° or more than 95° Fahrenheit for at least 12 hours immediately preceding the determination. After opening, tilt the container so as to distribute its contents evenly over the meshes of a circular sieve which has been previously weighed. The diameter of the sieve is 8 inches if the quantity of the contents of the container is less than 3 pounds, and 12 inches if such quantity is 3 pounds or more. The bottom of the sieve is woven-wire cloth which complies with the specifications for such cloth set forth under "2380 Micron (No. 8)" in Table I of "Standard Specifications for Sieves", published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards. Without shifting the material on the sieve, so incline the sieve as to facilitate drainage. Two minutes from the time drainage begins, weigh the sieve and the drained oysters. The weight so found, less the weight of the sieve, shall be considered to be the drained weight of the oysters.

(b) If canned oysters fall below the applicable standard of fill of container prescribed in paragraph (a) of this section, the label shall bear the general statement of sub-standard fill specified in 21 CFR, Cum. Supp., 10.2 (b) in the manner and form therein specified.

Dated: July 18, 1944.

FEDERAL TRADE COMMISSION.

[Docket No. 5189]

E. H. HAMLIN COMPANY

NOTICE OF HEARING

In the matter of Edward H. Hamlin, doing business as E. H. Hamlin Company, a corporation.

Complaint. The Federal Trade Commission, having reason to believe that the party respondent named in the caption hereof, and hereinafter more particularly designated and described, since June 19, 1936, has violated and is now violating the provisions of subsection (c) of section 2 of the Clayton Act, as amended by the Robinson-Patman Act, approved June 19, 1936 (U.S.C. Title 15, section 13), hereby issues its complaint stating its charges with respect thereto as follows:

PARAGRAPH ONE. Respondent Edward H. Hamlin, is an individual engaged in the business of distributing and selling canned salmon and other sea food products under the name and style of E. H. Hamlin Company, a corporation organized by the respondent Edward H. Hamlin and existing under the laws of the State of Washington, with his principal office and place of business located in the Mutual Life Building, in Seattle, Washington. The respondent Edward H. Hamlin is the sole owner of each share of capital stock in said corporation, with the exception of one qualifying share and he actively manages and exercises full and complete control of the business.

PAR. TWO. The respondent in the course and conduct of his said business, since June 19, 1936, has sold and distributed a substantial portion of his canned salmon and other sea food products in the name of E. H. Hamlin Company, for respondent's own account for resale directly to buyers located in states other than the state in which the respondent is established, and as a result of said sales and the respondent's instructions, such canned salmon and other sea food products are shipped and transported across state lines to such buyers who are located in various states of the United States, other than the state where the respondent is established, and the respondent has been and is now playing or granting or has paid or granted, directly or indirectly, commissions, brokerage or other compensations or allowances or discounts in lieu thereof to such buyers of said canned salmon and other sea food products.

PAR THREE. The respondent, since June 19, 1936, has distributed and sold and distributes and sells canned salmon and other sea food products directly to certain buyers in interstate transactions as aforesaid and has paid to such buyers commissions or brokerage fees on purchases made by them in their respective names and for their respective accounts. The respondent's method of distribution and sale, as hereinafter illustrated, is representative of the sales methods of a number of West Coast distributors.

Such buyers customarily designate themselves as "brokers", "merchandise brokers", or as "primary distributors", although they are known to the trade as "buying brokers" or "speculative brokers". Such "buying brokers" or "speculative brokers" customarily operate by placing orders for merchandise with those sellers, and only with those sellers, who will grant and pay them commissions or brokerage fees on their own purchases. Some such buyers are large scale buyers and sellers of merchandise distributed under their own private brands, which brands usually show the name and address of the buyer but not of the packer, and identify the merchandise as being the product of the particular buyer who owns the label.

Some such buyers customarily purchase their private brand salmon and other sea food products from respondent and many others sellers and often during a given season, after shopping the market, will purchase such commodities under the same private brands from several competing sellers, placing their orders where they are able to secure the most favorable prices and terms.

Such buyers place their orders for merchandise with respondent and other sellers, who, on receiving and accepting such orders, deliver the merchandise to a common carrier for delivery, but require that the buyer pay the purchase price as a

condition precedent to the delivery of the merchandise. If such merchandise is lost or damaged in transit, such buyers file claims in their own names and collect damages from the carrier for their own account.

On receipt of the merchandise, such buyers insure such merchandise and warehouse it in their own warehouses or in public warehouses, and thereafter generally utilize the warehouse receipts covering the merchandise, together with the insurance contract, as collateral or security to obtain bank loans.

Such buyers mask these operations under the fictionalized designation of "brokers", "merchandise brokers", or "primary distributors", for the sole purpose of coloring the name and method of their operation in order to collect commissions or brokerage fees from respondent and from other sellers who will pay such buyers commissions or brokerage fees on their own purchases, notwithstanding the fact that it is well known to be the custom of such buyers to invoice and sell such merchandise in their own names, for their own accounts, at their own prices, and on their own terms, and to assume full and complete credit risks.

PAR. FOUR. The acts and practices of the respondent in promoting sales of canned salmon and other sea food products by paying to buyers, directly or indirectly, commissions, brokerage or other compensation and allowances or discounts in lieu thereof, as set forth above, are in violation of subsection (c) of section 2 of the Clayton Act, as amended.

Wherefore, the premises considered, the Federal Trade Commission on this 15th day of July A. D., 1944, issues its complaint against said respondent.

Notice. Notice is hereby given you, Edward H. Hamlin, doing business as E. H. Hamlin Company, a corporation, respondent herein, that the 18th day of August, A. D., 1944, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * *

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 15th day of July, A. D. 1944.

By the Commission.

INTERSTATE COMMERCE COMMISSION.

[S. O. 200, Amended Gen. Permit 13]

REICING OF POTATOES IN DESIGNATED WESTERN STATES

Pursuant to the authority vested in me by paragraph (e) of the first ordering paragraph (§ 95.337, 9 F.R. 4402) of Service Order No. 200 of April 22, 1944, permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

On any refrigerator car loaded with potatoes originating at any point or points in the States of Colorado, Kansas, Nebraska, Wyoming and Utah, to reice in transit one time only and to accord the reicing at stations designated by shippers or, at the carriers' option, at the first icing station on either side of such designated station. This general permit shall apply to all such cars billed or moving on the effective date hereof.

This general permit shall become effective at 12:01 a. m., July 18, 1944, and shall expire at 12:01 a. m., September 1, 1944.

The waybills shall show reference to this general permit.

A copy of this general permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 17th day of July 1944.

MARITIME WAR EMERGENCY BOARD.

[Decision 2 B, Amdt. 1]

VOYAGE, AREA, AND VESSEL ATTACK BONUS PAYMENT TO CREW MEMBERS OF MERCHANT MARINE

The Maritime War Emergency Board today announces the following amendments to Decision 2 B:

1. Paragraph C of Classification I of Article II is amended to change the western boundary line of the Pacific Area in the Bay of Bengal and Indian Ocean from "90° East Longitude" to "80° East Longitude".

It should be noted that this amendment to Classification I of Article II likewise extends the Pacific Area with regard to payment of area bonus under paragraph A of Article V.

2. Paragraph B of Article V is amended by adding at the end of the first sentence the following: "or (3) which is otherwise subjected to extreme and immediate danger of destruction as a result of enemy attack or other direct war hazard."

The foregoing amendments are effective at 12:01 a. m. August 1, 1944, as to all vessels whether at sea or in port.

Dated: July 12, 1944.

COPYRIGHTS OF CERTAIN FOREIGN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Executed at Washington, D. C., on June 3, 1943.

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

COPYRIGHTS OF CERTAIN FOREIGN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations, or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

COPYRIGHTS OF CERTAIN FOREIGN NATIONALS

Whereas, pursuant to Vesting Order No. 500A–45 of July 28, 1943, the undersigned purported to vest certain interests under copyright in a work described in Exhibit A attached to the said order;

Whereas, the work listed in Exhibit A attached to the aforesaid order was designated as "Vorlesungen uber numerisches rachan";

Whereas, such work in fact is described in the United States Copyright Office as "Vorlesungen uber numerisches rechnen"; and

Whereas, it was intended to vest the copyright interests of the nationals there designated in "Vorlesungen uber numerisches rechnen" but such work was, through clerical error, designated in Vesting Order Number 500A–45 as "Vorlesungen uber numerisches rachan";

Now, therefore, Vesting Order Number 500A–45 of July 28, 1943, is hereby amended as follows and not otherwise:

By striking the word "rachan" appearing in Exhibit A attached thereto and made a part thereof, and substituting the word "rechnen".

All other provisions of said Vesting Order Number 500A–45 and all action taken on behalf of the undersigned in reliance thereon, pursuant thereto and under the authority thereof are hereby ratified and confirmed.

Executed at Washington, D. C., on August 25, 1943.

Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the couyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright, and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

COPYRIGHTS OF CERTAIN FOREIGN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, and titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows:

All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subaragraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order

may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Executed at Washington, D. C., on September 10, 1943.

[Vesting Order 500A–57]

COPYRIGHTS OF CERTAIN FOREIGN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Executed at Washington, D. C., on September 23, 1943.

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

COPYRIGHTS OF CERTAIN FOREIGN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion, or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing:

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

COPYRIGHTS OF CERTAIN FOREIGN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth whether or not, filed with the Register of Copyrights or otherwise asserted and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Executed at Washington, D. C., on October 23, 1943.

COPYRIGHTS OF CERTAIN FOREIGN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pur-

suant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

[Directive, July 17, 1944]

CANNED VEGETABLES, 1944

SUBSIDY PAYMENTS

The War Food Administrator having submitted certain information and recommendations to me on July 6, 1944, and the Price Administrator having submitted certain information and recommendations to me on July 15, 1944, with reference to a program for the payment of subsidies in 1944 on products processed from green peas, snap beans, sweet corn and tomatoes, I hereby find that:

1. The payment of the subsidy on canned green peas, snap beans, sweet corn, tomatoes, and tomato juice and on such other products of the four major vegetables as may later be included, will effectuate the purposes of the hold-the-line order, specifically, the policy established by Executive Orders 9250 and 9328;

2. The payment of the subsidy on completed sales of the specified canned products will greatly facilitate the administration of the subsidy program;

3. Under Maximum Price Regulation 306, which continues in effect, canners cannot comply with increases over 1943 support prices established by the 1944 grower support program without provision for a correspondingly higher subsidy;

4. The agreed pricing method for the 1944 pack of canned fruits and vegetables will be fulfilled.

The Office of Price Administration is hereby authorized and directed:

1. To establish civilian maximum prices for canned green peas, snap beans, sweet corn, tomatoes, and tomato juice which will reflect approximately the average of prices established for such products in 1943;

2. To establish for the four major vegetables which were in part handled by subsidy in 1943, such as tomato puree, catsup, paste and mixed vegetables, civilian maximum prices for those products at a level reflecting increases in raw material and other costs pursuant to your directive of April 6, 1944;

3. To determine and furnish to the War Food Administration, as soon as calculations have been completed, the amount of subsidy necessary to maintain the 1943 level of prices;

4. To calculate this subsidy by computing the difference between the 1943 average price for civilian sales and the mid-point of the 1944 range of gross maximum prices.

The War Food Administration is hereby authorized and directed:

1. To absorb by the use of Commodity Credit Corporation funds the differential from the 1944 gross maximum price established by the Office of Price Administration for civilian sales of the five products named above;

2. To subsidize these five products, until the effective date of the new regulation for the 1944 pack of canned fruits and vegetables, by absorbing the increased cost of the raw material of the four major vegetables;

3. To subsidize canned tomato soup and canned green pea soup by continuing to absorb the increase by area between the average prices paid in 1942 and the 1944 grower support prices for processing for tomatoes and green peas used in producing these soups.

Dated this 18th day of July 1944.

Economic Stabilization Director.

VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS

ADJUSTMENT OF MAXIMUM PRICES

Amendment No. 44 to Order No. A–1 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Paragraph (a) (33) is added to Order No. A–1 to read as follows:

(33) *Modification of maximum prices for extra strength vitrified clay sewer pipe and allied products produced in the States of Iowa, Minnesota, North Dakota, South Dakota and Western Wisconsin.* (i) On and after July 24, 1944, any manufacturer located within the States of Iowa, Minnesota, North Dakota, South Dakota and Western Wisconsin, as defined below, who produces extra strength vitrified clay sewer pipe, as defined below, and allied products, may increase his maximum f. o. b. factory prices established for such products by Maximum Price Regulation No. 188 by an amount not in excess of 11.4 percent per short ton.

(ii) The maximum prices fixed herein shall be subject to at least the same extension of cash, quantity and other discounts and allowances as the seller extended or rendered on comparable sales to purchasers of the same class during the month of March 1942.

(iii) On and after July 24, 1944, any person purchasing extra strength vitrified clay sewer pipe and allied products for the purpose of resale may increase

his established f. o. b. warehouse or delivered price by an amount not in excess of the actual dollars-and-cents increased cost to him resulting from the increase permitted under subdivision (i).

(iv) *Definitions.* When used in this amendment the term:

(*a*) "Western Wisconsin" means Zones 3 and 4, in that state, defined in Revised Maximum Price Regulation No. 206 (Vitrified Clay Sewer Pipe and Allied Products) as follows:

Wisconsin, Zone No. 3: West of a line drawn north and south along the eastern boundaries of the counties of Lafayette, Iowa, Richland, Vernon, Monroe, Jackson, Clark and Taylor and south of a line drawn east and west along the northern boundary of Taylor, Chippewa, Dunn, and St. Croix counties.

Wisconsin, Zone No. 4: West of a line drawn north and south along the eastern boundaries of Price and Ashland Counties, and north of a line drawn east and west along the northern boundary of Taylor, Chippewa, Dunn, and St. Croix Counties, excluding the city of Superior.

(*b*) "Extra strength vitrified clay sewer pipe" means a vitrified clay sewer pipe complying with the specifications set forth in War Production Board Order L–316, as amended. Prior to the issuance of Order L–316 a similar product was known to the trade as triple strength pipe.

This Amendment No. 44 shall become effective July 24, 1944.

WILKES BARRE CAP MFG. CO., ET AL.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 40 under section 4 (b) of Revised Maximum Price Regulation 506. Maximum prices for staple work gloves. Granting maximum prices to the Wilkes Barre Cap Manufacturing Company and other sellers. Docket No. N6657–506–3–7.

For the reasons set forth in an opinion issued simultaneously herewith; *It is ordered:*

(a) On and after July 18, 1944, the Wilkes Barre Cap Manufacturing Company, Wilkes Barre, Pennsylvania, may sell and deliver to any purchaser, and such purchaser may buy from it, the staple work glove number enumerated in the following table at or below the prices set forth in Column A of this table. Wholesalers who purchase this number from the Wilkes Barre Cap Manufacturing Company may make "regular sales" at wholesale of such gloves, at or below the prices set forth in Column B of the table. Ceiling prices for "special sales" at wholesale shall be determined in accordance with section 3 (b) of Revised Maximum Price Regulation 506.

Style No.	Glove description	Col. A Manufacturer's prices		Col. B
		Group I ceiling	Group II ceiling	Wholesalers' prices
680	Men's 16 ounce quilted double thickness nap out palm, 8 ounce single thickness white flannel back, knit wrist.	$2.12½	$2.32½	$2.55

(b) The maximum prices authorized in paragraph (a) are subject to the following:

(1) The instructions for manufacturers and wholesalers which preface the tables in Appendix A of RMPR 506;

(2) The provisions in section 4 (a) of RMPR 506 with respect to a manufacturers' "wholesale percentage", and the quota of deliveries which must be made at Group I prices;

(3) The marking and informational requirements of section 6 of RMPR 586. In addition to these requirements, the Wilkes Barre Cap Manufacturing Company, on all deliveries of the style number listed in paragraph (a), made pursuant to this order, on and after September 15, 1944, must place the letter "S" following the lot number or brand name stated on the label, ticket, or other device used to mark the gloves.

(c) The definitions in RMPR 506 shall apply to this Order.

(d) The Wilkes Barre Cap Manufacturing Company must furnish each of its customers, who, on or after July 18, 1944, purchases the style number listed in paragraph (a) for purposes of resale, a notice in the form set forth below. The Wilkes Barre Cap Manufacturing Company must also notify each such customer (other than a seller at retail) that he is required in turn to transmit to his customers a copy of the notice set forth below. The notice may be attached to the invoice or may be stamped or printed on the invoice.

This notice is sent to you as required by Order No. 40 under section 4 (b) of Revised Maximum Price Regulation 506 issued by the Office of Price Administration. It lists ceiling prices fixed by OPA for the work glove number enumerated in the table below, manufactured by the Wilkes Barre Cap Manufacturing Company.

OPA has ruled that the Wilkes Barre Cap Manufacturing Company may sell this number at or below the prices listed in Column A below, subject to the provisions of section 4 (a) of RMPR 506 with respect to the quota of deliveries which must be made at Group I prices. Wholesalers in turn are authorized to make regular sales at wholesale of this number at or below the prices listed in Column B. Retailers will determine their ceiling prices on this number in accordance with section 2 of RMPR 506.

The Tennessee Glove Company must also notify each such customer (other than a seller at retail) that he is required in turn to transmit to his customers a copy of the notice set forth below. The notice may be attached to the invoice or may be stamped or printed on the invoice.

This notice is sent to you as required by Order No. 43 under section 4 (b) of Revised Maximum Price Regulation 506 issued by the Office of Price Administration. It lists ceiling prices fixed by OPA for the work glove numbers enumerated in the table below, manufactured by the Tennessee Glove Company.

OPA has ruled that the Tennessee Glove Company may sell these numbers at or below the prices listed in Column A below, subject to the provisions of section 4 (a) of RMPR 506 with respect to the quota of deliveries

which must be made at Group I prices. Wholesalers in turn are authorized to make regular sales at wholesale of these numbers at or below the prices listed in Column B. Retailers will determine their ceiling prices on these numbers in accordance with section 2 of RMPR 506.

Style No.	Column A Manufacturer's prices		Column B
	Group I ceiling	Group II ceiling	Wholesalers' prices
2445L–S, Big Shot–NBO–S	$5.85	$6.35	$7.05
2440L–S, Big Shot–S	6.30	6.85	7.60

You will note that the letter "S" follows the manufacturers' lot number or brand name. This letter indicates that these gloves have been specially priced by OPA under section 4 (b).

(e) This Order No. 43 under Revised Maximum Price Regulation 506 may be revoked or amended by the Price Administrator at any time.

(f) On all deliveries of the work glove numbers listed in paragraph (a) since February 28, 1944 pursuant to OPA adjustable pricing authorizations, the Tennessee Glove Company must refund to its customers any monies collected in excess of the ceiling prices authorized in this Order. Within thirty days from the effective date of this order, the Tennessee Glove Company shall send to OPA, Washington, D. C., a notification of the steps it has taken to comply with the provisions of this paragraph (f) of this order.

This order shall become effective July 18 1944.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 70–895 and 70–377]

GRANVILLE ELECTRIC CO., ET AL.

ORDER GRANTING APPLICATIONS, PERMITTING DECLARATIONS TO BECOME EFFECTIVE, AND MODIFYING PREVIOUS ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 17th day of July 1944.

In the matter of Granville Electric Company, and NY PA NJ Utilities Company, File No. 70–895.

In the matter of NY PA NJ Utilities Company and Associated Power Corporation, File No. 70–377.

NY PA NJ Utilities Company, a registered holding company, and its wholly-owned subsidiary, Granville Electric Company, having filed a joint application-declaration, and two amendments thereto, pursuant to the Public Utility Holding Company Act of 1935, particularly Sections 9, 10, and 12 thereof, and Rules U-43 and U-45 promulgated thereunder, regarding:

1. The transfer to NY PA NJ Utilities Company by Granville Electric Company, presently an inactive company, of all of its assets, consisting, as at April 30, 1944, of $30,392.96 in cash (after adjustment for taxes due) and 20 shares of the common stock of Atlantic Utility Service Corporation carried on the books of Granville Electric Company at an aggregate amount of $265, in discharge of the presently outstanding open account indebtedness of Granville Electric Company to NY PA NJ Utilities Company of $36,456.87, as at April 30, 1944;

2. The contribution by NY PA NJ Utilities Company to Granville Electric Company of all of the latter company's common stock (the only security of Granville Electric Company outstanding) whereupon such common stock is to be cancelled and Granville Electric Company dissolved; and

3. The assumption by NY PA NJ Utilities Company of all contingent liabilities of Granville Electric Company at the date of the dissolution of Granville Electric Company.

Said application-declaration having been filed on May 10, 1944, amendments thereto having been filed on June 7, 1944 and July 12, 1944, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said filing within the period specified in said notice, or otherwise, and not having ordered a hearing thereon;

The Commission having previously, in its order dated August 30, 1941, In the Matter of NY PA NJ Utilities Company, et al. (File No. 70–377), among other things, imposed a condition to the effect "* * * that Granville Electric Company shall not make any payments on account of its open account indebtedness of $36,456.87 to NY PA NJ Utilities Company, and NY PA NJ Utilities Company shall not receive any amounts in payment thereof, except on further order of this Commission.";

It appearing to the Commission that the circumstances necessitating the imposition of the above described condition no longer prevail, and the Commission finding that the proposed transactions satisfy the requirements of sections 10 (c) (2) and 10 (f) of the act and that there is no basis for adverse findings under sections 10 (b), 10 (c) (1) and 12 of the act and rules U-43 and U-45 thereunder:

It is hereby ordered, That the Commission's order dated August 30, 1941, the pertinent portion of which is above set forth, be, and the same hereby is, modified so as to permit the consummation of the proposed transactions;

It is further ordered, That said application-declaration, as amended, be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions contained in Rule U-24.

By the Commission.

AMERICAN UTILITIES SERVICE CORP., ET AL.

ORDER GRANTING EXTENSION OF TIME FOR FILING OF AMENDMENT

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 17th day of July 1944.

In the matter of American Utilities Service Corporation. File No. 54–57. American Utilities Service Corporation and its subsidiary companies, respondents. File No. 59–57.

The Commission having, on June 21, 1944, issued its findings and opinion herein with respect to proceedings involving the plan of recapitalization filed by American Utilities Service Corporation, a registered holding company, and the cross proceedings instituted by the Commission with respect to such company and its subsidiaries under sections 11 (b) (1), 11 (b) (2), 15 (f) and 20 (a) of the Public Utility Holding Company Act of 1935; and

The Commission having also, on June 21, 1944, entered its order with regard to the cross proceedings under sections 11 (b) (1) and 11 (b) (2) of the act; and

The Commission having deferred entering an order with respect to said plan of recapitalization for a period of 30 days in order to allow time for the filing of an appropriate amendment by American Utilities Service Corporation; and

SHAWMUT ASSOCIATION

AMENDMENT TO ORDER GRANTING APPLICATION AND IMPOSING TERMS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 18th day of July, A. D. 1944.

In the matter of Shawmut Association common shares, no par value; File No. 1–2177.

The Commission having on May 12, 1944, entered an order granting the application of Shawmut Association to withdraw the above security from listing and registration on the Boston Stock Exchange;

Said withdrawal having been made effective ten days after the date when the applicant shall have filed with the Commission a certificate showing, inter alia, that within 120 days from the date of the Commission's order a majority of the holders of record of the applicant's outstanding stock and the holders of record of a majority of the shares of such stock have consented either by vote (in person or by proxy) at a meeting or in writing without a meeting, to the withdrawal of such stock from listing and registration;

Shawmut Association now having filed in the United States Circuit Court of Appeals for the First Circuit a petition for review of said order, and having filed with the Commission a motion for modification of said order so as to provide that the time for the filing of the foregoing certification shall expire 120 days from the entry of the final order of said Court upon said petition for review instead of expiring 120 days from the date of the order under review; and

The Commission having considered the matter and being duly informed in the premises;

It is ordered, That the order of the Commission entered May 12, 1944 be and it hereby is amended to provide that the time for the filing of the foregoing certification shall expire 120 days from the entry of the final order of the Court upon the petition for review of said order of the Commission.

By the Commission.

American Utilities Service Corporation having subsequently requested that the time within which an amendment to its plan of recapitalization may be filed be extended to September 5, 1944; and

The Commission having considered such request and deeming it appropriate that it be granted:

It is hereby ordered, That the time within which an amendment to the plan of recapitalization may be filed by American Utilities Service Corporation be and hereby is extended to September 5, 1944;

It is further ordered, That nothing herein contained shall modify or affect any provision of the Commission's order herein of June 21, 1944.

By the Commission.

PART 1401—DAIRY PRODUCTS

FLUID MILK AND CREAM IN LOS ANGELES, CALIF., METROPOLITAN SALES AREA

Pursuant to War Food Order No. 79 (8 F.R. 12426, 9 F.R. 4321, 4319), dated September 7, 1943, as amended, and to effectuate the purposes thereof, War Food Order No. 79–75 (8 F.R. 14370, 9 F.R. 4321, 4319), as amended, relative to the conservation and distribution of fluid milk, milk byproducts, and cream in the Los Angeles, California, metropolitan milk sales area, is hereby further amended by deleting therefrom the provisions in § 1401.87 (e) (3) and inserting, in lieu thereof, the following:

(3) Multiply the aforesaid resulting amount by the following applicable percentage: (i) Milk: 106 percent; (ii) butterfat in milk: 106 percent; (iii) cream: 79.5 percent; (iv) butterfat in cream: 79.5 percent; (v) milk byproducts other than cottage, pot, or baker's cheese: 79.5 percent; and (vi) cottage, pot, or baker's cheese, 79.5 percent of skim milk equivalent. (For the purpose of this order, one pound of cottage, pot, or baker's cheese shall be considered as the equivalent of 7 pounds of skim milk.)

The provisions of this amendment shall become effective at 12:01 a. m., e. w. t., August 1, 1944. With respect to violations of said War Food Order No. 79–75, as amended, rights accrued, or liabilities incurred thereunder, prior to the effective time of this amendment, said War Food Order No. 79–75, as amended, shall continue in full force and effect for the purpose of sustaining any suit, action, or other proceeding with respect to any such violation, right, or liability.

PART 1450—TOBACCO

1944 CROP FLUE-CURED TOBACCO

Pursuant to the authority vested in the Director by War Food Order No. 4 (8 F.R. 335) issued on January 7, 1943, as amended, (8 F.R. 11331, 9 F.R. 4319, 4321) and to effectuate the purposes of such order, as amended, it is hereby ordered, as follows:

§ 1450.7 *Restrictions on 1944 crop flue-cured tobacco*—(a) *Definitions.* (1) "Flue-cured tobacco" means tobacco of Type 11, 12, 13, or 14, as defined in the Official Standard Grades for Flue-cured Tobacco, promulgated by the Secretary of Agriculture (7 CFR 29.151 et seq.), pursuant to the Tobacco Inspection Act (7 U.S.C. 1940 ed. 511 et seq.).

(2) "Manufacturer" means any person who processes tobacco into a product for consumer use which is subject to taxation under the Internal Revenue Code (26 U.S.C. 1940 ed. 2000–2040).

(3) "Dealer" means any person, other than a manufacturer, who buys tobacco for resale in redried condition and packed in containers.

(4) "Scrap" means any loose, tangled, untied, and unstemmed flue-cured tobacco salvaged as a by-product in harvesting, stripping, classing, and tying on the farm and consisting chiefly of barn and strip-house floor sweepings and very inferior quality leaves not sold at auction by growers of any loose, untied, and unstemmed flue-cured tobacco consisting entirely of floor sweepings, loose, and tangled leaves, or portions of leaves which accumulate from unavoidable dropping or breakage in the handling of flue-cured tobacco and which consist exclusively of such tobacco salvaged as a by-product of marketing.

(5) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(6) "Director" means the Director of Distribution, War Food Administration.

(b) *Restrictions.* (1) No person shall purchase or otherwise acquire any 1944 crop flue-cured tobacco unless such tobacco is purchased or acquired pursuant to the provisions hereof.

(2) No manufacturer shall, directly or indirectly, purchase or otherwise acquire any 1944 crop flue-cured tobacco which will cause the total amount of such tobacco so acquired by him to exceed 74 per cent of the total number of pounds of flue-cured tobacco, inclusive of scrap, used by such person for manufacturing purposes during the period from July 1, 1943 to June 30, 1944, inclusive.

(3) No manufacturer shall purchase at auction a higher proportion of his total allocation of 1944 crop flue-cured tobacco than his total purchases of flue-cured tobacco from the crops of 1939, 1940, 1941, and 1942 at auction bore to his total purchases of flue-cured tobacco from such crops.

(4) No dealer shall purchase from producers or at auction for his own account a total quantity of 1944 crop flue-cured tobacco which is in excess of 100 percent of the amount which was originally allocated to such dealer pursuant to the provisions of War Food Order No. 4.3 (8 F.R. 11331; 9 F.R. 4321, 4319) issued by the Director on August 13, 1943, or the amount which he was entitled to have allocated to him pursuant to said War Food Order for such purchases from the 1943 crop of flue-cured tobacco.

(5) Any person other than a manufacturer or dealer may purchase 1944 crop flue-cured tobacco at auction for resale at auction in substantially the same form.

(6) A manufacturer or dealer may resell at auction flue-cured tobacco purchased at auction: *Provided*, That the aggregate amount of such resales may not exceed 2 percent of such purchases. The flue-cured tobacco resold at auction, within the aforesaid limitation, will not be charged to the allocation of the seller.

(7) Purchases of 1944 crop flue-cured scrap tobacco by a dealer shall not be charged against such dealer's allocation, but purchases of 1944 crop flue-cured scrap tobacco by a manufacturer shall be charged to such manufacturer's allocation.

(8) Any 1944 crop flue-cured tobacco purchased in conformity with an agreement to buy for a principal, either in the principal's name or for his account, shall be charged to the quota of the principal for whom such flue-cured tobacco was purchased.

(9) The poundage figures used in computing allocations pursuant hereto shall be reduced to an undried (green weight) basis. Flue-cured tobacco in the steam-dried condition and in unstemmed form shall be converted to the undried basis by multiplying the number of pounds by the factor 1.12. Flue-cured tobacco in the steam-dried condition and in stemmed form shall be converted to the undried basis by multiplying the number of pounds by the factor 1.44.

(10) The restrictions of this order shall be observed without regard to the rights of creditors, prior contracts, existing contracts, payments made, or deliveries of 1944 crop flue-cured tobacco made prior to the effective time hereof; and purchases or sales of 1944 crop flue-cured tobacco, made prior to the effective time hereof, shall be charged to the respective quotas in accordance with the provisions hereof, as if such sales were made after the effective time of this order.

(c) *Modification and amendment.* Any allocation made pursuant hereto may be modified, amended, or supplemented from time to time by notice or letter, issued by the Director, to any person to whom such allocation has been made.

(d) *Effective date.* This order shall become effective at 12:01 a. m., e. w. t., July 19, 1944.

(E.O. 9280, 7 F.R. 10179; E.O. 9322, 8 F.R. 3807; E.O. 9334, 8 F.R. 5423; E.O. 9392, 8 F.R. 14783; WFO 4, as amended, 8 F.R. 335, 11331, 9 F.R. 4321, 4319)

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Prl. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–590]

ADLER BED SPRING CO.

Samuel Adler and Louis Adler are partners doing business as Adler Bed Spring Company at 75 Grand Avenue, Brooklyn, New York. In the fourth quarter of 1943, the Company produced approximately 1200 bed springs in excess of its quota under Limitation Order L–49; in so doing, the Company used a substantial amount of steel in excess of the amount allotted to it for the purpose of manufacturing its quota of bed springs. It also violated Limitation Order L–49, CMP Regulation #1, Priorities Regulation #1, and CMP Regulation #5 in the third and fourth quarters of 1943, in failing to keep records concerning inventories, production and sales, records of allotments and of procurement pursuant to allotments and records of expenses incurred for maintenance, repair and operating supplies as required by the respective order and regulations. It also violated CMP Regulation #1 in the third and fourth quarters of 1943, by placing authorized controlled materials orders in excess of allotments and in the fourth quarter of 1943 by failing to return unused allotments. These violations were committed through the gross and inexcusable negligence of the Company and as a result of these violations critical materials have been diverted from the war effort to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.590 *Suspension Order No. S–590.* (a) The quota of Samuel Adler and Louis Adler, individually or doing business as Adler Bed Spring Company, or otherwise, their or either of their successors or assigns, as provided by Limitation Order L–49, shall be reduced by

25 per cent for the third quarter of 1944, unless otherwise authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Samuel Adler and Louis Adler, individually or doing business as the Adler Bed Spring Company, or otherwise, their or either of their successors or assigns, from any restriction, prohibition, or provision contained in any order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the date of issuance and shall expire on September 30, 1944.

Issued this 19th day of July 1944.

By J. JOSEPH WHELAN,
Recording Secretary.

Chapter XI—Office of Price Administration

PART 1499—COMMODITIES AND SERVICES

[MPR 188,[1] Incl. Amdts. 1-38]

MANUFACTURERS' MAXIMUM PRICES FOR SPECIFIED BUILDING MATERIALS AND CONSUMERS' GOODS OTHER THAN APPAREL

This compilation of Maximum Price Regulation 188 includes Amendment 38, effective July 24, 1944. The text amended by Amendment 38 is underscored.

The General Maximum Price Regulation[2] provides, in general, that commodities sold by a manufacturer shall be priced at the price of a same or similar article sold during March, 1942; and lacking the price of a same or similar article, at a price to be determined by the seller after specific authorization by the Office of Price Administration in advance of the offering of the commodity for sale.

In the case of a considerable list of building materials and consumers' goods at the manufacturers' level, so many new articles which are not "similar" to an already sold article within the meaning of the General Maximum Price Regulation are customarily offered for sale as unnecessarily to retard manufacturers in their pricing.

This Maximum Price Regulation No. 188, accordingly, sets forth for these manufacturers a different procedure than that used in the General Maximum Price Regulation, although the base date thereof is preserved. By eliminating pricing by the price of a similar article, it limits the number of articles which may be priced at the maximum price of another article. But in the pricing of most new articles the manufacturer may follow self-executing pricing methods which obviate advance resort to this office.

In the judgment of the Price Administrator, the maximum prices established by this regulation are necessary to check inflation and to effectuate the purposes of the Emergency Price Control Act of 1942, and to adjust the provisions of the General Maximum Price Regulation to the particular circumstances of manufacturers of certain building materials and consumers' goods.

The statement of considerations involved in the issuance of this Maximum Price Regulation No. 188 is issued simultaneously herewith and has been filed with the Division of the Federal Register.[3]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[4] issued by the Office of Price Administration, Maximum Price Regulation No. 188 is hereby issued:

Sec.

1499.151 Applicability of the General Maximum Price Regulation.
1499.152 Prohibition against dealing in certain articles of building materials and consumers' goods above maximum prices.
1499.153 Maximum prices for articles of building materials and consumers' goods finally priced before August 1, 1942.
1499.154 Maximum prices for articles of building materials and consumers' goods not finally priced before August 1, 1942.
1499.155 First pricing method—minor changes.
1499.156 Second pricing method: changes necessitated by shortages of materials or parts.
1499.157 Third pricing method: pricing by comparable articles.
1499.158 Fourth pricing method: specific authorization by the Office of Price Administration.
1499.159 Price differentials and economies effected by new or changed articles.
1499.159a Classification of purchasers in sales to the United States Government and Allied Governments.
1499.159b Modification of provisions of Maximum Price Regulation No. 188.
1499.160 Evasion.
1499.161 Applications for adjustment and petitions for amendment.
1499.162 Enforcement.
1499.162a Licensing.
1499.163 Definitions.
1499.164 Geographical applicability.
1499.165 Effective date.
1499.166 Appendix A: Articles covered by the regulation.
1499.167 Appendix B.

AUTHORITY: §§ 1499.151 to 1499.167, inclusive, issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681.

§ 1499.151 *Applicability of the General Maximum Price Regulation.* The provisions of §§ 1499.1 to 1499.3, inclusive, and § 1499.18, of the General Maximum Price Regulation shall not apply to sales or deliveries by manufacturers of certain building materials and of certain consumers' goods set forth in § 1499.166, Appendix A, of this Maximum Price Regulation No. 188. All other sections of the General Maximum Price Regulation, together with existing and subsequent amendments and supplementary regulations, shall apply to sales and deliveries by such manufacturers, and are hereby incorporated by reference into this Maximum Price Regulation No. 188.

[§ 1499.151 amended by Am. 2, 7 F.R. 8043, effective 11-4-42]

§ 1499.152 *Prohibition against dealing in certain articles of building materials and consumers' goods above maximum prices.* (a) On and after August 1, 1942, regardless of any contract or other obligation:

(1) No manufacturer of an article set forth in Appendix A (§ 1499.166) of this Maximum Price Regulation No. 188 shall sell or deliver such article at a price higher than the maximum price permitted by this Maximum Price Regulation No. 188; and

[Subparagraph (1) amended by Am. 4, 8 F.R. 537, effective 1-18-43]

(2) No person in the course of trade or business shall buy or receive any such article from a manufacturer at a price higher than the maximum price permitted by this Maximum Price Regulation No. 188:

Provided, That in the case of articles for which a maximum price has been established under §§ 1499.156 or 1499.157 of this Maximum Price Regulation No. 188, if the purchaser shall receive from the seller a written affirmation that the seller has calculated the maximum price for the article in accordance with § 1499.156 or § 1499.157 and has filed a report with the Office of Price Administration and complied with the waiting provisions of § 1499.156 or § 1499.157 and if in such case the purchaser shall have no knowledge of the maximum price and no cause to doubt the accuracy of the affirmation, and provided the price paid is not in excess of the maximum price as affirmed by the seller, the purchaser shall have complied with this section.

(b) The provisions of paragraph (a) (2) of this section shall not be applicable to any war procurement agency or any contracting officer thereof, and any such contracting officer or any paying finance officer shall be relieved of any and every liability, civil or criminal, imposed by this Maximum Price Regulation No. 188 or by the Emergency Price Control Act of 1942.

(c) On and after August 1, 1942, no manufacturer shall sell (including an offer for sale) or deliver any article set forth in Appendix A (§ 1499.166) of this Maximum Price Regulation No. 188 for which a maximum price must be determined under §§ 1499.156, 1499.157, or 1499.158 until he has complied with the reporting and waiting provisions of the applicable one of those three sections.

§ 1499.153 *Maximum prices for articles of building materials and consumers' goods finally priced before August 1, 1942*—(a) *Articles priced in March 1942.* The maximum price for any article which was delivered or offered for delivery in March 1942, by the manufacturer, shall be the highest price charged by the manufacturer during March 1942 (as defined in § 1499.163), for the article.

(b) *Articles priced on and after April 1, 1942, and before August 1, 1942.* (1) The maximum price for any article listed in § 1499.166, Appendix A of this Maximum Price Regulation No. 188 as originally issued on July 29, 1942, which was not delivered or offered for delivery in March 1942 by the manufacturer but for which a maximum price was finally determined in accordance with the provisions of the General Maximum Price Regulation, Temporary Maximum Price Regulation No. 3 or No. 5 or any other maximum price regulation issued by the Office of Price Administration and which was offered for sale before August 1, 1942 (or which was offered for sale to the United States or an Allied government before September 1, 1942) shall be the price so determined.

(2) The maximum price for any article first listed in § 1499.166, Appendix A of this Maximum Price Regulation No. 188 by an amendment to Maximum Price Regulation No. 188, issued after July 29, 1942, which was not delivered or offered for delivery in March 1942 by the manufacturer but for which a maximum price was finally determined in accordance with the provisions of the General Maximum Price Regulation, Temporary Maximum Price Regulation No. 3 or 5, or any other maximum price regulation issued by the Office of Price Administration and which was offered for sale before the effective date of the amendment first listing such commodity shall be the price so determined.

(c) *Reports of maximum prices.* On or before August 20, 1942 (or in the case of sales to the United States Government on or before November 1, 1942), the manufacturer shall report to the Office of Price Administration, Washington, D. C., all maximum prices determined under paragraph (b) (1) of this section which have not already been reported in accordance with the provisions of the General Maximum Price Regulation or Temporary Maximum Price Regulation No. 3 or 5, or any other maximum price regulation issued by the Office of Price Administration. Such reports shall contain a description of the articles and shall indicate the method of determining the maximum prices. All such maximum prices shall be subject to adjustment (not to apply retroactively) at any time upon written order of the Office of Price Administration.

No reports need be filed with respect to maximum prices determined under paragraph (b) (2) of this section.

[Paragraphs (b) and (c) amended by Am. 1, 7 F.R. 7967, effective 10-6-42; and Am. 4, 8 F.R. 537, effective 1-18-43]

§ 1499.154 *Maximum prices for articles of building materials and consumers' goods not finally priced before August 1, 1942.* This section shall apply to articles first offered for sale before August 1, 1942, for which no maximum price was finally determined, and to all articles first offered for sale on or after August 1, 1942.

The maximum price for any such article shall be the price determined by the first one of the four methods set forth in §§ 1499.155, 1499.156, 1499.157, and 1499.158 which applies to the article.

§ 1499.155 *First pricing method: minor changes.* The maximum price of any article differing from any article for which a maximum price has already been established, only by reason of minor changes in material, design, or construction which do not reduce cost of materials or prevent its offering fairly equivalent serviceability shall be the maximum price of the article already priced.

§ 1499.156 *Second pricing method: changes necessitated by shortages of materials or parts*—(a) *Maximum prices.* The maximum price of any article which cannot be priced under § 1499.155 and which differs from an article for which a maximum price has already been established, only because of changes necessitated by shortage of materials or parts used in the original article, shall be the maximum price of the original article adjusted by adding or subtracting the increase or decrease in unit direct cost resulting from the changes.

In calculating unit direct cost for the original article, the manufacturer shall compute on the basis of the wage rates, material prices, and operating conditions provided in paragraph (b) of § 1499.157 for comparable articles. In calculating unit direct cost for the changed article the manufacturer shall compute on the basis of the wage rates, material prices, and operating conditions provided in paragraph (b) of § 1499.157 for the article being priced.

(b) *Reports of maximum prices*—(1) *Articles first offered for sale before August 1, 1942.* In the case of an article first offered for sale before August 1, 1942, for which a maximum price must be determined under this section, the manufacturer shall report the maximum price as computed by him to the Office of Price Administration, Washington, D. C., on or before August 20, 1942. The report shall contain a description of the original and of the changed article, a detailed explanation of the changes made (including any innovation in manufacturing process) and the reasons therefor, details of the computation of unit direct cost and of the maximum price.

At any time prior to September 4, 1942, the manufacturer may offer for sale, sell or deliver the article at a tentative price if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

(2) *Articles first offered for sale during August 1942.* In the case of articles first offered for sale during August 1942, the manufacturer shall submit the report required in (1) on or before September 10, 1942.

At any time prior to September 25, 1942, the manufacturer may offer for sale, sell, or deliver the article at a tentative price if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the maximum price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

(3) *Articles first offered for sale on or after September 1, 1942.* Except as provided in the next paragraph of this subparagraph (3), in the case of an article first offered for sale on or after September 1, 1942, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., the report required in (1) prior to first offering the article for sale. Fifteen days after the mailing of the report, in the absence of a contrary direction from the Office of Price Administration, the manufacturer may offer for sale the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

In the case of an article for which a maximum price must be determined under this section for a sale to the United States Government or an Allied Government, the manufacturer may at any time offer for sale, sell, or deliver the article at a tentative price to such government or agency if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. The manufacturer shall submit the report required in (1) ten days after the formation of the contract. Fifteen days after the mailing of the report, in the absence of a notification to the contrary from the Office of Price Administration, the reported maximum price shall stand approved. Such approved price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

[Subparagraph (3) amended by Am. 1, 7 F.R. 7967, effective 10-6-42]

§ 1499.157 *Third pricing method: pricing by comparable articles.* The maximum price of any article which cannot be priced under § 1499.155 or § 1499.156 and which is comparable to an article currently being sold by the manufacturer for which a maximum price has already been established, shall be the price derived by the pricing formula set forth in this section.

NOTE. The meaning of certain terms used in this section is further explained in subsequent provisions of the section. The terms so explained are in quotation marks the first time that they appear in the text.

(a) *Pricing formula.* To establish a maximum price the manufacturer shall:

(1) Determine the "unit direct cost" for the article being priced.

(2) Select from his line of "comparable articles" currently being sold for which maximum prices have already been established, two comparable articles: the one which has a unit direct cost immedi-

ately higher and the one which has a unit direct cost immediately lower than the unit direct cost of the article being priced. If a comparable article has the same unit direct cost as the article being priced, it shall be selected in addition to the comparable articles immediately above and below. If all comparable articles are either above or below, the one closest in unit direct cost shall be selected.

(3) Determine both the average percentage and the average dollar mark-up over unit direct cost for the comparable articles selected.

(4) Apply to the unit direct cost of the article being priced either the average percentage or the average dollar mark-up, whichever will yield the lower price. The resulting price shall be the maximum price.

(Example of the above computation)

Unit direct cost of article being priced = $9.00

Unit direct costs of comparable articles selected according to (2)	Maximum selling price for each such article	Dollar mark-up for each such article	Average percentage mark-up for such articles
$10.00 7.00	$14.00 9.00	$4.00 2.00	$23.00 (Sum of maximum prices). −17.00 (Sum of unit direct costs).
17.00	23.00	6.00÷2=$3.00	6.00÷$17.00=35.3%

Unit direct cost+average percentage mark-up=$9.00+$3.18=$12.18.
Unit direct cost+average dollar mark-up=$9.00+$3.00=$12.00.
Maximum selling price of article being priced (the lower of above two sums)=$12.00.

In applying the formula, the manufacturer shall determine the class of purchaser to which he expects to sell the largest volume of the article being priced. In calculating the mark-up over unit direct cost for the comparable articles selected he shall use the maximum prices for such articles applicable to the same class of purchaser as that determined for the article being priced. If a comparable article does not have such a maximum price, he shall make appropriate adjustments of his established maximum price for the comparable article to obtain such a maximum price. The maximum price derived by the formula for the article being priced shall be the maximum price applicable to such largest volume class of purchaser. It shall be adjusted for other classes of purchasers according to § 1499.159.

(b) *Computation of unit direct cost.* To establish the unit direct cost of the comparable articles and of the article being priced, the manufacturer shall compute the cost per unit of direct labor and materials on the basis of the following wage rates, material prices, and operating conditions:

(1) *Wage rates.* The wage rates applicable to any article shall be the highest wage rates, in effect in the manufacturer's plant for any substantial portion of March 1942, for each class of labor involved in the production of the article. If the manufacturer did not employ a given class of labor in March 1942, he shall use the highest wage rate paid for any substantial portion of March 1942, by the nearest employer operating under comparable conditions who employed that class of labor during that month.

(2) *Material prices* — (i) *Comparable articles.* If a comparable article was priced and offered for sale before August 1, 1942, the price of any material used in it shall be the highest price charged during March 1942 (as defined in § 1499.163) by the "manufacturer's supplier."

If the comparable article was priced and first offered for sale on or after August 1, 1942, the price of any material used in it shall be computed as above, unless (a) the Office of Price Administration has established a lower maximum price for the sale of the materials to the manufacturer by his supplier, and (b) such lower price was used in calculating the maximum selling price for the comparable article (under § 1499.156 or of this section); in that event such lower price shall be the price of the material.

(ii) *Articles being priced.* The price of any material used in the article being priced shall be the highest price charged during March 1942 (as defined in § 1499.163) by the manufacturer's supplier; except that if the Office of Price Administration has established a lower maximum price for the sale of the material to the manufacturer by his supplier, such lower price shall govern.

(iii) *Manufacturer's supplier.* The manufacturer's supplier shall be (a) his March 1942, supplier of the material, or (b) lacking a March 1942 supplier of the material, his most recent supplier of the material. If neither of these exists, it shall be his potential supplier.

(3) *Operating conditions.* Using the wage rates and material prices determined under (1) and (2), the manufacturer shall compute the cost per unit of direct labor and materials for an article according to the methods customarily employed by him in computing his cost. For comparable articles he shall compute on the basis of productive techniques employed in his plant and of the actual volume of production prevailing during the most recent period in which the comparable article was produced prior to the time of mailing the report required by paragraph (e) of this section. For the article being priced he shall compute on the basis of productive techniques employed in his plant at the time of mailing such report and on the basis of the volume of production he reasonably expects.

(c) *Computation of mark-up*—(1) *Percentage.* The average percentage mark-up over unit direct costs shall be calculated by computing the percentage mark-up between the sum of the unit direct costs and the sum of the maximum prices of the comparable articles selected.

(2) *Dollar mark-up.* The average dollar mark-up over unit direct cost shall be calculated by averaging the individual dollar mark-ups between the unit direct costs and the maximum prices of the comparable articles selected.

(d) *Comparable articles.* An article shall be deemed comparable to another article which although differing therefrom by more than minor changes within the meaning of § 1499.155 of this Maximum Price Regulation No. 188, has the same general use as the other article and is recognized by the industry as being the same general type of product, even though different materials and construction are used.

(e) *Reports of maximum prices*—(1) *Articles first offered for sale before August 1, 1942.* In the case of an article first offered for sale before August 1, 1942, for which a maximum price must be determined under this section, the manufacturer shall report the maximum price as computed by him to the Office of Price Administration, Washington, D. C., on or before August 20, 1942. The report shall contain a description of the article being priced and of any innovation in manufacturing process involved and an explanation of the computation of the cost and the maximum price. It shall also describe each of the comparable articles, giving for each the maximum prices for all classes of purchasers and, if practicable, the volume of production for the three calendar months immediately preceding the filing of the report.

At any time prior to September 4, 1942, the manufacturer may offer for sale, sell, or deliver the article at a tentative price if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively), at any time upon the written order of the Office of Price Administration.

(2) *Articles first offered for sale during August 1942.* In the case of articles first offered for sale during August 1942, the manufacturer shall submit the report required in (1) on or before September 10, 1942.

At any time prior to September 25, 1942, the manufacturer may offer for sale, sell, or deliver the article at a tentative price if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the maximum price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

(3) *Articles first offered for sale on or after September 1, 1942.* Except as provided in the next paragraph of this subparagraph (3), in the case of an article first offered for sale on or after September 1, 1942, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., the report required in prior to first offering the article for sale. Fifteen days after the mailing of the report, in the absence of a contrary direction from the Office of Price Administration, the manufacturer may offer for sale the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

In the case of an article for which a maximum price must be determined under this section for a sale to the United States Government or an Allied Government, the manufacturer may at any time offer for sale, sell, or deliver the article at a tentative price to such a government or agency if he informs the purchaser that the maximum price must be determined under this section. In such case, he must refund any amounts collected in excess of the price so determined. The manufacturer shall submit the report required in ten days after the formation of the contract. Fifteen days after the mailing of the report, in the absence of a notification to the contrary from the Office of Price Administration, the reported maximum price shall stand approved. Such approved price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

[Subparagraph (3) amended by Am. 1, 7 F.R. 7967, effective 10–6–42]

§ 1499.153 *Fourth pricing method: specific authorization by the Office of Price Administration*—(a) *Maximum prices.* The maximum price for any article or group of related articles which cannot be priced under §§ 1499.155, 1499.156, or 1499.157, or which cannot be priced under §§ 1499.155, 1499.156, or 1499.157 without undue hardship, shall be the price or prices, in line with the level of maximum prices established by this Maximum Price Regulation No. 188, specially authorized by the Office of Price Administration. Such authorization will be given in the form of an order prescribing a method of determining the maximum price for the applicant or for sellers of the commodity generally, including purchasers for resale, or for a class of such sellers.

(b) *Reports of maximum prices.* Prior to first offering the article for sale the manufacturer shall submit to the Office of Price Administration, Washington, D. C., a report applying for specific authorization of a maximum price. The report shall contain a description in detail of the article (including the manufacturing process), a statement of the facts which make it necessary to price the article under this section, and the proposed maximum price, with a detailed explanation of its computation. If the manufacturer bases his report on undue hardship, he shall include in it all the information required by paragraph (e) of § 1499.157. If the manufacturer applies for approval of a pricing formula for a line or group of related articles, he shall include in his report a description in detail of the articles, including the manufacturing processes, and the manner in which they differ from one another, a statement of the pricing formula he proposes for such articles or the maximum prices he proposes, with a detailed explanation of their computation, and the reasons why such maximum prices or pricing formula will establish maximum prices in line with the level of maximum prices established by this Maximum Price Regulation No. 188. The manufacturer shall submit such other relevant information to supplement his report as the Office of Price Administration may require. Upon receipt of the authorization, the manufacturer may offer the articles for sale in accordance with the terms of the authorization.

In the case of an article for which a maximum price must be determined under this section for a sale to the United States Government or an Allied Government, the manufacturer shall submit the report required in the above paragraph (b) ten days after the formation of the contract. The manufacturer may at any time offer for sale, sell, or deliver the article at a tentative price to such government or agency if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. The price shall remain tentative until the maximum price has been determined by the Office of Price Administration.

[§ 1499.153 amended by Am. 1, 7 F.R. 7967, effective 10–6–42; and Am. 5, 8 F.R. 1815, effective 2–15–43]

§ 1499.159 *Price differentials and economies effected by new or changed articles*—(a) *Price differentials.* Every manufacturer shall continue all his allowances, discounts, and other price differentials in effect in March, 1942. In the case of articles priced under §§ 1499.155, 1499.156, 1499.157, or 1499.158 of this Maximum Price Regulation No. 188, every manufacturer shall in the case of sales to different classes of purchasers adjust the maximum prices determined for one general class of purchaser to reflect all allowances, discounts, and other price differentials which he was accustomed to make on that type of article.

(b) *Economies effected by new or changed articles.* Wherever after the introduction of a new or changed article the manufacturer realizes savings in indirect costs and expenses because of its introduction, the Office of Price Administration will by order require that such economies be reflected in the maximum price for such new or changed article. Wherever possible, such savings should be indicated in the reports required by §§ 1499.156, 1499.157 and 1499.158.

§ 1499.159a *Classification of purchasers in sales to the United States Government and Allied Governments.* For a sale to the United States Government or an Allied Government of an article for which a maximum price has not been determined for sales to the class of purchasers to which such government belongs, but for which a maximum price has been determined under §§ 1499.153, 1499.155, 1499.156, 1499.157, or 1499.158 for sales to purchasers of a different class, if the manufacturer had no customary differential between the class of purchasers for which the maximum price has been determined and such government or the class to which it belongs, such government shall be regarded as belonging to the class of purchasers to whom the manufacturer customarily sold the article in quantities most nearly equal to the quantity of the article involved in the sale to such government. If the manufacturer customarily sells to more than one class of purchaser in such quantities, the lowest maximum price applicable to sales of the article to such classes of purchasers shall apply.

[§ 1499.159a added by Am. 1, 7 F.R. 7967, effective 10–6–42]

§ 1499.159b *Modification of provisions of Maximum Price Regulation No. 188.* The provisions of Maximum Price Regulation No. 188 as applied to certain commodities subject thereto may be modified by order under this § 1499.159b.

[§ 1499.159b added by Am. 6, 8 F.R. 1980, effective 2–16–43]

§ 1499.160 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 188 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to, an article of building material or consumers' goods, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1499.161 *Applications for adjustment and petitions for amendment*—(a) *Applications for adjustment.* The Office of Price Administration, or any duly authorized officer thereof, may by order adjust any maximum price established under this Maximum Price Regulation No. 188 in the following cases:

(1) In the case of a manufacturer who shows:

(i) That such maximum price causes him substantial hardship and is abnormally low in relation to the maximum prices established for competitive sellers of the same or similar commodities; and

(ii) That establishing for him a maximum price bearing a normal relation to the maximum prices established for competitive sellers of the same or similar commodities will not cause or threaten to cause an increase in the level of retail prices.

Applications for adjustment under this subparagraph (1) shall be filed in accordance with Revised Procedural Regulation No. 1. No application for adjustment filed after November 15, 1942, will be granted under this subparagraph (1).

(2) In the case of any manufacturer, when it appears with respect to an article set forth in Appendix B (§ 1499.167) of this Maximum Price Regulation No. 188:

(i) That there exists or threatens to exist in a particular locality a shortage

in the supply of a commodity which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(ii) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such manufacturer and of like manufacturers for such commodity; and

(iii) That such adjustment will not create or tend to create a shortage, or need for increase in price, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Each regional administrator is authorized to make adjustments or act upon applications for adjustment under this subparagraph (2).

(3) In the case of any manufacturer who shows:

(i) That he is the sole manufacturer of an essential commodity such as one, the production and sale of which is affirmatively permitted by regulations or orders issued by the War Production Board.

(ii) That the maximum prices established by this regulation do not permit the recovery of total costs; and

(iii) That the operations of the company are currently being conducted at a loss.

Adjustment in price may be made to an extent sufficient to enable the manufacturer to recover total costs on the article, together with a profit. In a proper case, the manufacturer may charge a price equal to the price requested in the application, provided that he has received a letter from the Office of Price Administration stating that his is a proper case. Such price shall be tentative and refunds shall be made to each purchaser in the event that the application is denied in whole or in part. Applications for adjustment under this paragraph shall be filed in accordance with Revised Procedural Regulation No. 1.

[Paragraph (a) amended by Am. 2, 7 F.R. 8943, effective 11–4–42; Am. 7, 8 F.R. 3105, effective 3–11–43; and Am. 9, 8 F.R. 3850, effective 4–2–43]

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 188 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

[Paragraph (b) amended by Supplementary Order 26, 7 F.R. 8948, effective 11–4–42; and Am. 9]

[NOTE: Procedural Regulation No. 6 (7 F.R. 5087, 5665; 8 F.R. 6173, 6174) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Revised Supplementary Order No. 9 (8 F.R. 6175) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, excepting those which expressly prohibit such applications, and certain specific regulations listed in Revised Supplementary Order No. 9.]

[NOTE: Supplementary Order No. 26 (7 F.R. 9619) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

[NOTE: Revised Supplementary Order No. 34 (8 F.R. 12404) permits, under certain conditions, the addition of extra packing expenses on sales to procurement agencies of the United States.]

§ 1499.162 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 188 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 188 or any price schedule, regulation or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation are urged to communicate with the nearest district, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1499.162a *Licensing.* The provisions of Licensing Order No. 1,[8] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[§ 1499.162a added by Supplementary Order 72, 8 F.R. 13244, effective 10–1–43]

§ 1499.163 *Definitions.* (a) When used in this Maximum Price Regulation No. 188, the term:

(1) "Article" means any building material or consumers' good set forth in Appendix A (§ 1499.166) which is manufactured or sold as a distinct item.

(2) "Highest price charged during March 1942" means

(i) The highest price which the seller charged to a purchaser of the same class for delivery of the article or material during March 1942; or

(ii) If the seller made no such delivery during March 1942, such seller's highest offering price to a purchaser of the same class for delivery of the article or material during that month; or

(iii) If the seller made no such delivery and had no such offering price to a purchaser of the same class during March 1942, the highest price charged by the seller during March 1942, to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers: *Provided, however,* That

(*a*) If before April 1, 1942, the seller raised his prices for a commodity to all his classes of purchasers (or to all his classes of purchasers except those to which he was bound to make delivery during March 1942 under a firm commitment made before the price rise), and

(*b*) If during March 1942, he delivered the commodity at the increased price to at least one class of purchasers, then, in order to allow the seller to apply the price rise to any class of purchasers to which no delivery was made during that month after the price rise (except under a firm commitment made before the price rise), the highest price charged during March 1942 shall be deemed to be:

(*1*) The seller's increased offering price to such class of purchasers for delivery during March 1942, or

(*2*) If the seller had no such increased offering price to that particular class of purchasers, the highest price charged during March 1942 to a purchaser of a different class, adjusted to reflect

(i) The seller's customary differential in price between the two classes of purchasers; or

(ii) If the seller had no such customary differential, the actual percentage differential in price between the two classes of purchasers which existed at the time the seller last entered into a commitment, or, if he did not enter into such a commitment, last submitted an offering price for delivery to a purchaser of that particular class during March 1942.

[Subparagraph (2) amended by Am. 1, 7 F.R. 7967, effective 10–6–42; and Am. 3, 7 F.R. 10155, effective 12–10–42]

(3) "Manufacturer" means the person who makes the first sale of an article listed in Appendix A (§ 1499.166) of this regulation after the article has been completed to the point indicated by the terminology of the appendix.

[Subparagraph (3) amended by Am. 10, 8 F.R. 4140, effective 4–5–43]

(4) "Purchaser of the same class" and "class of purchaser" refers to the practice adopted by the seller in setting different prices for commodities for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or under different conditions of sale.

(5) "The United States Government or an Allied Government" means the United States or any agency thereof, or the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States," or any agency of any such Government.

[Subparagraph (5) added by Am. 1, 7 F.R. 7967, effective 10–6–42]

§ 1499.164 *Geographical applicability.* The provisions of this Maximum Price Regulation No. 188 shall be applicable to the forty-eight states and the District of Columbia.

§ 1499.165 *Effective date.* This Maximum Price Regulation No. 188 (§§ 1499.151 to 1499.166, inclusive) shall become effective August 1, 1942, for all sales and deliveries except sales and deliveries to the United States or any agency thereof, or to the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States," or any agency of any such Government. For such sales and deliveries it shall become effective September 1, 1942. [MPR 188 originally issued July 29, 1942]

[Effective dates of amendments are shown in notes following parts affected.]

§ 1499.166 *Appendix A: Articles covered by the regulation.* The following articles of building materials and consumer goods shall be covered by this Maximum Price Regulation No. 188:

NOTE: The articles listed below are not intended to include (a) any commodity subject to a specific maximum price regulation or price schedule in effect on August 1, 1942, or issued any time thereafter, (b) any commodity exempted from the General Maximum Price Regulation by any supplementary regulation thereto, in effect on August 1, 1942, or issued any time thereafter, (c) used, reconditioned, rebuilt, remodeled commodities, or commodities made from any used materials, except commodities specifically described below as being made of used material, or (d) parts, except those specifically listed as such below. Since the designations of some articles are broad enough in certain instances to suggest that articles are included which are intended to be excluded, other regulations which might be applicable to the article or type of article have been indicated. Manufacturers selling articles listed below should, before pricing their products in accordance with this regulation, determine whether specific price regulations or regulations supplementary to the General Maximum Price Regulation have been issued subsequent to the date of this regulation with respect to the articles so listed.

[Note amended by Am. 4, 8 F.R. 537, effective 1–18–43; and Am. 16, 8 F.R. 9836, effective 7–20–43]

(a) *Building materials.*

(1) Mechanical building materials and equipment.

(i) Repair parts and service parts for mechanical building materials and equipment indicated below.

(ii) Miscellaneous building equipment:

Hardware:
- Builders (except as covered by Revised Price Schedule No. 40 [9])
- Casket, shell
- Furniture
- Marine locks and hinges (and other related marine items)
- Refrigerator
- Showcase

Ornamental iron and sheet metal work:
- Air distribution ducts
- Conductor pipe, elbows, shoes
- Doors (metal) except airplane hangar doors
- Flashings and valleys
- Gratings and floorings (metal)
- Gutters and eaves trough
- Heads, funnels and accessories
- Louvers (metal)
- Miscellaneous sheet metal building products:
  - Batten strips (metal)
  - Building corners (metal)
  - Chimney caps, etc. (metal)
  - Rain water cut-offs
- Pipe hangers, rest rollers and miscellaneous piping accessories
- Radiator enclosures (metal)
- Ridge roll and accessories
- Sash (metal)
- Skylights (metal)
- Ties (metal)
- Timber connectors (metal)
- Ventilators, sheet metal
- Weatherstrips (metal)

[Subdivision (ii) amended by Am. 13, 8 F.R. 7107, effective 5–31–43]

(iii) Heating and winter air conditioning:

Boilers—heating, steam and hot water:
- Cast iron—all types (except those covered by Maximum Price Regulation No. 272 [10])
- Steel—domestic and commercial (except industrial boilers covered by Maximum Price Regulation No. 136,[9] as amended)

Boilers—hot water supply:
- Round or wet dome boilers (low test boilers 65 to 150 lbs. pressure)
- Flat top
- Round top

Round or sectional type (high test boilers 250 to 350 lbs. pressure)

Burners:
- Gas—all types (except industrial covered by Maximum Price Regulation No. 136, as amended)
- Oil—all types (except industrial burners using No. 6 Oil or heavier)

Coils except those manufactured from glass:
- Extended surface
- Finned, etc.

Controls—automatic—for comfort conditioning, either heating or cooling

Fuel oil storage tanks—domestic above ground installation (except those covered by Revised Price Schedule No. 96 [9])

Furnaces, heating, warm air (cast iron or steel):
- Gravity
- Fan furnace units only
- Fan furnace burner units
- Defense housing heater units
- Defense housing chimney heater units
- Floor furnaces (gas or oil type)

Furnace pipe and fittings:
- For gravity heating
- For forced air heating
- Furnace smoke pipe (7 inch and larger)

Miscellaneous heating equipment:
- Air distribution outlets:
  - Registers:
    - Cast (ferrous or non-ferrous)
    - Fabricated steel
    - Pipeless furnace
  - Grilles:
    - Cast (ferrous or non-ferrous)
    - Fabricated steel
    - Air conditioning grilles

Radiation—cast iron (except as covered by Maximum Price Regulation No. 272):
- Small tube (Arco type)
- Large tube (Corto type)
- Special types:
  - Hospital
  - Radiant front (Richvar)
  - Wall radiators
  - Vento radiators
- Convectors
- Conversion grates (except as covered by Revised Maximum Price Regulation No. 236 [10])

Stokers—Coal (except those having a capacity of 1200 lbs. per hour or more, covered by Maximum Price Regulation No. 136, as amended)

Unit heaters:
- Gas
- Hot water
- Steam

[Subdivision (iii) amended by Am. 38, effective 7–24–44]

(iv) Plumbing:

Cast iron pressure pipe and fittings

Cast iron soil pipe and fittings (except as covered by Revised Price Schedule No. 100,[11] as amended)

Fire fighting (standpipe) equipment:
- Nozzles
- Play pipes

Fire fighting (standpipe) equipment—Con.
- Racks
- Siamese (or steamer) connections
- Wrenches

Hot water heaters:
- Direct-fired, all types
- Indirect-fired, all types

Plastic pipe and plastic tubing manufactured from co-polymer vinyl and vinylidene chlorides commercially known as "Saran B 11."

Plumbing fixtures and specialties:
- Accessories (if attached to plumbing fixtures)
- Basins
- Bathtubs
- Drains
- Drinking fountains
- Ferrules
- Fixture trim or fittings
- Grease interceptors
- Laboratories
- Mixing valves
- Sinks
- Tanks (except wooden tanks)
- Toilet seat hinges
- Toilet seats
- Trays
- Tubs
- Urinals
- Wash fountains
- Wash sinks
- Waste connections
- Water closets
- Etc.

Sprinkler system equipment:
- All types

Tanks (except wooden tanks):
- (Defined as pressure vessels customarily prefabricated not exceeding 192 gallons in capacity.
- Made of metal 12" BWI gauge or thinner coated or uncoated
- lined or unlined
- Fabricated from clay or clay products)
- Expansion tanks
- Hot water storage tanks
- Pneumatic tanks
- Range boilers

Water filtering and treating equipment:
- Domestic, all types.

[Subdivision (iv) amended by Am. 13, 8 F.R. 7107, effective 5–31–43; and Am. 18, 8 F.R. 10907, effective 8–9–43]

(v) Valves and pipe fittings:

Cocks—all types and pressure, made of brass, iron, steel, and other materials

Fittings—pipe and tubing except those manufactured from glass:
- All types and pressures
- Brass (cast or forged)
- Iron (cast or malleable)
- Plastic (extruded or molded)
- Steel (cast or forged)
- And all other materials

Refrigeration

S. A. E.:
- Flanged
- Screwed
- Welding

All other evolutions of these basic types

Steam and hot water heating specialties
- (Except those covered under Maximum Price Regulation No. 136, as amended)

Valves—hand operated:
- All types and pressures. Made of brass, iron, cast or forged steel and other materials.
- Angle
- Check
- Gate
- Globe
- Refrigeration
- S. A. E.

PART 1305—ADMINISTRATION

[Gen. RO 5,[1] Amdt. 75]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

General Ration Order No. 5 is amended in the following respects:

1. A new section 15.2 (c) is added to read as follows:

(c) Processed foods and foods covered by Revised Ration Order 16 which are acquired by an institutional user at less than their full point value under section 9.11 of Revised Ration Order 13 and section 6.10 or 10.11 of Revised Ration Order 16, respectively, shall, for all purposes of paragraph (a), be considered to have, at the time of use, the point value at which he acquired them.

2. A new section 15.5 (b) (5) is added to read as follows:

(5) Processed foods or foods covered by Revised Ration Order 16 which are acquired at less than their full point value under section 9.11 of Revised Ration Order 13 and section 6.10 or 10.11 of Revised Ration Order 16, respectively.

This amendment shall become effective July 24, 1944.

43. That portion of § 1306.165 (b) (5) (ii) beginning with the heading "Freight" and preceding the heading "Spread" is amended to read as follows:

Freight. (Rate per 100 lbs. in effect at time of shipment). Freight may be added for less-than-carload shipments as follows:

TABLE C–1—ALL PRODUCTS EXCEPT HOT ROLLED AND COLD FINISHED ALLOY BARS, STAINLESS STEEL SHEETS, BARS, PLATES AND ANGLES

a. *Standard provision.* The less-than-carload rate of freight from the governing basing point to destination with the following exceptions:

(1) If a product is shipped to a destination within the switching limits of Pittsburgh, Pennsylvania; Cleveland, Ohio; Buffalo, New York; or Detroit, Michigan, and if that city is designated as a basing point for such product, freight may be added at the rate of $0.10 per 100 pounds.

(2) If a product is shipped to a destination within the switching limits of Middletown, Ohio, or Youngstown, Ohio, and if that city is designated as a basing point for such product, no freight may be added.

b. *Maximum freight absorption provision.* Part A of this Table C–1 shall not be applicable where the shipping point and the destination are both within Zone Five and the sum of the shipping point price plus the less-than-carload rate of freight from the shipping point to destination is greater than the zone destination price (computed without regard to this Part B) by more than $0.30 per 100 pounds.

In such cases freight shall be computed in accordance with whichever of the following alternatives results in the higher charge:

1. The sum of (a) the less-than-carload rate of freight from basing point to shipping point plus (b) the less-than-carload rate of freight from shipping point to destination minus (c) a deduction at the rate of $0.30 per 100 pounds ("basing point", in this instance, refers to the basing point the use of which results in the lowest price at the shipping point); or

2. The sum of (a) the less-than-carload rate of freight from basing point to shipping point plus (b) the transportation charges actually paid from shipping point to destination minus (c) a deduction at the rate of $0.40 per 100 pounds ("basing point", in this instance, refers to the basing point the use of which results in the lowest price at the shipping point).

TABLE C–2—HOT ROLLED AND COLD FINISHED ALLOY BARS; STAINLESS STEEL SHEETS, BARS, PLATES AND ANGLES.

a. *Standard provision.* The less-than-carload rate of freight from the governing basing point to destination with the exception that no freight may be added for shipments to a destination within the switching limits of a basing point for the product shipped.

b. *Maximum freight absorption provision.* Part A of this Table C–1 shall not be applicable where the shipping point and the destination are both within Zone Five and the sum of the shipping point price plus less-than-carload freight from shipping point to destination is greater than the zone destination price (computed without regard to this Part B) by more than $0.30 per 100 pounds.

In such cases freight shall be computed in accordance with whichever of the following alternatives results in the higher charge:

1. The sum of (a) the less-than-carload rate of freight from basing point to shipping point plus (b) the less-than-carload rate of freight from shipping point to destination minus (c) a deduction at the rate of $0.30 per 100 pounds ("basing point", in this instance, refers to the basing point the use of which results in the lowest price at the shipping point); or

2. The sum of (a) the less-than-carload rate of freight from basing point to shipping point plus (b) the transportation charges actually paid from shipping point to destination minus (c) a deduction at the rate of $0.40 per 100 pounds ("basing point", in this instance, refers to the basing point the use of which results in the lowest price at the shipping point).

44. In § 1306.165 (b) (5) (ii), Table F–8, Part B, a further proviso is added to read as follows:

Provided further, That the charge permitted by Part B of this table need in no instance be less than the charge permitted by Part A of this table for a similar treatment or quality.

45. In § 1306.165 (b) (5) (ii), that portion of Table G–1 following the subtitle "Beams" and preceding the subtitle "Wide Flange Sections" is amended by deleting the words "and channels" each time they appear therein.

109. In § 1306.165 (b) (10) (ii), Table K–2, Part B, the heading "Hot Rolled Sheets" is amended to read "Hot Rolled Sheets and Hot Rolled Bars"; and the heading "Hot Rolled Bars and Hot Rolled Strip" is amended to read "Hot Rolled Strip".

110. In § 1306.165 (b) (11) (ii), Zone Eleven Price Component Index, column "K" entitled "Miscellaneous Extras" opposite the product "Hot Rolled Alloy Bars" delete the word "None" and insert in lieu thereof the designation "K–2".

111. In § 1306.165 (b) (11) (ii), Table C–1 is amended to read as follows:

TABLE C–1

a. *Standard provision.* (1) For a shipment of a product for which Birmingham, Alabama, is a basing point, the less-than-carload rate of freight from the governing basing point to destination with the following exceptions:

(a) If a product is shipped within the switching limits of Birmingham, Alabama, freight may be added at the rate of $0.10 per 100 pounds.

(b) If a product is shipped within the switching limits of New Orleans, Louisiana; Mobile, Alabama; or Memphis, Tennessee, freight may be added at the rate of $0.10 per 100 pounds in excess of the less-than-carload rate of freight from Birmingham to destination.

(2) For a shipment of a product for which Birmingham, Alabama, is not a basing point the less-than-carload rate of freight from the governing basing point to destination.

b. *Maximum freight absorption provision.* Part A of this Table C–1 shall not be applicable where the shipping point and destination are both within Zone Eleven and the sum of the shipping point price plus the less-than-carload rate of freight from shipping point to destination is greater than the zone destination price (computed without regard to this Part B) by more than $0.25 per 100 pounds.

In such cases freight shall be computed in accordance with whichever of the following alternatives results in the higher charge:

(1) The sum of (a) the less-than-carload rate of freight from basing point to shipping point plus (b) the less-than-carload rate of freight from shipping point to destination minus (c) a deduction at the rate of $0.25 per 100 pounds ("basing point," in this instance, refers to the basing point the use of which results in the lowest price at the shipping point); or

(2) The sum of (a) the less-than-carload rate of freight from basing point to shipping point plus (b) the transportation charges actually paid from shipping point to destination minus (c) a deduction at the rate of $0.35 per 100 pounds ("basing point", in this instance, refers to the basing point the use of which results in the lowest price at the shipping point).

112. In § 1306.165 (b) (11) (ii), Table F–9, Part B, a further proviso is added to read as follows:

Provided further, That the charge permitted by Part B of this table need in no instance be less than the charge permitted by Part A of this table for a similar treatment or quality.

113. In § 1306.165 (b) (11) (ii), that portion of Table G–1 following the subtitle "Beams" and preceding the subtitle "Wide Flange Sections" is amended by deleting the words "and channels" each time they appear therein.

114. In § 1306.165 (b) (11) (ii), that portion of Table G–1 following the heading "Channels" and preceding the heading "Structural Angles" is amended to read as follows:

168. In § 1306.165 (b) (16) (ii), Table K–2, Part B, the heading "Hot Rolled Sheets" is amended to read "Hot Rolled Sheets and Hot Rolled Bars"; and the heading "Hot Rolled Bars and Hot Rolled Strip" is amended to read "Hot Rolled Strip".

169. In § 1306.165 (b) (17) (ii), Zone Seventeen Price Component Index, column "K" entitled "Miscellaneous Extras" opposite the product "Hot Rolled Alloy Bars" delete the word "None" and insert in lieu thereof the designation "K–2".

170. That portion of § 1306.165 (b) (17) (ii) beginning with the heading "Freight" and preceding the heading "Spread" is amended to read as follows:

Freight. (Rate per 100 pounds in effect at time of shipment.) Freight may be added for less-than-carload shipments as follows:

TABLE C–1

a. *Standard Provision.* The carload rate of freight from basing point to Salt Lake City, Utah, plus the less-than-carload rate of freight from Salt Lake City, Utah; Provo, Utah; Ogden, Utah; Pocatello, Idaho; or Boise, Idaho to destination, whichever is less, with the exception that where the destination is within the switching limits of Salt Lake City, Utah; Provo, Utah; Ogden, Utah; Pocatello, Idaho; or Boise, Idaho, only the carload rate of freight from basing point to Salt Lake City, Utah may be added.

b. *Maximum freight absorption provision.* Part A of this Table C–1 shall not be applicable where the shipping point and the destination are both within Zone Seventeen and the sum of the shipping point price plus the less-than-carload rate of freight from shipping point to destination is greater than the zone destination price (computed without regard to this Part B) by more than $0.45 per 100 pounds.

In such cases freight shall be computed in accordance with whichever of the following alternatives results in the higher charge:

1. The sum of (a) the carload rate of freight from basing point to Salt Lake City, Utah plus (b) the less-than-carload rate of freight from Salt Lake City, Utah; Provo, Utah; Ogden, Utah; Pocatello, Idaho, or Boise, Idaho to shipping point, whichever is less, plus (c) the less-than-carload rate of freight from shipping point to destination minus (d) a deduction at the rate of $0.45 per 100 pounds: *Provided,* That no freight may be added in accordance with (b) above for shipments from a shipping point within the switching limits of Salt Lake City, Utah; Provo, Utah; Ogden, Utah; Pocatello, Idaho; or Boise, Idaho ("basing point", in this instance, refers to the basing point the use of which results in the lowest price at the shipping point); or

2. The sum of (a) the carload rate of freight from basing point to Salt Lake City, Utah plus (b) the less-than-carload rate of freight from Salt Lake City, Utah; Provo, Utah; Ogden, Utah; Pocatello, Idaho; or Boise, Idaho to shipping point, whichever is less, plus (c) the transportation charges actually paid from shipping point to destination minus (d) a deduction at the rate of $0.55 per 100 pounds: *Provided,* That no freight may be added in accordance with (b) above for shipments from a shipping point within the switching limits of Salt Lake City, Utah; Provo, Utah; Ogden, Utah; Pocatello, Idaho; or Boise, Idaho ("basing point", in this instance, refers to the basing point the use of which results in the lowest price at the shipping point).

TABLE C–2

a. *Standard provision.* The less-than-carload rate of freight from the governing basing point to the destination.

b. *Maximum freight absorption provision.* Part A of this Table C–2 shall not be applicable where the shipping point and the destination are both within Zone Seventeen and the sum of the shipping point price plus the less-than-carload rate of freight from shipping point to destination is greater than the zone destination price (computed without regard to this Part B) by more than $0.45 per 100 pounds.

In such cases freight shall be computed in accordance with whichever of the following alternatives results in the higher charge:

1. The sum of (a) the less-than-carload rate of freight from basing point to shipping point plus (b) the less-than-carload rate of freight from shipping point to destination minus (c) a deduction at the rate of $0.45 per 100 pounds ("basing point", in this instance, refers to the basing point the use of which results in the lowest price at the shipping point); or

2. The sum of (a) the less-than-carload rate of freight from basing point to shipping point plus (b) the transportation charges actually paid from shipping point to destination minus (c) a deduction at the rate of $0.55 per 100 pounds ("basing point", in this instance, refers to the basing point the use of which results in the lowest price at the shipping point).

171. § 1306.165 (b) (17) (ii), Table F–9, Part B, a further proviso is added to read as follows:

Provided further, That the charge permitted by Part B of this table need in no instance be less than the charge permitted by Part A of this table for a similar treatment or quality.

172. In § 1306.165 (b) (17) (ii), that portion of Table G–1 following the subtitle "Beams" and preceding the subtitle "Wide Flange Sections" is amended by deleting the words "and channels" each time they appear therein.

173. In § 1306.165 (b) (17) (ii), that portion of Table G–1 following the heading "Channels" and preceding the heading "Structural Angles" is amended to read as follows:

PART 1404—RATIONING OF FOOTWEAR

[RO 17,[1] Amdt. 67]

SHOES

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 17 is amended in the following respects:

1. A new section 2.11 (k) is added to read as follows:

(k) Any establishment may be authorized to transfer as non-rationed men's and women's factory damaged shoes which cannot reasonably be sold for ration currency, in accordance with the following provisions:

(1) For the purposes of this paragraph, a factory damaged shoe is a shoe damaged in the process of manufacturing to such an extent that the imperfection or damage substantially decreases the value of the shoe, the damage being due to defective machinery, poor workmanship or use of imperfect materials, and the imperfection or damage being visible before the shoes are or were first transferred by the manufacturer. (However, if shoes were damaged because of the use of the imperfect materials and the damage due to such imperfect materials substantially decreases the value of the shoes and is or was plainly visible at the time the shoes are or were returned to the manufacturer, or inspected by the District Office, they may be included as factory damaged shoes.)

(2) Application to transfer shoes as non-rationed under this paragraph, shall be made to the District Office for the area where the establishment is located. No application shall be acted upon by the District Office before August 5, 1944. No application may be made after August 31, 1944. Only one application may be made unless the District Office in its discretion otherwise permits. The application need not be made on any prescribed form but shall contain or be accompanied by two copies of a list of the shoes proposed to be transferred as non-rationed, showing the number of pairs of shoes of each type (as set forth on OPA Form R-1701 or OPA Form R-1701A) sought to be transferred ration-free. Only factory damaged shoes which the establishment has in its inventory on the date of the application may be included in the application. Establishments, other than manufacturing establishments, may include in the application only shoes which were invoiced as factory damaged shoes unless the shoes are damaged because of the use of imperfect materials and are inspected by the District Office. Before the District Office approves an application, it may inspect any shoes included therein to determine whether or not they are "factory damaged shoes" within the meaning of subparagraph (1) above.

(3) The District Office, if it approves the application in whole or in part shall indicate its approval in writing and shall attach thereto a copy of the list of shoes submitted by the applicant, on which it shall indicate the number of pairs of shoes authorized to be transferred as non-rationed. The District Office shall issue to the applicant official non-rationed stickers (OPA Form R-1711, or R-123 with the words "Non-Rationed" printed on it) equal to the number of pairs of shoes permitted to be transferred as non-rationed. Before transferring any shoes as non-rationed under this subparagraph, the establishment must attach one of such stickers to the inside of the left shoe of each pair of shoes and the establishment shall write or print on each sticker the words "Factory Damaged", or the letters "F. D.", and a code number assigned by the District Office.

(4) Any establishment may transfer ration-free to any other establishment factory damaged shoes that are marked in accordance with subparagraph (3) above, if the price charged does not exceed $1.20 per pair. Any establishment whose sales of shoes are made principally to consumers may transfer such shoes to consumers ration-free, if the price charged does not exceed $1.80 per pair. Any establishment selling such shoes at a price in excess of these limitations must collect ration currency for them and surrender the currency to the District Office within five days.

(5) When such shoes are offered for sale to consumers in any notice or advertisement, they shall be referred to as "OPA Release—Factory Damaged Shoes."

(6) For the purposes of this paragraph the price charged to an establishment is the invoice price less any separable transportation expense (a charge for freight or postage which is stated separately on the invoice but which is part of the invoice price). In determining the price charged, a cash or trade discount may not be deducted from the invoice price.

(7) Each establishment shall keep a record, in the manner required by section 2.13 (b) (9) showing the number of pairs of shoes in its inventory which were released under this paragraph, and the number of pairs of shoes released or acquired ration-free under this paragraph which later became rationed shoes because the stickers were detached or because the shoes were sold at a price in excess of the price limitations of this paragraph.

This amendment shall become effective July 24, 1944.

NOTE: The reporting requirements and record-keeping provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 20th day of July 1944.

PART 1429—POULTRY AND EGGS

[RMPR 269,[1] Amdt. 32]

POULTRY

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 269 is amended in the following respects:

1. The heading of § 1429.19 (h) (1) (i) is amended to read as follows: *"Grade 'A' processed poultry items and Grade 'I' live poultry items."*

2. Section 1429.19 (h) (1) (ii) is amended to read as follows:

(ii) *Grade "B" processed poultry items.* All Grade "B" processed poultry items, except Grade "B" processed duck items, shall be 1½ cents per pound less in price than the corresponding Grade "A" processed poultry items listed above. All Grade "B" processed duck items shall be the same price as Grade "A" processed duck items.

3. Section 1429.19 (h) (1) (iii) is amended to read as follows:

(iii) *Grade "C" processed poultry items and Grade "2" live poultry items.* All Grade "C" processed poultry items shall be 4 cents per pound less in price than the corresponding Grade "A" processed poultry items listed in Table A above. All Grade "2" live poultry items shall be 4 cents per pound less in price than the corresponding Grade "1" live poultry items listed in Table A above.

4. Section 1429.19(j) is amended to read as follows:

(j) *Species, age and sex specifications for items listed in Table A.* Species, age and sex specifications promulgated by the United States Department of Agriculture in the publications listed immediately below shall be used as the species, age and sex specifications for all poultry items listed in Table A of this section.

Tentative U. S. Standards for Classes and Grades for Dressed Turkeys.

Classifications and Tentative Specifications for U. S. Standards and Grades for Dressed Chickens.

Tentative Specifications for U. S. Standards and Grades for Dressed Ducks, Geese, Guineas and Squabs.

Tentative U. S. Standards for Classes and Grades for Live Poultry.

5. Section 1429.19(k) (3) is amended to read as follows:

(3) The Tentative Standards for Classes and Grades for Live Poultry now in effect shall apply to all sales, purchases, or deliveries of live poultry covered herein. Revisions promulgated by the Department of Agriculture shall become concurrently effective for the purpose of this regulation for live poultry sold, purchased, or delivered after the issuance of such revisions.

This amendment shall become effective July 24, 1944.

Issued this 20th day of July 1944.

PART 1499—COMMODITIES AND SERVICES

[SR 15[2] to GMPR,[1] Amdt. 29]

MAYONNAISE AND SALAD DRESSING

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

A new § 1499.75 (a) (17) is added to read as follows:

(17) *Mayonnaise and salad dressing.* (i) The Office of Price Administration or any regional office thereof may, on application for adjustment in accordance with the provisions of Revised Procedural Regulation No. 1,[3] adjust the maximum price of a processor or manufacturer of mayonnaise or salad dressing where the processor or manufacturer shows that:

(*a*) The processor's or manufacturer's maximum price is below the general level of prices prevailing for similar products sold in the same general area as that in which the applicant's product is sold.

By "similar product" is meant a product the total fat content of which is approximately the same as the total fat content of applicant's product.

(*b*) The processor or manufacturer is or will be unable to maintain his production at his present maximum price; and

(*c*) The loss of his production would result in consumers having to pay higher prices for the most nearly similar product available; and

(*d*) An increase in his maximum price will enable him to continue production; and where

(*e*) The Administrator is of the opinion that an increase in his maximum price would, under all the circumstances, be in furtherance of the purposes of the Emergency Price Control Act of 1942, as amended.

The maximum price increase that may be granted to a processor or manufacturer under this § 1499.75 (a) (17) shall not cause his price to exceed the general level of prices prevailing for similar products sold in the same general area as that in which applicant's product is sold. Subject to this limitation, an increase may be granted not to exceed the total cost of the product, or if the applicant's earnings from all operations, before income and excess profits taxes, are low in comparison with those of a "representative peace-time period", adjusted for subsequent changes in investment, and if in view of such over-all earnings a small margin of profit is reasonably necessary to permit production, an increase may be allowed estimated to yield such a profit margin. A "representative peace-time period" means the period of the years 1936–1939, inclusive. When 1936 to 1939 does not represent a reasonably normal pre-war period, some other period may be used, but its use must be positively justified in the application.

(ii) Each application shall be filed in triplicate in the District Office for the district in which is located the applicant's principal place of business. It must be accompanied by a sworn chemical analysis of an independent, reputable chemist or chemical firm, of the fat content (as determined by the official tentative methods of analysis of the Association of Official Agriculture Chemists, 5th Ed. 1940) of applicant's mayonnaise or salad dressing and of the mayonnaise or salad dressings with which it is being compared.

(iii) If an adjustment is granted to a manufacturer or processor, an adjustment at the same time shall be granted to distributors, other than wholesalers or retailers covered by Maximum Price Regulations Nos. 421, 422 and 423, to the extent of the increase allowed to the manufacturer or processor, and such distributors shall be required to notify wholesalers and retailers covered by Maximum Price Regulations Nos. 421, 422 and 423 to whom they sell, to refigure their ceiling prices on the item in accordance with the provisions of Maximum Price Regulations Nos. 421, 422 and 423.

(iv) *Definitions.* When used in this § 1499.75 (a) (17) the term

(*a*) "Mayonnaise" means the semi-solid emulsion of edible vegetable oil, egg yolk or whole egg, a vinegar and/or lemon juice, with one or more of the following: salt and other seasoning commonly used in its preparation, sugar and/or dextrose. The finished product must contain not less than 50 percent edible vegetable oil.

(*b*) "Salad dressing" is the wholly or partly cooked or boiled semi-solid emulsion of edible vegetable oil, egg yolk or whole egg, vinegar, water and/or lemon juice, with one or more of the following: salt and other seasoning commonly used in its preparation, sugar and/or dextrose, starches or other edible moisture absorbing agents.

This amendment shall become effective July 25, 1944.

Issued this 20th day of July 1944.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 207-A]

PART 95—CAR SERVICE

RESTRICTION ON HOLDING CERTAIN REFRIGERATOR CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 19th day of July, A. D. 1944.

Upon further consideration of Service Order No. 207 (9 F.R. 5316) of May 16, 1944, and good cause appearing therefor:

It is ordered, That:

Service Order No. 207 (9 F.R. 5316) of May 16, 1944, 49 C.F.R. § 95.38 restricting the holding of cars loaded with fruits, vegetables and melons for orders, reconsignment or diversion at points in the South, be, and it is hereby, vacated and set aside. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)–(17))

It is further ordered, That this order shall become effective at 12:01 a. m., July 21, 1944; that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

[1944 Dept. Circ. 746]

⅞ PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES E-1945

OFFERING OF CERTIFICATES

JULY 20, 1944.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States for certificates of indebtedness of the United States, designated ⅞ percent Treasury Certificates of Indebtedness of Series E-1945, in exchange for Treasury Certificates of Indebtedness of Series D-1944, maturing August 1, 1944.

II. *Description of certificates.* 1. The certificates will be dated August 1, 1944, and will bear interest from that date at the rate of ⅞ percent per annum, payable semiannually on February 1 and August 1, 1945. They will mature August 1, 1945, and will not be subject to call for redemption prior to maturity.

2. That income derived from the certificates shall be subject to all Federal taxes, now or hereafter imposed. The certificates shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates with interest coupons attached will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of certificates applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for certificates allotted hereunder must be made on or before August 1, 1944, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series D-1944, maturing August 1, 1944, which will be accepted at par, and should accompany the subscription.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[Vesting Order 3879]

CARL FRIDRICK BOGER

In re: Estate of Carl Fridrick Boger, also known as Carl Frederick Boger, deceased; File D–28–3859; E. T. sec. 6603.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Roland Maxwell, Administrator with the Will Annexed, acting under the judicial supervision of the Superior Court of the State of California, in and for the County of Los Angeles;

(2) Such property and interests are payable or deliverable to, or claimed by a national of a designated enemy country, Germany, namely,

National and Last Known Address

Wilhelm Boger, Germany.

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Wilhem Boger, in and to the estate of Carl Fridrick Boger, also known as Carl Frederick Boger, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: July 11, 1944.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Bank of New York, as Trustee, acting under the judicial supervision of the Surrogate's Court, New York County, New York;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Ada Ursula Brambeer, or her issue, Germany.

Francis Moran Brambeer, Jr., Germany.

Francis Moran Brambeer, Germany.

Sarah von Berenberg-Gossler, Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Ada Ursula Brambeer, or her issue, Francis Moran Brambeer, Jr., Francis Moran Brambeer and Sarah von Berenberg-Gossler, and each of them, in and to trusts created under the Will of Frederick W. Brambeer, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by L. Edmund Zacher and William R. C. Corson, Co-Executors, acting under the judicial supervision of the Court of Probate for the District of Hartford, State of Connecticut;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Baronin Von Hoyningen-Huene (formerly Aimee Ellis), Neustrelitz, Mecklenburg, Germany.

The children of Baronin Von Hoyningen-Huene (formerly Aimee Ellis), Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests;

All right, title, interest and claim of any kind or character whatsoever of Baronin Von Hoyningen-Huene (formerly Aimee Ellis) and the children of Baronin Von Hoyningen-Huene (formerly Aimee Ellis) in and to the trust created under the Last Will and Testament of George William Ellis, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: July 11, 1944.

(f) All right, title, interest and claim of any kind or character whatsoever of Emily Bachmann in and to trust certificate No. 127 of Mortgage Investment No. 68336 for $277.78, issued by the Fidelity Union Trust Company;

(g) All right, title, interest and claim of any kind or character whatsoever of Elise Sparwasser in and to trust certificate No. 128 of Mortgage Investment No. 68336 for $277.78, issued by the Fidelity Union Trust Company;

(h) All right, title, interest and claim of any kind or character whatsoever of Kaethe Dick in and to trust certificate No. 129 of Mortgage Investment No. 68336 for $277.78, issued by the Fidelity Union Trust Company;

(i) All right, title, interest and claim of any kind or character whatsoever of Gertrud Rose in and to trust certificate No. 130 of Mortgage Investment No. 68336 for $277.78, issued by the Fidelity Union Trust Company;

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

ALMA KURTS

In re: Estate of Alma Kurts, deceased; File D–55–85; E. T. Sec. 457.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by the Treasurer of the City of New York, as Depositary, acting under the judicial supervision of the Surrogate's Court of the State of New York, in and for Kings County;

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely,

National and Last Known Address

Sigurd Monsrud, Germany.

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Sigurd Monsrud in and to the estate of Alma Kurts, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: July 11, 1944.

G. and Heinrich Koppers, G. m. b. H., relating, among other things, to patent number 1,924,743, issued August 29, 1933, inventor E. Lux,

(d) All interests and rights (including all royalties and other monies payable or held with respect to such interests and rights and all damages for breach of the agreement hereinafter described, together with the right to sue therefor) created in Heinrich Koppers, G. m. b. H. by virtue of an agreement dated September 24, 1937 (including all modifications thereof or supplements thereto, including, but without limitation, a confirmatory agreement dated November 24, 1937) by and between A. P. Green Fire Brick Company and Heinrich Koppers, G. m. b. H., relating, among other things, to patent number 1,924,743,

is property of, or is property payable or held with respect to patents or rights related thereto in which interests are held by, and such property itself constitutes interests held therein by, nationals of a foreign country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive order No. 9095, as amended.

Executed at Washington, D. C., on June 22, 1944.

MARTHA A. LAMROCK

In re: Estate of Martha A. Lamrock, deceased; File D–28–8233; E. T. sec. 9364.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Jessie A. Spalding, Administratrix with the Will Annexed, acting under the judicial supervision of the Superior Court of the State of California, in and for the County of Santa Clara;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Elise Nagel, also known as Elisa Nagel, or her issue, Germany.
Henry Nagel, also known as Heinrich Nagel, or his issue, Germany.
George Nagel or his issue, Germany.
William Nagel, also known as Wilhelm Nagel, or his issue, Germany.
Issue, name or names unknown of Anna Nagel, Germany.
Issue, name or names unknown of Carl Nagel, Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest, and claim of any kind or character whatsoever of Elise Nagel, also known as Elisa Nagel, or her issue; Henry Nagel, also known as Heinrich Nagel, or his issue; George Nagel or his issue; William Nagel, also known as Wilhelm Nagel, or his issue; issue, name or names unknown, of Anna Nagel; issue, name or names unknown, of Carl Nagel, and each of them, in and to the estate of Martha A. Lamrock, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: July 11, 1944.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by John E. Winner, 1809 Union National Bank Building, Fourth Avenue and Wood Street, Pittsburgh, Pennsylvania, Executor, acting under the judicial supervision of the Orphans' Court of Allegheny County, Pennsylvania;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Fritz Liebig, Germany.
Selma Strobel, Germany.
Anna Pestel, Germany.
Liddy A. Pestel, Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest, and claim of any kind or character whatsoever of Fritz Liebig, Selma Strobel, Anna Pestel and Liddy A. Pestel, and each of them, in and to the estate of Paul B. Liebig, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

[MPR 188, Order 20 to 2d Rev. Order A-3]

BARDCO MFG. AND SALES CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 20 under 2d Revised Order No. A-3 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Adjustment of maximum prices for sales of irrigation valves and parts thereof manufactured by Snow Irrigation Supply Division, Bardco Manufacturing and Sales Company, Los Angeles, California.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, Executive Orders Nos. 9250 and 9328, and 2nd Revised Order No. A-3 under § 1499.159b of Maximum Price Regulation No. 188, *It is ordered:*

(a) This order establishes adjusted maximum net prices for Snow Irrigation Supply Division, Bardco Manufacturing and Sales Company, Los Angles, California, for irrigation valves and parts thereof as well as for resellers of such irrigation valves and parts thereof.

(1) *Maximum net prices for Snow Irrigation Supply Division, Bardco Manufacturing and Sales Company.* (i) On and after July 20, 1944, Snow Irrigation Supply Division, Bardco Manufacturing and Sales Company may sell, offer to sell, and deliver irrigation valves and parts thereof at prices not higher than the highest price to each class of customer for each irrigation valve and part thereof in effect during March 1942, plus 25 percent of such highest price, provided such amount is shown as a separate item on the purchaser's invoice.

(ii) The maximum prices fixed under (i) above shall be subject to at least the same extension of cash, quantity, and other discounts, the same absorption of transportation charges, and the same rendition of services as the Snow Irrigation Supply Division, Bardco Manufacturing and Sales Company extended, absorbed, or rendered or would have extended, absorbed, or rendered on comparable sales to purchasers of the same class during March 1942.

(iii) Snow Irrigation Supply Division, Bardco Manufacturing and Sales Company shall send the following notice to every purchaser of irrigation valves and parts thereof at the time of the first billing:

Order No. 20 under 2nd Revised Order No. A-3 under § 1499.159b of Maximum Price Regulation No. 188 granted us an increase in the maximum prices of irrigation valves and parts thereof equal to 25 percent our highest prices in effect to our various classes of purchasers during March 1942 for each type and size of irrigation valve and parts thereof. The prices charged you for irrigation valves and parts thereof are not higher than the maximum prices which are permitted under the provisions of that order. The order further provides that any person purchasing irrigation valves and parts thereof for resale in substantially the same form may increase his maximum price in effect during March 1942, by the actual dollar-and-cents increase in cost to him resulting from the 25 percent increase.

Our invoices will show as a separate amount the actual dollar-and-cents increase resulting from 25 percent increase.

This notice is given to you at the express direction of the Office of Price Administration.

(iv) Snow Irrigation Supply Division, Bardco Manufacturing and Sales Company shall submit to the Office of Price Administration, Building Materials Price Branch, Washington 25, D. C., its statement of profit and loss covering the ninety-day period beginning the first day of the calendar month subsequent to the issuance date of this order and such other data as may be required by the Office of Price Administration.

(2) *Maximum prices for persons other than Snow Irrigation Supply Division, Bardco Manufacturing and Sales Company.* (i) On and after July 20, 1944, any person who purchases irrigation valves and parts thereof for resale may increase his maximum price in effect during March 1942 for each type and size of irrigation valve and part thereof purchased under the authority of this Order by an amount equal to his actual dollars-and-cents increase in cost resulting from the 25 percent increase permitted under paragraph (1) (i).

(ii) The maximum prices fixed under (2) (i) above shall be subject to at least the same extension of cash, quantity, and other discounts, the same absorption of transportation charges, and the same rendition of services which the seller extended, absorbed, or rendered or would have extended, rendered, or absorbed on comparable sales to purchasers of the same class during March 1942.

(iii) All resellers selling irrigation valves and parts thereof under the authority of this order shall send the following notice to every purchaser of such irrigation valves and parts thereof at the time of the first billing:

Order No. 20 under 2d Revised Order No. A-3 under § 1499.159b of Maximum Price Regulation No. 188 establishes adjusted maximum net prices for irrigation valves and parts thereof when manufactured by Snow Irrigation Supply Division, Bardco Manufacturing and Sales Company in order to maintain essential supply.

This notice is given at the express direction of the Office of Price Administration.

(b) All prayers in the application of Snow Irrigation Supply Division, Bardco Manufacturing and Sales Company not granted in this order are denied.

(c) This Order No. 20 may be revoked or amended by the Price Administrator at any time.

This Order No. 20 shall become effective July 20, 1944.

Issued this 19th day of July 1944.

MARSO AND RODENBORN MFG. CO., ET AL.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 44 under section 4 (b) of Revised Maximum Price Regulation 506. Maximum prices for staple work gloves. Granting maximum prices to the Marso and Rodenborn Manufacturing Company and other sellers; Docket No. N6657-506-47-7.

For the reasons set forth in an opinion issued simultaneously herewith; *It is ordered:*

(a) On and after July 19, 1944, the Marso and Rodenborn Manufacturing Company, Fort Dodge, Iowa, may sell and deliver to any purchaser, and such purchaser may buy from it, the staple work glove numbers enumerated in the following table at or below the prices set forth in Column A of this table. Wholesalers who purchase these numbers from the Marso and Rodenborn Manufacturing Company may make "regular sales" at wholesale of such gloves, at or below the prices set forth in Column B of the table. Ceiling prices for "special sales" at wholesale shall be determined in accordance with section 3 (b) of Revised Maximum Price Regulation 506.

Style No.	Glove description	Column A Manufacturer's prices		Column B Wholesalers' prices
		Group I ceiling	Group II ceiling	
125P, 125PJ	Men's fourchette cut, two thumb 12 ounce white nap out single thickness canton flannel back and palm, 8 ounce flannel thumb patch, knit wrist.	$2.80	$2.47½	$2.77½

(b) The maximum prices authorized in paragraph (a) are subject to the following:

(1) The instructions for manufacturers and wholesalers which preface the tables in Appendix A of RMPR 506;

(2) The provisions in section 4 (a) of RMPR 506 with respect to a manufacturers' "wholesale percentage", and the quota of deliveries which must be made at Group I prices;

(3) The marking and informational requirements of section 6 of RMPR 506. In addition to these requirements, the Marso and Rodenborn Manufacturing Company, on all deliveries of the style numbers listed in paragraph (a), made pursuant to this order, on and after September 15, 1944, must place the letter "S" following the lot number or brand name stated on the label, ticket, or other device used to mark the gloves.

(c) The definitions in RMPR 506 shall apply to this order.

(d) The Marso and Rodenborn Manufacturing Company must furnish each of its customers, who, on or after July 19, 1944, purchases the style numbers listed in paragraph (a) for purposes of resale, a notice in the form set forth below. The Marso and Rodenborn Manufacturing Company must also notify each such customer (other than a seller at retail) that he is required in turn to transmit to his customers a copy of the notice set forth below. The notice may be attached to the invoice or may be stamped or printed on the invoice.

This notice is sent to you as required by Order No. 44 under section 4 (b) of Revised

Maximum Price Regulation 506 issued by the Office of Price Administration. It lists ceiling prices fixed by OPA for the work glove numbers enumerated in the table below, manufactured by the Marso and Rodenborn Manufacturing Company.

OPA has ruled that the Marso and Rodenborn Manufacturing Company may sell these numbers at or below the prices listed in Column A below, subject to the provisions of section 4 (a) of RMPR 506 with respect to the quota of deliveries which must be made at Group I prices. Wholesalers in turn are authorized to make regular sales at wholesale of these numbers at or below the prices listed in Column B. Retailers will determine their ceiling prices on these numbers in accordance with Section 2 of RMPR 506.

Style No.	Column A Manufacturer's prices		Column B Wholesalers' prices
	Group I ceiling	Group II ceiling

[Order 375 Under 3 (b), Rev. Order 4]

SUNNYLAND REFINING CO.

APPROVAL OF MAXIMUM PRICES

Revised Order No. 4 under Order No. 375 of § 1499.3 (b) of the General Maximum Price Regulation. Sunnyland Refining Company of Birmingham, Alabama.

Order No. 4 under Order No. 375 is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith, *It is hereby ordered:*

(a) The maximum price for sales of Sunnyland Refining Company's "Sunnyland" colored oleomargarine, on sales by Sunnyland Refining Company, shall be as follows:

	Cents per pound
(1) On sales to retailers and institutional users f. o. b. factory, including tax	31.53
(2) On sales to all other buyers f. o. b. factory, including tax	30.53

(b) These maximum prices shall be subject to discounts, transportation allowances and other allowances and price differentials no less favorable than those given with respect to Sunnyland Refining Company's "Sunnyland" uncolored oleomargarine.

(c) Sunnyland Refining Company shall give to all persons to whom it sells its margarine, except retailers and institutional users, notice in writing of the maximum price herein fixed for the said "Sunnyland" colored oleomargarine, which notice shall be in the following form:

The OPA has fixed a maximum price of 30.53 cents per pound f. o. b. factory for our Sunnyland colored oleomargarine.

(d) With the first delivery after the effective date of this revised order to retailers to whom it sells direct, of "Sunnyland" colored oleomargarine, the Sunnyland Refining Company of Birmingham, Alabama, shall supply each retailer who purchases from it with the following written notice:

NOTICE TO RETAILERS

Our OPA ceiling price on sales direct to retailers for "Sunnyland" colored oleomargarine in one pound packages has been changed by the Office of Price Administration from 30.53 cents per pound f. o. b. factory including tax to 31.53 cents per pound f. o. b. factory including tax. We are authorized to inform you that if you are a retailer pricing this item under Maximum Price Regulation No. 422 or 423, you must refigure your ceiling price for this item on the first delivery of it to you from your customary type of supplier containing this notification after (insert effective date of this order). You must refigure your ceiling price following the rules in section 6 of Maximum Price Regulation No. 422 or 423, whichever is applicable to you.

For a period of 60 days after the effective date of this revised order and with the first shipment after the 60 day period to each retailer who purchases direct and who has not made a purchase within that time, applicant shall include in each case, carton, or other receptacle containing the item, the written notice set forth above, or securely attach it to the outside. However, for sales direct to any retailer, applicant may supply the notice by attaching it to, or stating it on, the invoice covering the shipment instead of providing it with the goods.

(e) All prayers of the application not granted herein are denied.

(f) This Revised Order No. 4 can be revoked or modified by the Administrator at any time.

(g) This Revised Order No. 4 shall become effective July 20, 1944.

SOLID FUELS IN CHICAGO AREA

Amendment No. 3 to Order No. G–11 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Maximum prices for solid fuels sold in the Chicago area.

Pursuant to the authority vested in the Regional Administrator of Region VI by § 1340.260 of Revised Maximum Price Regulation No. 122, and for reasons stated in the opinion issued simultaneously herewith, *It is ordered:*

That paragraph (a) and paragraph (c) of Order No. G–11 be, and they are hereby, amended to read as follows, respectively:

(a) *What this order does.* This order establishes maximum prices for sales of specified solid fuels delivered in the cities and villages of Bellwood, Berwyn, Broadview, Brookfield, Chicago, Cicero, Elmwood Park, Evanston, Forest Park, Franklin Park, Hillside, La Grange, Lincolnwood, Lyons, Maywood, McCook, Melrose Park, Morton Grove, Niles, Oak Park, Park Ridge, River Forest, River Grove, Riverside, Schiller Park, Skokie, Westchester, all within Cook County, Illinois. These are the highest prices that any dealer may charge when he delivers any of such fuel at or to a point within these cities and villages named; they are also the highest prices that any buyer in the course of trade or business may pay for such solid fuels.

* * * * *

(c) *Price schedule.* When a dealer purchases District No. 7 bituminous coal from a producer who has added a charge for the chemical or oil treatment thereof in accordance with the provisions of Amendment 98 to Maximum Price Regulation No. 120, that dealer, in selling that coal, may add to the applicable maximum prices set by this order, a treatment charge in an amount not in excess of 10¢ per ton. When a treatment charge is made pursuant to this section, the invoice given by the dealer shall clearly indicate that the solid fuel which is the subject of the sale has been dust treated and that a charge is being made therefor.

This Amendment No. 3 to Order No. G–11 shall be effective July 7, 1944.

[Region VIII Order G–9 Under MPR 280]

FLUID MILK IN ARIZONA

Order No. G–9 under Maximum Price Regulation No. 280, as amended. Maximum prices for specific food products (milk).

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1351.817 (a) of Maximum Price Regulation No. 280; *It is hereby ordered:*

(a) The maximum price at which any handler may sell fluid milk in bulk for human consumption as fluid milk, except to stores, hotels, restaurants, and institutions, shall be as follows:

(1) For such sales of milk to purchasers who purchased from the particular handler during December, 1943, the maximum price shall be the highest price which the particular handler charged such purchaser during December, 1943.

(2) For such sales of milk to purchasers who did not purchase milk from the particular handler during December, 1943, the maximum price shall be the highest price which such handler charged during December, 1943, to a purchaser of the same class.

(b) This order shall apply to that portion of the State of Arizona within Region VIII.

(c) *Definitions.* (1) "Fluid milk" means liquid cow's milk meeting the minimum health and sanitary requirements specified by State and local health agencies, which is purchased for resale for human consumption as fluid milk.

(2) "Handler" means any person who, on his own behalf or on behalf of others, purchases fluid milk from producers, associations of producers, or other handlers, and who sells such fluid milk at wholesale in bulk (other than in glass or paper containers), to any person, other than stores, hotels, restaurants, and institutions.

(3) Purchaser of the same class refers to the practice followed by the seller during the base period, December, 1943, in setting different prices for sales to different purchasers or kinds of purchasers (for example, but not limited to, manufacturer, wholesaler, jobber, or retailer) or for purchasers located in different areas or for different quantities or, under different conditions of sale.

(d) *Evasion.* The price limitations of this order shall not be evaded by direct or indirect methods, by means of, or in connection with, any offer, solicitation, agreement, sale, delivery, purchase, or receipt of or relation to milk, alone or in conjunction with any other commodities, or by way of, or in connection with, any commission, service, transportation, or other charge or discount, premiums, or privilege, tying agreement, trade understanding, or change in any business trade practice.

(e) *Enforcement.* Purchasers violating any provision of this order are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspensions of licenses provided by the Emergency Price Control Act of 1942, as amended.

(f) This order may be revoked, amended or corrected at any time.

This order shall become effective July 18, 1944.

[Jacksonville Order G–1 Under MPR 285]

IMPORTED FRESH BANANAS IN FLORIDA

Order No. G–1, under Maximum Price Regulation No. 285, as amended. Imported fresh bananas, sales except at retail. Adjustment of maximum price for the sale of bananas by wholesalers to other wholesalers, retailers and institutional users located in the State of Florida.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Jacksonville District Office of the Office of Price Administration by § 1351–1254a (a) of Maximum Price Regulation No. 285, as amended, and Regional Delegation Order No. 25; *It is hereby ordered,* That:

(a) On and after the effective date of this order, the maximum price which may be charged on the sale of bananas delivered to the premises of other wholesalers, retail stores or institutional users located within the State of Florida (except those located within the customary free delivery zones of the affected wholesalers) by any wholesaler at any receiving point shall be the maximum price calculated in accordance with Maximum Price Regulation No. 285, as amended, plus 4/10 of a cent per cwt. per mile beyond the customary free delivery zone, but not more than 35¢ cwt. Furthermore, in those instances where the permitted delivery addition would cause a retailer's "net cost" (calculated under Maximum Price Regulation 422 or 423) to be increased to an extent which would result in an increased maximum retail price, a delivery charge may be added only in an amount which would not reflect an increased maximum price at retail.

Example. A wholesale produce dealer in Tampa sells a stem of Cuban bananas to a group 2 retailer in Orlando, 100 miles away. These bananas were imported into the port of Tampa, therefore, the wholesaler's ceiling under Maximum Price Regulation 285 is $4.00 per cwt. f. o. b. port of entry, plus $1.50 mark-up, or a total of $5.50. Under this order he would be able to add 40¢ per cwt. delivery charge, except for the over-all limitation of 35¢. However, the 35¢ addition would cause the retailer's "net cost" to be $5.85 per pound, which would justify a retail price to the consumer of 9¢ per pound, because his "net cost" is nearer 6¢, whereas the retail price to the consumer would be 8¢ per pound if his "net cost" is nearer 5½¢ per pound. Therefore, in such case, the wholesaler may only add 34¢ per cwt., even though the point of delivery is 100 miles from his place of business.

(b) *Definitions.* "Free delivery zone" as a general rule embraces the municipal limits of a receiving point, and all of that area adjacent to the receiving point to which the wholesalers therein customarily deliver bananas without adding any cartage or delivery charge to their selling prices.

For the City of Tampa the "free delivery zone" is more particularly described as follows:

All of the metropolitan area of the City of Tampa, Florida, including the Interbay Peninsula, Sulphur Springs on the North and Six Mile Creek on the East.

For the City of Jacksonville the "free delivery zone" is more particularly described as follows:

The municipal limits of the City of Jacksonville, Florida.

For the City of Miami the "free delivery zone" is more particularly described as follows:

The cities of Miami and Miami Beach and the Towns of Surfside, Coral Gables, South Miami, Hialeah, Miami Shores, and Miami Springs, Florida.

Except as otherwise provided herein, and unless the context otherwise requires, the definitions set forth in Maximum Price Regulation No. 285 shall apply to the terms used herein.

(c) Except as otherwise provided herein, all transactions subject to this order shall remain subject to all the provisions of Maximum Price Regulation No. 285, together with all amendments, orders, and supplementary regulations that heretofore have been, or hereafter may be issued.

(d) This order may be revoked, amended or corrected at any time.

(e) This order shall become effective on this 20th day of July 1944.

(56 Stat. 23, 765, Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871, and E.O. 9328, 8 F.R. 4681)

Issued this 13th day of July 1944.

[Montgomery Order G-3 Under MPR 426]

FRESH FRUITS AND VEGETABLES IN MONTGOMERY DISTRICT

Order No. G-3 under Maximum Price Regulation No. 426, as amended. Fresh fruits and vegetables for table use, sales except at retail. Adjustment of maximum charges for delivery of certain fresh fruits and vegetables.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Montgomery District Office, Region IV, of the Office of Price Administration by paragraph (f) (1) of Appendix H, paragraph (g) (1) of Appendix I, and the ultimate paragraph of section 2b of Maximum Price Regulation No. 426, as Amended, and Regional Delegation Orders Nos. 33 and 35, it is hereby ordered:

SECTION 1. *Maximum charges for delivery by service wholesalers and secondary jobbers beyond the free delivery zone.* Any service wholesaler or secondary jobber, whose place of business is located within the Montgomery District, may add to his maximum prices for snap beans, sweet peppers, eggplant, cucumbers, spinach, carrots, green peas, oranges, grapefruit, lemons, tangerines, cabbage and table grapes, as determined under the applicable tables of the appropriate appendices to Maximum Price Regulation No. 426, as Amended, a maximum charge for the delivery of such items to the premises of the purchaser located outside of the free delivery zone of the service wholesaler or secondary jobber, as defined in section 2 of this order. The entire maximum delivery charge thus added shall in no event exceed the following:

For containers of less than 40 pounds gross weight—10 cents per container.

For containers of 40 pounds to 60 pounds gross weight—20 cents per container.

For containers of more than 60 pounds gross weight—25 cents per container.

SEC. 2. *Definitions.* (a) "Free delivery zone" for any service wholesaler or secondary jobber shall mean all of the territory within the limits of the county in which the established place of business of a service wholesaler or secondary jobber is located.

(b) "Service wholesaler." A "service wholesaler" means a person who maintains a store or warehouse at which the particular goods being priced is received and stored or warehoused, who receives the commodity at the premises of his store or warehouse, who maintains at such store or warehouse facilities for cold storage, ripening, trimming, sorting, washing, packing and other handling of the listed commodities, who employs salesmen to call on the trade in the city or country points which he services, and who sells the particular goods being priced to retail stores, government procurement agencies or institutional buyers.

(c) "Secondary jobber" means a person other than a retailer who, for his own account and profit, purchases the listed commodity being priced in less than carlots or less than trucklots and re-sells it in any quantity.

SEC. 3. *Geographical applicability.* This order shall apply only to deliveries made outside of the free delivery zone of service wholesalers and secondary jobbers whose places of business are located within the Montgomery District, which comprises the following area:

The Counties of Sumter, Greene, Hale, Perry, Chilton, Coosa, Tallapoosa, and Chambers, in the State of Alabama, and all of the remaining counties of the State of Alabama lying and being situated south of said counties.

SEC. 4. *Applicability of Maximum Price Regulation No. 426, as amended.* The maximum delivery charges set out in section 1 of this order shall supersede any delivery allowances that may be provided in the applicable appendices to Maximum Price Regulation No. 426, as amended, for delivery of items named in this order to the promises of a purchaser located outside of the free delivery zone of the service wholesaler or secondary jobber. Except as this order specifically provides for maximum delivery charges in section 1, all sales of the items covered by this order shall remain subject to the provisions of Maximum Price Regulation No. 426, as amended.

SEC. 5. *Revocation and amendment.* This order may be revoked, amended or corrected at any time by the District Director of the Montgomery District Office.

SEC. 6. *Effective date.* This order shall become effective at 12:01 a. m. on June 12, 1944.

(56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E. O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681)

Issued June 7, 1944.

[Fargo-Moorhead Order G-1 under MPR 426 and MPR 285]

FRESH FRUITS AND VEGETABLES IN FARGO-MOORHEAD DISTRICT

Order No. G-1 under § 1439.3-15, Appendix H (f), Appendix I (g) of Maximum Price Regulation No. 426, and § 1361.1254a (a) of Maximum Price Regulation No. 285. Free delivery zones and maximum charges for delivery without these zones for wholesalers of certain fresh fruits and vegetables.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Fargo-Moorhead District Office of the Office of Price Administration, by §§ 1439.3-15, Appendix H (f), Appendix I (g) of Maximum Price Regulation No. 426, Fresh fruits and vegetables, and § 1351.1254a (a) of Maximum Price Regulation No. 285, Imported bananas, both as amended, it is hereby ordered:

(a) *What this order does.* This order defines and determines the free delivery zones and establishes charges which can be made for delivery beyond these free delivery zones for all the wholesale receiving points in this district in the area hereinafter described. The order applies to such fresh fruit and vegetable items as are now or may hereafter be subject to the pricing provisions of Maximum Price Regulation No. 285 and Appendices H and I of Maximum Price Regulation No. 426. The only sellers who are subject to this order are those wholesalers who price under Maximum Price Regulation No. 285, and secondary jobbers and service wholesalers, as these terms are used in Appendices H and I of Maximum Price Regulation No. 426.

(b) *Establishment of delivery zones.* The free delivery zones at the following wholesale receiving points shall be the corporate limits of the respective municipalities of Williston, Dickinson, Minot, Devils Lake, Valley City and Jamestown, all in North Dakota, and Detroit Lakes, Alexandria, Crookston, Fergus Falls, Thief River Falls and Wadena, all in Minnesota. The free delivery zone for the wholesale receiving points of Bismarck and Mandan shall be the corporate limits of those two cities and all retail establishments located on Highway No. 10 between the cities of Bismarck and Mandan. The free delivery zone for the wholesale receiving points of Grand Forks, North Dakota, and East Grand Forks, Minnesota, shall include the corporate limits of the City of Grand Forks and the corporate limits of the adjoining city of East Grand Forks, Minnesota. The free delivery zone for the wholesale receiving points of Fargo, North Dakota, and Moorhead, Minnesota, shall include any point within an 8-mile radius of the Cass County Courthouse located in the city of Fargo, North Dakota. The free delivery zone for the wholesale receiving points of Wahpeton, North Dakota, and Breckenridge, Minnesota, shall include the corporate limits of the city of Wahpeton, North Dakota, and of the adjoining city of Breckenridge, Minnesota.

(c) *Differentials for non-delivered and delivered sales of items listed in Appendices H and I of Maximum Price Regulation No. 426.*

1. Non-delivered sales. For sales on a non-delivered basis there shall be deducted from the price for delivered sales in the free delivery zone, 5¢ per container for standard shipping containers weighing under 50 pounds gross weight, and 10¢ per container for standard shipping containers weighing 50 pounds or over gross weight. A deduction of 2¢ or 5¢, respectively, shall be made for non-delivered sales of half standard shipping containers or more, or for bulk sales weighing as much as or more than half a standard container of the item being sold. No deductions need be made for sales in less than half containers and for bulk sales which weigh less than half a standard container of the item being sold.

2. Delivered sales in the free delivery zone. For deliveries in the free delivery zone the maximum delivered price shall be the maximum delivered price computed under Maximum Price Regulation No. 426 for the type of sale being made without any deduction from or addition thereto. Delivered Sales Beyond the Free Delivery Zone. For deliveries beyond the free delivery zone the amount set out below may be added to the price for delivered sales in the free delivery zone. Mileage beyond the free delivery zone shall be computed via the nearest publicly traveled route. These charges apply to all containers and in bulk and shall be computed on the basis of gross weight.

WAR PRODUCTION BOARD.

BILTMORE PUBLISHING CO.

CONSENT ORDER

Frederic J. Buse, doing business under the trade name and style of Biltmore Publishing Company at 66 E. 78th Street, in the City, County and State of New York, engaged in the business of publishing magazines, is charged by the War Production Board with having in March, 1944, published a cartoon magazine entitled Pin Ups N' Puns using 18.3 tons of paper in violation of Limitation Order L-244. On July 7, 1944; Frederic J. Buse represented in writing to the War Production Board that only one issue of this magazine was printed, published and distributed and that he does not intend to, and will not, print, publish or distribute the magazine Pin Ups N' Puns, and that under the trade name and style of Biltmore Publishing Company he does not intend to, and will not, use any paper whatsoever, or print, publish, or distribute any publications requiring the use of paper whatsoever, unless specifically authorized so to do by the War Production Board or until Limitation Order L-244 or any superseding order restricting the use of paper for printing and publishing is terminated. Frederic J. Buse admits the violation as charged, does not care to contest its wilfulness, and has consented to the issuance of this order.

Wherefore, upon the agreement of Frederic J. Buse, doing business under the trade name and style of Biltmore Publishing Company, and upon the approval of the Regional Compliance Manager, the Regional Attorney, and the Compliance Commissioner, *it is hereby ordered*, That:

(a) Frederic J. Buse, doing business under the trade name and style of Biltmore Publishing Company, his successors or assigns, of said trade name and style, shall not use any paper whatsoever for printing and publishing unless specifically authorized in writing by the War Production Board or until Limitation Order L-244 or any superseding order restricting the use of paper for printing and publishing terminates.

(b) No allocation, including allotments or quotas, shall be made to Frederic J. Buse, doing business under the trade name and style of Biltmore Publishing Company, his successors or assigns of said trade name and style, of paper the supply, or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Frederic J. Buse, doing business under the trade name and style of Biltmore Publishing Company, his successors or assigns of said trade name and style, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect as of the date of issuance and shall expire when revoked by the War Production Board or when Limitation Order L-244 or any superseding order restricting the use of paper for printing or publishing terminates.

Issued this 19th day of July 1944.

TITLE 7—AGRICULTURE

Chapter VII—War Food Administration (Agricultural Adjustment)

PART 728—WHEAT

NATIONAL, STATE, COUNTY AND FARM ACREAGE ALLOTMENTS FOR THE 1945 CROP OF WHEAT, AND WHEAT MARKETING QUOTAS FOR THE 1945–46 MARKETING YEAR

Whereas, the Agricultural Adjustment Act of 1938, as amended, provides for the proclamation of certain data concerning the supply and consumption requirements requisite to the establishment of a national acreage allotment and marketing quotas for wheat, and

Whereas, said Act further provides that the powers therein granted shall not be used to discourage the production of sufficient supplies of foods and fibers to maintain normal domestic consumption, taking into consideration current trends in consumption and exports and the quantities of substitutes available at fair prices, and

Whereas, said Act further provides that quotas shall be terminated if it is determined that such action is necessary in order to effectuate the declared policy of the Act or to meet a national emergency, and

Whereas, an investigation has been made which reveals that it is necessary, in order to meet the present national emergency and to effectuate the declared policy of the Act, to dispense with marketing quotas for wheat for the marketing year beginning July 1, 1945, and with national, State, county and farm acreage allotments for wheat for the 1945 crop:

Now, therefore, pursuant to the foregoing authority and in accordance with Executive Order 9322, as amended by Executive Order 9334, it is hereby determined and proclaimed that:

This issue is in two parts, the second of which consists of the War Department Procurement Regulations as amended by Change 36, June 7, 1944, and Change 37, June 29, 1944. Because of its unusual size Part II will be distributed during the week of July 23.

§ 728.601 *1945 acreage allotments for wheat.* In order to encourage the production of a sufficient supply of food to maintain normal domestic consumption, taking into consideration current trends in consumption and exports and the quantities of substitutes available at fair prices and otherwise to effectuate the declared policy of the Act, no national, State, county, or farm acreage allotments for wheat for the 1945 crop will be established under provisions of Title III of the Agricultural Adjustment Act of 1938, as amended.

§ 728.605 *National marketing quota for wheat for the 1945–46 marketing year.* In order to meet the present national emergency and to effectuate the declared policy of the Act, wheat marketing quotas will not be in effect for the marketing year beginning July 1, 1945.

TITLE 12—BANKS AND BANKING

Chapter III—Federal Deposit Insurance Corporation

PART 302—ASSESSMENTS

PAYMENT BY BANKS WHOSE INSURED STATUS HAS TERMINATED

Resolutions adopted June 15, 1944 repealed former paragraphs (a), (d) and (e) of § 302.3; amended former paragraphs (c) and (f) of said section, and redesignated them as paragraphs (a) and (b), respectively; and redesignated paragraph (b) of said section as (c). The section, as amended, reads as follows:

§ 302.3 *Payment of assessments by banks whose insured status has terminated*—(a) *Assumed deposits of terminating bank become deposits of assuming bank.* The deposit liabilities of one bank, if assumed by a second insured bank, will, except to the extent that depositors of the first bank by affirmative action signify their express intention to hold the first bank liable as a debtor, be presumed for assessment purpose to cease being deposit liabilities of the first bank on the date the assumption becomes effective provided the requisite notice of assumption be given to the depositors. The assumed deposits, for assessment purposes, are deposit liabilities of the assuming bank from the date of assumption, whether or not the requisite notice of assumption has been given to the depositors.

(b) *Payment of assessments by assuming bank on assumed deposits of terminating bank.* Where the deposit liabilities of an insured bank are assumed by another insured bank and the assuming bank agrees to file the certified statement which the terminating bank is required to file, the filing of such certified statement and the payment of the assessment thereon by the assuming bank shall be deemed the acts of the terminating bank: *Provided,* The requisite notice of assumption be given to the depositors of the terminating bank and: *Provided, further,* That such certified statement shall be filed separately from that required to be filed by the assuming bank.

(c) *Resumption of insured status before insurance of deposits ceases.* If a bank whose insured status has been terminated under paragraphs (1) or (2) of subsection (i), of section 12B of the Federal Reserve Act, as amended (12 U.S.C. 264 (i) (1) and (2)), makes application to the Corporation, before the insurance of its deposits shall have ceased, to be permitted to continue or to resume its status as an insured bank and if the directors grant the application, the bank will be deemed for assessment purposes, to continue as an insured bank and must thereafter furnish certified statements and pay assessments as though its insured status had not been terminated.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission; the answers of the respondents; a stipulation as to the facts and a supplemental stipulation as to the facts entered into between W. T. Kelley, Chief Counsel for the Federal Trade Commission, and the following corporate respondents: The W. H. Anderson Company, Baker, Voorhis and Company, Bancroft-Whitney Company, Matthew Bender and Company, Inc., Bender-Moss Company, Clark Boardman Company, Ltd., Bobbs-Merrill Company, John Byrne and Company, Dennis and Company, Inc., The Harrison Company, The Lawyers Co-Operative Publishing Company, Little, Brown and Company, The Michie Company, National Law Book Company, Public Utilities Reports, Inc., Soney and Sage Company, Thomas Law Book Company, Williamson Law Book Company, and Fallon Law Book Company, which stipulations provide, among other things, that the Commission may proceed upon said statement of facts to make its report, stating its findings as to the facts and its conclusion based thereon, and enter its order disposing of the proceeding without the presentation of further testimony, argument, filing of briefs, or other intervening procedure; and also upon testimony and other evidence taken in support of the allegations of said complaint and in opposition thereto as to the respondents American Association of Law Book Publishers, an unincorporated association, and its officers James R. Spillane, president, Clifford W. Mueller, Vice President, Richard Reiner, Treasurer, and R. Walter White, secretary, and The American Law Book Company, George T. Bisel, an individual trading as George T. Bisel Company, The Frank Shepard Company, Burdette Smith Company, Edward Thompson Company, Vernon Law Book Company, Washington Law Book Company, West Publishing Company, and Callaghan & Company, before a trial examiner of the Commission, theretofore duly designated by it; report of the trial examiner upon the evidence and exceptions filed thereto; briefs in support of the complaint and in opposition thereto; and oral argument of counsel; and the Commission having made and entered its findings as to the facts, conclusion, and order to cease and desist April 27, 1944, thereafter, upon request by counsel for certain of the respondent, the Commission reconsidered the order to cease and desist heretofore entered and being of the opinion that modified order to cease and desist should be issued in said cause and having duly considered the record and being now fully advised in the premises issues this its modified order to cease and desist:

It is ordered, That the respondents American Association of Law Book Publishers, an unincorporated association; The American Law Book Company, a corporation; The W. H. Anderson Company, a corporation; Baker, Voorhis and Company, a corporation; Bancroft-Whitney Company, a corporation; Matthew Bender and Company, Inc., a corporation; Bender-Moss Company, a corporation; Clark Boardman Company, Ltd., a corporation; Bobbs-Merrill Company, a corporation; John Byrne and Company, a corporation; Dennis and Company, Inc., a corporation; The Harrison Company, a corporation; The Lawyers Co-Operative Publishing Company, a corporation; Little, Brown and Company, a corporation; The Michie Company, a corporation; National Law Book Company, a corporation; Public Utilities Reports, Inc., a corporation; The Frank Shepard Company, a corporation; Burdette Smith Company, a corporation; Soney and Sage Company, a corporation; Thomas Law Book Company, a corporation; Edward Thompson Company, a corporation; Vernon Law Book Company, a corporation; Washington Law Book Company, a corporation; West Publishing Company, a corporation; Williamson Law Book Company, a corporation; Callaghan & Company, a corporation; and Fallon Law Book Company, a corporation, and their respective officers, agents, representatives, and employees, in connection with the offering for sale, sale, and distribution of law books and related legal publications in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from entering into, continuing, cooperating in, or carrying out, or directing, instigating, or cooperating in, any planned common course of action, mutual agreement, understanding, combination, or conspiracy between and among any two or more of said respondents or between any one or more of said respondents and others not parties hereto to do or perform any of the following acts or practices:

1. Establishing, fixing, or maintaining discounts, terms, or conditions of sale for law books and related legal publications or adhering to or promising to adhere to the discounts, terms, or conditions of sale so fixed.

2. Maintaining or adhering to the selling price, terms, and conditions of sale of law books and related publications fixed and established by the respondent who publishes such books.

3. Holding or participating in any meeting, discussion, or exchange of information among themselves or under the auspices of the respondent American Association of Law Book Publishers or any other medium or agency concerning proposed or future discounts, terms, or conditions of sale or concerning bids and price quotations in advance of the submission of such bids or price quotations to purchasing officials of the Federal Government or to awarding authorities of other governmental units or subdivisions or to any buyer of law books and related legal publications.

4. Arriving at the amount of any bid or the discount, terms, or conditions of sale to be submitted to purchasing officials of the Federal Government, to awarding authorities of other governmental units or subdivisions, or to any buyer of law books and related legal publications through agreement, understanding, or collusion with other bidders.

5. Establishing, fixing, or maintaining the rates of allowances to be made, used, and applied on books and other publications received in trade, or fixing and maintaining the prices, terms, or conditions of sale governing the resale of such law books and related legal publications taken in trade.

6. Jointly or cooperatively inducing or promoting adherence to, or attempting to induce or promote adherence to, agreements and understandings relative to the sale and distribution of law books and related legal publications by interchange of correspondence, by personal contact with one another individually or in groups, or by policing the bids or sales transactions of respondent members through the respondent Association or otherwise.

7. Employing or utilizing any of the actual practices specifically prohibited herein as a means or instrumentality of otherwise restricting, restraining, or eliminating competition in the sale and distribution of law books and related legal publications.

8. Employing or utilizing American Association of Law Book Publishers or any other medium or central agency as an instrument, vehicle, or aid in performing or doing any of the acts and practices prohibited by this order.

It is further ordered, That nothing herein contained shall be construed as prohibiting a parent corporation from directing the prices or terms at which any of its subsidiary corporations shall sell any law book or related legal publication published by the parent corporation or by any of its subsidiaries when such prices or terms have been arrived at by the parent corporation acting separately and independently of any competitor of the partner corporation or of any of its subsidiary corporations.

It is further ordered, That nothing in this order is to be construed as prohibiting any of said corporate respondents from entering into such contracts or agreements relating to the maintenance of resale prices as are not prohibited by the provisions of an act entitled, "An Act to protect trade and commerce against unlawful restraints and monopolies," approved July 2, 1890 (the Sherman Act), as amended.

It is further ordered, That the complaint herein be, and it hereby is, dismissed as to George T. Bisel, an individual trading as George T. Bisel Company.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

PRIME MANUFACTURING CO.

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product or service* § 3.6 (ff 10). *Advertising falsely or misleadingly—Unique nature or advantages.* In connection with offer, etc., in commerce, of an electric fence controller designated "Prime Electric Fence Controller", or any other similar electric device, representing that (1) such electric fence controllers are free of trouble; (2) such controllers eliminate fence worries; (3) the use of such controllers is a positive or sure method of confining livestock and will prevent the escape of livestock under all conditions; (4) only a fence equipped with respondent's controller is respected by animals; and (5) the use of such controllers will hold or confine fence breakers without clearly and conspicuously disclosing that such fence breakers must first have received proper training; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, The Prime Manufacturing Company, Docket 4978, June 13, 1944]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 13th day of June, A. D. 1944.

In the Matter of The Prime Manufacturing Company, a Corporation

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondent, and the stipulation of the facts entered into by the respondent, The Prime Manufacturing Company, and Richard P. Whiteley, Assistant Chief Counsel, for the Commission, which provides among other things, that without further evidence or other intervening procedure the Commission may issue and serve upon the respondent findings as to the facts and conclusion based thereon and an order disposing of the proceeding, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, The Prime Manufacturing Company, a corporation, its agents, employees and representatives, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of an electric fence controller designated Prime Electric Fence Controller, or any other electric device of similar construction, whether sold under the same or any other name or names, in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing:

1. That such electric fence controllers are free of trouble;

2. That such controllers eliminate fence worries;

3. That the use of such controllers is a positive or sure method of confining livestock and will prevent the escape of livestock under all conditions;

4. That only a fence equipped with respondent's controller is respected by animals;

5. That the use of such controllers will hold or confine fence breakers without clearly and conspicuously disclosing that such fence breakers must first have received proper training;

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

that said product is a remedy and constitutes a competent and effective treatment for scalds or burns, other than that a paste of said product and water is suitable for application to minor scalds and minor burns; (7) that said product constitutes a competent and effective treatment for toothache; (8) that said product is a remedy and constitutes a competent and effective treatment for eczema, other than that a solution of said product is suitable as a cleansing agent for use in removing dried exudates, such as those formed in cases of seborrheic eczema; (9) that said product is a remedy or constitutes a competent and effective treatment for acidity; (10) that said product is a remedy or constitutes a competent and effective treatment for rheumatism; (11) that said product possesses tonic properties or acts as a general tonic to the system; (12) that said product used in solution as an enema is a remedy and constitutes a competent and effective treatment for colic in babies; or (13) that said product is a remedy or constitutes a competent and effective treatment for grippe or influenza, will prevent colds, or will be effective in killing the germs or other organisms which cause colds, grippe and influenza; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Detroit Soda Products Company et al., Docket 5037, June 26, 1944]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 26th day of June, A. D. 1944.

In the Matter of Detroit Soda Products Company, a Corporation, and Aarons, Sill & Caron, Inc., a Corporation

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answers of the respondents, in which answers respondents admit all the material allegations of fact set forth in said complaint and state that they waive all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondents, Detroit Soda Products Company, a corporation, and Aarons, Sill & Caron, Inc., a corporation, their officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of a baking soda (bicarbonate of soda) designated "Crystal Brand Baking Soda", or any other preparation of substantially similar composition, or possessing substantially similar properties, whether sold under the same name or any other name, do forthwith cease and desist from, directly or indirectly:

1. Disseminating, or causing to be disseminated, any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents directly or by implication:

(a) That "Crystal Brand Baking Soda", when used as a dentifrice, will freshen the breath, other than in cases where bad breath arises from the accumulation of food, debris and other material on or between the teeth, and which is removable by use of said product and a toothbrush;

(b) That said product, when used as a dentifrice, will keep gums healthy;

(c) That said product, when used as a dentifrice, will remove teeth stains other than that it will act to some extent as a cleansing and polishing agent if a sufficient quantity is used;

(d) That said product, when used as a dentifrice, will restore dentine's natural brilliance;

(e) That said product is a remedy or constitutes an effective treatment for indigestion other than temporary relief in cases of stomach distress, caused by hyperacidity;

(f) That said product is a remedy or constitutes a competent or effective treatment for colds or coughs.

2. Disseminating, or causing to be disseminated, any advertisement by any means for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said product, which advertisement contains any representation prohibited in Paragraph 1 hereof.

It is further ordered, That the respondent Detroit Soda Products Company, a corporation, its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of a baking soda (bicarbonate of soda) designated "Crystal Brand Baking Soda", or any other preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same name or under any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating, or causing to be disseminated, any advertisement by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents directly or by implication:

(a) That Crystal Brand Baking Soda contains properties which are indispensable for making food easy to digest;

(b) That said product relieves inflammation or gives a soothing effect to the membrane of the mouth;

(c) That said product is a remedy and constitutes a competent and effective treatment for dyspepsia;

(d) That said product is a remedy and constitutes a competent and effective treatment for ivy poisoning, other than that a solution of said product will have some slight tendency to relieve itching caused by poison ivy;

(e) That said product is a remedy and constitutes a competent and effective treatment for lumbago, or that the addition of said product to a hot bath will exert beneficial effect in cases of lumbago;

(f) That said product is a remedy and constitutes a competent and effective treatment for scalds or burns, other than that a paste of said product and water is suitable for application to minor scalds and minor burns;

(g) That said product constitutes a competent and effective treatment for toothache;

(h) That said product is a remedy and constitutes a competent and effective treatment for eczema, other than that a solution of said product is suitable as a cleansing agent for use in removing dried exudates, such as those formed in cases of seborrheic eczema;

(i) That said product is a remedy or constitutes a competent and effective treatment for acidity;

(j) That said product is a remedy or constitutes a competent and effective treatment for rheumatism;

(k) That said product possesses tonic properties or acts as a general tonic to the system;

(l) That said product used in solution as an enema is a remedy and constitutes a competent and effective treatment for colic in babies;

(m) That said product is a remedy or constitutes a competent and effective treatment for grippe or influenza, will prevent colds, or will be effective in killing the germs or other organisms which cause colds, grippe and influenza.

2. Disseminating, or causing to be disseminated, any advertisement by any means for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said product, which advertisement contains any representation prohibited in paragraph 1 hereof.

It is further ordered, That the respondents shall, within sixty days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

AUTHORITY TO INCUR EXPENSES

Limitation for purchase of articles or services without obtaining authorization and without soliciting competitive bids, increased from $50 to $100 during the fiscal year 1945.

Section 204 of Public 358, 78th Congress provides:

Section 3709, Revised Statutes (41 U. S. C. 5), shall not apply to any purchase by or service rendered to any executive department or independent establishment during the fiscal year 1945 when the aggregate amount involved does not exceed $100, but this section shall not be construed as affecting any provision of law authorizing purchases or services without regard to said section 3709 in amounts greater than $100.

In view of the above provision of law, the limitation of $50 on the amount of expenses which may be incurred without the prior authorization of the Bureau, as set forth in paragraphs (b) (2) and (3), (d) (2), and (f) of § 24.31, Customs Regulations of 1943 (19 CFR, Cum. Supp., 24.31 (b) (2) and (3), (d) (2), and (f), is hereby suspended as to purchases made or services rendered during the fiscal year 1945 and a limitation of $100 is substituted in lieu therefor during said fiscal year.

602.425 Effective date.

AUTHORITY: §§ 602.410 to 602.425, inclusive, issued under E.O. 9332, 8 F.R. 5355; E.O. 9125, 7 F.R. 2719; WPB Directive 33, as amended, 9 F.R. 64; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176.

§ 602.410 *What this regulation does.* (a) This regulation applies to deliveries by retail dealers and receipts by consumers of bituminous coal, packaged fuel and briquettes in the following areas:

The District of Columbia and the States of Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Tennessee, Kentucky, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, North Dakota, South Dakota, Iowa, Missouri, Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, New Jersey, Delaware and Maryland.

This regulation also applies to deliveries by retail dealers and receipts by consumers of western coke. (In addition, the limitations placed by § 602.412 of this regulation, are made applicable, in certain instances, by reason of paragraphs (b) and (e) of § 602.512 of SFAW Regulation No. 23, to "industrial consumers," as defined in § 602.501 (j) of that regulation.)

(b) This regulation prohibits a retail dealer from delivering, and a consumer from receiving, during this coal year (April 1, 1944–March 31, 1945) solid fuels in amounts which, when added to what the consumer had in his bin on April 1, 1944, exceed the consumer's annual requirements. This regulation also prohibits a retail dealer from delivering and a consumer from receiving, this coal year, the scarcer kinds of solid fuels (see § 602.411 (g) of this regulation) in amounts which, when added to what the consumer had in his bin on April 1, 1944, exceed 90 percent of the consumer's annual requirements.

(c) Present production estimates indicate that retail dealers in certain consuming areas in the Middle West, such as the States of Illinois, Missouri and Iowa, will receive less than 90 percent of the amount of coal which they obtained last year from District 8 and substantially less than 90 percent of the amount of coal which they obtained last year from District 7. In these areas the alternative solid fuels (see § 602.411 (h) of this regulation) are or will be generally available. Accordingly, a prudent retail dealer in these areas will arrange to purchase sufficient amounts of alternative solid fuels to take care of the full annual requirements of his customers, and a prudent consumer in these areas will put into his bin immediately a sufficient amount of the alternative solid

fuels in order that he may go through the winter with an adequate tonnage of solid fuels on hand.

§ 602.411 *Definitions.* (a) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or organized group of persons.

(b) "Coal" means bituminous and sub-bituminous coal.

(c) "Solid fuels" include any form of anthracite, semi-anthracite, bituminous and sub-bituminous coals or coke (including packaged and processed fuels such as briquettes). Lignitic coals produced in the States of North Dakota and South Dakota are not included in this definition of solid fuels because they are not subject to any restriction under this regulation.

(d) "Coke" means coke which is produced from bituminous coal.

(e) "Western coke" means coke delivered by retail dealers to consumers in the States of West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Tennessee, Kentucky, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, North Dakota, South Dakota, Iowa, Missouri, and that part of the State of Pennsylvania west of a straight line drawn from the southern to the northern boundary of Pennsylvania through the western boundary of Gettysburg, in Adams County, and Lock Haven, in Clinton County.

(f) "Eastern coke" means coke delivered by retail dealers to consumers in the District of Columbia and the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Maryland, Virginia, and that part of Pennsylvania east of a straight line drawn from the southern to the northern boundary of Pennsylvania through the western boundary of Gettysburg, in Adams County, and Lock Haven in Clinton County.

(g) "Scarcer kinds of solid fuels" means (1) all sizes of bituminous coal, except slack, produced in District 7 or District 8, (2) packaged fuel or briquettes containing any bituminous coal produced in District 7 or District 8 and (3) western coke except reclaimed coke and run-of-oven beehive coke. (For purposes of this paragraph, resultant coal 1½" x 0 and smaller produced in District 7, and resultant coal 2½" x 0 and smaller produced in District 8, shall be considered slack.)

(h) "Alternative solid fuels" means any bituminous coal that is produced in districts other than District 7 or District 8, and slack (as defined in paragraph (g) of this section) produced in District 7 or District 8. It also means any packaged fuel or briquettes that contain coal other than District 7 or District 8 coal. It also means any reclaimed coke or run-of-oven beehive coke.

(i) "Retail dealer" means any person (including the retail outlet, branch or department of one who is also a producer, wholesaler or dock operator) to the extent that he sells, delivers, or disposes of solid fuels in a transaction involving the disposal of solid fuels physically handled in a truck, wagon or other less-than-carload facility, without regard to quantity or frequency of delivery.

(j) "Equipped retail dealer" means any retail dealer who has both storage facilities and truck scales.

(k) "Unequipped retail dealer" means any retail dealer except an equipped retail dealer.

(l) "Consumer" means any person who consumes less than 10,000 tons of bituminous coal, packaged fuel, briquettes or coke per year at a plant or premises and who receives these solid fuels from a retail dealer.

(m) "Annual requirements" means the number of tons of solid fuels burned at the plant or premises of a consumer during the period April 1, 1943 to March 31, 1944, inclusive, or, in the event solid fuels were not burned as the principal fuel at the plant or premises during that period, the number of tons of solid fuels which were burned in other premises similar thereto in the same locality during the same period.

(n) "Consumer's inventory" means the number of tons of solid fuels in storage at the consumer's premises, or under the consumer's control, on April 1, 1944.

(o) "SFAW" means Solid Fuels Administration for War.

§ 602.412 *Restrictions upon the delivery or receipt of bituminous coal, packaged fuel, briquettes and western coke for domestic heating of water or domestic cooking or space heating purposes.* (a) If you are a retail dealer delivering bituminous coal, packaged fuel, briquettes or western coke to a consumer who uses during a year more than 40 per cent of such solid fuels at a plant or premises for domestic heating of water, domestic cooking, or space heating, the amount of such solid fuels that you may deliver to the consumer for such purposes, and the amount of solid fuels the consumer may receive for such purposes, is limited by this section.

NOTE: By reason of paragraphs (b) and (e) of § 602.512 of SFAW Regulation No. 23, the amount of bituminous coal that industrial consumers may receive this coal year is limited by this section, if the coal is purchased for space heating at a plant or premises, domestic heating of water or domestic cooking. Under Regulation No. 23, no producer, wholesaler or retail dealer may deliver to an industrial consumer this coal year amounts of bituminous coal in excess of the amounts the industrial consumer may receive under this section.

(b) During the period April 1, 1944 to March 31, 1945, inclusive, no equipped or unequipped retail dealer may deliver, and no consumer may receive from all sources combined, the scarcer kinds of solid fuels (all sizes of bituminous coal, except slack, produced in District 7 or District 8, packaged fuel or briquettes containing any bituminous coal produced in District 7 or District 8, or western coke except reclaimed coke and run-of-oven beehive coke) in an amount which, when added to (1) the consumer's inventory of such solid fuels as of April 1, 1944, and (2) the tonnage of such solid fuels received by the consumer after April 1, 1944, exceeds 90 per cent of the consumer's annual requirements for solid fuels.

(c) Alternative solid fuels will be available in some places within the areas referred to in § 602.410 (a) of this regulation. When the alternative solid fuels and the scarcer kinds of solid fuels are delivered and received either together or separately, the retail dealer may not deliver and the consumer may not receive the scarcer kinds of solid fuels in amounts in excess of those permitted by paragraph (b) of this section. Moreover, during the period April 1, 1944 to March 31, 1945, inclusive, no equipped or unequipped retail dealer may deliver, and no consumer may receive from all sources combined, any bituminous coal, packaged fuel, briquettes or western coke, or any or all of them in combination—regardless of whether they are the alternative or scarcer kinds of solid fuels—in an amount which, when added to (1) the consumer's inventory of solid fuels as of April 1, 1944 and (2) the tonnage of solid fuels received by the consumer after April 1, 1944, exceeds 100 per cent of the consumer's annual requirements for solid fuels.

(d) In determining the annual requirements of a consumer, when the consumer burned a certain number of tons of a scarcer kind of solid fuel during the 1943–1944 coal year and is purchasing some alternative solid fuel instead this coal year, the number of tons burned during the 1943–1944 coal year may be increased to reflect the difference, if any, in heat value between the scarcer solid fuel and the alternative solid fuel. For example, assume that a consumer burned ten tons of Pocahontas smokeless coal during the 1943–1944 coal year. The consumer may be able to obtain only five tons of Pocahontas smokeless coal during this 1944–1945 coal year. The consumer may receive an additional six tons of an alternative fuel, or eleven tons of solid fuels altogether during the 1944–1945 coal year, if six tons of the alternative solid fuel are needed to produce the heat produced by five tons of the Pocahontas smokeless coal.

(e) During the period April 1, 1944–March 31, 1945, inclusive, some consumers may want to use some of the solid fuels to which this regulation applies together with, or in addition to, other solid fuels (anthracite and eastern coke) to which SFAW Regulation No. 17 applies. In no event may a retail dealer deliver or a consumer receive from all sources combined during the period April 1, 1944–March 31, 1945, inclusive, an amount of solid fuels exceeding the consumer's annual requirements; and no retail dealer may deliver to a consumer, and no consumer may receive from all sources combined, tonnages of different solid fuels which in the aggregate exceed the amounts permitted to be delivered and received by this regulation and by SFAW Regulation No. 17, as indicated by the following illustrative table:

Solid fuels to be delivered or received	Maximum percentage of consumer's annual requirements which may be delivered or received to Oct. 1, 1944 (appropriate deduction to be made for consumer's Apr. 1, 1944 inventory)	Maximum percentage of consumer's annual requirements which may be delivered or received to Mar. 31, 1945 (appropriate deduction to be made for consumer's Apr. 1, 1944 inventory)
(1) Any of the scarcer kinds of solid fuels (see Section 602.411 (g) of this regulation) and (2) anthracite.	90 percent (not more than 50 percent may be anthracite).	90 percent (not more than 87.5 percent may be anthracite).
(1) Any of the scarcer kinds of solid fuels (excluding western coke) and (2) anthracite or eastern coke or both.	90 percent (not more than 50 percent may be anthracite or eastern coke or both).	90 percent (not more than 87.5 percent may be anthracite or eastern coke or both).
(1) Any of the alternative solid fuels, (2) any of the scarcer kinds of solid fuels and (3) anthracite.	100 percent (not more than 90 percent may be the scarcer kinds of solid fuels; not more than 50 percent may be anthracite).	100 percent (not more than 90 percent may be the scarcer kinds of solid fuels; not more than 87.5 percent may be anthracite).
(1) Any of the alternative solid fuels, (2) any of the scarcer kinds of solid fuels (excluding western coke) and (3) anthracite or eastern coke or both.	100 percent (not more than 90 percent may be the scarcer kinds of solid fuels; not more than 50 percent may be anthracite or eastern coke or both).	100 percent (not more than 90 percent may be the scarcer kinds of solid fuels; not more than 87.5 percent may be anthracite or eastern coke or both).

(f) In applying the percentage of permissible shipments under provisions of this section, the retail dealer may, in respect to one-half ton or a larger fraction, deliver, and the consumer may receive, a full ton; and conversely, in applying the percentage of permissible shipments under provisions of this section, the retail dealer may disregard a fraction of less than one-half ton. For example, if application of the percentage of permissible shipments indicates that two and one-half tons may be delivered, the dealer may deliver three tons; if the application of the percentage of permissible shipments indicates that two and one-third tons may be delivered, the dealer may disregard the one-third ton and deliver two tons.

(g) A retail dealer may deliver to a consumer and a consumer may receive, one load or three tons, whichever is less, of bituminous coal, packaged fuel, briquettes or western coke, if it is necessary to do so in order to assure maximum effective utilization of transportation facilities available to the retail dealer: *Provided, however,* That the tonnage to be delivered shall not, when added to (1) the consumer's inventory of solid fuels as of April 1, 1944, and (2) the tonnage of solid fuels received by the consumer after April 1, 1944, exceed the consumer's annual requirements for solid fuels.

(h) No equipped or unequipped retail dealer shall discriminate in the delivery of bituminous coal, packaged fuel, briquettes or western coke as between or among consumers who are equally entitled to receive such solid fuels under this section: *Provided, however,* That retail dealers shall accord first preference in the delivery of such solid fuels to consumers who have less than a five days' supply of usable solid fuel on hand.

(i) Nothing in this section shall be deemed to require any retail dealer to deliver the scarcer kinds of solid fuels to a consumer whose burning equipment permits the use of alternative solid fuels: *Provided,* That the retail dealer is ready, willing and able to supply such consumer with such other alternative solid fuels.

§ 602.413 *Restrictions upon retail dealer deliveries of bituminous coal for industrial use or the production of power or for space heating which is incidental thereto.* No equipped or unequipped retail dealer in any area referred to in § 602.410 (a) of this regulation may deliver, and no consumer using less than 10,000 tons of bituminous coal per year at a plant or premises may acquire from all retail dealer sources combined, during the period August 1, 1944 to March 31, 1945, inclusive, bituminous coal for (a) use in an industrial process or (b) the production of power or (c) space heating at a plant or premises at which the annual tonnage of solid fuels consumed for space heating does not exceed 40 per cent of the total annual tonnage of solid fuels consumed at the plant or premises, in an amount which, when added to the solid fuels in the possession or under the control of such consumer, exceeds the consumption requirements of such consumer for any such use for a period of 90 days from the date of delivery.

NOTE: "Industrial process" or "production of power" includes without limitation any manufacturing or commercial processing, the generation of electrical energy for resale or otherwise, and the ordinary operations of a commercial bakery or laundry. Industrial process or the production of power does not include the ordinary operations of the following, among others: apartment houses, hotels (exclusive of functions as restaurant), schools and office buildings.

§ 602.414 *The responsibility of retail dealers distributing bituminous coal, packaged fuel, briquettes, or western coke under this regulation must be faithfully discharged.* (a) Each equipped or unequipped retail dealer who has or receives any bituminous coal, packaged fuel, briquettes or western coke has the responsibility for distributing such solid fuels equitably in strict accordance with the provisions of this regulation. It is the responsibility of the retail dealers of solid fuels to see to it that all consumers get a fair share of the total amount of solid fuels available for domestic use in accordance with the provisions of this regulation. It is the responsibility of the retail dealer to make a judgment as to the annual requirements of a consumer. In making this judgment the retail dealer should take into consideration the consumer's statement as to annual requirements, his records concerning purchases by the consumer during previous years, the number of rooms to be heated at the premises of the consumer and other facts readily available to him. It is the responsibility of the retail dealer not to undertake to deliver, in the aggregate, to the consumers he serves a tonnage of the scarcer kinds of solid fuels which exceeds the tonnage of such fuels he reasonably expects to receive in view of applicable SFAW regulations, orders and directions and such advice as he may receive from his sources of supply. Any dealer who does not discharge his responsibility faithfully may be precluded in whole or in part by SFAW from receiving bituminous coal and other solid fuels from his suppliers and he will obtain no assistance from SFAW in respect to his solid fuel supply.

(b) No equipped or unequipped retail dealer may deliver to a consumer the scarcer kinds of solid fuels if the consumer has inflated, duplicated or pyramided his orders for solid fuels.

§ 602.415 *Consumer declarations.* (a) Unlike SFAW Regulation No. 17 (which regulates retail dealer deliveries of anthracite and eastern coke), this regulation does not now require the filing of consumer declarations by consumers of bituminous coal, western coke, packaged fuel or briquettes.

(b) However, SFAW may, after considering such recommendation as may be made, prior to SFAW action, by any SFAW Area Advisory Committee on Local Distribution or SFAW Community Committee on Emergency Distribution, require the filing with retail dealers of consumer declarations by consumers in certain areas before bituminous coal, packaged fuel, briquettes or western coke may be delivered or received.

§ 602.416 *Limitations upon applicability of this regulation.* This regulation does not apply to deliveries of bituminous coal, briquettes, packaged fuel and western coke to, or to the acquisition of such solid fuels by:

(a) The War Department, the Navy Department (including the Marine Corps and Coast Guard), Veterans' Administration, Maritime Commission or War Shipping Administration;

(b) Any person, including a governmental agency, who acquires such solid fuels for export to and use in any foreign country;

(c) Commercial fishing vessels or water-borne vessels engaged in the commercial transportation of cargo or passengers;

(d) Such mine employees of producers of bituminous coal as are engaged in mining operations or functions directly connected therewith in the vicinity of the mining operations;

(e) Except as provided in § 602.413, any consumer to the extent that he acquires such solid fuels for use in an industrial process or for the production of power or for space heating at a plant or premises at which the annual tonnage of solid fuels consumed for space heating does not exceed 40 per cent of the total annual tonnage of solid fuels consumed at the plant or premises; or

(f) Any consumer to the extent that he acquires such solid fuels for use in the ordinary operations of a hospital or for the cooking or the heating of water necessary to the ordinary operation of a commercial restaurant.

§ 602.417 *How consumers who need solid fuel may obtain assistance.* (a) A consumer who has received less solid fuels than is permitted under § 602.412 of this regulation, and who (1) has less than five days' supply of solid fuels on hand, (2) is unable to obtain a supply of solid fuels either from his retail dealer or other retail dealers, and (3) is willing to accept any solid fuel which may reasonably be used in his burning equipment, may obtain assistance from one of the following:

(1) The nearest local representative of any State Fuel Administration functioning under a plan of cooperation proposed by the Governor of the State and approved by SFAW;

(2) The nearest SFAW Area Advisory Committee on Local Distribution appointed pursuant to SFAW Order No. 12 (9 F.R. 2206);

(3) The nearest SFAW Community Committee on Emergency Distribution appointed pursuant to SFAW Order No. 12; or

(4) The nearest regional or field office of SFAW.

(b) A consumer also may advise with any of the representatives, committees or officer, referred to in paragraph (a) of this section, in regard to any complaint as to the operation of this regulation.

§ 602.418 *Records.* Each retail dealer shall keep and preserve for a period of not less than two years accurate and complete records of the details of any transaction to which any portion of this regulation applies.

§ 602.419 *Audit and inspection.* All records required to be kept by this regulation shall, upon request, be submitted for inspection, copy and audit by duly authorized representatives of SFAW.

§ 602.420 *Violations.* Any person who wilfully violates any provision of this regulation or who by any act or omission wilfully falsifies records kept or information furnished in connection with this regulation is guilty of a crime and upon conviction may be punished by fine or imprisonment, or both; and any person who violates any provision of this regulation may also be prohibited by administrative suspension order from delivering or receiving any material, including solid fuels, under priority control, and may be deprived of priorities assistance.

§ 602.421 *Damages for breach of contract.* No person shall be held liable for damages or penalties under any contract for any default which shall result directly or indirectly from compliance with this regulation.

§ 602.422 *Application for modification and exception.* Any application by a retail dealer for modification of or exception from any provision of this regulation shall be filed in triplicate with the appropriate regional office of SFAW for the area in which the dealer is engaged in business. The application shall set forth in detail the provisions sought to be modified or from which an exception is sought, and the reasons and data in support of the request for modification or exception. The Regional Representative, Area Distribution Manager, or other person in charge of the regional office of SFAW shall, after considering the recommendation of the SFAW Area Advisory Committee on Local Distribution (or, in appropriate cases, the recommendations of the Regional Anthracite Distribution Committee acting as an Area Advisory Committee under SFAW Order No. 12), send such application and his recommendation thereon, to the Solid Fuels Administration for War, Washington 25, D. C. for appropriate action.

Any other person subject to or affected by this regulation should address requests for relief in respect to any provision of this regulation to the nearest office of SFAW.

§ 602.423 *Official interpretations.* No interpretation of this regulation is authorized or official unless it is in writing and signed by the Administrator, the Deputy Administrator or the General Counsel of SFAW. Inquiries and communications with reference to the meaning and application of this regulation may be addressed to the Solid Fuels Administration for War, Washington 25, D. C., or to the appropriate Area Distribution Manager of SFAW.

§ 602.424 *Regulation No. 21 is superseded.* SFAW Regulation No. 21, which was issued on March 31, 1944, is hereby superseded: *Provided, however,* That civil or criminal liabilities resulting from violation of that regulation shall not be affected by this section: *And provided, further,* That nothing in this regulation shall be deemed to revoke or modify any local adjustment which was issued pursuant to SFAW Regulation No. 21.

§ 602.425 *Effective date.* This regulation shall become effective at 12:01 a. m., August 1, 1944.

Issued this 19th day of July 1944.

ABE FORTAS,
Acting Solid Fuels Administrator for War.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-587]

DUBIN & COMPANY, INC.

Dubin & Company, Inc., 182 Ann Street, Hartford, Connecticut, is a corporation engaged chiefly in the selling and servicing of oil burning heating equipment. On October 19 and November 17, 1943, it sold and delivered oil burners which were not on approved orders or otherwise authorized, in violation of General Limitation Order L-74. The responsible officers of Dubin & Company, Inc., were aware of General Limitation Order L-74 and its actions constituted wilful violations of the order. On or about November 26, 1943, a responsible officer of Dubin & Company, Inc., wilfully furnished false and misleading information to the War Production Board.

These violations of General Limitation Order L-74 have diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.587 *Suspension Order No. S-587.* (a) Dubin & Company, Inc., its successors or assigns, shall not accept delivery of any oil burner or parts thereof or fittings therefor as defined in or governed by General Limitation Order L-74, as amended from time to time, unless hereafter specifically authorized in writing by the War Production Board.

(b) The provisions of this suspension order shall not apply to material or parts to the minimum extent necessary to enable Dubin & Company, Inc., its successors or assigns, to replace or repair equipment which is worn out or damaged beyond repair.

(c) Nothing contained in this order shall be deemed to relieve Dubin & Company, Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on July 20, 1944, and expire on September 30, 1944.

Issued this 13th day of July 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-583]

UNITY SERVICE CO.

Charles J. Buzak of Marblehead, Massachusetts, doing business as Unity Service Company, 5 School Street, Marblehead, sells fuel oil and oil burners, stoves, refrigerators and washing machines. Charles J. Buzak on October 28, 1943, wilfully furnished false and misleading information to the War Production Board by procuring from Henry B. Byors, and furnishing to the War Production Board, a bill of sale for new plumbing fixtures falsely antedated to February 12, 1940, whereas the new plumbing fixtures therein described were in fact sold and delivered in June, 1943, or thereafter, for installation in premises being constructed by Josephine B. Martin (Mrs. William T. Martin), in violation of Conservation Order L-41, at 160 Atlantic Avenue, Marblehead. These misstatements subjected Charles J. Buzak to administrative action under the provisions of Priorities Regulation No. 1.

In view of the foregoing, it is hereby ordered, that:

§ 1010.583 *Suspension Order No. 583.* (a) Charles J. Buzak, doing business as Unity Service Company or otherwise, his and its successors or assigns, shall not directly or indirectly order or accept delivery of any new metal plumbing or heating equipment as defined in or governed by General Limitation Order L-79 (as amended from time to time), or any oil burner as defined in or governed by General Limitation Order L-74 (as amended from time to time), any new domestic laundry equipment as defined in or governed by General Limitation Order L-6 (as amended from time to time), or any new domestic mechanical refrigerator as defined in or governed by Supplemental General Limitation Order L-5-d (as amended from time to time), including parts and fittings for each of the above described articles, unless hereafter specifically authorized in writing by the War Production Board.

(b) The provisions of this suspension order shall not apply to orders for maintenance or repair (excluding minor capital additions) as defined in CMP Regulation 5 (as amended from time to time).

(c) Nothing contained in this order shall be deemed to relieve Charles J. Buzak, doing business as Unity Service Company, or otherwise, his or its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on July 20, 1944, and shall expire on November 20, 1944.

Issued this 13th day of July 1944.

PART 1029—FARM MACHINERY

[Limitation Order L-257, Direction 1, as Amended July 21, 1944]

CUT-AWAY DISCS

The following amended direction is issued pursuant to Limitation Order L-257:

(a) Until further notice, no disc producer may manufacture "cut-away" disc blades less than 20" diameter which he knows or has reason to believe are for disc harrows or repairs therefor, and no farm machinery producer may accept delivery of any such disc blades from a disc producer for that purpose. This restriction does not apply to any cut-away disc blades which were in the process of manufacture on April 24, 1944.

(b) If any order of a farm machinery producer for cut-away discs cannot be filled because of this direction, he may place a substitute order for an equivalent tonnage (or less) of standard discs without losing his place on the disc producer's schedule.

(c) As used in this direction, "disc producer" means any person who makes agricultural disc or coulter blades from primary forms or shapes of steel, such as billets or sheets.

[Limitation Order L-272, Direction 1 to Schedule IV]

INDICATING DIAL PRESSURE GAUGES—SPECIAL RANGES FOR NAVY COMPOUND PRESSURE GAUGES

The following direction is issued pursuant to Schedule IV of Limitation Order L-272:

Pursuant to paragraph (b) (1) (iv) of Schedule IV to Limitation Order L-272, producers of gauges are authorized to manufacture and supply compound pressure gauges in the following pressure ranges when required by Navy Specifications: 30 in.-400 lb.; 30 in.-600 lb.; 30 in.-800 lb.; and 30 in.-1,000 lb.

Issued this 21st day of July 1944.

[General Scheduling Order M-293, Direction 2 as Amended July 21, 1944]

EFFECT OF CHANGES IN FORMS FOR REPORTING ORDERS

The following amended direction is issued pursuant to General Scheduling Order M-293:

Old orders which have been previously reported to the War Production Board on the form required by the appropriate table of M-293 at the time the report was filed need not be included on a new form specified for the product by an amendment to the table. The manufacturer may report old orders on the form he used before but must report all new orders on the form shown in the appropriate table.

Issued this 21st day of July 1944.

PART 3281—PULP AND PAPER

[General Conservation Order M-380]

MOISTURE VAPORPROOF BARRIERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of moisture vapor barrier material for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3281.96 *General Conservation Order M-380—(a) Definitions.* For the purposes of this order:

(1) "Moisture vapor barrier material" means any laminated or coated material composed of the following:

Paper laminated to metallic foil, with or without a textile backing, the foil being coated with or laminated to a heat sealing medium approved for Method II packaging, which laminated or coated material has a maximum moisture vapor transmission rate of 0.25 or less grams per 100 sq. inches in 24 hours when tested at a vapor pressure differential of 42 mm. of mercury at 100° F. The term "moisture vapor barrier material" includes but is not limited to the following commercial barriers:

Reynoldsflex A50 and A51 produced by Reynolds Metals Company.

Shellflex 770 and 903 produced by Shellmar Products Company.

Valley 2A and 4 produced by Valley Industries Company.

(2) "Method II packaging (dehydration)", means packaging complying with any of the following Army-Navy general specifications for packaging and packing: U. S. Army Specifications #100–14A, U. S. Navy Specification #39P16a, U. S. Army Air Corps Specification #An–P–13, and A. S. F. Manual M–406 "Corrosion Prevention Processing and Packing."

(3) "Manufacturer" means any person who produces any moisture vapor barrier material.

(4) "Converter" means any fabricator of any moisture vapor barrier bags or processed sheets from moisture vapor barrier material.

(5) "Moisture vapor barrier bag" means a prefabricated container made by sealing the moisture vapor barrier material together with heat or other approved methods. The finished bag must comply with specifications mentioned in paragraph (a) (2) above.

(6) "Processed sheet" means any sheet fabricated from one or more widths of moisture vapor barrier material, with or without gaskets or reinforcements.

(b) *Restrictions on delivery and use of moisture vapor barrier material.* (1) No manufacturer shall deliver any moisture vapor barrier material except to converters or to the Army or Navy of the United States; and no person, except converters and the Army or Navy of the United States, shall accept delivery of or use moisture vapor barrier material in roll or unprocessed sheet form.

(2) No converter shall deliver any moisture vapor barrier material in any form other than bags or processed sheets, unless the delivery is made to the Army or Navy of the United States; and no converter shall deliver any moisture vapor barrier bags or processed sheets if he knows or has reason to believe that the person accepting delivery will use them for a purpose not permitted by paragraph (b) (3)

(3) No person shall use any moisture vapor barrier material, moisture vapor barrier bags or processed sheets except for packaging products which have been ordered by or for the account of the Army or Navy of the United States, and these bags or processed sheets may be used only when the applicable specifications require Method II packaging (dehydration).

(c) *Inventory restrictions.* No person shall accept delivery of moisture vapor barrier materials in roll or unprocessed sheet form or moisture vapor barrier bags or processed sheets if the amount accepted, together with his inventory of such material then on hand, shall exceed a 30-day supply, having regard to his orders on hand and his current method and rate of operation.

No person shall deliver moisture vapor barrier materials in roll or unprocessed sheet form or moisture vapor barrier bags or processed sheets if he knows or has reason to believe that the person accepting delivery will have, on acceptance, an amount of moisture vapor barrier materials or moisture vapor barrier bags or processed sheets in excess of a 30-day supply.

(d) *Appeals.* Any appeal from the provisions of this order shall be made in duplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal, with the War Production Board, Paper Division, Washington 25, D. C., Ref: M–380.

(e) *Violations.* Any person who wilfully violates any provisions of this order or who, in connection with this order, conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed be addressed to the Paper Division, War Production Board, Washington 25, D. C., Ref: M–380.

(g) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

Issued this 21st day of July 1944.

PART 3286—MISCELLANEOUS MINERALS

[Conservation Order M–49 as Amended July 21, 1944]

IRIDIUM

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iridium for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

Section 3286.1 *Conservation Order M–49* is amended to read as follows:

§ 3286.1 *Conservation Order M–49*—(a) *Definitions.* For the purpose of this order:

(1) "Iridium" means and includes the element iridium, whether it be in commercially pure form or contained in alloys, chemical compounds, or physical mixtures, or in scrap.

(i) Any alloy containing 0.05 percent or more by weight of the element iridium is an iridium alloy.

(ii) Any chemical compound containing iridium as a recognizable component, using established chemical methods, is an iridium compound.

(iii) Any mixture, as of metal powders, containing iridium as a recognizable component is an iridium mixture.

(iv) Scrap or secondary materials containing commercially recoverable iridium are iridium scrap.

The term "iridium" does not include iridium which has been fabricated or physically incorporated into finished end products or finished parts for such end products: *Provided*, That fuse wire and electrical contacts shall not be deemed to be such end products or parts unless they have become physically attached to some other material or part other than one made entirely of platinum group metals.

(2) "Use" means to change in any way the form, shape, size, or physical or chemical characteristics of the material from those in which such material is received, but shall not be deemed to include refining, melting, alloying, and fabricating of intermediate products such as sheet and wire.

(b) *Purchases and sales.* On and after July 21, 1944, no person shall purchase or accept delivery of iridium except for use as permitted by paragraph (c) of this order, unless such person is engaged regularly in the business of buying and selling iridium. On and after July 21, 1944, no person shall sell or deliver iridium to any other person if he knows or has reason to believe that such other person will use the iridium in violation of paragraph (c) of this order.

(c) *Restrictions on use.* No person shall use iridium except for the manufacture of (1) fuse wires for detonators, (2) laboratory ware, (3) electrical contact points, (4) electrical primers, and (5) parts of instruments and devices which make use of the electrical resistivity or thermoelectric effect of platinum-iridium alloys; except for experimental or instructional work in scientific, research, or instructional laboratories; and except in binary platinum-iridium alloys employed in porcelain dental restorations when the alloys and the porcelain are baked together.

(d) *Allocations and directions.* (1) The War Production Board may from time to time issue special directions allocating the supply of iridium and directing the manner and quantities in which deliveries thereof shall be made and accepted, and the manner and quantities in which iridium may be used with reference to particular purposes or end uses.

(2) The War Production Board may from time to time issue specific directions or prohibitions with respect to the permissible kind or quantity of iridium in the manufacture or composition of any material or product, and it may also in its discretion direct the use in whole or in part of any practical substitute in lieu of iridium in the manufacture of any materials or products.

(e) *Miscellaneous provisions*—(1) *Appeal.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(2) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(3) *Communications to War Production Board.* All communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Miscellaneous Minerals Division, Washington 25, D. C.; Ref.: M–49.

(4) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 21st day of July 1944.

PART 3291—CONSUMERS GOODS[1]

[Limitation Order L–67, as Amended July 21, 1944]

LAWN MOWERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron or steel for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3291.225[1] *General Limitation Order L–67*—(a) *Definitions.* For the purposes of this order:

(1) "Lawn mower" means a machine mounted on wheels or rollers used for cutting grass or weeds by means of the shearing or cutting action of a rotating, revolving, or reciprocating blade, but excluding machines used principally for harvesting or cutting crops. The term includes sickle bar mowers having bars 4 ft. or less in length; it does not include sickle bar mowers having bars more than 4 ft. in length.

(2) "Iron and steel used" means the aggregate weight of iron or steel contained in the finished lawn mowers.

(3) "Manufacturer" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not, engaged in the production of lawn mowers.

(4) "Production" means the fabrication or processing of material for lawn mowers or the assembly of finished parts into lawn mowers.

(b) [Deleted July 21, 1944]

(c) *Prohibition of production.* No manufacturer shall process, fabricate, work on or assemble any materials for use in the production of lawn mowers, nor shall any manufacturer produce or assemble any lawn mowers, except gang mowers on direct order from and for delivery to the Army or Navy of the United States, the United States Maritime Commission, or the Armed Forces of any country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), provided that during any three months' period beginning May 1, 1944, and until further notice from the War Production Board, no manufacturer shall use in the production of gang mowers more iron and steel in the aggregate than the amount of iron and steel in the aggregate used by him in the production of gang mowers during the three months' period from April 1, 1942 through June 30, 1942, inclusive.

(d) [Deleted July 21, 1944]

(e) [Deleted July 21, 1944]

(f) [Deleted July 21, 1944]

(g) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) [Deleted July 21, 1944]

(i) *Appeals.* Any appeal from this order should be made on Form WPB–1477 which should be filed in triplicate with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(j) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Washington 25, D. C. Ref.: L–67.

(k) *Applicability of other orders and regulations.* This order and all transactions affected by it are subject to all applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in making lawn mowers to a greater extent than this order does, the other order shall govern.

Issued this 21st day of July 1944.

PART 3293—CHEMICALS

[Conservation Order M–332, as Amended July 21, 1944]

OILS FOR PROTECTIVE COATINGS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of oils for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3293.466 *Conservation Order M–332*—(a) *Definitions.* (1) "Oils" means all the raw, crude, refined, and pressed oils, whether vegetable, animal, fish, or other marine animal, excepting mineral oil and tall oil.

(2) "Linseed oil" means the oil, crushed, pressed or otherwise extracted from flaxseed, whether raw, bodied or otherwise processed. The term includes linseed oil blended with other oils, whatever the proportion of linseed oil used.

(3) "Fish oil" means the oil produced by the reduction of the whole or any part, including the offal of the sardine, pilchard, and menhaden, whether raw, bodied or otherwise processed. The term includes fish oil blended with other oils, whatever the proportion of fish oil used.

(4) "Manufacturer" means a person who uses oils in the manufacture of any other product, but does not include a painter, householder or other person who uses oils as a reducer for paint or varnish.

(5) "Processor" means any person who blends, bodies or otherwise processes linseed oil or fish oil.

(6) "Crusher" means any person who presses, expels or extracts linseed oil from flaxseed or who presses, expels or extracts fish oil from the sardine, pilchard or menhaden.

(7) "Wholesaler" means a person who buys linseed or fish oil from a crusher or processor and without further processing resells such oils to manufacturers or retailers.

(8) "Retailer" is any person who sells linseed oil or fish oil to the ultimate consumer.

(b) *Restrictions on use.* (1) On and after July 1, 1943, no manufacturer shall use in the production of any of the following products more pounds of oils per gallon of such product than the following:

	Pounds
Class #1—Flats including interior emulsion paints	1.2
Class #2—Semi-gloss paints	1.75
Class #3—Interior gloss paints (except gloss mill-whites) interior enamels, combination interior-exterior floor enamels, combination interior-exterior household enamels, machinery enamels, and interior aluminum paints	3.0
Class #4—Gloss mill-whites for industrial maintenance	3.5
Class #5—Wall primers and undercoaters	2.0
Class #6—Interior varnishes, including clear floor sealers, and combination interior-exterior varnishes	2.8

	Pounds
Class #7—Exterior paints including aluminum paints (except black and graphite paints)	3.75
Class #8—Structural steel finishes (except black and graphite)	3.75
Class #9—All black paints and graphite paints	5.0
Class #10—Exterior enamels and exterior varnishes (intended exclusively for exterior work)	3.25
Class #11—Exterior emulsion paints	2.0

NOTE: The above classes include both paste and ready-mixed paints. Table amended April 12, 1944.

For the purposes of this paragraph (b) (1), all oils shall be considered interchangeable.

(2) The provisions of paragraph (b) (1) are not applicable to the use of oils in the manufacture of paints, varnishes and lacquers delivered or to be delivered to, or used on or incorporated in material and equipment delivered or to be delivered to, the Army, Navy, Marine Corps, or Coast Guard of the United States, the United States Maritime Commission or the War Shipping Administration, or delivered pursuant to the Act of March 11, 1941 (Lend-Lease Act), or for the military, naval or maritime requirements of the United Nations where the manufacturer claiming exemption receives from the Director of Food Distribution, War Food Administration, specific exemption pursuant to paragraph (b) (5) (iii) of Food Distribution Order No. 42 with respect to such use.

(c) *Restrictions on deliveries.* (1) On and after July 1, 1943, no crusher, processor, manufacturer or wholesaler, shall deliver to any other person linseed oil or fish oil having a non-volatile content of more than seventy per cent (70%), by weight.

(2) The restrictions of paragraph (c) (1) shall not apply to:

(i) Deliveries to another crusher, processor, manufacturer or wholesaler.

(ii) Deliveries for medicinal or pharmaceutical purposes or for human or animal consumption.

(iii) Deliveries of linseed oil or fish oil packaged in containers of one pint or less.

(iv) Deliveries by any person of linseed oil or fish oil which on July 1, 1943, and at the time of the delivery was packaged in unopened five-gallon cans or smaller owned by the person making delivery.

(v) Deliveries by any person of boiled linseed oil which on July 1, 1943 and at the time of delivery was packaged in 55-gallon drums or smaller containers and was on both such dates owned by him.

(vi) Deliveries by any wholesaler of raw linseed oil which on July 1, 1943, and at the time of delivery, was packaged in unopened drums or containers having a capacity of more than 8 gallons but not more than 55 gallons and was on both such dates either owned by him or in his possession on consignment from a crusher or processor. The total quantity of raw linseed oil delivered pursuant to this paragraph by any wholesaler of raw linseed oil shall not exceed 1375 gallons.

(vii) Deliveries to the Army, Navy, Marine Corps or Coast Guard of the United States, the United States Maritime Commission, the War Shipping Administration, or pursuant to the Act of March 11, 1941 (Lend-Lease Act), or deliveries of such linseed oil or fish oil to be used on or incorporated in material and equipment delivered or to be delivered to the services or agencies mentioned in this subdivision (vii) or pursuant to the Act of March 11, 1941 (Lend-Lease Act).

(3) No person shall deliver or sell any material represented to be "linseed replacement oil" unless such material meets the requirements of Federal Specification TT-O-371 as amended from time to time.

(d) *Other orders.* The restrictions herein set forth are in addition to those imposed by Food Distribution Order No. 42 and such other orders as have been or may be issued by the War Food Administration with respect to oils.

(e) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of War Production Board, as amended from time to time.

(2) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from and stating fully the grounds of the appeal.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington 25, D. C. Ref.: M-332.

PART 3302—SERVICE EQUIPMENT

[General Limitation Order L-91, Interpretation 2]

POST EXCHANGE AND SHIP'S SERVICE DEPARTMENT ORDERS

The following interpretation is issued with respect to General Limitation Order L-91:

Paragraph (e) of Order L-91 allows the production of equipment to fill specific United States Army or United States Navy orders. Under paragraph (g) equipment listed in paragraph (c) may be produced to fill specific orders from the War Shipping Administration. Paragraph (j) allows the delivery of new equipment listed in paragraph (b) to the United States Army or the United States Navy. Paragraph (c) permits the use of metal parts without restriction when rebuilding equipment for the United States Army, the United States Navy, or the War Shipping Administration.

The foregoing provisions are military exceptions or exemptions subject to paragraph (c) of Priorities Regulation No. 17. Consequently, orders from Post Exchanges or Ship's Service Departments may not be accepted and filled under these provisions unless the orders are correctly endorsed as specified in Priorities Regulation 17.

In some cases persons have been given the privilege of operating a laundry, dry cleaning or pressing establishment in a Post Exchange or Ship's Service Department on a concession or lease basis. If the operator furnishes the equipment, purchases of equipment by him or for his account do not qualify as Post Exchange or Ship's Service Department orders and are subject to Order L-91 the same as orders from any other civilian laundry.

Issued this 21st day of July 1944.

PART 3304—SERVICE TRADES

[Preference Rating Order P-150]

RESTORATION OF SERVICE ESTABLISHMENTS RELEASED BY THE ARMY AND NAVY

§ 3304.1 *Preference Rating Order P-150*—(a) *What this order does.* This order provides a way to get priorities assistance for preparing establishments, such as hotels, apartment houses and office buildings, for normal civilian use after they are released by the Army or Navy. This order also tells how to use this priorities assistance after it is granted by the War Production Board.

(b) *How to ask for assistance.* In order to get this priorities assistance, an application must be sent to the War Production Board on Form WPB-3753. This application may be made either before or after the establishment is released by the Army or Navy. It should list and give the estimated cost of all the materials and equipment needed for the particular reconditioning job which are found upon inquiry to be unobtainable from normal sources without preference ratings or specific authorization from the War Production Board. This includes what is needed for building repairs and furnishings, but does not include any controlled materials, as defined in CMP Reg. 1, or any utility services. The application should be made by the person who will get what is listed on the form. He should request only those quantities and kinds of things which he reasonably needs in order to put the establishment in operating condition and he must not specify delivery dates earlier than necessary to complete the job within a reasonable time.

(c) *Assistance will depend on local need for facilities.* The War Production Board will grant priority assistance for the reconditioning of establishments vacated by the Army or Navy only if they are located in areas where those facilities are required for uses essential in the war effort.

(d) *Utility services are obtained in other ways.* If the plans for reconditioning include additional natural or manufactured gas, central steam heating, or electric, water, telephone, or telegraph service, an order for that service should be placed with the appropriate local utility company. The utility company will then take such steps as are required by the Office of War Utilities for supplying the utility service requested, and will indicate on any application it files that the service is directly related to a reconditioning job under Preference Rating Order P-150.

(e) *Assistance for major construction is given in other ways.* Materials for construction not requiring permission from the War Production Board under Order L-41 may be secured under this order on Form WPB-3753. If the plans for reconditioning include construction requiring permission under Order L-41, Form WPB-3753 will not be used to authorize or to provide materials for that construction. The application for permission to construct, and for priorities assistance for the construction materials, should be made on Form WPB-617. The application for all other priorities assistance needed for that reconditioning job should be made on Form WPB-3753, and the two applications should be submitted together. Equipment named in Appendix II of Schedule A to CMP Reg. 6 (Construction Limitations) should be listed both in Section 3 of Form WPB-617 and on Form WPB-3753.

(f) *How to file an application.* Copies of Form WPB-3753 can be obtained from the nearest field office of the War Production Board, or from the Army or Navy representative releasing the establishment. The applicant should fill out a sufficient number of copies of Form WPB-3753 and give five of them to the Army or Navy representative. He should also give the Army or Navy representative his application on Form WPB-617 if authorization under Order L-41 is necessary. The latter will review the Form WPB-3753, and when he has determined that the items and quantities requested are justified and correct, he will certify that fact on the form. The War Production Board will not consider a WPB-3753 application without this certification. The Army or Navy representative who signs the certification will keep one copy of the form and will send four copies (and the WPB-617 application, if needed) to the field office of the War Production Board having jurisdiction over the area in which the property covered by the application is located. The War Production Board will consider the application, and will return one copy of Form WPB-3753 to the applicant with a statement of the action taken in response to his request. This statement may include specific limitations on the use of the priorities assistance which the applicant is given. If an application on WPB-617 accompanies the application on WPB-3753, both will be acted upon and returned at approximately the same time.

(g) *How to use this priorities assistance.* The priorities assistance given on Form WPB-3753 may be used only to the extent specified on the form. In order to let his supplier know that a sale or delivery has been authorized or rated under this order, the applicant must put the standard certification in Priorities Regulation No. 7 on those purchase orders and also the following statement:

Delivery approved on Form WPB-3753 under Order P-150.

If the War Production Board assigns preference ratings to the delivery of things listed on the form, the applicant may validly apply those ratings to the delivery of those items in the foregoing way, regardless of any order requiring him to use a different certification, or to get a preference rating on a certain form. The use of ratings issued on Form WPB-3753 for items subject to Order M-328 is governed by that order.

The applicant may also be authorized on Form WPB-3753 to acquire equipment and materials which he cannot get without specific authorization or approval of the War Production Board. An authorization on Form WPB-3753 has the same effect as a sale or delivery authorization on any form named in any other order of the War Production Board, unless that order specifically states that Form WPB-3753 may not be used.

(h) *Relation between this order, CMP Reg. 5 and CMP Reg. 9A.* If a person is eligible to get what he needs either under this order, or under CMP Reg. 5, or CMP Reg. 9A, he may use whichever method or methods he prefers. Purchases made by using a rating on authorization issued on Form WPB-3753 need not be charged against the purchaser's MRO quota under paragraph (f) of CMP Reg. 5.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(j) *Communications.* Any communications concerning this order may be sent to the Service Trades Division, War Production Board, Washington 25, D. C., Ref: P-150.

Issued this 21st day of July 1944.

Chapter IX—Office of Price Administration

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[MPR 225,[1] incl. Amdts. 1-13]

PRINTING AND PRINTED PAPER COMMODITIES

This compilation of Maximum Price Regulation 225 includes Amendment 13, effective July 25, 1944. The text amended by Amendment 13 is underscored.

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales of printing and printed paper products by a separate maximum price regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation, which apply to the sale of certain printed paper commodities and to printing and related services in connection therewith, are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Emergency Price Control Act.

So far as practicable the Price Administrator has given due consideration to prices prevailing between October 1 and 15, 1941, and to relevant factors of general applicability, and has consulted with representatives of trade and industry.

A statement of considerations involved in the issuance of this regulation is issued simultaneously herewith and filed with the Division of the Federal Register.[2]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, this Maximum Price Regulation No. 225 (Printing and Printed Paper Commodities) is hereby issued.

NOTE: The meaning of certain provisions and terms of this Maximum Price Regulation No. 225 is further explained and defined in § 1347.472. The explanations and definitions are set forth in alphabetical order. The terms explained and defined are quoted the first time they appear in the text.

AUTHORITY: §§ 1347.451 to 1347.478, inclusive, issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681.

§ 1347.451 *Prohibition against dealing in commodities or services above maximum prices.* (a) On and after September 29th, 1942, regardless of any contract or other obligation:

(1) No "person" shall "sell" or deliver any of the "commodities" listed in Appendix A (§ 1347.475) and no person shall sell or supply any of the "services" listed in Appendix B (§ 1347.476) at a price higher than the maximum price permitted by this Maximum Price Regulation No. 225; and

(2) No person, in the course of trade or business, shall buy or receive any of said commodities or services at a price higher than the maximum price permitted by this Maximum Price Regulation No. 225: *Provided*, That in the case of the sale or supply of services or the original sale of commodities for which a maximum price has been established by this Maximum Price Regulation No. 225, the purchaser shall be deemed to have complied with this subparagraph (2) if: (i) the purchaser shall receive from the "seller" a written affidavit that the seller has calculated the maximum price for said commodity or service in accordance with the provisions of this regulation and has filed with the Office of Price Administration the reports required by § 1347.463, and (ii) the purchaser shall have no knowledge of the maximum price applicable beyond the statements made to him by the seller, and no cause to doubt the accuracy of the affidavit, and (iii) the price paid by the purchaser is not in excess of the maximum price as sworn to by the seller.

(b) The provisions of this § 1347.451 shall not be applicable to sales of any service or to sales or deliveries of any commodity to a purchaser if, prior to September 29, 1942, the commodity sold or in connection with which the service had been rendered had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to the purchaser.

(c) The provisions of this Maximum Price Regulation No. 225 shall not be applicable to any persons engaged primarily in the business of publishing, printing, typesetting, platemaking, binding, or rendering related services, or any combination thereof, whose total gross sales in 1941 of printed "papers" and printed paper products and services in connection therewith did not exceed $20,000. This exemption, however, shall not apply to any person who was not engaged primarily in any of said businesses, or any combination thereof, throughout the calendar year 1941. Such person shall be subject to the provisions of this regulation unless and until he shall have been primarily engaged in one or more of said businesses, or any combination thereof, for an entire calendar year, during which year his total gross sales of printed papers and printed paper products and services in connection therewith did not exceed $20,000.

§ 1347.452 *Maximum prices for commodities and services; general provisions.* Each seller of any commodity or service subject to this Maximum Price Regulation No. 225 must determine his maximum price by applying the first one of the methods set forth in sequence in §§ 1347.452 through 1347.456, which fits the commodity or service being priced. A few exceptions to this pricing procedure are set forth in Appendix C (§ 1347.477) and take precedence over all other pricing provisions of this regulation.

As the first pricing method under this regulation, each seller must, if possible, take as his maximum price the "highest price which he charged during March, 1942" as defined in § 1347.472, paragraph (a) (6) of this regulation.

(a) For the same commodity or service; or

(b) If no charge was made for the same commodity or service, for the "similar commodity or service" most nearly like it.

Provided, however, That if the cost of the paper used in said commodity or service has increased over the cost of the paper to him in March, 1942, (1) by reason of the lightweight differentials permitted by Maximum Price Regulation 449,[3] Groundwood Specialty Papers, Maximum Price Regulation 450,[4] Writing Paper and Certain Other Fine Papers and Maximum Price Regulation 451,[5] Book Paper; or (2) with respect to sellers located within the states of Arizona, California, Idaho, Montana, Nevada, New Mexico, Oregon, Utah and Washington, if such cost has increased by reason of an increase in the zone differential under Maximum Price Regulation 450 and Maximum Price Regulation 451 for deliveries made in those states, then the seller may add to his maximum price established under the foregoing provisions of this section either by a change in price or by a decrease in sheet count, whichever he shall elect, the dollar and cent amount of such cost increase or increases incurred by him.

For the purpose of this section, the term "lightweight differential" shall include the difference in price between 16 lb. and 20 lb. paper specified in Maximum Price Regulation 450 as well as specifically mentioned "lightweight differentials" in any of the three regulations.

The seller shall, with respect to each commodity the price for which has been so increased, keep records showing

(1) The exact amount of the cost increase incurred by him.

(2) The exact amount of the price increase or sheet decrease, whichever shall be applicable. Such records shall be preserved for a period of two years for examination by the Office of Price Administration or by the purchaser of the printing service for printed paper commodity involved.

[§ 1347.452 amended by Am. 3, 8 F.R. 1060, effective 1–21–43 and as otherwise noted]

§ 1347.453 *Maximum prices for services and for "original sales" of commodities, which cannot be priced under § 1347.452.* The seller's maximum price for a service or for an "original sale" of a commodity which cannot be priced under § 1347.452 of this Maximum Price Regulation No. 225 shall be established in accordance with the seller's customary methods of computing prices on the basis of cost of materials, production charges and margins. Such maximum price shall be a combination of the items set forth below in this § 1347.453.

(a) *Cost of materials.* An item for the actual "delivered" net cost to the seller of the materials used in producing the commodity or supplying the service: *Provided*, That in no event shall such cost exceed the maximum price, for purchase of the materials by the seller, established by the Office of Price Administration. If during March, 1942, the seller used, or, if in making such sale, would have used a method of averaging or otherwise computing his material costs, he shall continue such method in employing this pricing provision.

(b) *Production charges.* An item for charges for hand and machine operations which shall employ the same hourly and piece rates used by such seller in determining the selling price of the most nearly "comparable commodity or service" sold or "supplied" or offered for sale or supply by him during March, 1942. The same standards of production and the same methods or principles of applying production charges shall be employed as were employed during March, 1942, so that direct and indirect production charges shall be computed in the manner customarily employed during March, 1942. Charges for a different type of operation employed in producing any product or service (for example, hand rather than machine operation) shall not be substituted for customary production charges as a means of increasing the price of the product or the service. No hourly or piece rate, other than a lower rate for an identical operation, shall be employed which was not used by the seller in March, 1942, until it has been filed with the Office of Price Administration in Washington, D. C. in the manner provided in § 1347.463 of this Maximum Price Regulation No. 225. Such new hourly or piece rate shall be a rate which the seller would have used in March, 1942, and shall be in line with the seller's schedule of production charges actually employed during March, 1942.

(c) *Margin.* An item for a margin over the cost of materials and production charges (i. e., paragraph (a) plus paragraph (b)) computed on the same percentage basis, or on the same rate per unit of material, or on a combination thereof and by the same method as the seller employed in pricing the most nearly comparable commodity or service sold, supplied or offered for sale or supply during March, 1942, to a "purchaser of the same class" as defined in § 1347.472, paragraph (13) of this regulation. If during March, 1942, the seller employed the practice of including his charges for margin in his hourly and piece rates for hand and machine operations, he shall continue such practice in pricing any commodity or service under this section, and in such a case the seller shall make no duplicate calculation for margin under this paragraph (c). No new rate for margin, other than a lower rate for the sale of a comparable commodity or service to a purchaser of the same class, shall be employed which was not used by the seller in March, 1942, until it has been filed with the Office of Price Administration in Washington, D. C., in the manner provided in § 1347.463 of this Maximum Price Regulation No. 225. Such new rate for margin shall be a rate which the seller would have used in March 1942, and shall be in line with the seller's schedule of rates for margin actually employed during March 1942.

(d) No seller shall change his customary allowances, discounts, or other price differentials unless such change results in a lower price.

(e) No seller shall require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation costs incurred in the delivery or in the supply of any commodity or service, than the seller required purchasers of the same class to pay during March, 1942, on deliveries or supplies of comparable types of commodities or services.

§ 1347.454 *Maximum prices for "resales" of commodities which cannot be priced under § 1347.452.* The seller's maximum price for the "resale" of a commodity which cannot be priced under § 1347.452 of this Maximum Price Regulation No. 225 shall be:

(a) The highest price charged during March, 1942, by the "most closely competitive seller of the same class" as defined in § 1347.472, paragraph (7) of this regulation:

(1) For the same commodity; or

(2) If no charge was made for the same commodity, for the similar commodity most nearly like it; or

(b) If a maximum price cannot be ascertained under paragraph (a) of this § 1347.454, a price determined by the seller in accordance with the following procedure:

(1) The seller shall select from the same general classification and price range as the commodity being priced under this paragraph (b) the comparable commodity for which a maximum price is established under § 1347.452 and of which the seller delivered the largest number of units during March, 1942:

(2) The seller shall divide his maximum price for that commodity by his "replacement cost" of that commodity; and

(3) The seller shall multiply the percentage so obtained by the cost to him of the commodity being priced under this paragraph (b).

The resulting figure shall be the maximum price of the commodity being priced. Within ten days after determining such maximum price under this paragraph (b), the seller shall report such price to the appropriate field office of the Office of Price Administration upon a form to be obtained from such office, duly filled out and signed under oath or affirmation.

§ 1347.455 *Similar commodities or services subsequently sold.* Any maximum price determined under § 1347.453, or paragraph (b) of § 1347.454 shall be subject to adjustment in writing at any time by the Office of Price Administration. In the absence of such adjustment, the maximum price so determined shall be the maximum price for all commodities or services subsequently sold or supplied which are the same or similar to the commodity or service for which a maximum price has been so determined, without regard to subsequent changes in cost.

§ 1347.456 *Maximum prices for commodities and services which cannot be priced under the foregoing provisions of this regulation.* Where a maximum price is sought for a commodity or a service which cannot be priced under the foregoing provisions of this Maximum Price Regulation No. 225, the maximum price for the commodity or service shall be a price approved by the Office of Price Administration. Application for such approval shall be filed in duplicate with the Office of Price Administration in Washington, D. C. The application shall contain:

(a) An "appropriate description and identification" of the commodity or service for which a price is being requested;

(b) A statement of the reasons why it cannot be priced except under this § 1347.456;

(c) A statement of the proposed maximum price. In the case of the sale of a service or the original sale of a commodity, the seller shall set forth separately the amount included in the proposed price for cost of materials, production charges and margin. In the case of the resale of a commodity, he shall set forth separately his purchase price, transportation charges, if any, and mark-up.

Unless the Office of Price Administration or an authorized representative thereof shall, by letter mailed to the applicant within 21 days from the date of filing the application, disapprove the maximum price as reported, such price shall be deemed to have been approved, subject to non-retroactive written disapproval or adjustment at any later time by the Office of Price Administration.

§ 1347.457 *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after April 28, 1942, and the transferee carries on the business, or continues to deal in the same type of commodities or services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee and his status with regard to the exemptions provided for in §§ 1347.451 (c) and 1347.463 (c) shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all the records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this Maximum Price Regulation No. 225.

§ 1347.458 *Export sales.* The maximum price at which a person may export any commodity shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[6] issued by the Office of Price Administration.

§ 1347.458a *Application to import transactions.* This regulation applies to transactions in commodities to be imported into the continental United States.

[§ 1347.458a added by Supplementary Order 78, 8 F.R. 14811, effective 11–4–43]

§ 1347.459 *Federal and state taxes.* Any tax upon, or incident to, the sale, delivery, processing, or use of a commodity, or the sale or supplying of a service, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum prices for such commodity or service and in preparing the records of such seller with respect thereto:

(a) *As to a tax in effect during March, 1942.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and col-

lected from the seller, but the seller did not customarily state and collect separately from the purchase price during March, 1942, the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 225.

(2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 225.

(b) *As to a tax or increase in a tax which becomes effective after March 31, 1942.* If the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1347.460 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 225 may be charged, demanded, paid or offered.

§ 1347.461 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery, unless a request for a change in the applicable maximum price, filed in accordance with a Procedural Regulation issued by this office, is pending at the date of such delivery or agreement to deliver.

[§ 1347.461 amended by Am. 5, 8 F.R. 7382, effective 6-7-43]

§ 1347.462 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 225 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to the commodities and services for which maximum prices are established by this regulation alone or in conjunction with any other commodity or service or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying agreement or other trade understanding, or otherwise.

§ 1347.463 *Base-period "records" and reports*—(a) *Preservation of existing records.* Every person selling commodities or services for which maximum prices are established by this Maximum Price Regulation No. 225 shall preserve for examination by the Office of Price Administration for a period of two years all his existing records relating to the prices which he charged for such of those commodities or services for which maximum prices are established by this Maximum Price Regulation No. 225 as he delivered or supplied during March 1942, and his "offering prices" for delivery or supply of such commodities or services during such month.

(b) *Statements by all sellers.* Every person making sales of commodities or services for which maximum prices are established by this Maximum Price Regulation No. 225 shall prepare, on or before October 29th, 1942, to the full extent of all available information and records, a statement showing:

(1) The highest prices which he charged for such of those commodities or services for which maximum prices are established by this Maximum Price Regulation No. 225 as he delivered or supplied during March 1942, and his offering prices for delivery or supply of such commodities or services during such month, together with an appropriate description or identification of each such commodity or service; and

(2) All his customary allowances, discounts and other price differentials.

Persons supplying a service or making an original sale of a commodity shall keep such statement for examination by a duly authorized representative of the Office of Price Administration. Persons making a resale of a commodity shall keep such statement for examination by any person during ordinary business hours.

(c) *Reports required from persons supplying services or making original sales.* Every person selling or supplying services or making original sales of commodities for which maximum prices are established by this Maximum Price Regulation No. 225 shall file, signed under oath or affirmation upon Form No. 325:1 to be obtained from the "appropriate field office of the Office of Price Administration:"

(1) A report showing all hourly and piece rates for hand and machine operations and all percentage and per piece rates for margins, and any combinations thereof, together with a statement of "pricing methods" and customary allowances, discounts and other price differentials employed by such person during March 1942, in determining the selling prices of any such commodities delivered and services supplied or offered for delivery or supply by such person during that period. Such report shall be filed with the Office of Price Administration in Washington, D. C., on or before November 28th, 1942.

(2) A report of any hourly and piece rates and rates for margin, not used by such person in March 1942, but subsequently proposed to be employed. Such report shall be filed with the Office of Price Administration in Washington, D. C., prior to the employment of such rates. Unless the Office of Price Administration or a duly authorized representative thereof shall, by letter mailed to such person within 21 days from the filing of such report, disapprove such hourly and piece rates and rates for margin as reported, they shall be deemed to have been approved.

No report, however, under this paragraph (c) shall be required from persons engaged primarily in the business of publishing, printing, typesetting, platemaking, binding or rendering related services, or any combination thereof, whose total gross sales in 1941 of printed papers and printed paper products and services in connection therewith did not exceed $50,000. This exemption, however, shall not apply to any person who was not engaged primarily in any of said businesses, or any combination thereof, throughout the calendar year 1941. Such person shall be subject to the provisions of this paragraph (c) unless and until he shall have been primarily engaged in one or more of said businesses, or any combination thereof, for an entire calendar year, during which year his total gross sales of printed papers and printed paper products and services in connection therewith did not exceed $50,000.

§ 1347.464 *Current records.* Every person selling commodities or services for which maximum prices are established by this Maximum Price Regulation No. 225 shall keep, and make available for examination by the Office of Price Administration, records of the same kind as he has customarily kept, relating to the prices which he charged for such of those commodities or services as he sold after the effective date of this regulation; and, in addition, records showing, as precisely as possible, the basis upon which he determined the maximum prices for those commodities and services.

§ 1347.465 *Sales slips and receipts.* Any seller of commodities or services for which maximum prices are established by this Maximum Price Regulation No. 225 who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser, any such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the name of each commodity or service sold, and the price received for it.

§ 1347.466 *Licensing.* The provisions of Licensing Order No. 1,[7] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[§ 1347.466 amended by Supplementary Order 72, 8 F.R. 13244, effective 10-1-43]

§ 1347.467 [Deleted]

[§ 1347.467 deleted by Supplementary Order 72]

§ 1347.468 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 225 are subject to the criminal penalties, civil enforcement actions, proceedings for the suspension of licenses and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 225 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest district office, state office, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1347.469 *Applications for adjustment.* (a) The Office of Price Administration, any Regional Administrator or any District Director as may be authorized by order issued by the appropriate Regional Administrator may adjust the maximum price established by this Maximum Price Regulation No. 225 in the case of any seller or group of sellers whenever it can be established that a seller or group of sellers is unable to deliver or supply such commodity or service at the existing maximum price and that either:

(1) The supply of this commodity or service is required to meet military or essential civilian needs; or

(2) The loss of the supply of this commodity or service will force purchasers to resort to higher priced sources of supply, and that no adequate substitute for this commodity or service is available at a price equal to or lower than the requested maximum price.

Any Regional Administrator may at his discretion direct any District Director located within his region to perform any or all of the responsibilities delegated to such Regional Administrator under this § 1347.469.

[Paragraph (a) amended by Am. 12, 9 F.R. 5803, effective 6-1-44]

(b) Amount of relief. The relief granted under this section shall be limited to the amount necessary to permit the seller to supply this commodity or service: *Provided, however,* That where an application is filed under paragraph (a) (2) above, the seller's maximum price will not be raised above the general level of prices prevailing for alternative sources of supply of this commodity or service or for an adequate substitute therefor.

(c) Applications for adjustment shall be filed in accordance with subpart B of Revised Procedural Regulation No. 1,[8] issued by the Office of Price Administration. In addition to the material required in that Procedural Regulation, the applicant shall set forth in his application the following data:

(1) Statement of the seller's maximum price, the section of Maximum Price Regulation 225 under which such price is determined, and the proposed adjusted price.

(2) Evidence that the seller comes within either of the classes listed in paragraph (a) above. If the application is based on subparagraph (2) of that paragraph, the applicant shall submit statements from his largest customers upon this point.

(3) Analyses as of March 1942, and as of the date of the application, of the following factors:

(i) Cost per unit of commodity or service of paper, other materials used, and any other outside purchases.

(ii) Charges per unit of commodity or service for each productive operation.

(iii) Charges per unit of commodity or service for each type of margin including profit.

(iv) Hourly and/or piece rates upon which the unit production charges in (ii) above are based.

(v) Percentage rates upon which the unit charges for margin in (iii) above are based.

(4) If the applicant considers that he did not receive a reasonable operating margin on the sale of this commodity or service in March 1942, he may also submit an analysis of the points listed in subparagraph (3) above, for the period next preceding March 1942, in which he received a reasonable operating margin, together with a statement of the reasons why the operating margin in March was not reasonable. This material shall be in addition to the analysis for March 1942, required by subparagraph (3).

(5) Description of the grade delivered net cost per cwt. of the paper used in said commodity or service in each of the periods reported in subparagraphs (3) and (4) above.

(6) Detailed statement of the changes in costs of each productive operation which occurred between each of the periods reported in subparagraphs (3) and (4) above.

(7) Dollar volume of sales by the applicant of this commodity or service, and total dollar volume of all other sales by the applicant during each of the two fiscal years immediately preceding the filing of the application.

(8) Number of units of this commodity or service sold during each of the two fiscal years immediately preceding the filing of the application.

(9) Annual profit and loss statements for the applicant's business from 1936 through the latest complete fiscal year. Quarterly profit and loss statements should be included, if possible, for each quarterly period subsequent to the year covered by the most recent annual statement.

If the application concerns the adjustment of prices of a large number of different commodities or services or of the seller's general rate structure, the cost and sales data required in this subparagraph (c) may be presented in summary form.

If any of the foregoing data are already on file with the Office of Price Administration, the seller shall so state in his application, and it will not be necessary for him to file such data again. If any of this data is not available, applicant may so state, giving the reasons therefor.

[Paragraph (c) amended by Am. 12, 9 F.R. 5803, effective 6-1-44 and Am. 13, effective 7-25-44]

(d) No application for adjustment filed after June 1, 1944, under Procedural Regulation No. 6[9] with respect to commodities and services covered by this regulation will be granted.

[Paragraph (d) added by Am. 12, 9 F.R. 5803, effective 6-1-44]

[§ 1347.469 amended by Am. 2, 7 F.R. 8939, effective 11-4-42; and Am. 4, 8 F.R. 4181, effective 4-6-43 and as otherwise noted]

§ 1347.470 *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 225 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

[§ 1347.470 amended by Supplementary Order 26, 7 F.R. 8948, effective 11-4-42]

§ 1347.471 *Applicability of the General Maximum Price Regulation.*[10] The provisions of this Maximum Price Regulation No. 225 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries of commodities and services for which maximum prices are established by this Maximum Price Regulation No. 225 and with respect to sales and deliveries of commodities and services for which specific exemptions are provided in this regulation; consequently, any sale specifically exempted from this Maximum Price Regulation No. 225 is exempt from all price control.

[§ 1347.471 amended by Am. 10, 9 F.R. 3078, effective 3-27-44]

§ 1347.472 *Definitions and explanations.* (a) When used in this Maximum Price Regulation No. 225:

(1) "Appropriate description and identification" means a complete listing of the specifications, processes and other characteristics of the commodity or service, or of the various grades of commodities or services.

(2) "Appropriate field office of the Office of Price Administration" means

[7] 8 F.R. 13240.

[8] 9 F.R. 5791, 7501.

[9] 7 F.R. 5087, 5665; 8 F.R. 6173, 6174, 12024.

[10] 9 F.R. 1385, 5169.

the district office for the district (or in the absence of such district office, the state office for the State) in which is located the seller's place of business from which his sales of commodities and services are made.

(3) "Commodity" includes articles, products, and materials.

(4) "Comparable commodities and services". For the purposes of § 1347.453 only, one commodity or service shall be deemed comparable to another commodity or service if (i) the first has the same use as the second, (ii) affords the purchaser fairly equivalent serviceability, (iii) is produced by the same or substantially the same productive operations, and (iv) is customarily priced by the same pricing method as the first, although its price as determined by such pricing method is not the same or substantially the same as the first.

(5) "Delivered". A commodity shall be deemed to have been "delivered" during March 1942, if during such month it was received by the purchaser or by any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser.

(6) "Highest price charged during March, 1942" means:

(i) The highest price which the seller charged for a commodity delivered or service supplied by him during March, 1942, to a purchaser of the same class; or

(ii) If the seller delivered no such commodity or supplied no such service during March 1942, his highest offering price for such delivery or supply during that month to a purchaser of the same class; or

(iii) If the seller did not deliver the commodity or supply the service to be priced and had no offering price for such commodity or service to a purchaser of the same class, it shall be the highest price charged by the seller during March 1942, to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers;

(iv) [Revoked]

[Subparagraph (iv) revoked by Am. 6, 8 F.R. 10983, effective 8-11-43]

(v) No seller shall change such of his customary allowances, discounts or other price differentials as were in effect in March 1942, unless such change results in a lower price.

(vi) No seller shall require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation costs incurred in the delivery or supply of any commodity or service, than the seller required purchasers of the same class to pay during March, 1942 on deliveries or supplies of the same or similar types of commodities or services.

(7) "Most closely competitive seller of the same class" means a seller of the same class who (i) is selling the same or a similar commodity or service, and (ii) is closely competitive in the sale of such commodities or services, and (iii) is located nearest to the seller.

(8) "Offering price" means the price quoted in the seller's price list, or, if he had no such price list, the price which he regularly quoted in any other manner or the price determined by the pricing method which the seller regularly adopted, except that in the case of sales of commodities by an establishment selling at retail, the offering price shall be the price at which the commodity was offered for sale at the immediate point of sale (for example, the shelves or counters). But offering price shall not include a price intended to withhold a commodity or service from the market, or a price offered as a bargaining price by a seller who usually sells at a price lower than his asking price.

(9) "Original sale" means the sale of a commodity by a person who has created or substantially changed the form of the commodity being sold.

(10) "Paper" and "paper products" shall, for the purpose of this Maximum Price Regulation 225, include all kinds, types, and grades of paper, paperboard and cellophane-type materials (regenerated cellulose, cellulose acetate and ethyl cellulose).

[Subparagraph (10) amended by Am. 7, 8 F.R. 12660, effective 9-20-43]

(11) "Person" means an individual, corporation, partnership, association, any other organized group of persons, legal successor or representative of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(12) "Pricing methods" means the formulas by which the seller figures his price for any commodity or service, whether such formulas are disclosed to the purchaser or are merely the seller's devices for figuring costs of materials, production charges, and margin.

(13) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for commodities or services for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or under different conditions of sale.

(14) "Records" means books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(15) "Replacement cost" means the net price paid by the seller after September 29th, 1942, or the net price which the seller would have to pay to replace such commodity after such date.

(16) "Resale" means a sale by a person other than the creator of a commodity who receives delivery thereof and resells it, without substantially changing its form.

(17) "Sale at retail" or "selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user.

(18) "Sell" means sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase", and "purchaser" shall be construed accordingly. Nothing in this Maximum Price Regulation No. 225 shall be construed to prohibit the making of a contract to sell a commodity or service at a price not to exceed the maximum price permitted by the Office of Price Administration at the time of delivery or supply.

(19) "Seller" includes a seller of any commodity or service for which maximum prices are established by this Maximum Price Regulation No. 225. Where a seller makes sales or supplies services through more than one selling unit, other than salesmen making sales at uniform prices, each separate place of business of the seller shall be deemed to be a separate seller, except that for the purposes of § 1347.466 of this regulation, the owner of the business shall be considered the seller regardless of the number of separate places of business he owns.

(20) "Seller of the same class" means a seller (i) performing the same function (for example, manufacturing, distributing, retailing, processing, storing, repairing, typesetting, platemaking or publishing); (ii) of similar type (for example, department store, mail order house, chain store, specialty shop, cut-rate store, printer, electrotyper or photoengraver); (iii) dealing in the same type of commodity or service, and (iv) selling to the same class of purchaser.

(21) "Service" means any service rendered or supplied, otherwise than as an employee, in connection with the processing, distribution, storage, repair, or negotiation of purchase or sale of a commodity, and generally, without limiting the foregoing, all services which preserve or add to the value or utility of a commodity.

(22) "Similar commodities or services". One commodity shall be deemed similar to another commodity, if the first has the same use as the second, affords the purchaser fairly equivalent serviceability, and belongs to a type which would ordinarily be sold for the same or substantially the same price. In determining the similarity of such commodities, differences merely in style or design which do not substantially affect use, or serviceability, or the price for which such commodities would ordinarily have been sold, shall not be taken into account. One service shall be deemed similar to another service if the first has the same use and purpose as the second and belongs to a type which would ordinarily be sold for the same or substantially the same price. For the purpose of determining maximum prices, for services and for original sales of commodities under § 1347.452, a similar commodity or service is further defined as a commodity or service which is produced to the same or substantially the same specifications and is produced by the same or substantially the same productive operations.

(23) "Supplied". A service shall be deemed to have been supplied during March, 1942, if during such month the service was completed and the commodity in connection with which the service was rendered was delivered to the purchaser.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1347.473 *Applicability.* The provisions of this Maximum Price Regulation No. 225 shall be applicable to the continental United States and the District of Columbia, but not to the territories and possessions of the United States.

§ 1347.474 *Effective date.* All provisions of this Maximum Price Regulation No. 225 (§§ 1347.451 to 1347.476 inclusive) shall become effective September 29th, 1942. [MPR 225 originally issued September 24, 1942]

§ 1347.476 *Appendix B: Services.* This Maximum Price Regulation No. 225 shall apply to the services of publishing, printing, typesetting, platemaking, binding, and related services rendered in connection with:

(a) The commodities listed in Appendix A (§ 1347.475) of this Maximum Price Regulation No. 225.

(b) All papers and paper products, other than those listed in Supplementary Regulation No. 1 [11] and Revised Supplementary Regulation No. 11 [12] to the General Maximum Price Regulation and any and all amendments and supplements to said supplementary regulations now or hereafter issued, when such services are performed by persons engaged primarily in the business of publishing, printing, typesetting, platemaking, binding, or rendering related services or any combination thereof.

§ 1347.477 *Appendix C: Exceptions to pricing provisions of §§ 1347.452 through 1347.456.*—(a) *Sales by school stores.* (1) Maximum prices for sales of any of the items listed in Appendix A (§ 1347.475) by school stores which during March 1942 dealt in the same or similar articles shall be the cost of acquisition plus the highest percentage mark-up charged by the school store during March 1942, on the same or a similar article. Prices may be rounded to the nearest whole cent; ½¢ may be taken as 1¢.

(2) *Definitions.* For the purpose of this paragraph (a) of § 1347.477 only, the following definitions shall be used:

(i) "Same article" means an article identical in all respects with another article, except that it may contain a different number of sheets.

(ii) "Similar article" means a similar commodity as defined in § 1347.472 (a) (22) except that it may contain a different number of sheets.

(iii) "School store" means any store operated by an elementary or secondary school or by a board of education for the benefit of elementary or secondary school students and not for profit directly or indirectly.

[§ 1347.477 added by Am. 3, 8 F.R. 1060, effective 1-21-43]

(b) *Equalization of maximum prices, established under certain long term contracts, to sellers' general levels of prices as of March 1942.* This paragraph (b) provides a method by which a seller can, in re-negotiating certain long term contracts, restore normal pricing differentials between his various classes of purchasers.

(1) To establish a maximum price under this paragraph (b), a seller must prove to the Office of Price Administration that prior to April 1942, he had put into effect a price increase and made delivery or supply pursuant thereto of:

[11] Revised: 9 F.R. 3581, 4391, 3590, 4948, 5268, 5996, 6570, 6648, 7020.

[12] 9 F.R. 4775, 5314, 5441, 5722, 7020.

(i) The same or a similar commodity or service, or

(ii) Most commodities or services produced or supplied by him which are comparable to the commodity or service being repriced.

He must also prove that his reason for having delivered, supplied, or offered to deliver or supply this article or service during March, 1942 at a lower price than is reflected in his general March price level was a contract entered into before his general price increase and before January 1, 1942.

(2) If the seller meets the requirements of subparagraph (1) above, his maximum price shall be:

(i) The highest price which he charged on deliveries or supplies during March 1942, of the same or a similar commodity or service to a purchaser of a different class, adjusted to reflect his customary differential in price between the two classes of purchasers or, if he had no customary differential, the actual percentage differential existing at the date of the contract; or

(ii) If he made no delivery or supply of the same or a similar commodity or service to any other class of purchasers during March 1942, then his maximum price shall be computed according to the pricing formula in §§ 1347.453 or 1347.454 (b), whichever shall be applicable.

(3) Every seller determining a maximum price under the provisions of this paragraph (b), shall, before making a sale at such a price, file a report with the Office of Price Administration, Printing and Publishing Unit, Reference 695, Washington, D. C., specifying in full detail all of the data necessary to prove the requirements of this section. If the new maximum price has been calculated under subparagraph (2) (i), OPA Form No. 695–406 shall be used; if under paragraph (2) (ii), OPA Form No. 695–407. These forms may be obtained from any regional or district office of the Office of Price Administration or its national office in Washington, D. C. Unless the Office of Price Administration shall, by letter mailed to the applicant within 21 days from the date of the filing of this report, disapprove the maximum price as reported, this price shall be deemed to have been approved, subject to nonretroactive written disapproval or adjustment at any later time by the Office of Price Administration.

(4) Any seller whose maximum price for the sale of a commodity or service is established and approved under this § 1347.477, paragraph (b), shall promptly send written notice thereof to every purchaser of the class for which a maximum price has thus been established.

[Paragraph (b) added by Am. 6, 8 F.R. 10983, effective 8–11–43]

(c) *Sales of tablets, pads, and related products made from newsprint paper.* This paragraph (c) provides a method by which a manufacturer or reseller of any of the enumerated items may reduce the number of sheets contained in the item without accompanying reduction in the maximum price of the item: *Provided, however,* That this paragraph (c) shall not apply to the commodities identified in paragraph (d).

(1) Tablets, pads, and related products as listed in § 1347.475 of Maximum Price Regulation 225, when made from white newsprint and when measuring 80 square inches or more in surface; and any such items made from yellow newsprint and measuring 90 square inches or more in surface. Sheet count may be reduced by not more than 5 sheets from the number supplied at maximum price prior to November 1, 1943 in an item made to be sold at retail at 5 cents per unit, and not more than 10 sheets may be withdrawn from an item made to be sold at retail at 10 cents per unit.

(2) Tablets, pads, and related products as listed in § 1347.475 of Maximum Price Regulation 225, when measuring less than 80 square inches in surface; and any such items made from yellow newsprint and measuring less than 90 square inches in surface. Sheet count may be reduced by not more than 10 sheets from the number supplied at maximum price prior to November 1, 1943 in an item made to be sold at retail at 5 cents per unit, and not more than 20 sheets may be withdrawn from an item made to be sold at retail at 10 cents per unit.

(3) In determining whether an item made from white newsprint paper is less than 80 square inches or whether an item made from yellow newsprint paper is less than 90 square inches, customary manufacturing tolerances in dimensions shall be followed; thus, a tablet known as "8 by 10, white" shall be considered 80 square inches in surface notwithstanding that manufacturing tolerances might cause its actual dimensions to be 7⅞ inches by 10 inches.

(d) *Sales of plain or ruled newsprint paper cut to size, packaged in 500 or 1000 sheets.* The seller may add to his maximum price as established under § 1347.452 a sum equal to the difference between paper cost to him in March 1942 and the paper cost to him under applicable regulations and orders of the Office of Price Administration. Such regulations and orders include but are not limited to Revised Maximum Price Regulation No. 130 [12] and Maximum Price Regulation No. 449 as amended.

(e) For the purpose of paragraphs (c) and (d) above the term "newsprint paper" includes but is not limited to any of the papers listed in Revised Maximum Price Regulation No. 130, Newsprint, and Maximum Price Regulation No. 449, Groundwood Specialty Papers.

[Paragraphs (c), (d) and (e) added by Am. 9, 8 F.R. 16596, effective 12–13–43]

§ 1347.478 *Appendix D: Exemptions.* Neither this Maximum Price Regulation No. 225 nor the General Maximum Price Regulation shall apply to sales of printing and printed paper commodities by the Library of Congress.

[§ 1347.478 added by Am. 10, 9 F.R. 3078, effective 3–27–44]

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ARTICLE III—DEFINITIONS

ARTICLE IV—PRICING PROVISIONS FOR MIXED GRAIN

4.1 Base price of mixed grain.
4.2 Maximum prices for sales of mixed grain.
4.3 Applicability of this article.

ARTICLE V—SALES ON CONTRACT FUTURES MARKETS

AUTHORITY: Secs. 1.1 to 5.1, inclusive, (§ 1351.390) issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

ARTICLE I—GENERAL PROVISIONS

SECTION 1.1 *Explanation of the regulation.* The purpose of this regulation is to gather into a single document provisions most commonly used in fixing maximum prices for certain grains.

Taken by itself, the regulation names no maximum prices. These are printed in separate documents which are issued as "supplements" to the regulation. For

*Copies may be obtained from the Office of Price Administration.

example, the basic maximum prices and pricing provisions for oats are set forth in a separate supplement which contains the provisions which apply only to oats. It is only some of the more general provisions applicable to a number of commodities which are collected here. Compliance with maximum prices, it is expected, will be made easier by this standardization of generally applicable provisions and by including them in a single document rather than in many separate regulations.

Moreover, the provisions of this regulation apply to particular grains only as they become parts of supplements. Thus, for example, whether or not section 2.5 (Rules Relating to Integrated Businesses) becomes a part of a particular supplement depends upon whether section 2.5 is stated in that supplement to be a part of it. Not all the sections of this regulation will apply to every supplement and when particular sections are not listed in a supplement, they are to be disregarded for purposes of that supplement.

NOTE: In many sections of this regulation reference is made to "the applicable supplement". "Applicable supplement" means the supplement to this regulation in which is established maximum prices for the particular sale of the particular commodity being priced.

SEC. 1.2 *Miscellaneous provisions for use in Supplements to this regulation*—(a) *Exemption of emergency purchases.* Whenever circumstances of emergency make a purchase by the United States or any of its agencies imperative and it is impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable, such purchases and deliveries may be made pursuant to provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 of the General Maximum Price Regulation, as amended: *Provided, however,* That the Administrator may by order waive the reporting of any part of the information required by section 4.3 (f) in connection with the particular purchase or group of purchases upon determining that such information may not reasonably be required under all the circumstances and he may in lieu thereof require the reporting of other information more suited to the circumstances.

(b) *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by an order of the Administrator or of any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(c) *Documents, records and reports.* (1) Every seller, and every purchaser in the course of trade or business, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, records of all sales and purchases covered by the applicable supplements to this regulation, including the date thereof, the name of the seller and purchaser, the kind of commodity, the grade and quality upon which the maximum price was based, the price paid or received, buyer's receiving point, and the quantity sold: except, that if a retailer posts his maximum price conspicuously in his store, he need not keep a record of sales made at or below such price unless required to do so under other provisions.

(2) Upon demand every such person shall submit such records to the Office of Price Administration and keep such further records as the Office of Price Administration may from time to time require.

(d) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to the applicable supplements to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(e) *Enforcement.* Persons violating any provisions of an applicable supplement to this regulation are subject to the license revocation and suspension provisions, civil enforcement actions, suits for treble damages and criminal penalties as provided in the Emergency Price Control Act of 1942, as amended.

(f) *Protests and petitions for amendment.* Any person desiring to file a protest against or seeking an interpretation or an amendment of any provision of an applicable supplement to this regulation may do so in accordance with Revised Procedural Regulation No. 1, as amended, issued by the Office of Price Administration.

ARTICLE II—SPECIAL RULES FOR USE IN CONNECTION WITH PRICING PROVISIONS OF SUPPLEMENTS TO THIS REGULATION

SEC. 2.1 *Rules relating to delivery*—(a) *Quantity delivered.* Whenever a maximum price is dependent on the quantity delivered and the delivery is made by a vehicle such as a rail car, truck, wagon, barge or vessel, the quantity delivered shall be the quantity received by or for the customer at one time on one vehicle. Any practice of delivering in small quantities, which has no sound business reason other than to secure a higher maximum price will be an evasive device.

(b) *Point of delivery.* Under an applicable supplement, a "point of delivery" is frequently made the test of what maximum price applies. In those cases, the term is not used in the sense of legal delivery under a contract, but of actual delivery to and receipt at the point. The obligation of the seller to consummate the movement to that point is a part of the consideration upon which the maximum price is based. When the price is dependent upon delivery to an elevator, warehouse or store, the delivery is not made unless the lot is delivered to and unloaded into an elevator, warehouse or store, which is commercially operated as such.

(c) *Delivery by negotiable warehouse receipt or negotiable Bill of Lading.* It is common trade practice in dealing with commodities covered by an applicable supplement to accomplish delivery by transfer of a negotiable warehouse receipt or negotiable Bill of Lading. This practice is recognized as constituting delivery under an applicable supplement, even though the point of delivery is determined under paragraph (b). For example, when a carload shipment is in transit under a negotiable Bill of Lading, delivery may be accomplished by negotiation of the Bill of Lading before the car arrives at its destination, in which case the point of delivery is not the named destination in the Bill of Lading since the seller does not effect the delivery at that point.

(d) *Delivery as related to the effective date of an applicable supplement to this regulation.* When a question arises as to whether a delivery was made before the effective date of an applicable supplement, the general interpretation of the Office of Price Administration on the point governs. Information on this rule can be secured from any District Office.

SEC. 2.2 *Rule relating to commingling.* It is expected that a person may commingle a lot of grain owned by him with other grain owned by him. He may also commingle his grain with grain owned by others, provided such commingling is not used as a device to evade any maximum price. In either case he will continue to own an equivalent amount of grain. In such cases, his relationship, under an applicable supplement, to the "equivalent amount" of grain shall be deemed to be the same as his relationship to the original grain and the terms "any particular lot" of grain and "such" grain as used herein shall be considered accordingly.

SEC. 2.3 *General rules for determining the price applicable to a withdrawal from a place of business.* If you unload a lot of grain into a "place of business" such as an elevator, warehouse, processing plant or store, you will require a method of pricing the lot upon its "withdrawal" whether it is shipped out of the place of business, or is used there in processing, or is put into a mixed grain. If each such "inbound lot" were kept separate in your place of business, and were withdrawn separately, there would be no problem in determining its price upon withdrawal. In practice, however, such individual inbound lots are not kept separate, but usually are commingled or their identity is otherwise lost. For this reason, a method must be provided which permits you to select an inbound lot, or lots, or parts of

lots, and use the "history" of such lots in determining the price for a withdrawal of an equal quantity of the same grain. This section provides two alternative methods for pricing such withdrawals from a place of business.

(a) *Definitions.* When used in this section, the following terms shall have the following meanings:

(1) "Place of business" means a warehouse, elevator, store or processing plant, or any combination of such facilities operated as a unit at one location.

(2) "Withdrawal" means any movement of grain out of a place of business whether pursuant to a sale or otherwise, or any movement of grain within a place of business for use in manufacturing or mixing with other grain in the same place of business.

(3) "Inbound lot" means any quantity of grain unloaded into your place of business which was received at one time and which has the same "history".

(4) "History" means, with respect to any inbound lot of grain, your supplier's maximum price on his sale and delivery to you, plus your transportation cost, if any, to the place of business where it is unloaded and from which it will be withdrawn, and plus any other charges you are permitted to add under the applicable supplement for handling of the lot prior to such unloading.

(b) *Rules*—(1) *Determination of uncancelled inbound lots in your stock.* In using this section you must know the uncancelled, inbound lots in your stock and the history of each such lot. At the time you commence using this section, you must take an inventory of each grain in stock at the place of business. Then, by reference to your records of inbound lots, determine the most recent receipts up to the total weight of such grain in your inventory. These receipts constitute the uncancelled, inbound lots at that time and they remain such until cancelled as provided below.

Thereafter each new inbound lot and the history of the lot is carried in your records as uncancelled until it is used and cancelled as provided below.

(2) *Mixed grains.* An inbound lot of mixed grain may be carried with the history of such lot as mixed grain, until it is commingled or further mixed so as to change the proportions of the various grains in the mixture. If such proportions are changed, however, it cannot any longer be carried as an inbound lot of mixed grain, but must be carried as separate lots of each of the grains in the mixture. To do so, you must multiply the weight of the inbound lot by the percentage of each grain and of the foreign material if any, in the mixture and carry the resulting weight of each as if they were separate inbound lots of each such grain and foreign material, together with the history of each lot separately. Thus, for example, if an inbound lot of 100,000 pounds contains 50 percent barley and 50% oats, it must, if it is commingled or further mixed, be entered and carried as two separate receipts of 50,000 pounds of barley and 50,000 pounds of oats, each with its own price as determined from the history of the lot.

(c) *Pricing withdrawals against individual inbound lots.* (1) You may, if you wish, determine your withdrawal price by reference to individual inbound lots. To do so, you select any uncancelled inbound lot, and the history of such lot is your withdrawal price for an equal weight of the grain withdrawn, except that if the grade or quality of the withdrawal differs from the grade or quality of the inbound lot, the price shall be adjusted according to the schedule of premiums and discounts in the applicable supplement. Thereafter, the inbound lot or lots selected are considered cancelled and their histories may not be used again.

(2) *Records.* You must keep some permanent record of your uncancelled inbound lots in stock and their history. You must also keep some permanent record of each withdrawal and cancellation so that no inbound lot may be twice applied. Such records may be kept on the invoices themselves or in any other form you select.

(d) *Pricing withdrawals against a weighted average of inbound lots.* You may, if you prefer, select any uncancelled, inbound lots which could be applied against a withdrawal under paragraph (c) and determine a withdrawal price for the total quantity of such lots, by averaging them and adjusting them as follows:

(1) When a number of inbound lots are put into an average it is necessary (except in the case of a retail store as provided in Supplement No. 1 to this regulation) to eliminate the factors of grade and quality and previous markups from the history of the inbound lots. In order to accomplish this, you must deduct all previous markups (including commission merchants' and brokers' service charges) from the history of each lot being averaged and you must adjust such price to the corresponding price for the standard grade and quality of each such inbound lot. Such standards are as follows: for oats, No. 3 oats with a test weight of 27 pounds per bushel; for corn, No. 2 corn; for barley, No. 2 barley with a test weight of 46 pounds per bushel; for grain sorghums, No. 2 grain sorghums; and for wheat, No. 1 wheat of its sub-class.

(2) Having selected the inbound lots you desire to average and having adjusted the prices to be used as above, you determine a weighted average of such prices by multiplying each weight by its price and dividing the total by the total weight averaged.

Example:

Inbound lot A—1000 bushels at $1.40		$1.400
Inbound lot B— 500 bushels at $1.34		670
1500 bushels		2,070

Average price per bushel $1.38

When you average any inbound lots, the lots so averaged are cancelled and they may not be used again either in another average or for application as individual lots against a withdrawal. Withdrawals may be made against the average price so figured up to the weight of the lots averaged.

(3) The price of each withdrawal under this method shall be determined by adjusting the average price computed as above (which is for standard grade and quality and without prior markups) to the grade and quality of the grain withdrawn, by the premiums and discounts set forth in the applicable supplement. Since this resulting price does not include prior markups, (because under subparagraph (1) such markups, if any, were deducted from the history of each inbound lot before averaging,) you select a previously deducted prior markup which has not since been used against any other withdrawal, and add it to the above resulting price to arrive at a withdrawal price. Of course, if any inbound lot had no prior markup, an equivalent quantity must be withdrawn without adding a prior markup.

(4) *Records.* A record must be kept of prior markups so deducted and the quantity of grain involved, and when such a markup is added again in pricing a withdrawal, it shall be "cancelled" from the record for the quantity of grain withdrawn. (This provision for deducting and re-adding markups applies only to inbound lots put into an average, since when pricing withdrawals against individual inbound lots, the actual markups for each such inbound lot must be used.)

A record must also be kept of each average, how it was computed, and the withdrawals applied against it.

(e) Whenever the provisions of this section are made applicable to a supplement, they may be used in the computation of a maximum price except when the pricing provisions in such supplement establish maximum prices by reference to a base price or formula price at your place of business or at a subsequent destination.

SEC. 2.4 *Limitation on markups by a person having certain agreements with his supplier.* No person shall include in his maximum price a merchandising markup upon the sale of any grain purchased from a supplier with whom he has an agreement to pay, or actually pays any rebate, dividend or share of his profit except in cases where and to the extent that such arrangement has been in effect continuously since January 1, 1943.

No person shall be deemed to have "incurred" any service charge for services rendered by anyone with whom he has an agreement to pay, or actually pays any rebate, dividend or share of his profit except in cases where and to the extent that such arrangement has been in effect continuously since January 1, 1943.

SEC. 2.5 *Rules relating to persons performing several marketing functions.* ("Integrated Business" rule.) Following are minimum tests which must be met before a country shipper or a merchandiser may qualify to add the merchandising markups provided in this section to his maximum price calculated under the applicable supplement. To be eligible for these additional markups, you must maintain two or more offices located as indicated below, but not in the same town or city. Each office must be a place of business, owned or leased and maintained exclusively by you where you conduct a business of buying or selling grain, at which place and in the course of which business you employ one or more full-time salaried employees or yourself work on substantially a full-time basis. In respect to any lot of grain, one such office (hereinafter called the buying office) must buy the grain and another such office (hereinafter called the selling office) must sell the grain. No selling office shall qualify hereunder unless on January 1, 1943 it was engaged and has continuously since been engaged in the selling of grain as a substantial part of its business.

(a) *Merchandising markups permitted to such persons when they are country shippers.* If you are a country shipper under an applicable supplement and comply with the above requirements as to buying and selling offices, you will be entitled to include the appropriate maximum markup shown below in your maximum price subject to all limitations on total markups set forth in this regulation or in the applicable supplement.

(1) If you sell as a country shipper in a quantity of 60,000 pounds or more or as a carload shipment, a markup, depending on the grain being sold, of 1 cent per bushel if oats; or 1¼ cents per bushel if barley; or 1¼ cents per bushel if corn; or 1½ cents per bushel if wheat; or 4 cents per 100 pounds if grain sorghums, *Provided:*

(i) The lot is shipped from the point at which you receive it from your supplier and is sold on a recognized grain exchange by your selling office, or

(ii) The lot is shipped by rail or barge and after such shipment and before delivery to your customer, is unloaded into an elevator or warehouse by or for your account, or

(iii) The lot is sold by your selling office to a feeder, retailer or processor who was a regular customer of your selling office for such grain prior to January 1, 1943; or

(iv) Your selling office is located at least 200 miles from your buying office and the lot is shipped to and received by your customer at a point at least 200 miles apart from the point at which you received the lot from your supplier.

(2) If you sell as a country shipper in a quantity of 60,000 pounds or more or as a carload shipment, a markup, depending on the grain being sold, of 1½ cents per bushel if oats; or 2 cents per bushel if barley; or 2 cents per bushel if corn; or 2¼ cents per bushel if wheat, *Provided:*

(i) The lot is shipped to and received by your customer at a point at least 1,000 miles from the point at which you receive the lot from your supplier, and your selling office is at least 1,000 miles apart from your buying office; or

(ii) Your selling office is located at least 200 miles from your buying office, the lot is shipped to and received by your customer at a point at least 200 miles apart from the point at which you received the lot from your supplier, *and* before delivery to your customer, the grain is unloaded into an elevator or warehouse by you or for your account, or

(iii) Prior to January 1, 1943 and continuously since that date you have maintained at a terminal base point city two selling offices which are and have been operated as separate businesses, and one of which is the central selling office for your country elevators and/or country buying offices which have bought the lot in question while the other is strictly a terminal merchandising office buying grain in carload quantities from other persons as well as handling grain turned over to it by your other office, and which sells the lot in question. In order to qualify under this paragraph, the selling office for your country department must have sold grain independently to other persons, and your terminal merchandising department must have bought grain independently from other persons, both in addition to the grain transferred from the one to the other. Furthermore, before qualifying under this paragraph, a business so organized shall within 60 days from the effective date of the applicable supplement file with the District or Regional Office of the state in which such offices are located, an application to operate in such manner, stating in all necessary detail the location and nature of the two offices, the country elevators and buying offices served, terminal elevators operated at that point, if any, whether the two offices keep separate books, and the volume of grain business in bushels done by each office with other persons as well as with each other during the crop year 1941–42.

(3) If you sell as a country shipper in a quantity of 60,000 pounds or more or as a carload shipment, a merchandising markup of 2 cents per bushel if oats; 2¾ cents per bushel if barley; 2¾ cents per bushel if corn; or 3 cents per bushel if wheat, *Provided:*

(i) Your selling office is located at least 1,000 miles from your buying office, the lot is shipped to and received by your customer at a point at least 1,000 miles apart from the point at which you received the lot from your supplier, and before delivery to your customer the grain is unloaded into an elevator or warehouse by you or for your account.

(4) Qualifying under more than one of the tests set forth in subparagraph (1) does not entitle you to a greater markup, than qualifying under a single test, except to the extent that a higher markup may be provided for combinations of tests as set forth in subparagraphs (2) and (3). The markups provided in subparagraphs (1), (2) and (3) are not cumulative.

(b) *Extra merchandising markups permitted to such persons when they are merchandisers.* If you are a merchandiser under an applicable supplement and comply with the above requirements as to buying and selling offices, you will be entitled to add to any merchandising markup you may otherwise include in your maximum price, the appropriate extra markup shown below, subject to all limitations on total markups set forth in this regulation, or in an applicable supplement.

(1) If you sell as a merchandiser in a quantity of 60,000 pounds or more, or as a carload shipment, an extra markup, depending on the grain being sold, of ½ cent per bushel if oats; or ¾ cent per bushel if barley; or ¾ cent per bushel if corn; or ¾ cent per bushel if wheat; or 2 cents per 100 pounds if grain sorghums, *Provided:*

(i) The lot is shipped by rail or barge and after such shipment and before delivery to your customer, is unloaded into an elevator or warehouse by or for your account, or

(ii) Your selling office is located at least 200 miles from your buying office and the lot is shipped to and received by your customer at a point at least 200 miles apart from the point at which you receive the lot from your supplier, or

(iii) The lot is sold by your selling office to a feeder, retailer or processor who was a regular customer of your selling office for such grain prior to January 1, 1943.

(2) If you sell as a merchandiser in a quantity of 60,000 pounds or more or as a carload shipment, an extra markup, depending on the grain being sold, of 1 cent per bushel if oats; or 1½ cents per bushel if barley; or 1½ cents per bushel if corn; or 1½ cents per bushel if wheat; or 4 cents per 100 pounds if grain sorghums, *Provided:*

(i) The lot is shipped to and received by your customer at a point at least 1000 miles from the point at which you receive the lot from your supplier, and your selling office is at least 1000 miles apart from your buying office; or

(ii) Your selling office is located at least 200 miles from your buying office, the lot is shipped to and received by your customer at a point at least 200 miles apart from the point at which you received the lot from your supplier, and before delivery to your customer, the grain is unloaded into an elevator or warehouse by you or for your account.

(3) If you sell as a merchandiser in a quantity of 60,000 pounds or more or as a carload shipment, an extra markup, depending on the grain being sold, of 1½ cents per bushel if oats; or 2¼ cents per bushel if barley; or 2¼ cents per bushel if corn; or 2¼ cents per bushel if wheat, *Provided:*

(i) Your selling office is located at least 1000 miles from your buying office, the lot is shipped to and received by your customer at a point at least 1000 miles apart from the point at which you received the lot from your supplier, and before delivery to your customer the grain is unloaded into an elevator or warehouse by you or for your account.

(4) Qualifying under more than one of the tests set forth in subparagraph (1) does not entitle you to a greater markup, than qualifying under a single test, except to the extent that a higher markup may be provided for combinations of tests as set forth in subparagraphs (2) and (3). The markups provided in subparagraphs (1), (2) and (3) are not cumulative.

SEC. 2.6 *Rule relating to pricing by processors.* In some cases an applicable supplement or another regulation requires that a processor, in order to compute his maximum price on a processed

commodity know the maximum price he could have paid for a lot of grain received into his plant. If the processor operates a separate grain business at a different location from his processing plant, and that separate office sells grain to others besides supplying grain to the processing plant, the maximum price the processor could have paid for any lot of grain purchased by such separate grain office and delivered to the processing plant shall be deemed to be the maximum price which the grain office could have charged another person for a like sale and delivery to the processing plant: *Provided*, That before delivery to the processing plant such grain was unloaded by or for the grain office into an elevator or warehouse from which it was shipped to the processing plant as a carload or barge shipment. For example, this will permit markups to be added under section 2.5.

SEC. 2.7 *Rules relating to sales of grain for special purposes.* (a) Under an applicable supplement special treatment such as exemption from the regulation or receiving a special premium may be given to certain grains when sold for use for special purposes, and reference is made to this section for rules relating to such sales. This would apply, for example, to sales of seed grains which are exempted, and to sales of racehorse oats, malting barley and the like for which a premium may be charged under the applicable supplement. The special treatment (exemption or premiums as the case may be) is permitted only under the following conditions:

(1) Each buyer shall certify in writing to his supplier at the time he contracts for its purchase, both that such grain is being purchased for use by the buyer for the described purpose or for resale for such use, and that the grain will not be used by him or by any person affiliated with him, for any other purpose. The purchase of any lot of grain above the maximum prices established in the applicable supplement for the same grain when not sold or used for such special purpose, followed by its use by the buyer or by any affiliated person for any other purpose will be a purchase above the maximum price and a violation of the regulation: Except, that a producer who finds he has purchased more seed grain than he needs for planting, may use the excess up to a reasonable amount, for feeding to his livestock on his farm; and except that if the grain is handled in a process customary to preparation for the intended use, and part is separated as unfit for the special purpose, such part may be used by the person for other normal uses.

(b) If grain is resold for other than its intended use, or if part is used for any other purpose consistently with paragraph (a) (1), and the maximum price under the applicable supplement upon such resale or use depends upon a suppliers' maximum price, such suppliers' maximum price shall be recalculated according to the history of that particular lot of grain under the provisions of the applicable supplement and the price which the supplier charged for such grain for the special purpose shall not be used.

(c) No grain purchased for any special purpose shall be commingled with grain not purchased for the same purpose, unless and until the owner has determined to sell for a different use as provided in paragraph (b).

ARTICLE III—DEFINITIONS

SEC. 3.1 *Definitions applying to all provisions of this regulation.* The following definitions apply only to those sections of the applicable supplement which are set forth in Food Products Regulation No. 2, and not to the other sections of the supplement, unless it specifically provides otherwise.

(a) When used in this regulation, the following terms shall have the following meanings:

(1) "Person" means an individual, corporation, partnership, association or other organized group of persons or the legal successor or representative of any of the foregoing and includes the United States or any other government or any political subdivision or agency of any of the foregoing.

(2) "Bushel", as a unit of measurement of grain, means the following:

	Pounds
Oats	32
Barley	48
Corn	56
Grain sorghums	56
Wheat	60
Rye	56

(3) The terms "corn", "oats", "barley", "wheat", "rye", "grain sorghums" and "mixed grain" mean such grains as defined in Official Grains Standards of the United States.

(4) "Grain" includes the grains and mixed grain described above.

(5) "Feeder" means, with respect to any lot of grain, a person who uses such grain for feeding to animals or poultry.

(6) "His supplier" or "your supplier" means, as to any seller, the person from whom he or you purchased the grain involved.

(7) "His customer" or "your customer" means, as to any seller, the person to whom he or you sell the lot of grain involved.

(8) "Processor" means any person who converts grain into a product other than grain or mixed grain.

(9) "Carload shipment" means any lot of grain of 30,000 pounds or more when shipped by rail in such a manner as to take a carload rate under tariff requirements.

(10) "Less than carload lot" or "less than carload quantity" means a lot of grain less than 60,000 pounds, other than a carload shipment. It includes any delivery by or into truck.

(11) "Retailer" means, with respect to any lot of grain, a person who is a retailer as defined in the applicable supplement.

ARTICLE IV—PRICING PROVISIONS FOR MIXED GRAIN

SEC. 4.1 *Base price of mixed grain.* If mixed grain is received in a place of business as mixed grain, without further commingling which would change the proportion of each ingredient, it shall be priced as a withdrawal of mixed grain under the rules set forth in section 2.3 of this regulation up to the amount of any similar inbound lots of mixed grain. In all other cases (referred to as cases in which the grain becomes mixed or further mixed while owned by the seller), the maximum price of each grain in the mixture shall be determined for each grain separately according to the rules set forth in section 2.3 relating to withdrawals.

(a) If the grain becomes mixed or further mixed while owned by the seller, the base price per 100 pounds, bulk, for the mixed grain, shall be determined by multiplying the percentage of each grain and the foreign material in the mixture by its maximum price per 100 pounds (or if no maximum price is established thereon, by its reasonable value per 100 pounds) subject to the following rules:

(1) That for mixed grain, other than sample grade mixed grain, each grain in the mixture for which you have or can make a grade and quality determination shall be priced at its actual grade and quality. If grain is mixed while in your place of business you are required to make a determination of the grade and quality of each grain put into the mixture, and price such grain accordingly. All grain for which you do not have or cannot make a grade and quality determination shall be priced as follows:

(i) Oats shall be priced as No. 3 oats with a test weight of 27 pounds;

(ii) Barley shall be priced as No. 3 barley with a test weight of 43 pounds;

(iii) Grain sorghums shall be priced as No. 3 grain sorghums;

(iv) Corn shall be priced as No. 3 yellow corn;

(v) Rye shall be priced as No. 3 rye;

(vi) Wheat shall be priced as No. 2 hard winter wheat, less 5 cents per bushel; except that if purchased from Commodity Credit Corporation it shall be priced at the highest price at which it may be sold under the purchase agreement with the Commodity Credit Corporation.

(2) That for sample grade mixed grain, each grain in the mixture shall be priced as sample grade grain of its kind.

SEC. 4.2 *Maximum prices for sales of mixed grain.* (a) The maximum price per 100 pounds, bulk, for the sale of any mixed grain by the person who produced it, if naturally mixed, or by the person who mixed the grain, shall be computed as provided in the applicable supplement covering the predominant grain in the mixture by using, in place of the base price, formula price, or supplier's maximum price appearing in the pricing provision of the applicable supplement the base price computed as above.

(b) The maximum price per 100 pounds, bulk, for the sale of any lot of mixed grain which you purchased as mixed grain shall be your supplier's maximum price on the sale and delivery to you, plus such additions as are provided in the applicable supplement for the predominant grain in the mixture, all figures being converted to a per 100 pound basis.

(c) The maximum price per 100 pounds, bulk, for the sale of that mixed grain known to the industry as "Stub Oats" (which are described as oats of small, plump berry containing a mixture of groats, small-grained barley, and wheat resulting from a separation and sizing process) when testing at least 40 pounds per bushel, shall be the maximum price for No. 3 oats with a test weight of 40 pounds per bushel as determined under Supplement No. 2 to this regulation, Oats.

(d) All sales of mixed grain shall be at a price per 100 pounds and all base prices, formula prices, markups, elevation charges, and other factors stated on a per bushel basis shall be converted to a per 100 pound basis.

SEC. 4.3 *Applicability of this article.* (a) This article has no application to sales of mixed grain under a registered brand name as a Scratch Feed, which shall be subject to the provisions of Maximum Price Regulation 378, as amended.

(b) This regulation applies to all sales of mixed grain to any person for further processing.

ARTICLE V—SALES ON CONTRACT FUTURES MARKETS

SEC. 5.1 *Maximum prices for sales of grain on futures markets.* The maximum price per bushel, bulk, for the sale of any grain on any futures market designated as a contract market under authority of the Commodity Exchange Act shall be the base price, or formula price determined under the applicable supplement at the point of delivery required by the contract for the grade and quality stipulated in such contract, plus the amounts provided in the applicable supplement for one merchandising markup, one commission merchant's service charge, and one elevation charge. Upon delivery no additional charges, such as a loading out charge, may be made to the buyer. In connection with any limitations in the applicable supplement on the total number or amount of markups or the total amount of service charges that may be included in a maximum price, the above maximum price shall be deemed to include one merchandising markup, one commission merchant's service charge, and one elevation charge.

This regulation shall become effective July 26, 1944.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 21st day of July 1944.

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 2, Supp. 1]

SALES OF GRAIN BY RETAILERS

In the judgment of the Price Administrator, it is necessary and proper to establish permanent maximum prices for the sale and delivery of grain to feeders out of a retail store. The prices established herein are, in the judgment of the Administrator, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of Executive Orders Nos. 9250 and 9328.

Maximum Price Regulation 511, 2nd Revised Maximum Price Regulation 346 and Revised Maximum Price Regulation 487, as amended, are superseded insofar as they establish maximum prices for the sale and delivery of grain by retailers as they are defined herein.

Such specifications and standards as are used in this supplement, were, prior to such use, in general use in the trade or industry.

A statement of the considerations involved in the issuance of this supplement, issued simultaneously herewith, has been filed with the Division of the Federal Register.*
